LARGEST CONSTRUCTION DAILY IN THE WEST

Fifty-sixth Year—Vol. 56—No. 1 SAN FRANCISCO, WEDNESDAY, JANUARY 2, 1946 PRICE 15 CENTS PER COPY

PLANS and Speculations

Take it as it comes . . $6500 has been appropriated for refrigerating facilities at the OAKLAND Municipal Auditorium; $13,750 was set aside for the purchase of property needed to widen and realign Park Boulevard, and $7,600 for a like purpose on San Leandro St.

oOo

Sale of the famed Buri-Buri Rancho, covering more than 130 acres in the COLMA-SOUTH SAN FRANCISCO area along El Camino Real for about $175,000 has been confirmed. Purchasers are Buri-Buri Homes Inc. Co., which intends to subdivide and build on the former truck gardening tract. Another 260 acres of ranch was reported sold a few months ago to a syndicate formed of Lloyd C. Simpson, T. Frank Barrett and H. H. Hilp. They planned at the time, a community of more than a thousand homes, a park area, schools and business area. Whether this recent sale adds to the syndicate's holdings or was purchased by another group has not been disclosed.

oOo

A contract for $5,000,000 state loan to the Golden Gate Bridge District for construction of a new Sausalito approach has been signed. The formal transfer of money will allow the State Highway Division to start surveys for the construction of a low-level approach to the bridge along the Sausalito bay shore, supplementing the present lateral and offering an alternate to the steep Waldo grade.

oOo

BURLINGAME is going to have its own memorial building for war veterans and is abandoning plans for a joint memorial with the county. . A new business building looms with the purchase of the next to last remaining piece of unoccupied business property on Burlingame Avenue for $75,000. Purchaser is reported to be Frederick Whitman, manager of the Templeton Crocker properties in Hillsborough.

oOo

The first HAYWARD quonset hut will be built for the Arthur C. Day Implement Company. The $6000, 40x100-foot structure will be erected at 643 Atherton Street . . and many a Seabee has hoped that he would never see one of the things again . . ever.

oOo

Plans for street closings to make possible the ultimate expansion of FRESNO State College campus to provide sites for nine contemplated new buildings and the expansion of others were approved by the City Commission in conformity with recommendations of the State Department of Public Works.

First Important Variations Appear For Flourescents

Developments continue to appear in the fluorescent lamp family at the high rate consonant with still young devices. The fluorescent lamp is less than ten years old. Yet the fact that about forty million of them were made in 1945 is indicative of their popularity.

The first important variations from the familiar cylindrical shape of fluorescent lamps have appeared. A circular lamp has been developed. It is an even foot across and is rated at 32 watts. Because of the high light output in a small space and its symmetrical shape, it removes the principal obstacles to its use in portable lamps in the home. The Westinghouse Circline is now appearing as the light source in floor and table lamps and in other specially - designed household lighting units.

New fluorescent lamps are longer and slimmer. Four lengths—five-eights and one-inch in diameter—are standard, from 3½ to 8 feet long. Their special place in the lighting picture is for showcase and decorative lighting where long lines of low brightness are required. The electrodes are designed for instant starting on high voltage. Long lamps present a starting problem in humid air which is overcome on the "slimline" by painting a narrow silver stripe along the outside of the glass to within a short distance from each end. This metallic stripe acts as a capacitor facilitating starting.

The slimline lamp is slightly more efficient in turning watts into lumens than the regular lamps. This is because a large proportion of fluorescent-lamp losses occur at the ends, and with the "slimlines", for a given length, there is a smaller percentage of loss.

Fluorecent lamp life and the specific effect of starting is better understood. As a result fluorescent lamps are now rated with consideration of the number of starts. For example, the 40-watt lamp has a life of 6000 hours if it burns 12 hours per start. But if the lamp burns 6 hours per start

(Continued on Page 4)

Central Valley Invitations for Bids Will Be Issued Early in the Year

With wartime restrictions removed and funds available, the U. S. Bureau of Reclamation in Region II opens the New Year with an accelerated building program that will literally "make the dirt fly" up and down the length of the great Central Valley.

Congress has just granted the Bureau $19,215,000 in the recently-passed deficiency bill to cover Central Valley Project construction activities until next July 1. Added to this is $15,967,000 regular funds made available at the beginning of the fiscal year, making a total of $35,182,000 available to carry forward the new construction program.

According to Regional Director Richard L. Boke, the bulk of the Bureau's work will be on irrigation features of the project which were halted during the war. These features, estimated to cost a total of $158,094,000, are chiefly designed to carry the water now stored behind Shasta and Friant dams to the lands of the San Joaquin Valley. Concurrently the Bureau is carrying on water-marketing negotiations with a score of irrigation districts in the valley, and has just signed the first of its contracts covering irrigation repayments with the Southern San Joaquin Municipal Utility District.

The major activities of the 1946 program will be work on the 160-mile Friant-Kern and the 110-mile Delta-Mendota canals, both channels of river-size proportions. Another undertaking will be completion of the last 10 miles of the Contra Costa Canal and construction of the Mountain View Reservoir that is to supply the city of Martinez with much-needed domestic water.

The other construction features of the 1946 program include the finishing touches on the project's three nearly-completed dams—Shasta, Keswick, and Friant—and the building of a 230-kv. transmission line from Oroville to Sacramento, including a line between substations at Sacramento. The power program for the rest of the fiscal year, July through December 1946, is estimated to cost $6,771,000; irrigation features $24,761,000; joint facilities $3,650,000. The initial features of Central Valley Project at 1945 prices is estimated to cost $384,314,000, of which about $160,000,000 have been expended.

Boke said all work is to be done by contract with private firms. Subject only to modifications dictated by variables such as weather and housing bottle-necks, the Bureau will carry out the 1946 irrigation construction program under the following schedule:

Friant-Kern Canal. The first 5.6 mile section is under contract for construction by Peter Kiewit Sons Company of San Francisco, and invitations for bids are ready for a 15-mile section to include two siphons across Dry and Little Dry Creeks. This month bids will be called on a 8.5-mile section; and in February on a siphon at Kings River. It is confidently expected that before the end of the fiscal year on June 30, bids will be called on at least one section of canal beyond Kings River. In view of the serious housing shortages in California, housing for Government employees on this work is included in the program.

Delta - Mendota Canal. Invitations for bids will be issued early in the year for the first 13-mile section of this west side canal, and for pumping equipment. The invitation for bids on a wasteway will also be issued. Housing for Government employees on this job also will be included in the program.

Contra Costa Canal. When weather permits, probably in March, construction will be resumed on the contract now held by Trewhitt, Shields & Fisher for a 5.3-mile section. Work on this contract was suspended during the war. Bids will be called this month for the remaining 4.7-mile section, including Mountain View Reservoir near Martinez.

Friant Dam. In April invitation for bids will be issued covering construction of a stilling basin for the outlet to the Friant-Kern Canal. Drum gates now being manufactured under purchase contract will be ready and bids covering installation will be issued in March. Bid invitations on valves, cranes, and miscellaneous items, will be issued in May. Landscaping and construction of camp facilities also will begin in 1946.

—V—

Surplus Barges Now Available

The Materials Disposal Section, U. S. Maritime Commission, Washington, D. C., has announced it has received a declaration from the War Department of 269 new surplus knocked-down steel barges, built at a cost of $9,119,000. The barges are for harbor use and are offered for sale "as is, f.o.b. location." Included are the following: 37 dry cargo barges, unit cost to government $5000; 15 crane barges unit cost $143,000; 7 liquid cargo barges, unit cost $27,900; two steel pier barges, $68,400; six liquid or dry cargo barges, unit cost $28,500; 184 do, unit cost $32,900; 18 dry cargo, $12,400 unit cost.

The barges are located at Horsehead and Voorheesville, N. Y.; Montgomery, Ala.; New Orleans, La.; **Lathrop and Vermo, Calif., and Auburn, Wash. For further information, address Materials Disposal Section, U. S. Maritime Commission, Washington 25, D. C.**

NEW RESIDENCE

Roland L. Buchanan, purchasing agent for Spott Electrical Company of Oakland, is building a new home in Moraga Gardens, Contra Costa County. Excavation, forms and placing concrete for the patio-type home are underway by J. H. Fitzmaurice, East Bay concrete contractor.

Recently Opened Vermiculite Mine Now Shipping

What may prove to be the second largest deposit of Vermiculite ore in this country has just been opened and is in shipping operation at Mt. Alexite, near Encampment, Wyoming, on a branch of the Union Pacific Railway. Geologists have estimated that the mountain contains several million tons of Vermiculite (trade name Alexite) ore, and a lease covering sixty years' operation has been signed.

A long drift has exposed a large tonnage of high grade Sericite, which is also being shipped.

Vermiculite ore is heavy and dense and is shipped cleaned and sized from the mine to many operators throughout the country feed it through a simple expanding or exfoliating furnace, similar to an ore roaster. Low carload bulk freight rates have been established from Mt. Alexite siding. The ore expands from 9 to 16 times its original size and weighs only from 6 to 10 pounds per cubic foot after exfoliation. Vermiculite is a micaceous, nonmetallic, non-organic mineral and contains chemicals and moisture between the layers which cause an accordian-like expansion under heat. Millions of tiny air cells in expanded Alexite account for its insulation value in building and its water-absorption value in agriculture.

The principal advantages of a good Vermiculite are that it is completely fireproof, insulating, vermin - proof, sound - deadening, and everlasting. When used as a loose fill or as an aggregate with cement or plaster, it provides an excellent fireproof insulation for roof decks and refrigeration plants as well as for hot pipes and furnaces. There can be no moulding or deterioration as with an organic insulation.

Many building codes have accepted Vermiculite as an aggregate and it has been approved by the Gypsum Association, The American Standards Association, as well as the American Society for Testing Materials when used as a substitute for sand and proper specifications are followed. It is estimated that some 85 per cent of the plastering done in the Detroit area is with Vermiculite in the place of sand, and practically all contractors charge the same as for sand plaster. The aggregate costs more but the saving of labor and material makes up for the higher cost of Vermiculite. Vermiculite weighs about one-tenth as much as sand; plasterers love it. Vermiculite plaster has four times the insulating value of sand plaster and has been given in four-hour fire rating by the Underwriters Laboratory. This is the best rating given to any building material.

The Alexite Engineering Co., Colorado Springs, Colo., maintains a half-dozen research engineers improving present products and developing new ones.

GROOVER AND I

TRIAL BALANCE

In preparing your balance sheet for the year just ended, why not try figuring it differently ?

* * *

Instead of adding up what you have gotten and gained, why not review what you have given ?

* * *

Not giving in terms that show on the cash register, but doing the little daily deeds costing but a moment of your time, yet adding so much to the day of others.

* * *

It is not necessary that your acts be shouted from the housetops — the joy of the doing will bring its own reward.

* * *

Standing at the Door of the Temple or the Gates of the City and making an exhibit of your largess may fatten your ego but it does not bring the inner satisfaction of doing the little day-by-day acts of graciousness which cost nothing in coin but yield a rich dividend in contentment.

* * *

If your balance sheet adds up that your passing by has made life more pleasant for others, you have had a good year.

—V—

Father and Son Partnership For Plastering Firm

Joseph P. Marconi of the Marconi Plastering Co., 211 Moulton Street, announces that effective January 1 his son Leonard J. Marconi will become a full partner in the firm.

Young Marconi, recently returned from overseas after five years service as a First Sergeant in the U. S. Army, had considerable previous experience assisting his father.

The Marconi Plastering Company has been actively engaged throughout the war largely on U. S. Engineer, Navy and War Housing projects and earned a Certificate of Merit from the Navy and the Army-Navy "E" for work at Mare Island.

New Recognition For Western Steel Market

Increasing importance of the western steel market is reflected in information received by the industrial departments of the Oakland and San Francisco Chambers of Commerce from S. C. Pohlmann vice president and general manager of the California Wire Cloth Corporation.

According to plans perfected by E. P. Holder, president of the Colorado Fuel & Iron Corporation, with offices in New York, the California Wire Cloth Corporation has been named to direct and manage C. F. & I.'s sales and service operations in Washington, Oregon, California and Nevada from Bay Area headquarters. The California corporation has a general office and a plant in Oakland, offices and a warehouse in San Francisco, a plant in South San Francisco, and a Los Angeles warehouse.

C. F. & I. operates one of the west's basic steel industries in Colorado and the centralization of western sales headquarters in the Bay Region is expected to improve services to western fabricators. In its new sales and service program, California Wire Cloth Corporation, in addition to their own operations, will represent Wickwire-Spencer Steel Division, Wickwire-Spencer Metallurgical Corp., Coburn Trolley Track Division, the American Wire Fabrics Corporation, and C. F. & I.

The new program will assure western steel users of additional supplies from western sources and is another recognition of the growing importance of the iron and steel industry in the west by eastern interests, according to the chambers of commerce.

1— APARTMENTS

January 2, 1946
TO START CONSTRUCTION
APARTMENT BUILDINGS
Cost, $75,000 each
BURLINGAME, San Mateo Co., Calif. Oak Grove and Florabuna.
Construction of three apartment buildings.
Owner—H. I. Lauder, 708 Plymouth Way, Burlingame.
Architect—Not announced.
Contractor—G. W. Williams Co., 10 California Dr., Burlingame. • 1

3— CHURCHES

January 2, 1946
PREPARING PLANS
ENLARGE CHURCH Cost, $50,000
SAN RAFAEL, Marin Co., Calif. 5th and E Sts.
Enlarge church by making present Sunday school room into an assembly hall seating 320 persons and offering dining facilities for 250; constructing two-story wing accommodating small chapel, kitchen, classrooms, etc.
Owner — San Rafael Presbyterian Church, 5th and E Sts., San Rafael.
Architect—Carl F. Gromme, Alberts Bldg., San Rafael. • 3

January 2, 1946
PLANS BEING FIGURED—BIDS OPEN AFTER JANUARY 1
CHURCH BLDG. Approx. Cost $28,000
MARTINEZ, Contra Costa Co., Calif.
Construction of masonry church building to seat about 200 persons.
Owner—Baptist Church.
Architect—Donald Powers Smith, 58 Sutter St., San Francisco.

Following is partial list of contractors figuring plans:

Howes & Whitaker, 626 Russ Bldg., San Francisco.

Midstate Construction Co., 1299 Bush St., San Francisco. • 3

4— FACTORIES AND WAREHOUSES

January 2, 1946
SUB-CONTRACTS AWARDED
MFG. PLANT Cost, $70,000
SAN FRANCISCO. Treat Ave. bet. 16th and 17th Streets.
Construction of one-story and mezzanine mill-frame mfg. plant for wood stairbuilding.
Owner and Builder—J. di Cristina & Son, 3150 18th Street.
Engineer—Alf. P. Fisher, 300 Montgomery Street.
Roofing—Alta Roofing Co. 976 Indiana Street.
Plumbing—A. J. Silva, 455 Hayes St.
Sheet Metal—Morrison & Co., 74 Duboce Avenue.

PLANNED
PLANT
FIELDS LANDING, Humboldt Co., Calif.
Construction of new dock 350 feet long; cold storage plant, etc.
Owner—A. Paladini Co., Inc., Charles Timmons, local manager, Eureka.
Architect—Not announced. • 4

January 2, 1946
PLANNED
WAREHOUSE
RICHMOND, Contra Costa Co., Calif. 1141 S. 14th St.
Construction of new plant and offices to utilize 20,000 sq. ft. floor space.
Owner—Galen Co., Inc., H. A. Smith, president, 2148 4th St., Berkeley.
Architect—Not announced. 4

January 2, 1946
CONTRACT AWARDED

LOS ANGELES, Calif.—MacIsaac & Menke, 3440 E. 22nd St., Los Angeles, will start work soon on the construction of a one-and part two-story factory and office building at 127 N. San Vicente Blvd., Los Angeles, for Buzza & Cordoza, 3257 Wilshire Blvd., Los Angeles. It will cover an area 120x350 feet; cost $200,000. Plans are being prepared by Architects Risley & Gould, 220 S. Westmoreland Ave., Los Angeles. 4

January 2, 1946
CONSTRUCTION STARTED
CANNERY
SAN LEANDRO, Alameda Co., Calif. Southeast corner W. Ave. 129 and Menlo Dr.
Construction of an eight-line cannery, 200x675 feet, to be operated by Oakland Canning Co., foot of 9th Ave., Oakland.
Owner—Pacific Can Co., 290 Division St., San Francisco.
Structural Engineers—Ellison & King, 500 Sansome St., San Francisco.
Contractor—Swinerton & Walberg, 225 Bush St., San Francisco.

As previously reported, a can manufacturing plant will also be erected on Pacific Can Co. property for the Pacific Can Co. by Swinerton & Walberg, contractors. It is estimated that the two plants together will represent an investment of $1,000,000. • 4

January 2, 1946
PLANNED
COMMERCIAL BUILDING
YUBA CITY, Sutter County, Calif. Plumas St.
Construction of one-story general merchandise store building.
Owner—Western Auto Supply Co., W. G. and Thomas Bennett, owners, Yuba City.
Plans by owner.
Contractor—McCoy & Butler, 1128 F St., Marysville. 4

January 2, 1946
PLANNED
FREEZING PLANT Cost, $40,000
SAN JUAN BAUTISTA, San Benito Co., Calif.
Construction of freezing plant.
Owner—Sam J. Regas & Sons, San Juan Bautista.
Architect—Not announced. 4

January 2, 1946
TO START CONSTRUCTION
CANNERY Cost, $45,000
MONTEREY, Monterey Co., Calif. Wave Street.
Construction of reinforced concrete cannery building.
Owner—Central Packing Company, care Architect.
Architect—Robert Jones, Carmel.
Contractor—Elio & Vassalo, P. O. Box 181, Monterey. • • 4

January 2, 1946
PLANS BEING FIGURED

LOS ANGELES, Calif.—Engineers Bowen, Rowe, Rule & Bowen, 2835 Gilroy St., Los Angeles, have completed plans and are taking bids from a selected list of contractors for a reinforced concrete factory building to be built on Kansas Ave., between Massachusetts Ave. and Roberta Sts., Riverside, for the Colonial Radio Corp., Buffalo, N. Y., a subsidiary of Sylvania Electric Products, Inc. The building, which will be 150x180 feet in area, will have concrete walls and floor and will contain 50,000 square feet of floor space, steel roof trusses, gypsum slab roofing, steel sash, ceramic tile, lathing and plastering, asphalt tile flooring, steel toilet partitions, fire doors, acoustical ceilings, electric heating and ventilating, fluorescent lighting, automatic sprinkler system, spur track, etc. Bids are to be submitted at 3 P. M., January 4. • 4

January 2, 1946
PLANNED
PACKING PLANT Cost, $100,000
SANTA CLARA, Santa Clara Co.
Construction of steel packing plant with main portion one-story and the subsidiary two stories high.
Owner—Gangi Bros. Packing Co., 411 Meridian Road, San Jose.
Architect—Not Announced. • 4

January 2, 1946
PLANNED
CYANIDE MILL Cost, $150,000
TONOPAH, Nye Co., Nev. Mizpah Hill.
Construction of 100-ton cyanide mill.
Owner—Tonopah Mining Co., H. A. Johnson, Mgr., Tonopah.
Architect—Not Announced. • 4

January 2, 1946
PLANNED
PLANT ADDN. Cost, $40,000
BERKELEY, Alameda County, Cal. 1741 Fifth Street.
Construction of reinf. concrete one-story addition to plant to provide 7000 sq. ft. of floor space.
Owner—Berkeley Tool & Die Co., 1741 5th St., Berkeley.
Architect—Not Announced. • 4

January 2, 1946
PLANNED
CREAMERY
OAKDALE, Stanislaus County, Cal. Corner Sierra St. and 4th Ave.
Construction of assembling plant, garage and creamery building.
Owner—Dairymaid Creameries, Tom Foster, president (subsidiary of Marindell Corp., 1675 Howard St., San Francisco).
Architect—Not Announced. 4

January 2, 1946
CONTRACT AWARDED

LOS ANGELES, Calif.—T.-S. Construction Engineers, Inc., 530 W. 6th St., Los Angeles, has been awarded a contract for the construction of a five-story steel frame and concrete addition to a store building at 6067 Wilshire Blvd., Los Angeles, for the May Co. Department Stores Co., 330 W. 8th St., Los Angeles. The addition will cover an area 82x176 feet and will contain 60,000 square feet of floor space; concrete floor and roof slabs, steel sash; total estimated cost, $1,250,000. Otis Elevator Co., 300 E. 8th St., Los Angeles, has been awarded a separate contract for the escalators.

Plans were prepared by Architect A. C. Martin, 233 Higgins Bldg., Los Angeles. 4

January 2, 1946
PLANNED
PACKING PLANT
WATSONVILLE, Santa Cruz County, Calif. Beach Road.
Construction of packing plant.
Owner—Manuel A. Travers, 423 Rodriguez, Watsonville.
Architect—Not Announced. 4

6— GARAGES AND SERVICE STATIONS

January 2, 1946
PREPARING PLANS
CHURCH
HAYWARD, Alameda County, Calif. Bridge and Birch Sts.
Construction of new church building.
Owner—Eden Congregational Church, Hayward.
Architect—Scott Haymond, 180 Tamalpais, Berkeley. 3

7—FEDERAL BUILDINGS

January 2, 1946
CONTRACT AWARDED

LEWISTON, Idaho.—R. A. Newman, McMinnville, Ore., at $2621, was awarded contract by the office of the district engineer, Federal Works Agency, Public Buildings Administration, 838 U. S. Appraiser's Bldg., San Francisco, for interior painting, etc., at U. S. Post Office, Lewiston,

January 2, 1946
PLANNED
HOSPITAL Cost, $200,000
TRACY, San Joaquin Co., Cal. West Eaton Avenue.
Construction of 40-bed hospital bldg.
Owner—Tracy Community Memorial Hospital, C. E. Ritter, general chairman, Tracy.
Architect—Not Announced. • 9

January 2, 1946
BIDS WANTED

PORT ANGELES, Wash. — Until January 8, 10 A. M., bids will be received by the 13th Naval District, Exchange Bldg., Seattle, for construction of airport control tower for Coast Guard.

Specifications obtainable from the above office. 7

January 2, 1946
BIDS OPENED

EASTPORT, Idaho.—Lewis Constr. Co., Seattle, at $2990 submitted low bid December 28 to the office of the district engineer, Federal Works Agency, Public Buildings Administration, 838 U. S. Appraiser's Bldg., San Francisco, for interior and exterior painting at U. S. Border Station, Eastport, Idaho.

R. A. Newman, McMinnville, Ore., at $3564 submitted the only other bid. • • 7

9— HOSPITALS

January 2, 1946
FEDERAL FUNDS ALLOCATED

NEW MEXICO.—Mrs. I. A. Woodward, secretary, board of trustees of the Miners' Hospital of New Mexico, has received the information from W. H. Cheney, division engineer in charge of the Bureau of Community Facilities of the Federal Works Agency, Berkeley, Calif., that funds to the amount of $5000 will be furnished to the hospital for the purpose of assitsing in the preparation of plans for additions to the hospital. The plans can now be completed and all arrangements made for construction.

The preliminary draft outlines a new three-story hospital medical wing, to be constructed of masonry, fire-resistive type, hardwood floors, radiant heat and steel windows, and remodeling of the heating system and construction of a laundry building. The estimated cost of these additions will be $250,000, to be furnished from available cash with state assistance. The funds made available through the Bureau of Community Facilities of the Federal Works Agency are to be repaid without interest when the construction begins.

E. A. Rose, located at Denver, Colo., is the engineer for the Bureau of Community Facilities of the Federal Works Agency for New Mexico, and W. C. Kruger of Santa Fe, N. M., is the architect for the hospital to make the final plans for the addition facilities. 9

13— PUBLIC BLDGS. FIRE HOUSES, JAILS

January 2, 1946
FUNDS ALLOTTED

SHERIDAN COUNTY, Wyoming.—Walter F. Peters, chairman, Board of County Commissioners, Sheridan County, has received the information from W. H. Cheney, division engineer in charge of the Bureau of Community Facilities of the Federal Works Agency, Berkeley, Calif., that funds to the amount of $800 will be furnished to the county for the purpose of assisting in the preparation of plans for fair ground buildings. The plans for the fair ground buildings can now be completed and all arrangements made for construction.

The preliminary draft outlines improvements to county fair grounds, including the construction of a shop building (40x60 ft.), stone wall, cement floor, wood roof with composition covering; and construction of an exhibit building of approximately 40x200 ft., with dirt floor, stone walls, wood frame roof, stalls and office space. The estimated cost of these facilities will be $22,150, to be furnished from tax receipts. The funds made available through the Bureau of Community Facilities of the Federal Works Agency are to be repaid without interest when the construction begins.

E. A. Rose, located at Denver, Colo., is the engineer for the Bureau of Community Facilities of the Federal Works Agency for Wyoming. 13

January 2, 1946
FUNDS ALLOTTED

BASIN, Wyo.—Mayor P. P. Anderson of Basin has received the information from W. H. Cheney, division engineer in charge of the Bureau of Community Facilities of the Federal Works Agency, Berkeley, Calif., that funds to the amount of $2500 will be furnished to the town for the purpose of assisting in the preparation of plans for a municipal auditorium. The plans for the auditorium can now be completed and all arrangements made for its construction.

The preliminary draft outlines an auditorium to be known as the Basin Memorial Auditorium, and will consist of the auditorium, full basement, balcony and mezzanine floor. The estimated cost of the auditorium will be $93,842, to be furnish from investments and funds now available. The funds made available through the Bureau of Community Facilities of the Federal Works Agency are to be repaid without interest when the construction begins.

E. A. Rose, located at Denver, Colo., is the engineer for the Bureau of Community Facilities of the Federal Works Agency for Wyoming. 13

January 2, 1946
FUNDS ALLOTTED

COCONINO COUNTY, Arizona.—Gordon Evans, chairman, Board of Supervisors, Coconino County, has received the information from W. H. Cheney, division engineer in charge of the Bureau of Community Facilities of the Federal Works Agency, Berkeley, Calif., that funds to the amount of $1500 will be furnished to the county for the purpose of assisting in the preparation of plans for a recreation building. The plans for the much needed recreation building can now be completed and all arrangements made for its construction.

The preliminary draft outlines a war memorial recreation building covering approximately 4000 sq. ft. and will be constructed in Flagstaff. The estimated cost of the building will be $40,000, to be furnished from available cash and tax receipts. The funds made available through the Bureau of Community Facilities of the Federal Works Agency are to be repaid without interest when the construction of the building begins.

Wright L. Felt, located at Los Angeles, Calif., is the engineer for the Bureau of Community Facilities of the Federal Works Agency for Arizona, and Lescher & Mahoney, Phoenix, are the architects for the County of Coconino to make the final plans for the building. 13

January 2, 1946

BIDS WANTED

SEATTLE, Kings Co., Wash.—Until January 10, 10 A. M., bids will be received by the Seattle Board of Public Works, 509 County-City Bldg., Seattle, Wash., for replacing a portion of the existing Cedar Falls wood stave penstock No. 5 with a 78-in. electrically welded steel penstock. The work includes 2541 ft. of 78-in. electrically welded steel penstock, 500 cu. yds. concrete and 11,500 lbs. of reinforcing steel, to be used between masonry dam and Cedar Falls. The sum of $300,000 has been appropriated for the project.

Plans and specifications obtainable from the office of the City Light, Room 249 County-City Bldg., Seattle, Wash. Bidder's bond, cash, or a certified check payable ot the city comptroller of Seattle for 5% of the bid required. 25

23— CANALS

TO ASK BIDS

CENTRAL VALLEY PROJECT, Friant, Calif.—The Bureau of Reclamation, Denver, Colo., expects to issue a call for bids within two weeks for the construction of an additional 16 miles of the Friant-Kern canal, Central Valley Project, Friant, Calif. The new work will extend construction to a point 25.5 miles south of Friant dam. Calls for bids on additional work are expected by April 15, which will extend the work to a point 15 miles south of Kings River. Approximately $12,000,000 is available to finance construction.

Total length of the canal will be 160 miles, extending from Friant Dam to Kern River, about 5 miles west of Bakersfield. Total cost of the entire project is estimated at $37,000,000.

As previously reported, Peter Kiewit Sons Co., 650 S. Grand Ave., Room 505, Los Angeles, and 442 Post St., San Francisco, was awarded a contract for the first unit of this project August 1 at $1,163,340, involving 5.5 miles of canal construction. • 23

January 2, 1946

FUNDS ALLOTTED

RENO, Washoe Co., Nev.—Mayor H. E. Stewart of Reno has received the information from W. H. Cheney, division engineer in charge of the Bureau of Community Facilities of the Federal Works Agency, Berkeley, Calif., that funds to the amount of $15,000 will be furnished to the city for the purpose of assisting in the preparation of plans for irrigation facilities. The plans for these facilities can now be completed and all arrangements made for construction.

The preliminary draft outlines combining capacity of present ditches into higher ditch to power plant, then discharging tailrace into ditches beyond city for irrigating purposes, extending ditches, backfilling present ditches to be abandoned and conduits required. The estimated cost of the facilities will be $415,000, to be furnished from available cash, tax receipts and general obligation bonds. The funds made available through the Bureau of Community Facilities of the Federal Works Agency are to be repaid without interest when construction begins.

H. E. Devereaux, located at Berkeley, Calif., is the engineer for the Bureau of Community Facilities of the Federal Works Agency for Nevada, and E. C. Frisch, city engineer of Reno, will make the final plans for the irrigation facilities. • 23

BIDS WANTED

GLENDALE, Los Angeles Co., Calif.—Until January 24, 10 A. M., bids will be received by the City Council of the City of Glendale, office of the city clerk, City Hall, Glendale, for the construction of a reinforced concrete reservoir, known as Melwood 968. The reservoir will be 100x120 ft. in area, 22 ft. vertical walls, 8-in. concrete flooring, flat slab roof to be backfilled with 2 ft. of dirt upon completion, columns 20 ft. on centers both ways. The work also includes construction of a reinforced concrete pumphouse, 20x30 ft. in area, and 600 ft. of 3-in. asphaltic concrete highway with class A curbs on both sides. The city will furnish sand, rock and cement. Plans and specifications are available from the Public Service Department, care of Engineer W. C. Reisner, Public Service Bldg., 120 N. Howard, Glendale, on deposit of $15.

The work involves:

(1) 2000 yds. concrete;
(2) 24,000 yds. excavation;
(3) 4000 yds. backfill. 30

January 2, 1946

BIDS WANTED

GLENDALE, Los Angeles Co., Calif.—Until January 24, 10 A. M., bids will be received by the City County of the City of Glendale, office of the city clerk, City Hall, Glendale, for the construction of a reinforced concrete reservoir known as Rossmoyne 1290. The reservoir will be 200x200 ft. in area, with a 27-ft. vertical wall, water to a depth of 25 ft., and will have columns 20 ft. on centers both ways, 8-in. reinforced concrete flooring, flat slab roof, backfilled with 2 ft. of dirt after completion. The city will furnish sand, rock and cement. Plans and specifications available from the Public Service Department, Public Service Bldg., 120 N. Howard, Glendale, upon deposit of $15. W. C. Risner is engineer.

The work involves:

(1) 4600 yds. concrete;
(2) 105,000 yds. excavation;
(3) 6000 yds. backfill. 30

32— SEWERS & SEWAGE DISPOSAL PLANTS

January 2, 1946

FEDERAL FUNDS ALLOTTED

LOS GATOS, Santa Clara Co., Calif.—Mayor Cecil Spotswood of Los Gatos has received the information from W. H. Cheney, division engineer in charge of the Bureau of Community Facilities of the Federal Works Agency, Berkeley, Calif., that funds to the amount of $5850 will be furnished to the city for the purpose of assisting in the preparation of plans for municipal improvements. The plans for these improvements can now be completed and all arrangements made for construction.

The preliminary drafts outline a new electrolier system on S. Main St. and Santa Cruz Ave., with approximately 90 electroliers; and storm water drainage improvements to consist of ditches, culverts, pipe drains, bridges, retaining walls and all necessary special structures and appurtenances. The estimated cost of these improvements will be $123,000, to be furnished from general obligation bonds. The funds made available through the Bureau of Community Facilities of the Federal Works Agency are to be repaid without interest when construction begins.

Harrison E. Devereaux, located at Berkeley, is the engineer for the Bureau of Community Facilities of the Federal Works Agency for Northern California, and L. Cedric Macabee, 156 University Ave., Palo Alto, is the engineer for the City of Los Gatos to make the final plans for these facilities. • 32

January 2, 1946

PLANNED

SAN DIEGO, Calif. — Fred A. Rhodes, city manager, Civic Center, San Diego, has announced plans for the construction of a trunk sewer in Mission Valley for which a call for bids will be issued within 45 days. The project will be partly financed from 1941 sewer bond funds and the remainder from available capital outlay funds; estimated cost, $400,000. 32

FLOURESCENT VARIATIONS

(Continued from Page One)

the life is 4000 hours; for 3 hours per start, the life is 2500 hours. The efficiencies in per cent of initial lumens per watt when the lamp reaches 70 per cent of its rated life are 70, 76, and 84 per cent under the three conditions above.

Fluorescent lamps decline about 15 per cent in efficiency during the first hundred hours and then at a much slower rate for the remainder of the lamp life. This initial decline has been a matter of much concern and some mystery to lamp engineers. Various theories have been set forth, such as a sort of poisoning of the phosphors by mercury vapor. Research at the Westinghouse Lamp Laboratories now definitely fixes the blame at another source. It is caused by the low-wave length (mostly 1850A) radiation of the mercury-vapor discharge. This short radiation has a damaging effect on the ability of phosphors to convert invisible to visible light. The cure is still not known but at least knowledge of the cause must precede the cure.

PLANS and Speculations

Northern California industrial reconversion and expansion plans that have been announced include 68 new plants and 45 factory expansions with expenditures totaling $9,713,000. Among business expansion plans are included the following:

Westinghouse Electric & Manufacting Co. announce plans to manufacture unit type electric heaters in its Emeryville plant.

Dow Chemical Co., Pittsburg, plans to erect additions to its chemical plant.

The General Petroleum Corp. has started construction of a 30,000,000-foot cubic foot gasoline reduction plant at Burrel. It will cost $2,500,000.

Liqua-Zone Co., San Jose, is beginning construction of a $100,000 soap factory.

Berkeley Tool and Die Co., Berkeley, has planned to enlarge its plant. More than 100 persons are now employed at the plant, 70 per cent more than during the war.

oOo

Development of nearly 900 acres of tidelands on Bay Farm Island, ALAMEDA COUNTY, into an industrial area is being planned by the Bay Counties Land Co. The project was revealed by James W. Moore, engineer for the company, when he appeared before the Alameda Planning Board recently. The engineer said the land company had inquiries from two metal manufacturing companies, each for 25 acres or more of land and an inquiry from a printing and paper company. He said arrangements had been made with one of the largest banking institutions on the coast for financing the project.

oOo

Prior to calling for bids for the construction of the new addition to the WALNUT CREEK grammar school, plans for the proposed new classrooms are undergoing revision. This was considered necessary by the trustees in view of the anticipated high bids which would probably exceed the money available for the plans when drawn originally, according to Sheldon Rankin, Principal. The first unit to be constructed will be added space for the primary grades and nine additional classrooms.

oOo

A fund of $27,500, sufficient to furnish the City's share in construction of a new East Side fire house, has been accumulated by the City of SANTA CRUZ, according to Major F. Roy Fulmer.

oOo

Public Works Must Wait For Building Slack

The general picture on public works remains much the same—that is, types of construction which seriously compete with private industry for critical materials will be withheld until there is some slack in the industry.

The federal government, as voiced through the Reconversion Office, wants Congress to provide more money for planning. In this connection, it points out that plans have been prepared for $1.5 billion in public works, including reclamation, flood control, veterans' hospitals, and others, but exclusive of road building.

Early in October the Federal Works Agency, jointly with the Post Office Department, asked Congress to authorize an appropriation of $193,000,000 for federal building projects outside the District of Columbia, and to authorize as well various new structures in or near the District. In this connection a list of more than 4,000 eligible projects in the states and territories was submitted, totaling $774,795,000. The $193,000,000 items are to be selected on the basis of urgency and of equitable distribution throughout the United States.

When the request was made it was explained that the legislation would allow the Public Buildings Administration to purchase sites, to prepare working drawings and specifications and to construct the projects immediately needed. Types of buildings include Public Health Service hospitals, court houses, post offices, office buildings and other structures.

AMOROSO MOVES TO NEW QUARTERS

S. J. Amoroso Construction Co. has moved into new offices, yard and warehouse at 2100 Oakdale Avenue. The telephone number is MIssion 1490.

Wire Rope Clamp Has Unusual Features

A brank new wire clamp called CABL-OX has been developed by the Nunn Manufacturing Co., 2125 Dewey Ave., Evanston, Ill., as the answer to the old problem of securing wire rope in its many applications.

This new product is the first step in reconversion to peacetime production by the Nunn Organization. This progressive company made a spectacular record in wartime production of shells and other essential metal products, and won the Army-Navy production award with one star.

The CABL-OX clamp, which was carefully engineered by the company research staff and then tested by leading industrial laboratories, incorporates a new and exclusive wedging action in its component parts. This is the feature of CABL-OX which makes it possible to hold loads in excess of the tensile strength of the rope used. The unit is alloy steel, cadmium plated for weather protection, streamlined for neat appearance and freedom from obstruction. The fact that CABL-OX is easily assembled by unskilled labor and may be readily disassembled for the tightening of stretched lines or other uses, results in important savings of time and money. It is made in all standard sizes from 1/16-inch to 3/4-inch.

Every industry in which wire rope is used for hoisting, hauling, drilling, guying, control cables, etc., will be interested in the absolute security, speed of assembly and economy in use which is possible with CABL-OX wire rope clamps.

Trade announcements are being distributed and a broad advertising program will launch CABL-OX in all markets. Illustrated color folders describing the product are available upon request from the manufacturer.

V

New Plastics Plant To Be Erected By B. F. Goodrich Co.

The B. F. Goodrich Company will construct a new modern plant for the processing of plastics near Marietta, Ohio.

The new plant, to be located on a 66-acre tract of land on the west bank of the Muskingum River, will consist of a main building having a floor area of 112,000 sq. ft. with auxiliary and service buildings adding 48,000 additional square feet, the company stated. Cost of the entire project will be approximately $4,000,000 and construction work will be started shortly.

On completion, the B. F. Goodrich plastics processing plant will employ about 250 men and women and the company's investment will represent at least $16,000 for each job created by the new manufacturing operation. Only a small staff of supervisory, technical and scientific men will be transferred to Marietta, all other personnel to be employed in the Southern Ohio community.

B. F. Goodrich, a pioneer in plastics manufacture, is the largest producer of synthetic rubbers in the United States and has carried on intensive research in rubber since 1895, and in rubber-like materials since 1926.

The company, established in 1870 now has manufacturing operations in Ohio, Massachusetts, New York Pennsylvania, Michigan, California, Oklahoma, Tennessee, Texas, Georgia and Kentucky.

Producers' Council Managing Director Sees 1946 Building at $7.4 Billion

The volume of new building in 1946 is expected to total about $7.4 billion, but the estimated amounts to be spent for the various types of construction are somewhat uncertain owing to the government's decision to extend priority assistance to home building, James W. Follin, Managing Director of the Producers' Council, national organization of building product manufacturers, stated recently.

"Unless the Federal government takes steps to encourage increased production of the more scarce products needed for home building, it is not likely that there will be enough of those materials to allow the construction of more than 425,000 privately built units in 1946," Folin said.

"The materials in question are millwork, enameled plumbing fixtures, steam, hot water, and warm air heating equipment, and possibly cast iron soil pipe. Production of those items is being held down by pricing or manpower problems or raw material shortages.

"Should production of the scarce products be increased, it is possible that more than 425,000 new privately built dwelling units could be constructed during the year. Even with priority assistance for the building of low-cost homes, the total is not likely to exceed that figure greatly.

"Stepping up residential construction would mean some slight decrease in the volume of private industrial, commercial, institutional, and farm building, which had been estimated at about $2.15 billion for 1946. Utility construction is expected to total about $850 million in any event.

"As a result of the greatly increased emphasis on home building, expenditures for public works and other publicly financed construction probably will fall below earlier estimates of about $2.3 billion. The volume of highway construction, which will not compete seriously with home building for scarce materials, is expected to reach $900 million during the year.

"Provided manufacturers do not meet new difficulties with respect to raw materials, manpower, or price controls, sufficient materials and equipment should be available to permit an overall volume of $7.4 billion in 1946, which is 60% above 1945 and about 5% better than in 1940."

First Figures On Power Plant War Record Released

Power plants on four Bureau of Reclamation multiple-purpose projects in the Pacific Northwest produced approximately 5¼ billion kilowatt-hours of electric energy during 1945 — approximately one-third of all power produced in the states of Washington, Oregon, Idaho, Montana, and Utah — R. J. Newell, regional director for the Bureau, announced today. This is slightly below the record output of six billion kilowatt-hours established in 1944, he said.

At the same time, Regional Director Newell released the first complete figures on the war production record established by the Bureau's four power producing projects. A total of over 17 billion kilowatt-hours of electric energy, most of which was delivered directly to war industries in the Northwest, was produced from Jan. 1040 to Sept. 1945, he revealed.

Of this total, over 16 billion kilowatt-hours came from Grand Coulee's eight giant generators, six of which are the largest hydroelectric units in the world. From the time it was put into operation in late 1941 to V-J Day, Grand Coulee delivered a major portion of the energy used by 14 military establishments, the Hanford Atom bomb plant, five aluminum reduction plants, and 12 other plants producing aluminum sheet, ferrosilicon, magnesium, ships, calcium carbide, ferro alloys, chlorates, and manganese.

Power from the other Bureau developments in the Pacific Northwest also aided the war program, Newell said. Nearly 350 million kilowatt-hours, produced on the Boise Project, were used for irrigation pumping or delivered to the Idaho Power Company to help serve important airbases, airports, cities and industries. The Minidoka Project added over 500 million kilowatt-hours and the Yakima Project approximately 140 million to the wartime total.

Grand Coulee's generators supplied approximately five billion of the 5¼ billion 1945 total. They provided about two-thirds of the power sold by the Bonneville Power Administration, which also distributes energy from Bonneville Dam, operated by the Corps of Engineers.

Production of the other plants on Bureau of Reclamation projects in the Northwest in 1945 aggregated almost 180 million kilowatt-hours. Their approximate output was as follows: Yakima Project, Wash., 26,000,000 kwh.; Minidoka Project, Idaho, 96,000,000 kwh.; and Boise Project Idaho, 57,300,000 kwh.

On all four projects, revenues from the sale of power help to repay the cost of the project. The 1944 gross returns from Grand Coulee power, on the basis of the per kilowatt-hour revenues of the Bonneville Power Administration, are estimated at approximately $13,000,000. Gross revenues from Yakima Project totaled approximately $64,000; from Minidoka Project, approximately $315,000; and from the Boise Project, $57,000.

GROOVER AND I

THE PACIFIC

One of today's headline news spots centers in the Pacific.

★ ★ ★

It seems that every time there is a meeting of Foreign Powers, upon returning, our emissary spends a lot of bright words sweetening up such facts as are given to the homefolk. **This may explain our present domestic sugar shortage.**

★ ★ ★

Despite anything Secretary Byrnes has reported regarding the recent Moscow Conference, the impression still lingers that General MacArthur was sold down the river—the Volga River.

★ ★ ★

Secretary of War Patterson is now on his way to the Orient. In self-protection, MacArthur could refuse to permit Patterson's landinng in Japan on the grounds that the war still exists and such landing would be unsafe.

★ ★ ★

This would be within MacArthur's authority—but perhaps his last unchallenged order.

★ ★ ★

I may be buying my way into jail with very few words but it seems about time the State Department took out U. S. Naturalization Papers and recognized that its first obligation is to this Republic.

National Timber Constr. Design Adopted by Army

The confidence of the Army in proper timber construction is evidenced by a recent order: "Henceforth the design for timber construction for all activities under the jurisdiction of the Chief of Engineers will be based on the criteria set forth in the National Design Specification for Stress-Grade Lumber and Its Fastenings, 1944, . . . recommended by the National Lumber Manufacturers Association, Washington, D. C., except as modified herein."

The order, containing more liberal provisions than the Specification, continues: "Current drawings and designs for standard structures will not be revised where the design stresses used are greater than or approximately equal to those called for in the National Design Specification."

The Army Engineers have been very alert to note and take advantage of improved techniques in timber construction developed during recent years. The Specification was used as a text in a course of instruction on maintenance and repair of timber structures conducted by the Army for the engineers of its various Service Commands, at Madison, Wis., in cooperation with the Forest Products Laboratory and National Lumber Manufacturers Association.

The five-day program treated all major subjects in the design and

FUNDS ALLOTTED
ROSWELL, N. M. — Mayor Lea Rowland of Roswell has received the information from W. H. Cheney, division engineer in charge of the Bureau of Community Facilities of the Federal Works Agency, Berkeley, Calif., that funds to the amount of $3600 will be furnished to the city for the purpose of assisting in the preparation of plans for fairground facilities. The plans for these facilities can now be completed and all arrangements made for construction.

The preliminary draft outlines fair grounds consisting of a stadium, exhibition buildings, stock barns, race track, rodeo grounds and baseball park. The fair grounds will be located one-half mile west of the city. The estimated cost of the fair grounds will be $119,500, to be furnished from public donations and general obligation bonds. The funds made available through the Bureau of Community Facilities of the Federal Works Agency are to be repaid without interest when the construction is begun.

E. A. Rose, located at Denver, Colo., is the engineer for the Bureau of Community Facilities of the Federal Works Agency for New Mexico, and Vorhees & Standhardt, Roswell, N. M., are the architects for the City of Roswell to make the final plans for the fair grounds. 13

ADVANCE CONSTRUCTION REPORTS

January 3, 1946

FUNDS ALLOTTED

NEW MEXICO.—Floyd D. Golden, president of Eastern New Mexico College, has received the information from W. H. Cheney, division engineer in charge of the Bureau of Community Facilities of the Federal Works Agency, Berkeley, Calif., that funds to the amount of $2750 will be furnished to the college for the purpose of assisting in the preparation of plans for a dining hall and heating plant. The plans for these facilities can now be completed and all arrangements made for construction.

The preliminary drafts outline a dining hall with kitchen, to be constructed of brick with wood trim, steam heat and mechanical ventilating system, and a heating plant, including a brick and concrete building, stone trim, steel and concrete roof. Size of the building will be approximately 3200 square feet and main tunnels will be approximately 4 feet wide and vary to approximately 6 feet deep. The estimated cost of these facilities will be $129,359, to be furnished from available cash and revenue bonds. The funds made available through the Bureau of Community Facilities of the Federal Works Agency are to be repaid without interest when the construction begins.

E. A. Rose, located at Denver, Colo., is the engineer for the Bureau of Community Facilities of the Federal Works Agency for New Mexico, and Schaefer & Merrill, Clovis, N. M., are the architects for the college. 15

23— CANALS

January 3, 1946

FEDERAL FUNDS ALLOTTED

FARMINGTON, N. M.—Mayor Willis Martin of Farmington has received the information from W. H. Cheney, division engineer in charge of the Bureau of Community Facilities of the Federal Works Agency, Berkeley, Calif., that funds to the amount of $2440 will be furnished to the town for the purpose of assisting in the preparation of plans for community facilities. The plans for these facilities can now be completed and all arrangements made for construction.

The preliminary drafts outside irrigation system improvements with 8 miles lateral lining, 5 miles 12-in. half concrete tile, 3 miles 15-in. half concrete tile, and development of a memorial park to provide a swimming pool, wading pool, bathhouse facilities, two tennis courts, playground and picnic facilities, walks, landscaping and the necessary allied accessories. The estimated cost of these facilities will be $64,740, to be furnished from available cash and special assessment. The funds made available through the Bureau of Community Facilities of the Federal Works Agency are to be repaid without interest when the construction begins.

E. A. Rose, located at Denver, Colo., is the engineer for the Bureau of Community Facilities of the Federal Works Agency. 23

32— SEWERS & SEWAGE DISPOSAL PLANTS

January 3, 1946

BIDS OPENED

KLAMATH FALLS, Ore.—Clifford A. Dunn, Box 431, Klamath Falls, at $84,579 submitted only bid to E. Stanton Foster, assistant development director, FPHA, 346 Skinner Bldg., Seattle, for the construction of a sewer system and treatment plant to serve public housing units and residences occupied by personnel at the Naval Air Station, Klamath Falls.

Plans by Gerald D. Hall, engineer, Larson Bldg., Yakima, Wash.

C. F. Davidson, Tacoma, at $102,000 submitted only other bid. 32

January 3, 1946

BIDS WANTED

SANTA BARBARA, Calif. — Until Jan. 14, 10 A. M., new bids will be received by the Board of Supervisors of Santa Barbara County, Court House, Santa Barbara, for the construction of a sewage dispdsal plant at the Santa Barbara County General Hospital, located on San Antonio Road, about 8 miles north of Santa Barbara.

Plans and specifications available from the office of the Planning Commission and Public Works, Mr. Penfield, Court House, Santa aBrbara, upon deposit of $25.00.

As previously reported. H. B. Nicholson Co. submitted low bid for this project December 24, at $44,753. All bids were rejected as excessive. 32

Machinery & Material

RECLAMATION BUREAU

CENTRAL VALLEY PROJECT, Calif.—Until February 15, 2 P. M., bids will be received by the Bureau of Reclamation, Walker R. Young, chief engineer, Denver, under Spec. 1145 for furnishing and delivering four 50x50 ft. regulating gates for installation in the spillway at Keswick Dam, Kennett Division, Central Valley Project, f.o.b. shipping point and/or Redding.

Specifications obtainable from the above office; no charge to prospective bidders; to others, $1.25, not returnable.

CENTRAL VALLEY PROJECT, Calif.—Until February 1, 2 P. M., bids will be received by the U. S. Bureau of Reclamation, Walker R. Young, chief engineer, Denver, under Spec. 1144 for furnishing and delivering four (4) 230/196-kilovolt, 800-ampere, three-pole, single-throw, outdoor type, 5-cycle, oil circuit breakers; one (1) 230/196-kilovolt, 800-ampere, 3-pole, single-throw, outdoor type, 3-cycle, oil circuit breaker suitable for future 20-cycle automatic reclosing; five (5) 196-kilovolt, 1200-ampere, 3-pole, single-throw, manually-gang operated, outdoor type disconnecting switches; three (3) 196-kilovolt, 1200-ampere, 3-pole selector type, manually-gang operated, outdoor type disconnecting switches with manually-gang operated grounding blades, and three (3) single-pole, thyrite or autovalve, outdoor, station type lightning arresters, designed for suspension mounting and suitable for service on a 230,000-volt, 3-phase, grounded-neutral circuit, for Shasta and Keswick power plants, Kennett Division, Central Valley Project, California. f.o.b. shipping point and/or Coram and Redding.

Specifications obtainable from the above office; no charge to prospective bidders; to others, $1, not returnable.

SAN FRANCISCO CITY

SAN FRANCISCO.—Until January 14, 3 P. M., bids will be received by M. H. Gerry, Purchaser of Supplies, 270 City Hall, under Bid No. 3451 for furnishing and delivering armature and field coils for the Municipal Railway.

Specifications obtainable from the above office.

V

National Timber

(Continued from Page One)

repair of timber structures and included detailed discussions of specific problems found in the field. Among the topics were: tree characteristics, strength, commercial grades of lumber, inspection services, lumber standards and definitions, handling and storage, seasoning, fastenings, structural design, fabrication, preservation, termite protection, fire retardant treatment, painting, marine borer protection, and plywood. Important points were demonstrated by specimens, tests, and illustrations.

The sessions were attended by 28 Army and Navy engineering personnel representing the Repairs & Utilities and Engineering divisions, Office of the Chief of Engineers; South Atlantic Division, and each of the nine Service Commands; Design and Construction divisions, Navy Bureau of Yards & Docks, and the Superintending Civil Engineer, Fifth Naval Dist.

CALIFORNIA STATE LI

PLANS and Speculations

Possibility that walnut packing plants will be erected in YUBA CITY and COLUSA were seen following a recent meeting of growers from Colusa, Sutter, Yuba and Glenn counties. It was recommended that plants be constructed in Yuba City and Colusa, and in this behalf, the Colusa delegation stated that it had a fund of $25,000 available as a nucleus for the construction of a plant on a site which has been obtained with frontage on the railroad and state highways.

oOo

Second largest single moving job ever undertaken in MARIN county (clearing of the right-of-way for the San Rafael Highway 101 overpass) is about to be undertaken by the Division of Highways. The job is the setting back of all buildings along the west line of the highway through the town of NOVATO where widening of the highway to four lanes with a wide dividing strip in the center and service road on both sides is to be started within the next few weeks.

oOo

Bridge experts have estimated the cost of the Butte Creek bridge, on the proposed Chico - Paradise cutoff road, and Bidwell Bar Bridge far below the figures previously estimated. Two representatives of the Donald R. Warren Company of San Francisco, made the following estimates: For the Butte Creek Bridge $55,000 for a 293-ft. crossing, or $60,000 for a 330-ft. span, plus $3490 for plans and specifications. oFr the Bidwell Bar Bridge, $75,000 for an 80-ft. central span bridge, $85,000 for a 125-ft. span, plus $4275 for engineering fees.

oOo

"There will be no restrictions on public works legislation," says Governor Warren of California. The Public Works Construction fund will total $235,000,000. In addition to the $90,000,000 postwar construction fund authorized, the governor intends to ask legislators to consider $145,000,000 which is in the general postwar reserve fund. Warren said he wants to finance the veterans' housing program from the $90,000,000 fund. New state hospitals, prisons, office and other buildings will cost about $153,000,000, he has estimated.

oOo

New construction totaling $78,075,000 to relieve acute overcrowding in California mental institutions was included in a recent lan. The proposed program would include seven new institutions as well as additions and improvements to present facilities.

oOo

Expansion of the TULARE-KINGS county tuberculosis hospital at Springvale is recommended in the annual report of Dr. A. J. Winn, medical director of the sanitarium. Three steps are included in the program: First, the replacement of the open type pavilion for male patients by a modern two-story, concrete building housing 140 beds. Second, the remodeling of the building originally built as the childrens' preventorium for semi - ambulatory patients; and third, the enlargement of the housing facilities for nurses.

Arizona Has $640,465,000 Bureau Program

The Bureau of Reclamation has authorized twelve major projects in its proposed postwar program for Arizona. The work will involve constructing canals, earth and concrete dams, tunnels, power plants, transmission lines and numerous miscellaneous projects. The plans are now under way and are being prepared by the Denver office.

Following is a list of the projects including their location, principal structures, estimated cost and construction period:

1. Gila, Mesa Unit; Colorado River; canals and pumps; $3,580,000; 17 months for completion.
2. Davis Dam; Colorado River; earth dam; $41,200,000; 40 months for completion.
3. Boulder Canyon; Colorado River; power installation; no cost estimated; 24 months for completion; additional installation 287,500 kilowatts remaining capacity; to be installed.
4. Parker Dam Power; Colorado River; transmission lines; $5,010,000; 24 months for completion.
5. Gila, Wellton-Mohawk Unit; Colorado River; canals and pumps; $9,420,000; 17 months for completion.
6. Bridge Canyon; Colorado River; concrete dams, power plant; $207,432,000; 73 months for completion; 750 kilowatts to be installed.
7. Bill Williams Alamo Reservoir; Williams River; concrete dams; $3,200,000; 24 months for completion.
8. Colorado Phoenix Div.; Colorado River; tunnels, aqueduct and canals; $333,000,000; 122 months for completion; 1,110,000 kilowatts to be installed.
9. Chino, Snowflake, Winslow, Hassayampa, Holbrook and Misc.; Little Colorado River; earth dams and canals; $16,633,000; 24 months for completion.
10. Buttes; Gila River; concrete dam, power plant; $7,000,000; 25 months for completion; 10,000 kilowatts to be installed.
11. Coconino; Little Colorado River; concrete dam; $4,000,000; 25 months for completion.
12. Sentinel; Gila River; earth dam; $10,000,000; 27 months for completion.

MANUFACTURING EMPLOYMENT SHOWS RISE

Employment in 25 manufacturing industries surveyed each month by the National Industrial Conference Board rose .8 per cent in October after a record-breaking slump of 13.1 per cent in September, the conference board reported.

The rise was only the second monthly gain to be recorded since November 1943. With the exception of September, the Board's index of employment was lower in October than in any month since September, 1940. The drop from October last year was 24.5 per cent. However, the number of employed workers was 22.3 per cent higher than in the month before outbreak of the war.

The shift in employment distribution noted in September continued in October, the conference board said, with the percentage of women dropping from 23.5 to 22.8, and that of skilled males increasing from 62.8 in September to 63.3 in October.

October payrolls in the 25 manufacturing industries, like employment, recorded a slight rise, increasing .4 per cent over the September total. Twelve industries showed larger payrolls than in September, 12 reported smaller payrolls, and one indicated no change. The largest increase was 17 per cent in automobile manufacturing, while the largest decrease was 13.6 per cent in agricultural implements. Between October, 1944, and October, 1945, payrolls of the 25 industries combined showed a drop of 30.3 per cent, but they were still 104.3 per cent higher than in August, 1939, just prior to the start of the war.

The average work week for the 25 industries combined was little changed in October, increasing only .1 hour. Individual industries, however, recorded sharp fluctuations, ranging from a decrease of 8.4 per cent in agricultural implements to a rise of 7.3 per cent in automobile manufacturing.

Average hourly earnings of production and related workers dropped .6 per cent from September to October to an average of $1.079 for the 25 industries, continuing the decline begun in July. Although average hourly earnings have decreased 2.9 per cent since the peak reached in June this year, they were still 49.9 per cent higher in October than in August, 1939, and 42.2 per cent greater than in January, 1941, the month used as the base date for the Little Steel formula.

Weekly earnings averaged $45.58 in October, only 15 cents or .3 per cent less than in September.

V

NEW QUARTERS

George Belcher, lathing contractor, is moving into new quarters at 3330 San Bruno Ave. Besides larger offices at the new location, Mr. Belcher plans expansion of his warehouse. The telephone number is JUniper 4-6856.

Bidwell Bar Dam Urged For First Construction

Bidwell Bar Dam, reservoir, and power plant, a multiple-purpose project to be constructed on the middle fork of the Feather River eight miles east of Oroville, are recommended for immediate construction as part of a 15-year building program by the United States Bureau of Reclamation in its Central Valley Basin Report.

The Basin Report, including the Bidwell Bar Project, has been completed by engineers of the Bureau's Sacramento office and has been sent to Washington for official approval by the Secretary of the Interior and the Commissioner of Reclamation. Prior to submission of this report to Congress, it had been sent for comment to Governor Warren and the Secretary of War.

This project, if approved and financed by Congress, will:

(1). Provide irrigation, flood control, domestic water supply, power, recreation, and other benefits for a large area lying within the Feather River region between Chico to the north and Bear River to the south, and between Oroville and Butte Creek.

(2). Furnish a full water supply for irrigating approximately 100,000 acres of land now unirrigated and a supplemental water supply to approximately 170,000 acres now irrigated by Feather River water. It is estimated that some 40,000 acres of land not now irrigated could be brought under irrigation by 1960. Water not now required for local irrigation could be made available for export to the San Joaquin Valley through the Central Valley system. The lands that would be supplied with the irrigation water are all included in Butte, Sutter, and Yuba counties. The ultimate irrigation development of lands not now irrigated would make possible new farms that would support some 22,500 people on farms and in nearby communities. The new farms would produce an estimated $7,500,000 in annual crops and would add at least $12,500,000 a year to the present retail sale of goods in the three counties.

(3). Generate over 100,000 kilowatts of capacity producing an average annual output of 310,000,000 kilowatt-hours of hydroelectric energy. In addition to the Bidwell Bar Dam and powerhouse, it is proposed to construct the Elbow Afterbay and Power Plant with 20,000 kilowatt capacity capable of producing an average output of 100,000,000 kilowatt-hours of energy. This would be located on the main Feather River, near Oroville, downstream from Bidwell Bar Reservoir and would be for the purpose of re-regulating the daily power releases from the main reservoir and power plant.

(4). Provide an adequate supply of mountain water for Oroville and the suburban area nearby.

Bidwell Bar Dam would be one of the highest dams in the Reclamation Bureau system. The maximum height of the dam would be 679 feet above the streambed. It would have a length of 2,100 feet providing capacity in the reservoir for 1,200,000 acre-feet of water, covering an area of 5,800 acres. The lake would back up the middle fork of the Feather to about 11 miles and the south fork to about eight miles.

The estimated cost of the Bidwell Bar Dam reservoir and two power plants would be about $70,000,000. Projected for later development is a distribution system for the 40,000 acres of new land that might be brought under irrigation in the next 15 years. This distribution system would add $2,000,000 (at 1940 prices) to the cost.

Board Sees 1946 Electrical Gear Production Peak

A new all-time high in production of electric power plant equipment is expected in 1946, with utility companies anticipating that electrical energy requirements in 1947 will surpass wartime peak consumption, the National Industrial Conference Board reported today.

Three factors are prominent in this optimistic outlook, according to the conference board:

1. Anticipated expansion in electric production capacity.
2. Heavy demand for industrial electric equipment that will consume a large part of this power increase.
3. Prospects for extensions of service lines to agricultural areas in the next three years.

"Rapid expansion of electric power production for war purposes," the conference board said, "was accomplished with a relatively small addition to plant and equipment. Consumption jumped 73 per cent while additions to plant and equipment amounted to only 26 per cent. This situation followed the decision in 1942 to eliminate all but the most critically needed power plant construction, in order to meet the demands of war agencies. Drastic changes in distribution methods were necessary to avoid serious power shortages. Normal competitive methods were abandoned and replaced by a gigantic power pool.

"With a return to peacetime conditions, there is a need for an extensive expansion program. This is reflected in the current heavy burden placed on operating capacities of electrical equipment plants. Customers are making active inquiries as to time of delivery of urgently needed equipment. In several lines, consumers will be served sooner than had been anticipated while in other lines deliveries will be delayed. Deliveries for maintenance and repair will be given first consideration.

"Prices will remain at current levels for the time being, although increased labor and overhead costs may subsequently force pressure for higher prices."

GROOVER AND I

ATLANTIC CROSSINGS

Mrs. Eleanor Roosevelt is on her way to London as one of the United States delegates to the UNO Assembly.

★ ★ ★

Shortly after her entry into the White House, Mrs. Roosevelt commercialized her position by writing a highly profitable column of daily chit-chat regarding the doings of the First Lady. Many claim this soon developed into a propaganda device for the Port Watch.

★ ★ ★

Despite the commercial aspect of this journalistic venture, everyone pulled their punches because, after all, she was the First Lady.

★ ★ ★

Now her status changes. She is a Federal employee, on the taxpayers' payroll at $12,000 per year, and as such employee is in the Public Domain. From here on out she should be standing on her own feet.

★ ★ ★

Traveling westward on the Atlantic and arriving tomorow is a Sites Committee who will make final recommendation on a homesite for UNO.

★ ★ ★

This committee will view proposed locations in the vicinity of Boston—before deciding upon Hyde Park.

V

EXTENSION COURSES

The University of California announces several extension courses given in San Francisco, Oakland, and Berkeley on Soil Mechanics, Structural Detailing and Elementary Design, Reinforced Concrete Design, Earthquake-Resistant Design, Design of Dams, and Cost Estimating for Construction. For information call University extension centers in San Francisco, Oakland and Berkeley.

V

PARTNERSHIP ANNOUNCED

Frank D. Smith and Angelo J. Daneri announce formation of a partnership to operate as contracting plasterers under the firm name of Smith and Daneri. They will continue to do business at the same address, 375 Bayshore Blvd., San Francisco. Telephone MIssion 3311 - 3312.

SEA To Hold Meeting Monday January 7th

On Monday, January 7th, the Structural Engineers Association of Northern California will hold their regular meeting.

President William Adrian states that it is necessary that every available member attend this very important meeting, as many representative leaders of the city have been invited to be present.

Ralph G. Wadsworth, City Engineer of San Francisco and Past President of the San Francisco Section, American Society of Civil Engineers, will speak on "Engineering Problems of the City of San Francisco."

It is pointed out that during the postwar period the City of San Francisco will be faced with many engineering problems, the solution of which will require the highest engineering talent. As engineers, the members of the Association should be particularly interested in hearing what these problems are.

Place: Engineers Club, 206 Sansome Street.
Assembly: 5:30 p. m.
Dinner: 6:15 p. m. ($1.50).

V

Nevada AGC Elects Officers

E. J. Maupin, Jr., of Fallon, president of the Dodge Corp., Inc., was elected president of the Nevada chapter of the Associated General Contractors of America, Inc., at its annual meeting held in Reno.

Vice presidents are Earl Games and Ludwig Flyge of Reno, and C. V. Isbell, president of Isbell Constr. Co., was elected treasurer.

William J. Cashill, recently returned from naval service, was reappointed attorney for the association, and Charles L. Hill was reappointed secretary-manager.

Directors of the association are Roy Cram and O. J. Scherer of Las Vegas, E. J. Maupin, Jr., of Fallon, Ludwig Flyge, Earl F. Games, F. R. Smith, and C. V. Isbell of Reno.

Two new members, Barney H. Stoutenburg and Geo. E. Miller, were approved for membership.

OFFICIAL PROPOSALS

Highway Improvements, Kings County

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p.m. on January 16, 1946, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing State Highway in accordance with the specifications therefor, to which special reference is made, as follows:

Kings County, between 5th Standard Parallel South and 1.5 miles North (VI-Kin-125-D), about one and five-tenths (1.5) miles in length to be graded and surfaced with road-mixed surfacing.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Asphalt plant dryerman or fireman	$1.40
Concrete mixer operator (one cubic yard capacity or less)	1.45
Concrete mixer operator (over one cubic yard capacity)	1.70
Concrete vibrator operator	1.25
Flagman	1.00
Jackhammer operator	1.25
Laborer	1.00
Motor grader operator	1.85
Oil distributor bootman	1.00
Oiler power shovels or cranes	1.25
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	1.85
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.00
Reinforcing steel worker	1.50
Roller operator	1.65
Tractor driver	1.70
Truck driver (18 cubic yards water level capacity or more)	1.4375
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.3125
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.25
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.0625
Truck driver (less than 4 cubic yards water level capacity)	0.90
Any classification omitted herein not less than	1.00

Overtime — One and one-half (1½) times the above rates.

Sundays and holidays (except watchmen, guards and flagmen) — One and one-half (1½) times the above rates.

The rates of wages, including overtime, holiday or Sunday rates, above specified are subject to the effect, if applicable hereto, of executive orders of the President of the United States and to any modification thereof and to any and all lawful orders of the President or any other authorized Federal officer or agency, insofar as the same may be applicable to this contract. In case of any inconsistency, the rates fixed by any such applicable Federal order, whether higher or lower, shall control.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the District in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law (See said Proposal Requirements and Conditions).

The Department of Public Works reserves the right to reject any or all bids.

Highway Improvements, San Joaquin County

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p.m. on January 16, 1946, at which time they will be publicly opened and read, in the Assembly Room of said building, for constructing State Highway in accordance with the specifications therefor, to which special reference is made, as follows:

San Joaquin County, between Grant Line Road and Mossdale (X-SJ-5-B), about three and eight-tenths (3.8) miles in length to be graded and paved with Portland cement concrete.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Skilled Labor	
Asphalt plant dryerman or fireman	$1.40
Asphalt plant mixer operator	1.45
Asphalt spreading machine operator	1.75
Carpenter	1.375
Cement finisher	1.50
Concrete mixer operator (one cubic yard capacity or less)	1.45
Concrete mixer operator (over one cubic yard capacity and paving type)	1.70
Mechanical tamper and finisher operator (concrete or asphalt)	1.70
Motor grader operator	1.85
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	1.85
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.00
Reinforcing steel worker	1.50
Roller operator	1.65
Tractor driver	1.70
Truck driver (18 cubic yards water level capacity or more)	1.4375
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.3125
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.25
Intermediate Grade Labor	
Concrete vibrator operator	1.25
Headerboard man	1.375
Jackhammer operator	1.25
Oil distributor bootman	1.00
Oiler power shovels or cranes	1.25
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.0625
Truck driver (less than 4 cubic yards water level capacity)	0.90
Unskilled Labor	
Flagman	1.0625
Laborer	1.0625

Positions not listed above will be allocated in accordance with the definitions which appear in the special provision, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor, for which rates are not shown above, shall be not less than $1.25 per hour.

The minimum wage paid to all intermediate labor, for which rates are not shown above, shall be not less than $1.00 per hour.

The minimum wage paid to all unskilled labor, for which rates are not shown above, shall be not less than $1.00 per hour.

Overtime—One and one-half (1½) times the above rates.

Sundays and holidays (except watchmen, guards and flagmen)—One and one-half (1½) times the above rates.

The rates of wages, including overtime, holiday or Sunday rates, above specified are subject to the effect, if applicable hereto, of executive orders of the President of the United States and to any modification thereof and to any and all lawful orders of the President or any other authorized Federal officer or agency, insofar as the same may be applicable to this contract. In case of any inconsistency, the rates fixed by any such applicable Federal order, whether higher or lower, shall control.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the District in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law (see said Proposal Requirements and Conditions).

The Department of Public Works reserves the right to reject any or all bids.

Concrete mixer operator (over one cubic yard capacity)	1.70
Motor grader operator	1.85
Operator of power shovel or other excavating equipment, shovel type controls (up to and including 1 cubic yard)	1.85
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.00
Pile driver hoistman or operator	1.85
Pile driver man	1.61
Reinforcing steel worker	1.50
Roller operator	1.65
Tractor driver	1.70
Truck driver (18 cubic yards water level capacity or more)	1.4375
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.3125
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.25
Intermediate Grade Labor	
Concrete vibrator operator	1.25
Jackhammer operator	1.25
Oil distributor bootman	1.00
Oiler power shovels or cranes	1.25
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.0625
Truck driver (less than 4 cubic yards water level capacity)	0.90
Unskilled Labor	
Flagman	1.00
Laborer	1.00

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor, for which rates are not shown above, shall be not less than $1.25 per hour.

The minimum wage paid to all intermediate labor, for which rates are not shown above, shall be not less than $1.00 per hour.

The minimum wage paid to all unskilled labor, for which rates are not shown above, shall be not less than $1.00 per hour.

Overtime: one and one-half (1½) times the above rates.

Sundays and holidays (except watchmen, guards and flagmen): one and one-half (1½) times the above rates.

The rates of wages, including overtime, holiday or Sunday rates, above specified are subject to the effect, if applicable hereto, of executive orders of the President of the United States and to any modification thereof and to any and all lawful orders of the President or any other authorized Federal officer or agency, insofar as the same may be applicable to this contract. In case of any inconsistency, the rates fixed by any such applicable Federal order, whether higher or lower, shall control.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the District in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law (See said Proposal Requirements and Conditions).

The Department of Public Works reserves the right to reject any or all bids.

Highway Improvements, San Mateo County

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p.m. on January 16, 1946, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing State Highway in accordance with the specifications therefor, to which special reference is made, as follows:

San Mateo County, over Bay Shore Freeway at Peninsular Avenue, in the City of San Mateo (IV-S.M-68-SM), a structural steel overcrossing to be constructed.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate Per Hour
Skilled Labor	
Carpenter	$1.50
Cement finisher	1.50
Concrete mixer operator (one cubic yard capacity or less)	1.45
Concrete mixer operator (over one cubic yard capacity)	1.70
Derrick operator	2.00
Electrician	1.70
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.00
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Painter (brush)	1.50
Painter (structural steel)	1.75
Pile driver hoistman or operator	1.85
Pile driver man	1.61
Reinforcing steel worker	1.50
Roller operator	1.65
Structural steel worker	1.75
Tractor driver	1.70
Truck driver (over 8½ cubic yards water level capacity)	1.50
Truck driver (over 7½ cubic yards up to and including 8½ cubic yards water level capacity)	1.3125
Truck driver (over 6½ cubic yards up to and including 7½ cubic yards water level capacity)	1.25
Truck driver (over 5½ cubic yards up to and including 6½ cubic yards water level capacity)	1.1875
Truck driver (over 4½ cubic yards up to and including 5½ cubic yards water level capacity)	1.125
Intermediate Grade Labor	
Concrete vibrator operator	1.25
Jackhammer operator	1.25
Oiler power shovels or cranes	1.40
Truck driver (over 3½ cubic yards up to and including 4½ cubic yards water level capacity)	1.1125
Truck driver (over 2½ cubic yards up to and including 3½ cubic yards water level capacity)	1.03125
Truck driver (2½ cubic yards water level capacity or less)	0.96875
Unskilled Labor	
Flagman	1.00
Laborer	1.00

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor, for which rates are not shown above, shall be not less than $1.25 per hour.

The minimum wage paid to all intermediate labor, for which rates are not shown above, shall be not less than $1.00 per hour.

The minimum wage paid to all unskilled labor, for which rates are not shown above, shall be not less than $1.00 per hour.

Overtime—One and one-half (1½) times the above rates.

Sundays and holidays (except watchmen, guards and flagmen)—One and one-half (1½) times the above rates.

Highways Improvements—Solano County

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p.m. on January 23, 1946, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing city street in accordance with the specifications therefor, to which special reference is made, as follows:

Solano County in the city of Vallejo, Waterfront Road, between Virginia Street and Santa Clara Street (X-Sol-Waterfront Road), about three-tenths (0.3) mile in length, to be graded and paved with asphalt concrete on crusher run base.

Bids are required on the entire work described herein.

This is a National Defense Contract

Under the Defense Highway Act of 1941

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per Hour
Skilled Labor	
Asphalt plant mixer operator	$1.45
Asphalt spreading machine operator	1.75
Carpenter	1.50
Cement finisher	1.50
Concrete mixer operator (one cubic yard capacity or less)	1.45
Concrete mixer operator (over one cubic yard capacity)	1.70
Mechanical tamper and finisher operator (concrete or asphalt)	1.70
Motor grader operator	1.85
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.00
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Reinforcing steel worker	1.50
Roller operator	1.65
Tractor driver	1.70
Truck driver (8 cubic yards water level capacity or more)	1.50
Truck driver (6 cubic yards and less than 8 cubic yards water level capacity)	1.25
Truck driver (4 cubic yards and less than 6 cubic yards water level capacity)	1.10
Intermediate Grade Labor	
Asphalt plant dryerman or fireman	1.40
Concrete vibrator operator	1.25
Jackhammer operator	1.25
Oil distributor bootman	1.00
Oiler, power shovels or cranes	1.40
Truck driver (less than 4 cubic yards water level capacity)	1.00
Unskilled Labor	
Flagman	1.00
Laborer	1.00

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor, for which rates are not shown above, shall be not less than $1.10 per hour.

The minimum wage paid to all intermediate labor, for which rates are not shown above, shall be not less than $1.00 per hour.

The minimum wage paid to all unskilled labor, for which rates are not shown above, shall be not less than $1.00 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays (except watchmen, guards and flagmen)—one and one-half (1½) times the above rates.

The rates of wages, including overtime, holiday or Sunday rates, above specified are subject to the effect, if applicable hereto, of executive orders of the President of the United States and to any modification thereof and to any and all lawful orders of the President or any other authorized Federal officer or agency, insofar as the same may be applicable to this contract. In case of any inconsistency, the rates fixed by any such applicable Federal order, whether higher or lower, shall control.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the District in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposl Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law (See said Proposal Requirements and Conditions).

The Department of Public Works reserves the right to reject any or all bids.

Highway Imp.—San Joaquin County

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p. m. on January 23, 1946 at which time they will be publicly opened and read in the Assembly Room of said building for constructing State Highway in accordance with the specifications therefor, to which special reference is made, as follows:

San Joaquin County, about six miles east of Tracy (X-SJ-5-B), two bridges to be constructed, one a steel beam span bridge on concrete pile bents across Paradise Cut and the other a reinforced concrete slab bridge on concrete pile bents across Paradise Cut overflow.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per Hour
Skilled Labor	
Carpenter	$1.375
Cement finisher	1.50
Concrete mixer operator (one cubic yard capacity or less)	1.45
Concrete mixer operator (over one cubic yard capacity)	1.70
Derrick operator	2.00
Operator of power shovel or other excavating equipment, shovel type controls (up to and including 1 cubic yard)	1.85
Operator of power shovel or other excavating equipment, shovel type controls (over 1 cubic yard)	2.00
Painter (brush)	1.375
Pile driver hoistman or operator	1.85
Pile driver man	1.61
Reinforcing steel worker	1.50
Roller operator	1.65
Structural steel worker	1.75
Tractor driver	1.70
Truck driver (18 cubic yards water level capacity or more)	1.4375
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.3125
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.25
Intermediate Grade Labor	
Concrete vibrator operator	1.25
Jackhammer operator	1.25
Oiler power shovels or cranes	1.25
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.0625
Truck driver (less than 4 cubic yards water level capacity)	0.90
Unskilled Labor	
Flagman	1.0625
Laborer	1.0625

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor, for which rates are not shown above, shall be not less than $1.25 per hour.

The minimum wage paid to all intermediate labor, for which rates are not shown above, shall be not less than $1.00 per hour.

The minimum wage paid to all unskilled labor, for which rates are not shown above, shall be not less than $1.00 per hour.

Overtime: one and one-half (1½) times the above rates.

Sundays and holidays (except watchmen, guards and flagmen): one and one-half (1½) times the above rates.

The rates of wages, including overtime, holiday or Sunday rates, above specified are subject to the effect, if applicable hereto, of executive orders of the President of the United States and to any modification thereof and to any and all lawful orders of the President or any other authorized Federal officer or agency, insofar as the same may be applicable to this contract. In case of any inconsistency, the rates fixed by any such applicable Federal order, whether higher or lower, shall control.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the District in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. WEATHER CONTROL

Based on the reversible cycle heat pump principle, a new compact, fully automatic unit, the "Reversatemp", is said to keep room temperature constant despite outside weather conditions, the unit alternating between heating and cooling hourly if necessary. Units are available in sizes suitable to small homes or large buildings such as office buildings, hotels, etc. The smallest unit fits into a 3½ by 5 by 7 ft. space. Drayer-Hanson, 738 E Pico Blvd., Los Angeles 21.

PLASTICS
Classification Issued

Culminating over two years of concentrated effort on the part of technicians in the plastics industry, the Society of the Plastics Industry Inc., has just issued a classification of plastics molding materials.

The classification is aimed to provide data comparable to that which has been available to those employing wood, metals and other materials in their operations. It presents in chart form a guide to the various properties of plastics molding materials as established by the material makers and molders. Both thermosetting and thermoplastic materials are included and values shown for their mechanical, electrical, optical, thermal, chemical and aging properties.

Copies of the classification chart and explanation are available upon request to The Society of the Plastics Industry, Inc., 295 Madison Ave., New York 17.

Flame-Resistant Plastic

A new flame-resistant Thalid impression molding resin, "Thalid XR540", has been announced by the Plastics Division of Monsanto Chemical Co. The material is said to be the first commercially available impression molding resin that provides plastics-glass cloth laminates which are self-extinguishing and do not support combustion. Among uses of impression moldings are large aircraft components, chairs tables and cabinets, and one-unit wall panels.

Acid-Resistant Wood

Structures exposed to the rapid deterioration caused by contact with acid solutions or fumes can be made acid-resistant, it is claimed, through use of "Asidbar", a plastic-impregnated wood recently developed.

The wood already has been tested in such applications as in a spray type pickling machine, fume ducts, stacks to exhaust acid vapor and for covering the concrete floors and foundations under an elevated acid tank to protect the concrete against acid spillage. Use for greenhouse construction to ward off the destructive effects of moisture and decay is now being explored. Koppers Wod Preserving Technical Division, Orrville, O.

Permanently Flexible Resin

Development of a new thermosetting resin demonstrating all the advantages of the low pressure type plus permanent flexibility is announced by the Resinous Products & Chemical Co. of Philadelphia. Known as "Paraplex P-10", the resin was designed primarily for the laminating industry but is also being used to impregnate single or multiply decorative fabrics and glass cloth and as a casting or potting compound where fiber reinforcement is unnecessary.

Plastic Upholstery

Formerly manufactured from pure rubber and ground leather fibers, the upholstery material known as "U. S. Naugahyde" has had, since the advent of the war, a synthetic vinyl resin compounds base.

The new plastic Naugahyde is said to be impervious to water, perspiration and alcohol, and highly resistant to fire, acids and alkalies, gasoline, oils and greases. It is unaffected by sunlight, resists abrasive wear and scuffing. The material will be available in a wide range of colors and a variety of finishes. U. S. Rubber Co., Coated Fabrics Division, 407 N. Main St., Mishawaka, Ind.

Awning Fabric

A coated awning fabric, "Textasote G", a plastic coated duck, is said to be flame resistant, mildew resistant, washable, with excellent aging characteristics. Manufactured in brilliant colors and vivid designs, the new fabrics are also suitable for deck chairs, porch furniture upholstery, luggage, seat covers, etc. The Pantasote Leather Co., 444 Madison Avenue, New York City.

"HOUSE OF GLASS"

A novel idea in retail selling is the Macy's - Libbey - Owens - Ford House of Glass which opened in September in Macy's New York store. A permanent department of the store, it features the correlated showing of all types of glass and mirror items. Everything from Thermopane (insulated) windows and vitrolite walls down to a small mirror for a dressing table can be purchased there, complete with full installation service.

Both the selling space and the model rooms adjoining the shop emphasize the useful beauty of glass. The model dining room. for instance, has a window wall of Thermopane; the kitchen, vitrolite walls and cabinets with sliding patterned glass doors.

—#—

BUILT-IN RADIO

Designed specifically for built-in installations, the "Ansley Paneltone" is built on a heavy steel panel and requires only 4½ inches of depth. Two models are offered: a seven tube set on a 14 by 14 in. panel furnished in either AC or AC-DC currents and a 17 tube de luxe model giving both FM and regular broadcast reception and requiring only 14 by 26 in. Ansley Radio Corp., Long Island City, N. Y. Paneltone Corp., 1841 Broadway, New York, distributors.

—#—

PARTITION PASSES FIRE TEST

An interesting and convincing fire test was made last May by the National Bureau of Standards, Fire Test Section, according to an announcement just made by Commissioner Arthur J. Tuscany of the Metal Lath Manufacturers Association.

A solid partition of standard design consisting of metal lath and plaster was constructed and used as one wall of a large gas-fired testing furnace. The flames and intensity of the heat to which it was subjected were such as are found in the most vicious of fires.

The technical limit of fire endurance as determined by the temperature rise on the unexposed side was reached a little before the end of the first hour of the test. However, the partition showed the value of the construction as an effective fire barrier for a period in excess of five hours. No cracks appeared to permit the passage of fire. There was no collapse or other structural failure.

—#—

DIRECT FIRED HEATERS

Made entirely of steel, completely self-contained, and equipped with fully automatic control systems, a new line of direct-fired heaters for commercial and industrial applications incorporates several design innovations: (1) the unit is shipped in two sections, making possible unloading and placing without heavy crane facilities and entry through much smaller building openings; (2) filters may be applied without special transformations requiring additional floor space; (3) lower resistance through heater provides quieter fan operation and lower motor horsepower; (4) less floor space is required; (5) self-contained automatic thermostatically controlled humidification.

The heaters range in capacities of 75,000 to 2,000,000 Btu output per hour and are available for all types of fuel. Herbert H. Davis Co., Cicero, Ill.

—#—

ENAMEL FINISH

A new group of all-synthetic, "hibake" enamels is said to give an exceptionally hard, stainproof finish designed to endure heavy household usage.

These finishes, called "Synox", are now being produced in several whites, one of which is designed for refrigerators, deep freeze units, stoves, ironers and electric mixers, and another designed for dishwashers and washing machines. According to the manufacturers, tests have shown that these enamels have an unusual degree of water and alkali resistance, stain resistance and exceptional color retention.

—#—

DDT FINISHES

Several types of DDT interior finishes for the control of most insect pests in restaurants, stores, hotels and homes are said to retain their effectiveness for at least a year.

Laboratory and field tests over the past 12 months, the manufacturers report, prove that highly satisfactory control of flies, silverfish and mosquitos can be obtained with properly formulated DDT finishes. Additional data indicate effective results also against most types of ants and cockroaches, clothes moths, carpet beetles, bedbugs, fleas and many of the insects that attack stored food products. Insects have only to crawl across a DDT painted surface to pick up the microscopic quantity necessary to kill them.

The manufacturers will not release the DDT finishes to the consumer until toxicological and service tests prove beyound question their suitability for household and institutional uses. E. I. duPont de Nemours and Co. (Inc.), Wilmington 98, Del.

LIGHTING NEWS
Delayed-Action Switch

A toggle-lever arrangement which, although operated in the standard manner, offers both delayed-action and instantaneous "off", plus a time-selector for the delayed action which can be set at any interval from zero to three minutes, is the feature of a new all-purpose light or power switch called "Tymzit". T. J. Mudon Co., 1240 Merchandise Mart, Chicago 54, Ill.

New Ballasts

Claimed for a new line of "Amer-Tran Ballasts" for hot and cold cathode fluorescent lighting is an exceptionally close matching with tube characteristics, thus assuring maximum lamp life and maintained brightness. It is also claimed that flicker, end blacking, premature burn-outs are reduced. American Transformer Co., 178 Emmet St., Newark 5, N. J.

Fluorescent Starter

A new "Watch Dog" starter for 15 and 20 watt fluorescent lamps is said to be especially suitable for commercial and residential lighting fixtures.

Bearing the catalog number FS-20, the new starter has all the features of other Watch Dogs, available for 30, 40, and 100 watt fluorescent lamps. General Electric Co., 1285 Boston Ave., Bridgeport 2, Conn.

Commercial Fluorescent

Immediately available is a new commercial fluorescent fixture employing either two or four 20 watt lamps and four or eight 40 watt lamps in 4 or 8 ft. lengths. The 8 ft. length is furnished in a single piece body.

Features of the unit are a patented method of positioning lamps on reflector points, doubling reflector surfaces; utilizing the principle of airdraft cooling for ventilating the fiixture body and prolonging ballast life; a strongly reinforced steel body equipped with inspection plate that is instantly removable by loosening a single wing nut. Joleco Corp., 2517 Baldwin Ave., St. Louis 6, Mo.

Emergency Lighting System

Designed for instant emergency use when normal electrical current is interrupted, the "Minuteman Light-Warden" is a portable, self-contained unit which automatically floods any protected area with light from its own power. Requiring no special wiring, it can be mounted anywhere—on post bracket, shelf or platform—and plugged in to any convenience outlet.

The instant normal current is resumed, the Minuteman lamps go off automatically and a built-in charger restores power to the storage battery for the next emergency. One lamp head—the unit can be equipped with single or double as desired—is said to be capable of illuminating 10,000 sq. ft. of area for approximately four hours. Electrical Cord Co., 50 Church St., New York 7, N. Y.

San Francisco CC Urges Board For Airport Aid

Legislative creation of machinery for California participation in any federal airport aid program enacted by Congress is urged by the Board of Directors of the San Francisco Chamber of Commerce.

The Board urged that any state aviation agency be restricted in its powers to:

1. Receipt and disbursement of funds made available under any federal airport aid program which calls for state participation as a requirement for the receipt of airport aid funds from the Federal government.
2. Conducting, with adequate and qualified personnel, a study of California airport needs, leading to development of a series of master airport plans wherein the efforts of local communities and private enterprise could be coordinated to create a network of airports adequate to meet requirements.
3. Promotion of public interest in aviation to the extent that California may retain and expand its already existing reputation for nation-wide leadership in every phase of aviation.

In a note of caution, the Board pointed out that control and regulation of aviation by several or each of the 48 states could only lead to duplications and conflicts which would hinder the growth of aviation.

The Board offered duplication and conflict as behind its opposition, at this time, to legislation in California which would give regulatory power, economic or otherwise, over aviation to a state agency, preferring that such control be left to the Federal government.

A coordinating, liaison and promotional agency without regulatory power could, however, contribute real value to aviation in the state, the Board asserted.

THIRD LARGEST UTILITY

In terms of capital investment, telephones are the third largest public utility in the country (after electric power and transportation). A Twentieth Century Fund survey says that more than 80 per cent of the telephones in the United States are operated by one system. About 6,500 independents account for the other 20 per cent of the total telephones operated.

Master Portable
650 Watt Lite Plant

Especially adaptable for operating hammers, small power drills. Can also be used for emergency lighting.

15— SCHOOLS

January 4, 1946

FUNDS RECEIVED

NEAR ARVIN, Kern Co., Calif.—Little Rockpile Elementary School District, Gerald Dennerlein, superintendent, has received a donation from Joseph di Giorgia, Kern County agriculturist, in the amount of $150,000 and 40 acres of land for recreational and school use at the Little Rockpile School about 5 miles from Arvin, for the District.

Tentative plans for development include a cafeteria building, three additional classrooms, a home economics, kindergarten and nursery building. The new units will be of modern construction, air conditioned and landscaped, with bleachers and playground equipment. A swimming pool is also included in the plan. 15

January 4, 1946

LOS ANGELES COUNTY, Calif.—Vinnell Co., 1145 Westminster, Alhambra, at $27,844.07 awarded contract by the Los Angeles County Board of Supervisors, 501 Hall of Records, Los Angeles, Dec. 26, for the construction of improvements along Los Nietos Rd. south of Whittier between Imperial Highway and Leffingwell Road, a distance of approximately 3950 l.f. or 0.75 mile. Cash Contract 573. Bids taken December 18. 29

January 3, 1946

FUNDS ALLOTTED
FARMINGTON, N. M.—Mayor Willis Martin of Farmington has received the information from W. H. Cheney, division engineer in charge of the Bureau of Community Facilities of the Federal Works Agency, Berkeley, Calif., that funds to the amount of $4000 will be furnished to the town for the purpose of assisting in the preparation of plans for street improvements. The plans for street improvemntes can now be completed and all arrnagements made for construction.

The preliminary draft outlines 11.1 miles of bituminous surfacing, 4-in. base; ½-in. bituminous surface, 50 ft. width average, with curb and gutter and other appurtenant work. The estimated cost of the improvements will be $163,000, to be furnished from special assessment. The funds made available through the Bureau of Community Facilities of the Federal Works Agency are to be repaid without interest when the construction is begun.

E. A. Rose, located at Denver, Colo., is the engineer for the Bureau of Community Facilities of the Federal Works Agency for New Mexico. 29

January 3, 1946

INSULATING MORTAR USES SOAP

An active insulating composition consisting of a special soap-base paste and a strong lightweight and fireproof mortar body is described by R. Connell and S. I. Wilson in U. S. Patent 2,364,344. Used in the approximate proportions of 0.6 pound of paste to 94 pounds of portland cement, the requisite paste consists of:

Ammonium stearate (soap)	1 gal.
Corn starch	1 oz.
Ammonium alum sulfate	1 oz.

The mortar body itself consists of about 94 pounds of portland cement and a vermiculite aggregate of up to 12 volumes to one volume of portland cement, and 7 to 14 gallons of water.

—V—

CHINA LOOKS FORWARD

China is looking forward to rapid postwar industrialization with the emphasis on heavy industries—power plants, chemicals, railway and highway transportation, aviation and port facilities. Partially as a result of a shortage of private industrial capital and the absence of a vigorous industrial class, according to a Twentieth Century Fund publication, industrialization will proceed under state guidance and to a large extent under state ownership and direction.

Council Seeks Building Material Aid For Farmers

Extending building material priority to home builders will penalize the nation's 6,000,000 farmers and tend to reduce food production unless materials also are made available for essential farm construction, Chris L. Christensen, Chairman of the Farm Buildings Committee of the Producers' Council, stated Saturday.

"No one will quarrel with the expediting of construction of urban housing for veterans, but thousands of other service men are returning to the farms as fast as they are demobilized and must have materials and equipment with which to construct barns, chicken houses, and other necessary structures," Christensen said.

"While home building is to receive priority assistance up to half of the available building products, the Federal government cannot escape recognizing that farm construction also is essential. OPA ceiling prices of building materials must be adjusted promptly to permit greater production of these needed materials.

"A forecast by the Market Analysis Committee of the Producers' Council estimates that the volume of new building on farms will total more than $2.5 billion during the next six years, including estimated expenditures of $400 million during 1946 alone, provided sufficient materials and equipment are made available."

Erection of Ward Buildings for Infirm and Disturbed Females, Stockton State Hospital, Stockton, Calif.

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF ARCHITECTURE

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the Division of Architecture, Public Works Building, 12th and "N" Street, Sacramento, California, up to 2:00 P. M., **Tuesday, January 29, 1946**, said bids thereafter on said day to be publicly opened and read for the erection and completion of the Ward Buildings for Infirm Females and for Disturbed Females, Stockton State Hospital, Stockton, California, in accordance with plans and specifications therefor.

The Ward Buildings for Infirm Females and Disturbed Females consist of a one-story and two-story reinforced concrete buildings having a combined floor area of approximately 160,000 square feet with hollow tile partitions, steel sash, and clay shingle tile roof covering.

Separate bids only will be entertained for the following segregated parts of the work.

1. General Work.
2. Heating and Ventilating Work.
3. Plumbing Work.
4. Electrical Work.

Alternate bids will be required for the omission of certain work.

Prevailing Wage Scale: In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

	Hourly Rate
Asbestos Workers	$1.50
Bricklayers	1.75
Carpenters	1.50
Cement Finishers	1.50
Electric Workers	1.70
Glass Workers	1.25
Iron Workers, Architectural	1.60
Iron Workers, Reinforcing Steel	1.50
Laborers, Building	1.06¼
Lathers	1.75
Masons' Tenders	1.40
Painters (brush)	1.37½
Plasterers	1.75
Plasterers' Tenders	1.50
Plumbers	1.50
Roofers	1.37½
Sheet Metal Workers	1.50
Steam Fitters	1.50
Tile Setter	1.37½
Operator of Power Shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	1.85
Operator of Power Shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.00
Tractor Driver	1.70
Truck Driver (8 cu. yds. water level capacity and less than 14 cubic yards)	1.25
Truck Driver (4 cu. yds. and less than 8 cu. yds. water level capacity)	1.06¼
Truck Driver (less than 4 cu. yds. water level capacity)	.90
Any classification omitted herein not less than	1.06¼
Overtime—One and one-half times the above rates.	

The rates of wages, including overtime, holiday or Sunday rates, above specified are subject to the effect, if applicable hereto, of executive orders of the President of the United States and to any modification thereof and to any and all lawful orders of the President or any other authorized Federal Officer or agency, in so far as the same may be applicable to this contract. In case of any inconsistency, the rates fixed by any such applicable Federal Order, whether higher or lower, shall control.

Apprentices may be employed provided they are properly indentured to the Contractor in full compliance with the provisions of Section 1777.5 of the Labor Code.

Plans and specifications for examination are on file in the Office of the Division of Architecture, Public Works Building, Sacramento, and Room 803 State Office Building, Los Angeles, and at the principal California Cities Builders' Exchange Offices.

Contractors who are desirous of securing plans, specifications and proposal forms for the purposes of preparing and submitting a proposal for this work may do so subject to certain conditions as hereinafter stated by requesting same in writing from the Division of Architecture, Public Works Building, Sacramento. Such request shall be accompanied by a deposit of Twenty Five ($25.00) dollars. Check shall be made payable to the Division of Architecture. Such deposit is required to guarantee the safe return in good condition of the plans and specifications to the Division of Architecture within 30 days after the date set for opening bids. Failure to so return the plans will cause forfeiture of the Deposit to the State.

Prequalification: Plans, specifications and proposal forms will only be issued to those contractors who are prequalified with the Department of Public Works by having filed a statement of experience and financial condition on a standard questionnaire form in accordance with the provisions of the State Contract Act. Such statement must have been filed and approved not more than one (1) year and not less than five (5) days previous to the date set for receiving and opening bids. Contractors may obtain standard questionnaire forms from the Division of Architecture.

No bid will be accepted from a contractor who has not been licensed in accordance with the provisions of the Contractor's License Act or to whom a proposal has not been issued by the Department of Public Works.

No bid will be considered unless it is presented on a proposal form furnished by the Division of Architecture and accompanied by a bidder's bond, cash, a cashier's or certified check made payable to the Director of Public Works in the sum of at least ten per centum (10%) of the amount of the bid.

The Department of Public Works reserves the right to reject any or all bids and to waive any informality in any bid received.

No bidder may withdraw his bid for a period of thirty (30) days after the time set for opening thereof.

NOTICE TO BIDDERS

SPECIAL PROVISIONS AND PROPOSAL FOR RIGHT OF WAY RELOCATION WORK

Sealed proposals will be received by the Department of Public Works, Division of Highways, at the office of the District Engineer, 50 Higuera Street, San Luis Obispo, California, until 10:00 o'clock A. M., Tuesday, **January 15, 1946**, at which time they will be publicly opened and read for the performance of the following work, in accordance with the terms and conditions of the plans, special provisions, and the General Specifications of the Department of Public Works, Division of Highways, for the Relocation and Reconstruction of Improvements to Clear Right of Way, dated June 1945.

Relocation of Buildings on Property of Carrie M. Rose at 1500 Fremont Street Extension, Seaside, California.

Relocation of Building on Property of Harold C. Long at 1340 Fremont Street Extension, Seaside, California.

Relocation of Buildings on Property of James R. Flaws, 1524 Fremont Street Extension, Seaside, California.

Relocation of Buildings on Property of Raymond Wasson, at Corner of Fremont Street Extension and Mingo Avenue, Seaside, California.

Relocation of Building on Property of I. C. Drake, at Corner of Fremont Street Extension and Palm Avenue, Seaside, California.

Relocation of Buildings on Property of Robert F. Brassfield, at Corner of Fremont Street Extension and Elm Avenue, Seaside, California.

Relocation of Buildings on Property of Heirs of R. H. Bare, on Fremont Street Extension near Oak Avenue, Seaside, California.

Relocation of Building on Property of Del Monte Properties Company at Corner of Fremont Street Extension and Del Monte Avenue, Seaside, California.

The Department of Public Works reserves the right to reject any and all bids.

Comfort Station, 37th District Agricultural Assn., Santa Maria, Cal.

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF ARCHITECTURE

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the Division of Architecture, Public Works Bldg., 12th and "N" Streets, Sacramento, California, up to 3:30 P. M., Tuesday, **January 15, 1946**, said bids thereafter on said day to be publicly opened and read for Comfort Station, 37th District Agricultural Association, Santa Maria, California, in accordance with plans and specifications therefor.

The work includes construction of a concrete and frame building of approximately 1200 sq. ft., together with a sewer line.

Prevailing Wage Scale: In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

	Hourly Rate
Carpenter	$1.50
Cement Finisher	1.625
Concrete Mixer Operator (paving type and mobile mixer)	1.65
Concrete Mixer Operator (Skip type)	1:425
Electrician	1.70
Iron Worker, Reinforcing Steel	1.625
Laborer	1.00
Lather, Metal	1.66-⅔
Painter	1.50
Plasterer	1.75
Plasterer's Tender	1.25
Plumber	1.50
Roofer	1.43
Sheet Metal Worker	1.44
Trenching Machine Operator	1.625
Truck Driver, less than four cubic yards water level	1.075
Overtime: one and one-half times the above rates.	

The rates of wages, including overtime, holiday or Sunday rates, above specified are subject to the effect, if applicable hereto, of executive orders of the President of the United States and to any modification thereof and to any and all lawful orders of the President or any other authorized Federal Officer or agency, insofar as th same may be applicable to this contract. In case of any inconsistency, the rates fixed by any such applicable Federal order, whether higher or lower, shall control.

Apprentices may be employed provided they are properly indentured to the Contractor in full compliance with the provisions of Section 1777.5 of the Labor Code.

Plans and specifications for examination are on file in the Office of the Division of Architecture, Public Works Buildings, Sacramento, and Room 803 State Office Building, Los Angeles, and at the principal California Cities Builders' Exchange Offices.

Contractors who are desirous of securing plans, specifications and proposal forms for the purposes of preparing and submitting a proposal for this work may do so by requesting same in writing from the Division of Architecture, Public Works Building, Sacramento.

No bid will be accepted from a contractor who has not been licensed in accordance with the provisions of the Contractor's License Act or to whom a proposal has not been issued by the Department of Public Works.

No bid will be considered unless it is presented on a proposal form furnished by the Division of Architecture and accompanied by a bidder's bond, cash, a cashier's or certified check made payable to the Director of Public Works in the sum of at least ten per centum (10%) of the amount of the bid.

The Department of Public Works reserves the right to reject any or all bids and to waive any informality in any bid received.

Highway Improvements—Sacramento County, Across Sacramento River at Rio Vista (X-Sac-53-C)

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received by the Department of Public Works, Division of Highways, at the office of the District Engineer, 1200 North Center Street, Stockton, California, until 2:00 o'clock P.M. on **January 8, 1946**, at which time and place they will be publicly opened and read, for performing work as follows:

Sacramento County, across Sacramento River at Rio Vista (X-Sac-53-C) portion of a bridge to be removed.

Plans and specifications, and forms of proposal, bonds, and contract may be obtained at the above address.

No bid will be considered unless it is made on a proposal form furnished by the District Engineer, and is made in accordance with the provisions set forth under Section 2, "Proposal Requirements and Conditions" of the Standard Specifications. Each bid must be accompanied by a proposal guaranty in accordance with the requirements of article (f) of the said Section 2 of the Standard Specifications.

The Department of Public Works reserves the right to reject any or all bids.

The quantities listed in the State Highway Engineer's Estimate hereinafter stated, are approximate only, being given as a basis for the comparison of bids, and the Department of Public Works does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work, or to omit portions of the work, as may be deemed by the Engineer to be necessary or advisable.

Bids are required on the entire work described herein.

The rates of wages, including overtime, holiday or Sunday rates, herein specified are subject to the effect, if applicable hereto, of executive orders of the President of the United States and to any modification thereof and to any and all lawful orders of the President or any other authorized Federal officer or agency, insofar as the same may be applicable to this contract. In case of any inconsistency, the rates fixed by any such applicable Federal order, whether higher or lower, shall control.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Carpenter	$1.50
Derrick operator	2.00
Flagman	1.0625
Laborer	1.0625
Oiler derrick and piledriver	1.25
Oiler power shovels or cranes	1.25
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	1.85
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.00
Pile driver hoistman or operator	1.85
Pile driver man	1.61
Any classification omitted herein not less than	1.0625
Overtime — one and one-half (1½) times the above rates.	
Sundays and holidays (except watchmen, guards and flagmen—one and one-half (1½) times the above rates.

Current Building Material Outlook Not Optimistic

Despite recent gains in the production of many critical construction materials that enabled the industry to make notable progress during the final quarter of 1945, the overall outlook for early 1946 is pessimistic with serious shortages plaguing the industry, according to the December report to the construction industry prepared by the Construction Division, Department of Commerce.

According to the Construction Division the current outlook for specific materials is as follows:

Steel. Current production reaching higher levels than anticipated. If the strike called for January 14 does not materialize, outlook is good, otherwise priorities may have to be reinstituted.

Cast Iron Soil Pipe. Production improving but supply still short, with little stock available. Some evidence of a return of labor to the industry and of foundry reopenings.

Cast Iron Pressure Pipe. Position somewhat better than soil pipe. Orders very heavy and increasing.

Portland Cement. Now in ample supply, but lack of coal and manpower impeding building up of inventories.

Concrete Masonry Products

Building Blocks. Orders increasing. Demand arising from expanding construction volume can be met by increased manpower.

Concrete Pipe. Plants operating to capacity of present labor supply. Adequate labor supply dependent on wage increases.

Structural Insulating Board. No improvement in manpower. Increasing demand prevents building up of inventories.

Gypsum Board. Supply generally adequate for current construction activity. Rising trend in production of gypsum lath indicates some lessening of difficulties in getting orders filled.

Asphalt Roofing, Siding, Felts. Heavy demands by floor covering and automotive industries causing shortages for construction. Large maintenance and repair demands in prospect. Backlog of orders continues heavy.

Clay Products

Common and Face Brick. Preliminary estimates indicate increasing production adequate to meet fourth quarter construction activity.

Structural Clay Tile. Recent spot survey forecasts sharp gains in production by the end of 1945.

Vitrified Clay Sewer Pipe. Shipments continue to exceed production. Production slowly improving, but not in proportion to increasing backlog of orders.

Cement and Asbestos Products. Situation tight; no appreciable inventories. Labor difficulties have slowed down production in all asbestos products except insulation and flat sheets.

Lumber. Production declining. Labor difficulties in winter producing areas, cost-price relationship and continued manpower shortages principal contributing factors. Mill and distributors stocks at an all-time low.

Lumber and Lumber Products

Hardwood Flooring. Not keeping pace with construction demands.

Millwork. Order files greatly in excess of the industry's ability to produce at present level of labor and material supply.

Wood Shingles. Current production negligible. Shortage of labor and logs are the deterrents.

Plywood. Production off; but some gains reported in warehouse inventories.

Metal Building Materials

Steel Windows. Both industrial and residential windows continue in tight suppply. Stocks low.

Bar Joints. Heay tonnage backlog. Delivery delays.

Metal Insect Screen Cloth. Civilian demand now 200% above normal prewar year.

Hardware and Hand Tools. Supply of better grades of hardware sufficient fro current needs. Less expensive hardware short due to lack of gray iron castings. Hand tools, ladders and wheelbarrows in short supply.

Nails. Small size nails continue in short supply.

Plumbing

Cast Iron Bath Tubs. Labor difficulties settled. Early improvement in production expected.

Steel Bath Tubs. Start of production dependent on supply of sheet.

Earthenware Tubs. Subject to delivery delays. Stocks low.

General. Other materials and fixtures not in very good supply, and subject to delivery delays.

Heating

Cast Iron Boilers (Steam and hot water). Production slow. Small house sizes critically short.

Cast Iron Radiation. Production low. Stocks extremely low. Situation shows no improvement.

General. Supply of most all other heating items limited. Many subject to long delivery delays.

Electrical Materials (Fixtures and wiring appliances). Factory shipments of supplies will lag behind orders two to three months, and fixtures from three to six months.

Teaching Timber Engineering

By FRANK J. HANRAHAN

Structural Engineer, National Lumber Manufacturers Assn.

Recently, I heard one of the nation's outstanding testing engineers, who is not associated with any industry marketing materials, state that the present economic waste of engineering materials is appalling, that this is seldom the fault of the material, but nearly always the fault of the designer. He asked; "What do we gain when scientists and material manufacturers, frequently at great expense, provide materials of higher and more uniform strength and designers do not take advantage of the merits of the materials?"

Excellent examples of what can be done in wood are shown in airplane design. Early in the war the wood "Mosquio" set high performance and low cost records which have not yet been equalled in its field. Yet this all-wood 'plane was designed and built by a country which has little wood of its own. It was made possible by the use of an outstanding engineering material, wood, available technical information on it, and knowledge of wood design and construction.

In contrast, the lack of knowledge displayed by many practicing structural engineers and engineering teachers on the engineering properties of wood, one of our major construction materials, and on modern structural design procedures in timber is a matter of concern. Thomases who doubt this statement need go no further for confirmation than to examine many of our war structures and the antedated material given in many of our textbooks and taught in many of our engineering schools. Yet, it is probable that, in recent years, scientific advancement in timber design has exceeded that of any other structural material.

In our wartime structures, the magnitude and speed of the construction program was such that peacetime refinement in design and a choice of lumber suitable for the application were not possible in all cases.

Lack of sufficient manpower and equipment prevented the lumber industry from increasing production to keep pace with the increasing lumber demands of war, thereby making it necessary to use improper lumber in many structures. In some cases, working stresses two or more times those in common use during peacetime were used. In spite of these facts, engineers charged with the maintenance of war-time timber structures attribute most of the defects found to faulty design and construction.

An editorial in a leading engineering journal called this subject to the attention of engineers by stating: "Timber, even green timber, is a structural material of importance. It deserves as scientific treatment as any other."

The simple facts are that, under the pressure of a national emergency and the greatest construction program in history, many engineers had to "cram" the fundamentals of timber design which should have been taught them while in engineering school. Because of the non-homogeneous properties of wood, proper design in timber calls for a better knowledge of engineering fundamentals than in most other materials.

Some engineers found that rule of thumb procedures and obsolete data taught to them in school prior to the war had no place in a program where efficiency of design to conserve material was essential.

Engineers in touch with educators have been amazed to find that some teachers do not know that yard lumber is graded on the basis of appearance rather than strength and that, for important structural members of large structures, stress-grade (structural) lumber which is graded on the basis of strength should be used, and that they blissfully disregard such modern developments as timber connectors, glued laminated lumber, and timber-concrete composite constructions.

Fortunately, there also has been ample evidence, both before and during the war, that many schools and teachers feel that their structural engineerings graduates should be equipped to render their employers and clients the maximum of service by being able to design efficiently, or at least intelligently, in that material, whatever it may be, which best and most economically fulfills the structural requirements.

Progressive schools are devoting more time to instruction and research on wood. The Timber Engineering Company conducted a survey in 1936 which showed that only 31 professors in 23 universities were teaching timber engineering. The 1943 survey revealed that, out of 224 replying, 188 profesors in 135 universities taught timber engineering. Although the Army and Navy training programs undoubtedly were a factor in the results of the 1943 survey, the trend was definitely upward before the war from 1936 through 1940. Further, 144 of the professors in the 1943 survey stated that they intended to continue these courses after the war.

When it is considered that a study of contract awards made just before the war, with prices at their normal competitive levels, showed the bids on timber construction running about 15 per cent lower in the east and 45 per cent lower in the southwest and west than alternates in other materials, and that a proportionally increasing amount of the construction was going to timber, it is difficult to see the logic of following any other path than to include in the curriculum instruction on engineering properties of wood and modern timber design.

The insertion, expansion or revision of instructional material in any curriculum of course raises problems for the administrator and teacher, but progressive educators, not being static, meet and solve rather than ignore problems as they arise. Every school has certain limitations of budget, enrollment, personnel and facilities, made increasingly exasperating by wartime uncertainties. Various schools may arrive at different solutions, but that such a problem is not insurmountable is evidenced by the fact that many schools are teaching timber engineering and doing a good job of it.

Suggestions which may prove of assistance in finding space for timber engineering in an already crowded curriculum include:

The more effective and more rapid educational methods developed in wartime training programs might be investigated and some of them adopted to advantage.

A strictly impartial re-evaluation and balancing of current curriculum and course content may provide a solution.

One lead, which deserves more attention than it commonly receives, is the investigation of the instructional and study time that could be saved by breaking down the conception held by may students that the various courses of the curriculum are separate, unrelated pigeon holes of knowledge, rather than a continuous growth and expansion of fundamental engineering knowledge. Unless teachers bridge the gap between courses by pointing out and tying together the common fundamentals of related concurrent and successive courses, much time is lost by the student for lack of orientation which might well be spent in acquiring additional knowledge.

Maximum success of such a cooperative endeavor in engineering education calls for a breaking down of administrative barriers between college departments and frequent, frank, enthusiastic discussions of viewpoints, problems, and methods on the part of the teachers of related courses. Such intercourse will have the added advantage of broadening the concepts of many teachers.

How timber engineering should be taught will depend on the teacher and the school curriculum and facilities. However, it is importand that, in addition to being exposed to information on the engineering properties, of wood and basic principles of timber design, the student be required to complete a detailed design of at least one wood truss or frame (preferably split-ring connector construction) and one timber joint with each of the various common types of fastenings to make certain that he has acquired sufficient knowledge to make complete practical designs in lumber.

So far as trade practices are concerned, aside from a few pointers on classifications and grades of commercial lumber, meaning of commonly used lumber terms and abbreviations, dimensional differences between nominal, rough, and surfaced dimensions, available commercial services, including grading, grade marking and certificate of inspection, and sources of more detailed information which can be used as references, little instruction is needed. It is far more important that the student be instructed in pertinent fundamental technical information on wood and in modern design which take the properties of wood and its fastenings into account.

30—RESERVOIRS & DAMS

January 4, 1946

TO ASK BIDS

CANTON DAM, Oklahoma.—On or about February 7 bids will be received by the U. S. Engineer Office, Box 61, Tulsa 2, Okla., for construction of spillway and completion of embankment, Canton Dam on the North Canadian River, in Blaine County, about two miles north of Canton, Okla.

The completed project will consist essentially of a rolled earth fill embankment, four rolled earth fill dikes, concrete spillway and control works and service building. The four dikes, a portion of the embankment and part of the excavation for the spillway have been completed by a previous contract.

Specifications obtainable from the above office upon deposit of $35. • 30

January 3, 1946

BIDS WANTED

PRIEST RAPIDS, Wash. — Until Jan. 21, 2 P. M., bids will be received by Capt. George Hopkins, U.S.E.D., Textile Tower, Seattle, for exploratory foundation work at Priest Rapids damsite, Columbia River, Yakima and Grant Counties.

Specifications obtainable from the above office. 30

31—PIPE LINES & WELLS

January 3, 1946

COMPLETE BIDS

PROVO RIVER PROJECT, Utah.—As previously reported, Carl B. Warren, Pleasant Grove, Utah, at $442,751.50, submitted low bid to the U. S. Bureau of Reclamation, Walker R. Young, chief engineer, Provo, Utah, under Spec. 1131 for the construction of steel pipeline and concrete structures, station 457+16.42 to station 479+41.50, station 1040+76.35 to station 1178+97.50, station 1413+03.00 to station 1468+54.30, station 1613+03.00 to station 1634+01.30, and Provo River crossing, station 374+95 to station 375+85, Salt Lake Aqueduct, Aqueduct Division, Provo River Project, Utah. Work is situated between Provo and Salt Lake City.

Other bids were:

R. A. Wattson, Hollywood, $456,535.

Utah Construction Co., Ogden, $462,625.

Gibbons & Reed, Salt Lake City, $498,866.

Tom L. Gogo, Los Angeles, $568,206.

Unit prices are on file for examination at the office of DAILY PACIFIC BUILDER, 465 Tenth St., San Francisco. 31

PLANS and Speculations

OAKLAND: The final Work Pile committee report submitted by Chairman R. H. Biggs to President P. D. Richardson of the Oakland Chamber of Commerce and general chairman of the Oakland Postwar Planning committee, highlights a busines expansion total of $231,635,400.

Individual firms, manufacturing and business establishments of Oakland announce postwar construction of 135 new industrial and commercial buildings, Biggs reports. Other features in the final work pile committee **report are:**

1. City and Alameda County public improvement projects, exclusive of federal and state appropriations, $75,000,000.

2. Private business will expand $156,635,400 in Oakland.

a. Construction of 100 modern apartment buildings, $16,000,000.

b. 85 new industrial plant buildings to cost an estimated $11,643,300.

c. 50 new retail store buildings, $9,697,600.

d. 10 new theaters, 13 new churches and construction of a major hotel, $9,107,000.

e. Construction of 12,800 homes costing $77,200,000 (P. G. and E. survey estimate).

f. Transportation, communications and public utility improvements totaling $26,587,500.

g. Remodeling, exclusive of construction work, $6,400,000.

Oakland's work pile tabulation and its postwar planning program is one of the brightest in the nation and scores of business and industrial firms of all classifications are awaiting word from government and military authorities to launch its $231,645,400 remodeling, expansion, modernization and construction program, Biggs said.

oOo

The City of FRESNO and the larger Fresno School District, which includes most of the suburbs, are planning a $10,000,000 building program. The City's share of the projects involves expenditures which last were estimated at $6,000,000 and include a modern sewage disposal plant, major street improvements, and annex to the new Fresno City Hall, at least two new fire houses, general replacement of mobile and other equipment and possibly a veterans memorial building and theater. In addition, the city will join with the state and federal governments in the Southern Highway grade separation, also known as the Monterey Street Overpass; enlargement of the Fresno Street Subway; widening of Blackstone Avenue; improvement of Olive Avenue; the eventual limited access highway through West Fresno and improvements of various other major and secondary highway routes through the city.

oOo

$72,577,000 In Eastern States Home Contracts

F. W. Dodge Corporation reported today that contracts were awarded in November for 10,953 new dwelling units to cost $72,577,000 in the 37 states east of the Rocky Mountains. This was the largest number of new units to figure in contracts awarded in a single month since December 1943, and the largest monthly dollar volume for such construction since June 1942, a spokesman for the corporation said.

While contracts in both December 1943 and June 1942 involved a considerable amount of public housing, only 1 per cent of November's total fell into that category. The November dollar volume of privately owned residential building exceeds that for any month since April 1942, the corporation reported.

Contracts were awarded in November in the eastern states for 15,481 new construction projects of all kinds involving an expenditure of $370,087,000. Of this total $207,671,000 was for non-residential building, principally structures to be used for manufacturing purposes. November construction advanced 17 per cent above October's total and was 124 per cent higher than in November 1944, the corporation reported.

Dollar volume of all construction contracts in the 37 eastern states during the first 11 months of this year totaled $2,968,618,000 compared to $1,805,535,000 in the corresponding period of last year.

V

UNEMPLOYMENT INSURANCE

Unemployment insurance after January 5, 1946, will be mandatory on all employers of one or more individuals. The tax is 2.7% of the employer's payroll and 1% of the employee's salary.

Under the State Unemployment Insurance Act, with minor exceptions, all employers and employees who are subject to the Federal Payroll Tax for old age and survivors insurance will be covered.

Science is very resourceful. It couldn't open a Pullman window so it air-conditioned the train.

Jos. L. Turner Appointed To Steel Co. Post

The appointment of Joseph L. Turner to the position of Director of Industrial Relations of Columbia Steel Co., a U. S. Steel Corporation subsidiary, was announced Friday by William A. Ross, President. Turner, who has been in the steel business since 1928, succeeds Henry T. Lintott, resigned.

Turner started his career with Lukens Steel Company in Coatsville, Pa. After eight years with this firm, he joined Wheeling Steel Corporation as Assistant to General Manager of the Portsmouth, Ohio, Works. Four years later he was promoted Chief Industrial Engineer at Wheeling, W. Va., which position he held until his new post with Columbia Steel Company.

V

Termite Company Appoints Arizona Licensee

J. Wilfred Gunn, President of the Hollywood Termite Control Company, Los Angeles, has just anounced the appointment of P. L. Daily, head of the Tucson roofing firm bearing his name, as Arizona licensee of the Termitrol Patent to service architects, builders, investment companies and home owners in that state. The Termitrol Patent is the invention of civil engineer Gun and is based on the "blockade system" of termite prevention—through the strategic placement of pressure treated lumber (repellent to termites and dry rot infestation) throughout the building structure. Applicable only to new building construction, the Patent has met with immediate acceptance by architects, contractors, and executives of the leading lending institutions, and has already been incorporated in several major housing projects in California as well as in many private homes.

Plans are now being made for the appointment of licensees on a nation-wide scale, beginnig with those states which suffer the largest proportion of the $300,000,000 annual damage caused by termite and dry rot infestation. Detailed information covering the Termitrol Patent is available to architects. construction firms and lending institutions upon request from the Hollywood Termite Control Company at 2903 Beverly Blvd., Los Angeles 4, or P. L. Daily Roofing Co., Box 1150, Tucson, Arizona.

ARCHITECTURAL CLUB MEETING

The San Francisco Architectural Club, 666 Mission Street, will hold its regular meeting Wednesday, January 9, at 8:30 p. m.

Installation of officers will take place at this meeting and members are requested to gather at the Club about 6:00 p. m., when it will be decided where to dine.

Architect's Role in Speeding Re-employment Emphasized in Address by Kenneth Stowell

The following radio message, which emphasizes the important role architects play in speeding re-employment, was recently delivered by Kenneth K. Stowell from the Editors of Architectural Record to the American Public over 200 stations of Mutual Broadcasting Company Network and further broadcast by transcription:

If you wonder why the building industry is bound to play a major role both in providing employment and in ushering in an era of prosperity, just stop for a minute to consider these few simple facts:

First, we need buildings for everything we do. Houses to live in, schools to learn in, factories to work in.

Second, we have not been building during the war, except for war purposes. We should have been building half a million houses every year during the past four years, so we are short at least two million homes, to say nothing of all other types of buildings; and the old buildings are becoming obsolete and must be remodeled, repaired or replaced.

We should construct an average of 800,000 homes every year for the next ten years. Think what this means in terms of jobs. Masons, carpenters, plumbers, electricians, painters, will have all and more than they can do. But beyond that the building industry reaches back through hundreds of factories to the forests that produce the lumber, the mines that produce the metals, the chemical plants that produce the plastics. So for every man working on the construction job, there are six or seven men involved in producing the materials and equipment that make up the house, the school, the hospital, the store, the airport, and all the rest.

Building means jobs, thousand of jobs, but the workmen need blueprints before they can begin to work.

Architects are working day and night, producing the necessary plans and specifications. More draftsmen are needed this minute in the architects' offices to turn out the blueprints so that other men can start to work in the field. The architects are designing exciting new buildings, up-to-date, efficient, economical, as convenient as they are thrilling to look at.

Third, these buildings can be started soon. The government is now releasing all limitations on the production of building products and equipment. Factories are speeding up to provide the doors and windows, bathtubs, heating plants, and lighting fixtures necessary for the building the architects are plannig. Contractors are figuring costs, searching the market for building materials, assembling their construction crews. They need more men, trained men in all the building trades.

A deciding factor in the amount of building that will be done is the answer to this one question, "Where can we get enough efficient, trained men to construct the buildings now being planned?"

So there will be jobs galore, more jobs than men to fill them, in the building industry in the next five years, and behind them are the thousands of jobs in the factories producing building materials. The construction industry is set to provide you with the new homes and hospitals, schools and stores—every kind of building you need. And building means jobs.

Setting New Standards

To some a standard is something fixed, established, permanent, to be adhered to, used as is, or copied. To others, a standard is a starting place, a spring-board, a point of departure. To those holding the latter concept the standard is subject to change, improvement, development. A little research into the history of standards bears them out. So our plea, and our purpose and program are for ever-improving standards. Only by changing standards can architecture, or any other art or science develop for the better service of mankind.

New standards are constantly being established in every field by the evolutionary process of improving on what has gone before, eliminating that which no longer serves its purpose well, replacing it with that which functions better. Cases in point are the new research buildings which industry and educational institutions are establishing, not only in this country, but throughout the world. And government itself is preparing to launch an unprecedented program of research. The country's leading scientists are, at the moment this is written, giving their testimony in regard to research and the program for carrying it on. All these are dedicated to the raising of standards, at an increasing tempo.

In the research laboratories themselves we find new standards of planning, space-use, flexibility, adaptability — of facilities, equipment, materials and processes. And in them will be developed new standards of transportation, communication, education, and health —to mention but a few fields of endeavor. Public consciousness of the results of research is aroused by the flood of stories about the atomic bomb development. The public is ready for researchers to continue to produce the impossible.

Every architect's office is of necessity a research laboratory devoted to raising the standards of our envoronment. Every architectural publication is a reporter of newly-evolved standards — standards to be raised, to be improved upon in the next building to be developed on the architect's boards. "Research" is inventiveness and ingenuity applied to present standards, not "searching back" (as the word may seem to imply) to find a standard merely to be copied.

Even the standards established by law in building codes must change. Standards of performance must be substituted for the static standards which dictate obsolete means instead of desired ends. These are being changed; the research of all factors in the industry makes it inevitable—architects, engineers, manufacturers, builders are setting the new standards that eventually, and soon, will be reflected in the codes of the country. Standards are made to be superseded by superior standards. Recognition of that fact means real progress — in architecture as in every other field of human activity.

GROOVER AND I

LOLLYGAGGING

Many times I have sounded off, then been sorry I didn't keep my big blabber mouth shut, or signed something only to regret I ever learned to write.

★ ★ ★

I know how the two Navy Medical Corps Captains of the U. S. Naval Hospital in St. Albans must feel after the publicity given their Anti-Lovemaking Order.

★ ★ ★

"High Brass" objects to the constant embracing of Waves, handholding, kissing and other forms of lovemaking being conducted in "passageways, phone booths and corners" by hospital personnel.

★ ★ ★

The order strictly prohibits many forms of "lovemaking and lollygagging".

★ ★ ★

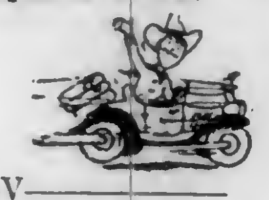
You will not find "lollygagging" in the smaller dictionaries; however, it is directly related to the well known biologic urge which has enjoyed high popularity ever since Eve started experimenting with apple fritters.

★ ★ ★

Western Electric and Telephone employees are taking strike action. They might include a demand for "bigger and better phone booths".

★ ★ ★

If there is any spot more uncomfortable for lovemaking than the back seat of a model T Ford, I imagine it is a telephone booth.



V

It Could Have Been Serious

One of the boys in the shop, who had a bottle of Scotch on his hip, slipped and fell on the icy pavement. On rising, he felt something wet running down his leg.

"I hope it's blood!" he said.

HOME SHOW PLANNED FOR JULY 12 TO 21

Plans were prepared by J. R. Lester Boyle, city engineer, Laguna Beach. • 32

January 7, 1946

PLANNED

LOS ANGELES, Calif. — Superior Judge Joseph W. Vickers has ruled that the present sewage disposal system for Los Angeles creates a dangerous nuisance condition, as charged by the State, and has ordered "expeditious" abatement of "intolerable conditions." Although a specific remedy was not ordered, recommendation was made that the proposed $21,000,000 plant proposed by Metcalf & Eddy, engineers, Boston, Mass., be constructed. Recommendation was also made that chlorination machines should be installed immediately at the present plant in order to reclaim three and one-half miles of important beaches.

OVERCROSSING, SAN DIEGO COUNTY

SAN DIEGO COUNTY, Calif.—Fred D. Kyle, 714 W. Olympic Blvd., Los Angeles, at $87,848, awarded contract by the State Division of Highways, G. T. McCoy, state highway engineer, State Bldg., Los Angeles, for construction of a structural steel overcrossing over the tracks of the Atchison, Topeka & Santa Fe Railroad one mile north of Oceanside, San Diego County.

The work involves:

(1) 550 cu. yds. structural excavation;
(2) 730 cu. yds. class A portland cement concrete;
(3) 628 lin. ft. concrete railing;
(4) 394,000 lbs. furnish structural steel;
(5) 394,000 lbs. erect structural steel;
(6) 4800 lin. ft. furnish steel piling;
(7) 102 each drive steel piling;
(8) 60 each steel pile splices;
(9) 89,000 lbs. furnish bar reinforcing steel;
(10) 89,000 lbs. place bar reinforcing steel;
(11) miscellaneous items of work.

Total bids submitted were:

(A) Fred D. Kyle, $87,848.
(B) Spencer Webb, Los Angeles, $88,286.
(C) Haddock Engineers, Ltd., Oceanside, $88,886.
(D) C. B. Tuttle, Long Beach, $89,969.
(E) Oberg Bros., Inglewood, $101,900.
(F) Basich Bros. Construction Co., $112,534.
(G) M. H. Golden Construction Co., $113,225.

CALIFORNIA STATE LIBRARY

PLANS and Speculations

Take it as it comes: A speed-up in SAN FRANCISCO'S $177,000,000 postwar program appears likely. Mayor Lapham said he will give the program special attention in his annual message to the Board of Supervisors. . The McEnerney Memorial Law Library is to be constructed on the BERKELEY Campus of the University of California as a memorial to the late Garret W. McEnerney. The building, to be constructed at Bancroft Way and College Avenue, will be an adjunct of the proposed new home for the School of Jurisprudence, for which Regents have asked an appropriation of $900,000 from the State.

oOo

City Engineer Walter F. Frickstad of OAKLAND has begun a survey of the area of Beau Forest Drive and Valley View Road, where residents have requested sewer facilities for their properties.

oOo

It will take $1,140,000 to complete Junipera Serra Blvd. from Sneath Lane, San Bruno, to the limits of the district at North Burlingame, according to Supervisor Tom Hickey, President of Joint Highway District No. 10. The project is eligible for federal funds on a matching basis.

oOo

Plans for an exclusive subdivision in ATHERTON were disclosed recently with transfer of 55 acres of the William Herbst estate, represented by California Pacific Title Insurance Co., to Fred Baldocchi, San Francisco financier and realty developer, for an indicated price of $300,000. Baldocchi contemplates development of the property, located west of El Camino Real and bounded by Almendral and Stockbridge Avenues, into one-acre parcels with homes ranging in price from $25,000 to $30,000. Improvements—sewer lines, etc., are now being installed. . Ten acres of HILLSBOROUGH property on Forest View Road were sold by W. P. Fuller Brawner to Lloyd Simpson, peninsula builder-developer, and Wm. D. Dickie, San Francisco financier, for $80,000 for contemplated development of half-acre homesites.

oOo

Parking—underground, or on the roof. Construction of underground municipal garages on city property, or the granting of applications for permits to construct private underground garages, was suggested by presiding Judge Twain W. Michelson in a letter to Mayor Lapham of San Francisco. . . . Senator Raldolph Collier, chairman of a joint legislative fact-finding highway committee has suggested to a legislative committee, that hotels be built so that automobiles can park on the roof . . or shall we leave the "old bus" at home.

Equip. License Applications Must Be Filed by Jan. 15

Construction Equipment Licenses now call for a service charge of only $3.00, including license plates, but 1946 applications for the necessary license plates included in the charge must be filed before January 15, 1946.

The AGC Chapters through joint legislative effort at the last session of the State Legislature secured passage of A.B. 2078 exempting construction equipment of all kinds from the California Motor Vehicle Act. Previously such equipment moving over the highways was paying exorbitant fees, sometimes running into hundreds of dollars on one machine, and a great saving to the contractors has been effected. The new bill became effective on Sept. 15, 1945. Get your application in to the local office of the State Department of Motor Vehicles where a special form now printed will be found available. It is not necessary to register the weight. The $3.00 fee entitles a contractor to the proper license with plates to be affixed to the machine.

V

Last Rites For Wm. Rockingham

Funeral services for Wm. Henry Rockingham, 57, principal mechanical and electrical engineer in the State Architect's office, were held yesterday morning at Sacramento.

Mr. Rockingham, who entered the employ of the State in 1915 and had served continuously since that time in the State Architect's office, died suddenly last Saturday morning, apparently from a heart attack.

He is survived by his widow and two daughters.

V

Central Chapter AGC Elects Two New Member Firms

At their regular monthly meeting the Board of Directors of the Central California Chapter of the Associated General Contractors of America, Inc., elected the following firms to regular membership:

J. H. Fitzmaurice, 2857 Hannah St., Oakland, HIgate 2490. Fitzmaurice has been in the contracting business in the East Bay since 1922. His firm specializes in concrete building construction and paving. During the 23 years that has transpired since he went into business, Fitzmaurice has built many of the large concrete structures, both commercial and government, in Alameda and Contra Costa counties. The business of this firm amounts to more than $500,000 a year.

Nat Lena, 1174 19th St., Oakland, HIgate 2630, has become a member of the Central California Chapter, having been elected at the last meeting of the Board of Directors. Concrete construction of commercial buildings on a large scale has been Nat Lena's specialty for many years. His firm has also hanlded some large state and municipal concrete buildings; also street and paving contracts incidental to the buildings. Nat Lena has operated in the East Bay Area for many years.

V

UC EXTENSION CLASSES BEGIN NEXT WEEK

Business Administration, Engineering, and Economic classes are among those offered by University of California Extension beginning next week in the San Francisco center, 540 Powell Street. On Monday, January 14, "Personnel Administration" meets at 7 p. m., and "Labor Economics, part B," at 6:30.

Meeting on Wednesday, 7 p. m., are "Industrial Procurement," "Auditing", "Business Law", and "Labor Economics, part A." On Thursday, at 7:30 p. m., a class begins in "Power Plant Operation."

Information about these and other classes may be obtained at the above San Francisco address.

V

ARCHITECT MOVES OFFICE

Architect Philip D. Tomasello has announced removal of his office in the Phelan Building to 605 Washington Street, corner of Montgomery Street. The telephone number is SUtter 9046.

US Government Vs. State of Calif. Re. Ocean Bed

The suit of the United States Government to establish ownership of the ocean bed off the coast of California, brought in the Supreme Court at Washington and directed against this State and its people, is of such far-reaching importance as to inspire probable action by the State Legislature at the special session which convened yesterday.

Speaker of the Assembly Chas. W. Lyon has been in consultation with legislative leaders and action in two phases of the matter is indicated in a recent recommendation by the Joint Legislative Budget Committee.

According to Lyon, the first would be an act to delimit the seaward boundaries of the state, this being among the powers reserved to the states by the Constitution and by international law; the second would be a joint resolution to ask permission for the Legislature to intervene in the suit as a friend of the court, file separate briefs and appear by counsel from its own membership.

"Should the court rule in favor of the United States Government in this suit, it would sharply limit the law giving powers of the Legislature and repeal by decree many existing state laws," said Speaker Lyon.

"It would so limit the state and county power of taxation as to deprive the people of the benefit of any taxation on oil production should the scene of operations shift from the land to the ocean bed in future exploration for petroleum. It would virtually change the status of California from a maritime to an inland state with no control over the water lying off its shores, even to their protection from pollution in the interest of the health of the people.

"Clearly the Legislature should do everything within its power to give aid in opposing this remarkable suit which at this late date challenges rights freely exercised by the state government of California over a period of 96 years," Lyon stated.

V

NEW APPOINTMENTS

New appointments of the official staff of Calaveras Cement Company have been announced by H. C. Maginn, Vice President and Chairman of the Operating Committee. Wm. P. Schwipdt has been named Assistant Vice President and Sales Manager, A. A. Hoffman, Consulting Engineer, Lewis A. Parsons, Consulting Technologist, and M. J. London, Traffic Manager.

GROOVER AND I

HON. EDWIN C. JOHNSON

In the Rockies the stars glisten whitely in the thin air high above the Arapahoes—a man grows into the full stature of American Citizenship. I refer to **Honorable Edwin C. Johnson, Democrat, Senior U. S. Senator from Colorado.**

★ ★ ★

The next session of Congress will hotly debate a loan of about 4.5 billion dollars to Great Britain. Your banker would laugh at you if you asked for a loan under the same terms and conditions, even though you put up 100% U. S. currency as security. The loan has built-in escape clauses, permitting non-payment without default.

★ ★ ★

Senator Johnson will propose that the Treasury Department put on a special bond drive for this loan—guaranteeing the buyers of the bonds no more than England pays—if and when.

★ ★ ★

The success of this drive would be a direct referendum by the people and might set the pattern for about 15 billion dollars of other loans now cooking.

★ ★ ★

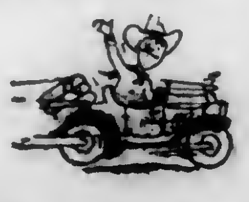
This is not anti-British. It is pro-American. The time has come when more attention should be given to blank checks the taxpayers are asked to sign.

★ ★ ★

The idea is unique in that it asks the Administration, the State Department, and the Treasury Department to be honest with the American People regarding one of these international "loan" deals.

★ ★ ★

This country needs a few more Senators with Johnson's sense of obligation and duty to the People of this Republic . . . about 95 more such Senators!



V

WAGE ADJUSTMENTS

The Wage Adjustment Board during the month has granted the following increases in the Building Trades Crafts of California:

Alameda and Contra Costa Cos.: Plasterers granted an increase from $1.83-1/3 to $2.00 per hour.

Los Angeles: Asbestos Workers granted an increase from $1.50 to $1.75 per hour.

San Francisco Bay Area: Tile Setters granted an increase from $1.50 to $1.80 per hour.

Los Angeles: House Movers granted an increase from $1.50 to $1.87½ per hour.

Los Angeles: Glass Workers granted an increase from $1.25 to $1.35 per hour.

San Bernardino: Electricians granted an increase from $1.50 to $1.70 per hour.

Bricklayers for the Counties of San Francisco, Alameda, Contra Costa, Lake, Napa, Solano, Sonoma, Marin and San Mateo, have been granted a wage increase from $1.875 to $2.06.

V

Horse sense is what keeps a horse from betting on the human race.

Federal Housing Expediter Action Urged in Building Material Bottleneck

L. C. Hart, President of the Producers' Council, national organization of building product manufacturers, has urged Wilson C. Wyatt, Federal Housing Expediter, to confer promptly with manufacturers of scarce building materials and equipment for the purpose of removing bottlenecks which threaten to restrict the number of new housing units which can be built this year.

"Manufacturers of millwork, enameled ware plumbing fixtures, and warm air, hot water, and steam heating equipment are experiencing manpower, raw materials, or pricing problems which are holding down production," Hart said in a letter to Wyatt. "A recent survey conducted by the Producers' Council indicates that the supply of other essential building products should be sufficient to meet all probable housing requirements this year, but suitable homes can not be built in quantity unless the currently scarce products also become available.

"Merely issuing priorities to builders of low-cost housing will not guarantee a sufficient supply of these critical products, because there will not be enough to fill priorities unles prompt action is taken.

"These production problems can be solved only by government assistance and, unless solutions are found in the immediate future, it will be difficult to construct the 400,000 new dwelling units which have been predicted for this year by government economists, let alone build the 500,000 or more units which the industry has been asked to complete.

"The need for new housing is so great that special attention must be directed to this problem at the earliest possible date. We are certain that manufacturers of the building products in question will welcome an opportunity to meet with you in Washington to discuss methods of removing the obstacles to production.

New Director Appointed For NRE Foundation

Announcement of the appointment of Henry E. Price, a Washington attorney, as Executive Director and Counsel of the National Real Estate Foundation, was made by Arthur W. Binns, President of the Foundation.

Price, who has just been released as a lieutenant from the U. S. Navy, will have the responsibility of perfecting the Foundation's machinery for studying taxation and other problems affecting property owners, particularly small home owners. He will also supervise the organization of Home and Property Owners of America, a division of the Foundation.

In taking over the job of directing the affairs of the Real Estate Foundation, Price is returning to a field in which he has had many years of experience.

A native of Georgia, he was graduated at Emory University and later at the George Washington Law School, Washington, D. C. He is a member of the bar of Washington, D. C., and Chicago.

Before receiving his commission in the Navy, Price had served five years with the RFC and the RFC Mortgage Company and the next seven years with the National Association of Real Estate Boards. His service with the National Association of Real Estate Boards included that of Executive Secretary of several of its affiliates, among them the National Institute of Real Estate Brokers, Home Builders Institute of America and the Society of Industrial Realtors.

4— FACTORIES AND WAREHOUSES

January 8, 1946

BIDS OPENED
PLANT
SACRAMENTO, Calif. 21st and "J" Streets.
Construction of one-story building.
Owner—Ravensaw Tool Company.
Architects—Adams & Doggart, 2789 Riverside Blvd., Sacramento.
Low Bidder—H. W. Robertson, 2917 T St., Sacramento, $15,887.
Other bidders were:
Otto Steinbrenner, $16,800.
Lawrence Constr. Co., $16,846.
Chas. F. Unger, $17,520. * * 4

January 8, 1946

PLANS BEING FIGURED—BIDS OPEN JANUARY 12, 3 P. M.
MECHANICAL WORK
SAN JOSE, Santa Clara Co., Calif. Cor. Phelan Ave. and Senter Rd.
All mechanical work for the construction of a reinforced concrete fruit and vegetable cannery, consisting of a main manufacturing building, a boiler house, finished stock warehouse and cold storage unit. The mechanical work will include heating, plumbing, wiring, fire protection and powerhouse equipment.
Owner—Beechnut Packing Co., Canajohare, N. Y.
Architects—Binder & Curtis, 35 W. San Carlos St., San Francisco.

As reported elsewhere in this issue of the BUILDER, bids for the general construction are being received January 12, 3 P. M. * 4

January 8, 1946

WORK STARTED
FACTORY Bldg. Cost, $40,000
SAN JOSE, Santa Clara Co., Calif.
One-story Aqua Foam factory building (88x100-ft.) of stud and cement plaster construction, wood trusses, built-up roof, etc.
Owner—Fire Appliance Corporation.
Architect—Higgins & Root, Security Bldg., San Jose.
Contractor—W. W. Hartell, 863 South 10th St., San Jose. * * 4

January 8, 1946

CONTRACT AWARDED
RIVERSIDE, Calif.—L. P. Scherer and T. C. Prichard, 3964 Orange St., Riverside, submitted the low bid for a reinforced concrete factory building to be built on Kansas Ave., between Massachusetts Ave. and Roberta Sts., Riverside, for the Colonial Radio Corp., Buffalo, N. Y., a subsidiary of Sylvania Electric Products, Inc. The building will cover an area 150x180 ft. and will have concrete walls and floor, to contain 50,000 sq. ft. of floor space. Plans were prepared by Engineers Bowen, Rowe, Rule & Bowen, 2835 Gilroy St., Los Angeles. 4

January 8, 1946

CONTRACT AWARDED
LOS ANGELES, Calif.—Steed Bros., 714 Date Ave., Alhambra, have the contract for the construction of an addition to a factory building at 5700 E. Olympic Blvd., Los Angeles, for the Willard Storage Battery Co. It will cover an area 108x262 feet; steel frame and truss construction; estimated cost, $120,000. Plans are being completed by M. J. Gabrielsen, structural engineer, 6362 Hollywood Blvd., Los Angeles. 4

January 8, 1946

SUB-CONTRACTS AWARDED
WAREHOUSE Cost, $46,500
BELMONT, San Mateo Co., Calif. Old County Rd. and Harbor Blvd.
Construction of warehouse and office building.
Owner and builder—Daley Bros., 426 Bryant St., San Francisco.
Plans by owner.
Roofing—J. W. Bender Roofing & Paving Co., 1999 Bryant St., San Francisco.
Plumbing and Heating—Harry Lee, 216 California Dr., Burlingame.
Electric Wiring—Central Electric Co., 610 3rd St., San Francisco.
Sheet Metal—J. A. Gaffigan Heating Co., 315 9th St., San Mateo.
Glass—W. P. Fuller Co., 201 Mission St., San Francisco.
Mill Work—Brannan St. Planing Mill, 560 Brannan St., San Francisco.
Hardware—Marshall-Newell Supply Co., Spear and Mission Sts., San Francisco.
Concrete—H. E. Casey Co., 835 Woodside Way, San Mateo. 4

January 8, 1946

PLANS BEING FIGURED—BIDS OPEN JANUARY 8, 3 P. M.
CANNERY Cost, $1,000,000
SAN JOSE, Santa Clara Co., Calif. Cor. Phelan Ave. and Senter Rd.
General construction of a reinforced concrete fruit and vegetable cannery on 23-acre site, consisting of main manufacturing building, a boiler house, finished stock warehouse and cold storage unit.
Owner—Beechnut Packing Co., Canajohare, N. Y.
Architects—Binder & Curtis, 35 W. San Carlos St., an Francisco.

The following contractors have been furnished with plans and specifications:

Earl W. Heple, 494 Delmas Ave., San Jose.
Carl N. Swenson Co., 355 Stockton Ave., San Jose.
A. Farnell Blair, 9 Main St., San Francisco.
McDonald, Young & Nelson, 127 Montgomery St., San Francisco.
Moore & Roberts, 693 Mission St., San Francisco.
Parker, Steffens & Pearce, 135 South Park, San Francisco.
Erbentraut & Summers, 446 Sixth St., San Francisco.
Bechtel Bros. & McCone, 220 Bush St., San Francisco.
Peter Kiewit Sons Co., 442 Post St., San Francisco.
M. & K. Corp., 200 Financial Center Bldg., San Francisco.
Barrett & Hilp, 918 Harrison St., San Francisco.
James I. Barnes Construction Co., 941 Russ Bldg., San Francisco.
Empire Construction Co., 344 Harriet St., San Francisco. * 4

7—FEDERAL BUILDINGS

January 8, 1946

BIDS REJECTED
LONG BEACH NAVAL HOSPITAL, Long Beach, Los Angeles, Calif.—All bids submitted August 14, 1945, have been rejected and the project cancelled by the U. S. Navy, Bureau of Yards and Docks, Washington, D. C., for the construction of a chapel building, welfare and conference buildings at the Long Beach Naval Hospital; Specification 15821, NOy 11517. Plans were prepared by Claude Beelman, architect; Herman Spackler, associate architect, 1019 Union Bank Bldg., Los Angeles.

Alco Construction Co., 5423 Flemish Village Lane, Los Angeles, submitted the low bid at $353,970. 7

13— PUBLIC BLDGS. FIRE HOUSES, JAILS

January 8, 1946

PLANNED
SAN BERNARDINO, San Bernardino Co., Calif.—Stockley & Bamford, engineering consultants, 124 W. 4th St., Los Angeles, are preparing working drawings for the construction of heating and laundry units and tunnel at the San Bernardino County Hospital, San Bernardino, for the County of San Bernardino. The work will include construction of new 1-story power house, 76x77 ft. in area, reinforced concrete, composition roof, steel sash, concrete floor; enlarging laundry work shop from 40x80 ft. in area to 40x170 ft. in area. 13

January 8, 1946

SUB-CONTRACT AWARDED
BOATHOUSE AND FACILITIES
Contract Price, $47,917
CARQUINEZ STRAITS, Vallejo, Solano Co., Calif. California Maritime Academy.
Construction of boat house and facilities consisting of covered dock for small craft, working space, sail loft and storage facilities of wood, wood frame construction on wood pile foundations.
Owner—State of California, Division of Architecture, Public Works Building, 1t2h and N Sts., Sacramento.
Plans by Anson Boyd, state architect Public Works Bldg., Sacramento.
Contractor—J. A. Bryant, 1815 Capitol St., Vallejo.
Pile Driving Only—M. B. McGowan, Inc., 625 Market St., San Francisco. * 13

14— RESIDENCES

January 8, 1946

PLANNED
RESIDENCES
Approximate Cost, $12,000 Each
LOS ANGELES, Calif. Corsica Dr.
Construction of six or more residences.
Owner and Builder—Peter N. Asci, 2201 Glencoe Ave., Venice (formerly of 49 Jason St., Pittsfield, Mass.).
Architect—Not Given.

The owner plans to build and sell upon completion. 14

15— SCHOOLS

January 8, 1946

BONDS VOTED
SCHOOL IMPROVEMENTS
SAN PABLO, Contra Costa Co., Cal.
Alterations and improvements to school buildings.

(22) 320,000 sq. yds. preparing rock foundations for concrete lining;
(23) 80,000 sq. yds. trimming earth foundations for concrete lining;
(24) 100 M ft. bm. erecting timber in structures.

Schedule No. 3

Earthwork, canal lining and structures, station 710 plus 00 to station 1144 plus 00.

(25) 840,000 cu. yds. excavation, common, for canal;
(26) 590,000 cu. yds .excavation, rock, for canal;
(27) 252,000 cu. yds. excavation, common, for drainage channels and dikes;
(28) 114,500 cu. yds. compacting embankments;
(29) 83,000 sta. cu. yds. overhaul;
(30) 38,200 cu. yds. concrete in canal lining;
(31) 15,500 cu. yds. excavation, rock, for drainage channels and dikes;
(32) 12,000 cu. yds. excavation, common, for structures;
(33) 6500 cu. yds. backfill;
(34) 5000 cu. yds. compacting backfill;
(35) 4825 cu. yds. concrete in structures;
(36) 4000 cu. yds. excavation, rock, for structures;
(37) 560 cu. yds. rock fill;
(38) 500 sq. yds. dry-rock paving;
(39) 2,900,000 lbs. placing reinforcing bars;
(40) 11,500 lbs. placing metal water stops in joints;
(41) 1330 sq. ft. elastic joint-filler material;
(42) 234,000 sq. yds. prepring rock foundations for concrete lining;
(43) 164,000 sq. yds. earth foundations for concrete lining;
(44) 2600 lbs. installing miscellaneous metal work;
(45) 22 cattle guards;
(46) 185 M ft. bm. erecting timber in structures.

The specifications contain a special provision for adjustments for increases in labor costs. No charge to prospective bidders for copies of the specifications and drawings; to others, $2.75 per copy, not returnable.

Work must be completed within 600 calendar days.

Copies of the standard forms and of the specifications may be obtained from the following offices of the Bureau of Reclamation: R. L. Boke, regional director, Old Post Office Bldg., Sacramento, Calif.; R. K. Durant, acting construction engineer, Friant, Calif.; Walker R. Young, chief engineer, U. S. Custom House, Denver 2, Colo., and Michael W. Straus, commissioner, Bureau of Reclamation, Washington 25, D. C. Prospective bidders desiring to visit the site of the work should communicate with the construction engineer. • 23

LOS ANGELES COUNTY, Calif.—Until January 23, 10 A. M., bids will be received by the Los Angeles Board of Public Works, 153 City Hall, Los Angeles, for the grading, paving and otherwise improving of Western Ave., between Pacific Coast Highway and Anaheim St. Plans were prepared by Lloyd C. Aldrich, Los Angeles city engineer. 29

January 8, 1946

CONTRACTS AWARDED

OREGON STATE.—Oregon State Highway Commission, Salem, Ore., awarded contracts for the following projects for which bids were received December 13:

E. C. Hall Co., Tigard, Portland, Ore., awarded contract at $28,200 for Cloverdale-Oceanlake rock production project on Oregon Coast Highway, Lincoln and Tillamook counties.

Vernie Jarl, Gresham, Ore., awarded contract at $37,212 for Porcupine Butte-Chichester Gulch section of the Shaniko-Fossil secondary highway, Wheeler County.

The project for which J. S. Risley, Milwaukie, Ore., submitted the low bid at $38,670 is still pending. Bids for all other projects received this date have been rejected. 29

32— SEWERS & SEWAGE DISPOSAL PLANTS

January 7, 1946

FUNDS ALLOTTED

NEWCASTLE, Wyo. — Mayor R. Anderson of Newcastle has received information from W. H. Cheney, Division Engineer in charge of the Bureau of Community Facilities of the Federal Works Agency, Berkeley, Calif., that funds to the amount of $2000 will be furnished the city for the purpose of assisting in the preparation of plans for a sewage system. The plans can now be completed and all arrangements made for construction.

The preliminary draft outlines a sewage system with main and street laterals and disposal plant. It will be constructed of approx. 19,900 ft. of 6-, 4400 ft. of 8-, and 5000 ft. of 10-in. tile, and disposal plant, concrete septic tank of about 7000 c.f. capacity. The estimated cost of this facility will be $75,000, to be furnished from general obligation bonds. The funds made available through the Bureau of Community Facilities of the Federal Works Agency are to be repaid without interest when the construction is begun.

E. A. Rose, located at Denver, is the engineer for the Bureau of Community Facilities of Federal Works Agency for Wyoming, and W. R. Robinson, City Engineer of Newcastle will make the final plans for the sewage system. 32

PLANNED

SAN PABLO, Contra Costa Co., Calif.—Engineer Phil Jones, Box 1294, Richmond, is preparing plans for a sewage disposal plant for the San Pablo Sanitary District to cost several hundred thousand dollars. • 32

33—WATERWORKS

January 8, 1946

COMPLETE BIDS

SAN PABLO, Contra Costa Co., Calif.—As previously reported, Fred J. Early Jr. Co., Inc., 369 Pine St., San Francisco, at $136,577.50, submitted low bid to the East Bay Municipal Utility District, Daniel Read, secretary, 512 16th St., Oakland, under LS 343 for construction of San Pablo filter plant extension.

The work to be covered by the proposals includes constructing three additional bifurcated rapid sand filter units of the gravity type, extending the existing filter building, installing large steel and cast iron pipe, constructing a concrete tank, grading, paving and making various alterations to existing structures.

The work involves:

(1) 3500 cu. yds. excavation;
(2) 1000 cu. yds. backfill;
(3) 1200 cu. yds. reinforced concrete;
(4) 75 cu. yds. plain concrete in place;
(5) 1580 bbls. portland cement;
(6) 220 bbls. high early strength portland cement;
(7) 150,000 lbs. reinforced steel;
(8) 60 cu, yds. remove concrete from existing structures;
(9) lump sum, install ⅞-in. square steel tank bands;
(10) lump sum, install gunite cover;
(11) lump sum, remove and store large pipe, valves, fittings, etc., and install gunite plugs in 30-in. pipe;
(12) lump sum, install wash water line;
(13) lump sum, install main effluent line;
(14) lump sum, install bypass line and tower;
(15) 325 lin. ft. 4-in. tile drains;
(16) 200 lin. ft. 6-in. tile drains;
(17) 10,000 bd. ft. lumber;
(18) lump sum, roofing, flashing, downspouts, raggle strip, ventilators, skylights and roof tile on building;
(19) lump sum, glazing window sash, 20 sashes;
(20) lump sum, glaze 10 steel doors;
(21) lump sum, install large filter piping, valves, fittings and cast iron drains;
(22) lump sum, install 6 sluice gates;
(23) lump sum, install wash water pumps, piping, valves, fittings, venturi tube, etc.;
(24) 300 lbs copper water stop;
(25) lump sum, install flow controllers and accessories;
(26) 200 lin. ft. 4-in. standard steel pipe;
(27) 50 lin. ft. 2-in. standard steel pipe;
(28) 250 lin. ft. 1½-in. standard steel pipe;
(29) 100 lin. ft. 1-in. standard steel pipe;
(30) 50 lin. ft. ¾-in. standard steel pipe;
(31) 6 bibbs ¾-in. hose bibbs;
(32) lump sum, 2 sump pumps;
(33) lump sum, filter laterals, cast iron manifolds and cast iron adapters;
(34) lump sum, install three filter operating tables and valve assemblies;
(35) lump sum, install approximately 475 lin. ft ¾-in. copper tubing control piping, including valves, cocks, fittings, etc.;
(36) lump sum, install approximately 4900 bd. ft. redwood partitions in filters;
(37) 1000 lbs. furnish and install welded bar grating;
(38) 200 lbs. cast iron grating;
(39) 1000 lbs. floor plate;
(40) 4000 lbs. structural steel;
(41) 250 lin. ft. pipe railing;
(42) 150 lin. ft. 2½-in. galvanized steel pipe water line;
(43) 150 lin. ft. relocating 4-in. cast iron water line;
(44) per each, furnish and install 1½-in. hose connections with gate valves;
(45) lump sum, install platform scales in pits, 2 scales of 3500-lb. capacity;
(46) lump sum, install electrical equipment, including conduits, switches, lights, switching assemblies, heaters, wiring, etc.;
(47) 2500 sq. ft. install gunite coating on outside of walls of new building;
(48) 8500 sq. ft. painting pipe, steel and other metal surfaces with primer coat;
(49) 1300 lin. ft. install concrete curbs
(50) 2300 sq. yds. install pavement;
(51) 400 lbs. furnish and install miscellaneous bolts, nuts and washers.

STOREHOUSES, ETC., CAMP PENDLETON

CHAPPO FLATS, Camp Pendelton, Oceanside, San Diego Co., Calif.—A. Farnell Blair, 7052 Santa Monica Blvd., Los Angeles, at $2,238,000, submitted the low bid to the U. S. Navy, 11th Naval District, Public Works Office, San Diego, January 3, for the construction of buildings, services and paving, Chappo Flats, Camp Pendleton, Oceanside; Specification 17225.

Work involves construction of four storehouses, one maintenance property building, two dry storage buildings, one maintenance shop building, one motor transport shop building, one boiler house and one sales commissary building.

The bids were submitted on the following items:

(1) price for the entire work, complete, in accordance with the drawings and specifications;
(2) add to (1) for the substitution of corrugated cement asbestos roofing and siding in lieu of asbestos protected metal roofing and siding;
(3) deduct from (1) for the omission of storehouse No. 3, including the indicated pavement, berms, gutters, services and railroad track adjacent thereto (based on the use of asbestos protected metal as specified);
(4) deduct from (1) for the omission of storehouse No. 3, including the indicated pavement, berms, gutters, services and railroad track track adjacent thereto (based on the use of corrugated cement asbestos materials as covered under alternative "A");
(5) deduct from (1) for the omission of the dry storage building No. 2, including the indicated pavement, berms, gutters, services and railroad track adjacent thereto (based on the use of asbestos protected metal as specified);
(6) deduct from (1) for the omission of dry storage building No. 2, including the indicated pavement, berms, gutters, services and railroad track adjacent thereto (based on the use of corrugated cement asbestos materials as covered under alternative "A");
(7) deduct from (1) for the omission of sales commissary building, including the indicated pavement, berms, gutters, services and railroad track adjacent thereto (based on the use of asbestos protected metal as specified);
(8) deduct from (1) for the omission of sales commissary building, including the indicated pavement, berms, gutters, services and railroad track adjacent thereto (based on the use of corrugated cement asbestos materials as covered under alternative "A").

The bidders were:

(A) A. Farnell Blair.
(B) M. H. Golden.
(C) Haddock Engineers, Ltd.
(D) F. E. Young.
(E) I. C. Curry.
(F) James I. Barnes.
(G) Peter Kiewit.

The complete bids were:

....he's dreaming of sunny summer days....

GAS HEAT lets you laze-thru winter...

modern, carefree comfort for your new or remodelled home of tomorrow. You can have your dreams come true—a home kept cozy and warm without fuel worries or work for you and your family—when you install modern gas heating in your home.

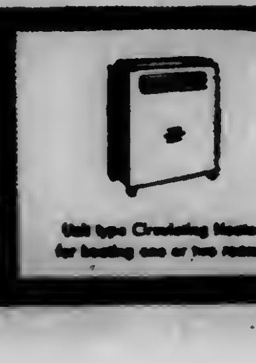
For home modernization or for the new 1946 house you are planning to build, choose one of the new, automatic, forced air gas furnaces installed either in the basement, in a closet or under the attic roof. Then too, you have a choice of the efficient heat-producing floor or wall furnace or circulating heater.

Whatever you choose—whatever you use in the line of Gas Heating Equipment you are sure to get silent, clean, convenient, trouble-free and low-cost heating service.

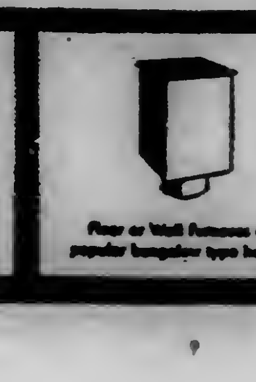
SEE YOUR DEALER OR... P·G·and E· PACIFIC GAS AND ELECTRIC CO.

202W-146

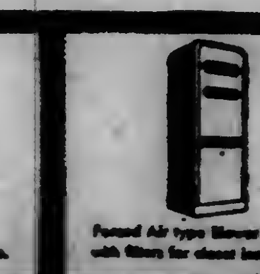
Basement type Forced Air furnace with filter.



Unit type Circulating Heater for heating one or two rooms.



Floor or Wall Furnaces are popular bungalow type heaters.



Forced Air type Blower Furnace with filter for closet installation.

Attic type Forced Air furnace with filter.

PLANS and Speculations

Charles H. Purcell, Director of California's State Department of Public Works and Chief Engineer of the San Francisco-Oakland Bay Bridge, will have an honorary membership conferred upon him by the American Society of Civil Engineers. The honor will be a feature of the first postwar session of the society to be held Jan. 16 to 19 in Hotel Commodore, New York City.

oOo

Carl S. Warner and Frederick H. Barnes, Columbia Steel Corporation employees for the past thirteen years, have been named head engineers for the new $25,000,000 expansion program of the PITTSBURG plant. Warner now construction engineer, first worked at the Torrance branch as plant engineer. In 1938 he was transferred to Pittsburg in the same capacity and later became assistant to the general superintendent. Barnes started in the wire and nail mill in Pittsburgh, became assistant to works engineer, and in 1945 was promoted to project engineer.

oOo

Two new airports for SOLANO COUNTY may soon become a reality, it was disclosed recently when the Solano County Planning Commission approved the request of plans for the two sites as one phase in a major recreation plan for the county. One airport is located adjacent to Napa Road near the county line, and the other on the highway near Benicia.

oOo

County Surveyor Ernest Breuning reported success in convincing Army engineers it will be necessary for them to relocate and raise parts of the Ball's Ferry and Fish Hatchery roads in southern SHASTA COUNTY, when the Iron Canyon flood control projects are built. The cost of relocation and raising the level of the roads would be approximately $100,000. Two or three bridges would be involved. . . Application has been made by Breuning to the Public Roads Administration for approximately $5000 to restore part of an access road south of Palo Cedro, washed out in the recent storms. He stated, in addition, that he expects to have his plans for the first of the county's postwar road building projects, a link between Anderson and Cottonwod, read by late April. The project, a concrete highway, is expected to cost about $220,000, he said.

oOo

Residents of SOUTH SACRAMENTO are scheduled to go to the poles sometime in February to vote on a bond issue that will result in the construction of a sewer line.

INDUSTRIAL RELATIONS WORK STARTS

Public interest rather than special interests of either labor or industry will be the goal of the Institute of Industrial Relations in the University of California, according to a report submitted by a committee of faculty members and approved by the Regents on recommendation by President Robt. G. Sproul. This Institute, provided by act of the Legislature, will start operations immediately on two campuses, with Paul A. Dodd, associate professor of economics as director at Los Angeles, and Clark Kerr, associate professor of industrial relations, director at Berkeley.

One of the major aims of the Institute, it is announced, will be to make an impact on the community by offering facilities for the interchange of ideas and for the dissemination of the products of academic research and study. Three levels of citizenry, it is expected, may be affected. On the senior level for top officials of labor and industry, short sessions with out standing authorities or a current issue of importance, are planned. On the junior level, longer programs for the junior executive group in industry and the shop steward group in labor will be given, with attention directed to more technical subjects and basic training by evening course or seminar and the two week institute.

Efforts will be made to reach the public by existing channels, by extension courses, lectures, and work for specialized groups. Also there will be the regular course offerings for university students. Scholarships are to be provided, if possible, to enable junior executives of labor and industry to spend one or more semesters on the campus.

An advisory committee in each of the two major areas of the state, composed of representatives of labor, industry an the public, is planned as a method aligning the program with the needs of the community, and of interpreting it.

They all laughed when I came in with shorts on. Yes, yes. Then, when I sat down, they split.

Department of the Interior Announces Immediate Plans for Pacific Northwest

With a $20,000,000 supplemental appropriation and unexpended balances of $17,000,000 in regular appropriations available, the Bureau of Reclamation plans immediately to launch an accelerated construction program on irrigation and multiple-purpose projects in the Pacific Northwest, Regional Director R. J. Newell has announced.

Construction will be resumed or stepped up on nine projects in Idaho, Oregon, Washington and Western Montana, and investigations will be rapidly advanced to make early construction possible on two other major authorized projects, he declared.

The projects on which construction will be intensified are: Deschutes in central Oregon, Vale in southeastern Oregon, Owyhee in southeastern Oregon and southwestern Idaho, Anderson Ranch and Cascade Dams in southwestern Idaho, Minidoka in southeastern Idaho, Post Falls Unit of the Rathdrum Prairie Project in northern dIaho, Roza Division of the Yakima Project in south central Washington, and the Columbia Basin Project in eastern Washington. The approved projects on which investigations will be pushed are Palisades in southeastern Idaho, and Hungry Horse in western Montana.

The funds provided by Congress for the expanded Reclamation activity consist of a supplemental appropriation of $20,263,000 for the current fiscal year, made available late in December, a regular appropriation of $10,425,000, granted last summer, and an unexpended balance on June 30, 1945 of $6,511,452.

The following work is contemplated under the Bureau's immediate postwar program for the Pacific Northwest:

OREGON

Deschutes Project.

All phases of work on the Deschutes Project in central Oregon looking to the delivery of water next spring to approximately 20,000 of the 50,000 acres to be irrigated in the North Unit will be pushed with a supplemental appropriation of $1,000,000 plus unexpended balances of $2,035,584 made available for this purpose through regular appropriations. This program will include continuing construction of Wickiup Dam and clearing of the reservoir to permit using the full storage capacity, initiating channel improvement work on the Deschutes River, completing the main canal system for the initial 20,000 acres, completing work on lateral and sublateral canals in this area, and initiating construction of the main canal and laterals for the remaining 30,000 acres in the North Unit, some of which the Bureau hopes to be able to serve with water in 1947.

Owyhee Project.

On the Owyhee Project (Oregon-Idaho), the Bureau will construct a wasteway for the North Canal. Two wasteways were provided for in the original construction, but one was destroyed in an earth slide and the other cannot be operated at full capacity because of developments along the channel to the river. Rehabilitation of pumping plants originally installed by the Gem and Ontario-Nyssa irrigation districts and of laterals constructed by these districts is also planned. A supplemental appropriation of $190,000 is available for this work and the unexpended balance on June 30, 1945, was $59,145.

Vale Project.

The supplemental appropriation of $3,000 made available for the Vale Project in eastern Oregon will be expended in the construction of laterals to serve an additional 1,000 acres of land and n constructing drains to relieve water-logging in a small area.

IDAHO

Minidoka Project.

With the $720,000 supplemental appropriation made available for the Minidoka Project in southeastern Idaho, the Bureau hopes to make improvements in the 70-mile long Milner-Gooding Canal, which has been leaking excessively. The program will include construction of laterals and possibly lining of initial sections of the canal with gravel and earth. It is estimated that when this work has been completed, sufficient water will be conserved to irrigate approximately 18,000 acres north of Hazelton and Eden. The Bureau hopes that completion of the initial lining, together with the construction of secondary laterals, will permit delivery of a water supply to 5,000 acres in this area by the spring of 1947. No regular appropriation was made for this project.

Palisades Project.

The investigation program on the Palisades Project, situated near the Idaho—Wyoming border, which has been under way for approximately a year, will be carried forward as rapidly as possible with the additional $1,000,000 made available by Congress last month. This will lead to actual construction at the earliest opportunity. The dam will provide a full supply of water for a block of new land and supplemental supply for a large area in the Upper Snake River region, produce a sizeable block of hydroelectric power, and provide flood control benefits. In addition to the supplemental appropriation set aside for the work at Palisades, $450,000 is available from the regular appropriation. One June 30, 1945, the unexpended balance was $213,000.

Cascade Reservoir and Pumping Division, Boise Project.

Resumption of construction of the Cascade Reservoir and Pumping Division in southwestern Idaho, which was halted by the war, is being expedited. The project will provide a full supply of water for 25,000 acres of new land and a supplemental supply for 83,750 acres of irrigated land now subject to periodic shortages. Initial survey parties are already in the field and bids for the Cascade Dam, a 90-foot high earth- and rock-fill structure, will be called for this month. A call for bids will also be issued soon for completing the relocation of a portion of the McCall Branch of the Union Pacific Railroad. Relocation of 11½ miles of highway is scheduled to begin next spring. Considerable other work, including construction of a major pumping plant and lateral systems, also is contemplated. An unexpended balance of $1,494,954 and a $2,000,000 supplemental appropriation are available for this work.

Anderson Ranch Dam, Boise Proj.

Construction of Anderson Ranch Dam, near Boise, which has progressed to a point where approximately 80,000 acre-feet of water can be stored next spring to provide a supplemental supply for the Boise Valley, will be advanced at maximum speed under the current program. A total of $3,000,000 was made available for this work in the regular appropriation bill and $1,925,000 was granted in the supplemental measure. The work program will include additional earth, gravel, and rock to the 5½ million cubic yards of material already in the dam (ultimately it will contain 8,650,000 c.y.), additional clearing in the reservoir, purchase of additional right-of way, relocation of roads, initiating construction of a 27,000-kilowatt powerplant and a transmission line from the dam to Mountain Home, Idaho, to furnish irrigation power for the Boise and Owyhee Projects. Plans are also being made to enlarge the outlet works of Arrowrock Dam, downstream from Anderson Ranch Dam, to make flood control operations more effective.

(Continued on Page Four)

REPAIR PARTS ARRIVING AT GRAND COULEE

Steel plates and trusses to be used in constructing a floating caisson for repairing the spillway bucket of Grand Coulee Dam are being received at Coulee Dam from the American Bridge Company of Gary, Indiana, under a $223,000 contract, Bureau officials report.

Preparing for building of the caisson, crews are installing huge steel gates in the concrete drydock on the east bank of the Columbia below the dam. Upon completion of this work, the caisson parts will be moved into the drydock and assembly begun. The gates, which will form the opening to the drydock and permit floating of the caisson to the spillway nearby, also were fabricated by the American Bridge Company under a separate contract.

Approximately $250,000 in equipment remains to be supplied for the floating caisson. One is a $55,000 item for rubber seals which will line the curved sides and the ends of the caisson to prevent inflow of water when it is placed in position on the dam.

Bureau officials said the caisson probably will not be put into use until the fall of 1946.

GROOVER AND I

DEMOBILIZATION

Marching and demonstration by Army personnel who want to return home is causing concern. It is startling because it is not in keeping with our ideas of military conduct and discipline. On the other hand, it must be remembered that during mobilization these boys were promised many things . . **promises which they accepted in good faith !**

★ ★ ★

When Death was only a split-second away, they did not hesitate to go forward, regardless of the seeming odds against them. Their buddies dropped around them but they kept advancing, as someone MUST get through. **They did not ask a priority on Life when the air was filled with Death !**

★ ★ ★

Now, on the stupid side: Before Christmas the Lieutenant General commanding the Air Transport Command announced brightly that more than 60 per cent of the ATC in the Pacific would be out by January 1. This may be one of the reasons many Pacific spots are isolated and by-passed.

★ ★ ★

For example, consider Okinawa, the invasion base which was never needed owing to the strategy of MacArthur, Nimitz, Halsey & Co. It is the hole in a doughnut yet 100,000 men are isolated there with no ATC which, among other things, means no airmail service.

★ ★ ★

We were urged to write letters to the boys when they were too busy fighting to read and many letters didn't get there anyway. Now is the time letters and ATC service would pay off.

★ ★ ★

Who am I to criticize the action of a 3-star General? Yet, in my book this is the last arm of the service which should have been depleted or discharged.

—V—

ALUMINUM RAILING

A 4,300-foot aluminum railing, which will be the longest continuous lighted railing in the world, is to be installed along the crest of the Grand Coulee Dam. The railing will be made of three aluminum tubular bars, with the top bar containing cold cathode tubes to light the 30-foot roadway which runs across the top of the dam 550 feet above bedrock.

NEW PLANNING BOOK HELPS THE BUILDER

Among the number of home planning books coming out these days, "Let's Plan A Peacetime Home" is unique in several respects and should prove a useful tool in the sales kit of a house builder or real estate man.

The authors are four nationally recognized home planning authorities. The publisher is Surface Combustion Corp., Toledo, Ohio, manufacturer of Janitrol heating equipment, but the book is in no sense an advertising prospectus for the publisher's products. On the contrary, it wraps up in one package the principal considerations for the prospective home owner. Room planning, architectural styles, selecting a site and location of the house on the site, household appliances and decorating are some of the subjects covered. On the subject of heating, the book explains all types of systems and discusses all the popular fuels.

The builder who loans or gives this book to his customer in the early stages of planning would help his customer in reaching a realistic approach to home planning without confusing him with those technical details which are the builder's concern. The buyer of a completed house who has read the book should be better able to recognize qualities which are not always appreciated by a novice.

The authors of "Let's Plan A Peacetime Home" are Mary Davis Gillies, home economics editor of McCall's magazine; Kenneth K. Stowell and Emerson Goble, editor and managing editor of Architectural Record; and H. V. Walsh, architect and writer. They present home planning and owning as a fascinating and profitable undertaking and show the reader how to do it wisely and well. The book should save the builder time in his customer dealings and help him to satisfy the home buyer's real desires.

The 114-page book is replete with photos and drawings of room arrangements, with special attention to kitchens, floor plans and renderings of medium-priced and low-cost homes designed by prominent architects from different sections of the country, remodeled homes before and after, and other attractive illustrations. hTe cost is $1.00 and the book may be obtained from Dept. PH, Surface Combustion Corp., Toledo 1, Ohio.

3— CHURCHES

January 9, 1046

PLANNED
CHURCH BUILDING
SALINAS, Monterey County, Calif. Winham and Pajaro Sts.
Construction of church building to include a sanctuary, religious and educational buildings and recreational and social rooms.
Owner—United Presbyterian Church, Rev. M. L. Kemper, Nacional and Santa Barbara.
Architect—Not announced. 3

January 9, 1046

PLANNED
CHURCH
LODI, San Joaquin County, Calif. Central Ave. and Cherry Dr.
Construction of new church on site 135x300 feet.
Owner — Ebenezer Congregational Church, Rev. F. W. Gross, pastor, 515 S. Garfield St., Lodi.
Architect—Not announced. 3

January 9, 1946

COMPLETING WORKING DRAWINGS
INGLEWOOD, Los Angeles Co., Calif. — Architect Harry L. Pierce, 1443 Mt. Pleasant St., Los Angeles, is completing working drawings for a church to contain a 400-seat auditorium and complete educational and recreation facilities to be built at Queen St. and Hillcrest Blvd., Inglewood, for the Inglewood Presbyterian Church; frame and stucco construction; cost, $125,000. 3

January 9, 1946

CONTRACT AWARDED
LAS VEGAS, Nev. — J. Walter Johnson, 5205 Hollywood Blvd., Los Angeles, awarded contract for the construction of a frame and stucco church to contain 350 seats, a kitchen, Sunday school and social hall to be built at 9th St. and Bridger St., Las Vegas, Nev., for the First Baptist Church; 165x110 feet in area; cost, $65,000. Plans were prepared by Architect Harry L. Pierce, 1443 Mt. Pleasant, Los Angeles. 3

January 9, 1946

PREPARING PLANS
CHURCH BUILDING Cost, $40,000
DOS PALOS, Merced County, Calif.
Construction of new church building.
Owner—Dos Palos Methodist Church, Dos Palos.
Architect—Frederick L. Swartz, Rowell Bldg., Fresno. 3

January 9, 1046

PLANS BEING FIGURED
LOS ANGELES, Calif.—L. A. Parker, architect-engineer, 408 S. Spring St., Los Angeles, is taking bids from a selected list of contractors for furnishing the structural steel for a new two- and part three-story reinforced concrete and structural steel bottling house to be built at 1910 N. Main St., Los Angeles, for the Los Angeles Brewing Co. The building will cover an area 150x440 ft. Bids are to be submitted in about 10 days.

The working drawings will be completed in about two weeks, at which time general contract bids will be asked from a closed, selected list of contractors. Separate bids are also to be taken on painting, roofing, terrazzo work, tile work and elevator.

Separate contracts have been awarded as follows: Plumbing to A. B. Jones Co., 5450 Alhambra Ave., Los Angeles; electrical work to Newbery Electric Corp., 1033 Venice Blvd., Los Angeles. 4

January 9, 1046

STARTING WORK
SEAL BEACH, Orange Co., Calif.—Austin Co., 777 E. Washington Blvd., Los Angeles, is starting work on the construction of a steel frame warehouse building at the Seal Beach plant of the Dow Chemical Co.; 60x100 ft. in area; estimated cost, $40,000. Plans were prepared by the Austin Co., 777 E. Washington Blvd., Los Angeles. 4

January 9, 1946

PLANNED
OLIVE PROCESSING PLANT,
WOODLAND, Yolo County, Calif. Pendergast and East St.
Construction of new olive processing plant, exterior of sheet metal or concrete, dimensions 100x75 ft.
Owner — Woodland Olive Products, Frank Lauricella, 810 Cross St., Woodland.
Architect—Not announced. • 4

January 9, 1946

PLANNED
OAKLAND, Alameda Co., Calif.—The Oakland Port Commission, foot of Grove St., Oakland, has granted permission to the Curtola Co., 1051 19th Ave., Oakland, to construct a 26x105-ft. addition to its sheet metal shop building. 4

January 9, 1946

CONTRACTS AWARDED
WEST LINN, Ore.—L. H. Hoffman, 715 SW. Columbia, Portland, Ore., awarded contract by Crown Zellerbach Corp., Box 3384 Terminal Station, Seattle, for construction of coating preparation plant, rebuilding of Mill D and construction of 75-ton bleach plant. 4

January 9, 1946

PLANNED
PORTLAND, Ore.—Reimers & Jolivette, Railway Exchange Bldg., Portland, Ore., will erect a reinforced concrete, steel plant building at the northwest corner of NW. 25th Place and Nicolai for Mercer Steel Co., Inc., 838 NW. 13th St., Portland, Ore.; 100x200 feet in area, with a special high ceiling for traveling cranes, installation of a spur track and 5000 square feet black-top parking area. Reimers & Jolivette will take sub-bids and plan to start construction within two weeks; cost, between $60,000 and $70,000. Plans were prepared by Lamond F. Henshaw, civil engineer, 4006 NE. Davis, Portland, Ore. 4

January 9, 1946

PLANNED
INDUSTRIAL PLANT Cost, $100,000
FRESNO, Calif. Nielsen Ave. between Fruit and West Aves.
Construction of dry yard, packing sheds, receiving and box yard, sulphur houses and warehouse.
Owner—Vagim Packing Co., Edward J. Vagim, Tuolumne & G Sts., Fresno.
Architect—Not announced. • 4

January 9, 1946

PLANNED
WINERY Cost, $150,000
HOLLISTER, San Benito County, Calif. Cienega.
Construction of new winery, including bottling and binning rooms, storage space and offices.
Owner—W. A. Taylor & Co. Winery, C. Wilczewski, vice-president, Hollister.
Architect—Not announced. 4

January 9, 1946

WORK STARTED
FACTORY ADDN. Cost, $12,000
EMERYVILLE, Alameda Co., Calif. 1335 Stanford Street.
Construction of one-story brick factory addition and alterations to existing building.
Owner—E. J. Chubbuck Co., Inc., 1335 Stanford St., Emeryville.
Engineer—R. H. Cooley, 959 33rd St., Oakland.
Contractor—B. & R. Constr. Co., 268 Market St., San Francisco. • • 4

January 9, 1946

PLANNED
CHURCH Approximate Cost, $10,000
WOODLAND, Yolo County, Calif. Court St. between Grand Ave. and Cleveland St.
Construction of new church.
Owner — Full Gospel Church, Rev. Harold D. Bryam, pastor, Woodland.
Plans by W. C. Helms, 1759 Broadway, Oakland.

First unit of construction scheduled for completion April 1; work will be done on cost-plus basis. • 3

7—FEDERAL BUILDINGS

January 9, 1046

BIDS WANTED
CORONA, Riverside Co., Calif.—Until January 24, 11 A. M., bids will be received by the U. S. Navy, Public Works Office, U. S. Naval Base, Terminal Island (San Pedro), for the construction of miscellaneous alterations to the U. S. Naval Hospital, Corona; Specification No. 17194.

The work involves the construction of sundecks for 30 wards, covered passageways, alterations to existing buildings to provide bake shop, installation of an elevator and bakery equipment; 24,000 square feet of linoleum floor covering, 5000 lineal feet of concrete curbing, 800 lineal feet of 8-foot concrete ramp and miscellaneous repairs to gutters and roads.

Plans and specifications may be obtained from the above office upon deposit of $20, payable to the Chief of the Bureau of Yards and Docks. • 7

January 9, 1046

BIDS WANTED
SAN FRANCISCO.—Until January 23, 2 P. M., bids will be received by the office of the district engineer, Federal Works Agency, Public Buildings Administratio,n 838 U. S. Appraiser's Bldg., San Francisco, for elevator repairs, etc., at 100 McAllister St. building, San Francisco.

Specifications obtainable from the above office of the district engineer. • 7

January 9, 1946

CONTRACT AWARDED
GRANTS PASS, Ore.—R. A. Newman, McMinnville, Oregon, at $3986 awarded contract by the office of the district engineer, Federal Works Agency, Public Buildings Administration, San Francisco, for interior and exterior painting ,etc., at U. S. Post Office, Grants Pass, Ore. • 7

9— HOSPITALS

January 9, 1046

PLANS BEING FIGURED—BIDS OPEN JANUARY 21, NOON
ALTER HOSPITAL
SAN FRANCISCO. Southern Pacific General Hospital, Fell and Baker Streets.
Exterior alterations of hospital building, involving new copings and cornices.
Owner—Southern Pacific Co., 65 Market St.
Plans by engineering department of owner.

The following contractors have been furnished with plans:

Swinerton & Walberg Co., 225 Bush St., San Francisco.
Central California Construction Co., 116 Erie St., San Francisco.
A. M. Hardy, 736 Clementina St., San Francisco.
Russell A. Cullen, 478 Jackson St., San Francisco.
Jacks & Irvine, 620 Market St., San Francisco.
Rademann-Giusto, 40 Ringold St., San Francisco. • 9

January 9, 1046

CONTRACT AWARDED
ISOLATION WARD Contract Price, $23,195
AUBURN, Placer County, Calif.
Construction of reinforced concrete isolation and observation ward (housing 8 beds) at the county hospital.
Owner—Placer County, L. Rechnenmacher, clerk, Courthouse, Auburn.
Architect—George C. Sellon, California State Life Bldg., Sacramento.
Contractor — G. S. Herrington, c/o post master, Auburn.

Other bids were submitted by Chittenden & Chittenden, Auburn, and Minton & Kubon, San Francisco, and were rejected. • 9

January 9, 1946

PREPARING PLANS
HOSPITAL Cost, $200,000
TRACY, San Joaquin County, Calif. W. Eaton Ave.
Construction of 40-bed hospital building.
Owner—Tracy Community Memorial Hospital, C. E. Ritter, general chairman, Tracy.
Architect—Frederick L. Swartz, Rowell Bldg., Fresno. • 9

10— HOTELS

January 9, 1946

CONTRACT AWARDED
LOS ANGELES, Calif. — Stronach Construction Co., 115 N. Robertson Blvd., Los Angeles, has the contract for the construction of a 2-story and basement hotel building at the northwest corner of Orange and Crescent Heights Blvd., Los Angeles, for Chas. Wagner. It will cover an area 89x103 feet and will contain 40 rooms; cost, $150,000. Plans prepared by Architects Allen & Lutzi, 6112 Wilshire Blvd., Los Angeles. 10

13— PUBLIC BLDGS. FIRE HOUSES, JAILS

January 9, 1946

BIDS WANTED
SAN FRANCISCO.—Until January 22, 3 P. M., bids will be received by the Public Utilities Commission, Room 287 City Hall, under Municipal Railway Contract No. 245 for repairing Bryant St. warehouse.

Specifications obtainable from the cashier's office, sixth floor, 425 Mason St., upon deposit of $10. • 13

January 9, 1946

PLANS COMPLETED
GARAGE Approx. Cost, $25,000
OAKLAND, Alameda Co., Cal. East 14th St. at 25th Avenue.
Construction of one-story brick exterior garage building (60x120-ft.) with wood trusses.
Owner—Phil Davis, Chyrsler Distributor. 2547 E 14th St., Oakland.
Architects—Reynolds & Chamberlain, 3833 Piedmont Ave., Oakland.
Contractor—Willis F. Lynn, 2040 Folger Ave., Berkeley. • • 13

14— RESIDENCES

January 9, 1946

PLANNED
OFFICE BLDG. Cost, $75,000
SAN MATEO, San Mateo Co., Calif. Second Avenue across from the junior college gymnasium and San Mateo Clinic.
Construction of two-story structure, to house doctors' and dentists' offices on second floor and a large store on first floor.
Owner—Dr. G. L. Snell, 205 3rd Ave., San Mateo.
Architect—Not Announced. • • 16

January 9, 1946

PLANNED
LOS ANGELES, Calif. — Bershon Realty Co., 6633 W. Manchester Ave., Venice District, will build 21 three- and four-family, 15- and 20-room, frame and stucco apartment buildings in the 5900 block Guthrie Ave., Venice District, for Nate Bershon, 6633 W. Manchester Ave., Venice District. The buildings will cover an area of 32x71 feet and 32x79 feet; cost, $360,000. 14

January 9, 1946

BIDS OPENED
PITTSBURG, Contra Costa Co., Cal. —Pacific Pine Line, 2128 San Pablo Ave., El Cerrito, at $23,955 submitted low bid to the City of Pittsburg, F. R. Taormina, City Clerk, Council Chamber, City Hall, for housing erection and completion of addition to the filtration plant of the City of Pittsburg.

Other bidders were:

Adam & Arras & Son, 116 New Montgomery St., San Francisco, $30,917

Southern California Constr. Co., $31,055.

Bids held under advisement until next meeting of the City Council on Saturday. • 14

January 9, 1946

PLANS BEING FIGURED
RESIDENCE Cost, $10,000
VALLEJO, Solano County, Calif.
Construction of one-story frame and stucco residence.
Owner—Donald D. Duncan, c/o Arch.
Architect—Frederick H. Reimers, 79 Post St., San Francisco.

Plans are being figured by contractor E. J. Lehman, 51 Sharon St., San Francisco. • • 14

January 9, 1946

PLANS BEING FIGURED
RESIDENCE Cost, $30,000
SAN FRANCISCO. St. Francis Wood
Construction of two-story frame residence.
Owner—Dr. Morton Gibbons, care of Architect.
Architect—Frederick H. Reimers, 79 Post Street.

Plans are being figured by contractor E. J. Lehman, 51 Sharon St., San Francisco. • • 14

15— SCHOOLS

January 9, 1046

BOND ELECTION
EL MONTE, Los Angeles Co., Calif. —The voters of the El Monte Union High School District will vote January 29 on the proposal to issue bonds in the amount of $900,000 for a new high school plant at Mission Dr. and Encinita Ave., in the Rosemead District. (4) 217 c.y. concrete Class A;
(5) 11 c.y. concrete Class YY;
(6) 32,500 lbs. reinf. steel;
(7) lump sum, government furnished structural steel erected;
(8) lump sum, concrete filled steel grid bridge floors;
(9) lump sum, clean and paint existing structural steel.

Plans and specifications obtainable from the above office upon deposit of $10.00. 29

January 9, 1046

BIDS WANTED
STATE OF WASHINGTON.—Until January 22, 10 A. M., bids will be received by Clarence B. Shain, director of highways, at Olympia, Wash., for:

Whatcom County—Grading, surfacing, constructing bituminous surface plant mix type-class F on approaches to Nugent's bridge over Nooksack River, constructing reinforced concrete pile and slab bridge approaches to Nugent's bridge and constructing a reinforced concrete flat slab bridge over overflow channel of Nooksack River on 0.587 mile of primary state highway No. 1 (Austin Pass branch) in Whatcom County, Federal Aid Project No. F-202(5), involving about 24,720 cu. yds. of unclassified excavation, 3350 cu. yds. of selected roadway borrow, 850 cu. yds. of screened gravel surfacing, 8 tons of bituminous cement MC-2, 800 tons of bituminous mixture plant mix type class F, 1573 lin. ft. of beam guard rail, 777 lin. ft. of culvert pipe, 690 cu. yds. of concrete class A, 876 lin. ft. of reinforced concrete bridge railing, 140,000 lbs. of steel reinforcing bars, 5500 lin. ft. of pre-cast concrete piling and other items.

Yakima County—Grading and constructing two reinforced concrete slab bridges and one reinforced concrete T-beam bridge on 2.355 miles of primary state highway No. 5 (White Pass branch), Summit to Dog Lake, in Yakima County, Federal Aid Project No. F-211(10), involving about 23.2 acres of clearing, 11.4 acres of grubbing, 22,680 cu. yds. of common excavation, 105,630 cu. yds. of solid rock excavation, 274 cu. yds. of concrete class A, 147 cu. yds. of concrete class B, 33 cu. yds. of concrete class C, 91,000 lbs. of steel reinforcing bars, 1441 lin. ft. of culvert pipe and other items.

Clallam County—Grading, surfacing, constructing light bituminous surface treatment, constructing a reinforced concrete bridge 132 ft. long on 9.4 miles of primary state highway No. 9, Beaver to junction secondary state highway No. 9-B in Clallam County, Federal Aid Project No. F-170(9), involving about 6.7 miles of celaring, 11.0 acres of clearing, 7.4 acres of grubbing, 28,470 cu. yds. of unclassified excavation, 23,540 cu. yds. of selected roadway borrow, 24,030 cu. yds. of crushed stone surfacing, 2500 cu. yds. of crushed cover stone, 2020 cu. yds. of crushed mineral aggregate, 293 tons of bituminous cement MC-2, 245 cu. yds. of concrete class A, 35 cu. yds. of concrete class B, 67,000 lbs. of steel reinforcing bars, 487 lin. ft. of culvert pipe.

Plans and specifications obtainable upon payment of $2 for each copy at the office of the county engineer of the county in which the work is situated, the chapter office of the Associated General Contractors of America at Seattle, Spokane, Tacoma and Portland, and the offices of the district engineers of the Department of Highways. 29

January 9, 1046

BIDS WANTED
VICTORVILLE, San Bernardino Co., Calif.—Until January 14, 1 P. M., bids will be received by the U. S. District Engineer Office, 751 S. Figueroa St., Los Angeles, for the treatment of road pavements at the Victorville Army Air Field, Victorville, Calif.; Serial No. 146. 29

January 9, 1046

BIDS WANTED
STATE OF OREGON.—Until Jan. 17, 9 A. M., bids will be received by the Oregon State Highway Commission, R. H. Baldock, state highway engineer, third floor Public Service Bldg., Portland, Ore., for construction as follows:

Crook and Deschutes Counties—Redmond rock production project on four state highways; state project; approximately 12,000 cu. yds. crushed gravel in stockpiles.

Lincoln County — Waldport rock production project on three state highways; state project; approximately 10,000 cu. yds. crushed rock in stockpiles.

Marion County—Gates-Niagara section of N. Santiam secondary highway; Federal Project No. S-220 (2); 3.53 miles grading and bituminous macadam surfacing, furnish 3000 cu. yds. crushed rock in stockpiles, approximately 369,000 cu. yds. excavation, 490 cu. yds. concrete, 79,000 lbs. metal reinforcing, 40,700 cu. yds. crushed rock, 290 tons asphaltic materials.

Polk County—Buell and Salt Creek-Dolph Corner sections of the Dallas-Coast secondary highway; Federal Project No. S-215 (4); 4.02 miles grading and bituminous macadam surfacing, approximately 110,000 cu. yds. excavation, 130 cu. yds. concrete, 12,300 lbs. metal reinforcing, 36,000 cu. yds. crushed rock or crushed gravel, 310 tons asphaltic materials. This project may be bid in combination with Mill Creek Bridge project in Polk County.

Polk County — Bridge over Mill Creek on Dallas-Coast secondary highway near Buell; 68-ft. I-beam span with 60-ft. concrete approach at each end; Federal Project No. S-215 (4); approximately 90 cu. yds. excavation, 290 cu. yds. concrete, 64,000 lbs. reinforcing, 51,000 lbs. structural steel, 400 ft. metal handrail. This project may be bid in combination with the Buell and Salt Creek-Dolph Corner project in Polk County.

Washington County—Berger Ranch-Barnes Rd. section of the Wolf Creek highway; Federal Project No. F-186 (8); 3.92 miles of grading, also surfacing and oiling of road connections, approximately 341,000 cu. yds. excavation, 450 cu. yds. concrete, 68,000 lbs. metal reinforcing, 9100 cu. yds. rock or gravel base and surfacing materials, 52 tons asphaltic materials.

Washington County—105 ft. treated pile trestle bridge with concrete deck over McKay Creek on Wolf Creek highway; Federal Project No. F-186 (9); approximately 1500 ft. creosoted piling, 95 cu. yds. concrete, 20,000 lbs. reinforcing, 30 MFBM creosoted lumber, 230 ft. metal handrail.

Plans and specifications on file with Oregon State Highway Commission, Room 319 State Office Bldg., Salem, Ore., upon payment of $2. 29

30—RESERVOIRS & DAMS

January 9, 1946

PROPOSED
SACRAMENTO, Calif.—U. S. Bureau of Reclamation, Sacramento, is making a survey for the proposed Sly Jark Reservoir on the north fork of the Cosumnes River, 15 miles east of Placerville, to provide supplemental irrigation and domestic water, for the surrounding aeras and for other parts of the Central Valley Basin.

Plans call for an earth fill dam 140 ft. high with a crest length of about 600 ft. The reservoir would store about 20,000 acre-feet of water. 30

January 9, 1946

CONTRACT AWARDED
CENTRAL VALLEY PROJ., Calif. Williamette Iron & Steel Corp., Portland, at $6282 awarded contract by the Bureau of Reclamation, W. R. Young, Chief Engineer, Denver, under Spec. No. 1816-D, for furnishing and delivering fob cars at the shipping point or fob cars at Redding, at the option of the bidder, metal work for stop-log guides and seats for the penstock intake structure at Keswick Dam, Kennett Division of the Central Valley Project. 30

31—PIPE LINES & WELLS

January 9, 1046

CONTRACT AWARDED
TACOMA, Wash.—Western Pipe & Steel Co., 200 Bush St., San Francisco, at $177,044, awarded contract by City of Tacoma for furnishing and delivering pipe.

Other bidders were;
Steel Tank & Pipe Co., 518 NE. Columbia Blvd., Tacoma, Wash., $199,675.
Hydraulic Supply Manufacturing Co., 7500 8th St., Seattle, Wash., $232,177. 31

January 9, 1046

CONTRACT AWARDED
YAKIMA PROJECT, Washington—Goodfellow Bros., Inc., Wenatchee, Wash., at $89,132, awarded contract by the U. S. Bureau of Reclamation, Yakima, Wash., under Spec. 1111 for construction of earthwork, pipelines and structures, laterals 84.9 to 94.8 and sublaterals, Roza Division, Yakima Project, Washington. The work is located from 6 to 18 miles northeast of Prosser, Wash. 31

January 9, 1046

BIDS WANTED
SAN DIEGO, Calif.—Until January 25, 11 A. M., bids will be received by the U. S. Navy, Public Works Office, 11th Naval District, 1220 Pacific Highway, San Diego, for material and labor for the construction of new connections to the station existing fresh water piping with branches and outlets on piers No. 6 and 8; a new extension to the existing city 16-in. high pressure water main extending up to and including branches and outlets on piers No. 6 and 8; new facilities and equipment in existing boiler house No. 3, consisting in general of one new 400 h.p. water tube boiler with induced draft fan, oil burners and auxiliary equipment; new steam, water and oil piping connections to existing steam, water and oil piping systems, and including a new steam connection from the existing header to connect with outside new distribution system; new steam distribution system from existing boiler house No. 3 up to and including branches and outlets on piers No. 6 and 8, and connection to the existing air line along the existing quay wall, San Diego; Specification No. 17445.

The project includes in general earthwork, concrete construction, water piping, boiler plant additions, steam distribution system, compressed air distribution system and miscellaneous related work. Plans and specifications available from the above office upon deposit of $10. 31

32— SEWERS & SEWAGE DISPOSAL PLANTS

January 9, 1046

BOND ELECTION
EL CENTRO, Imperial Co., Calif.—Voters of the City of El Centro will hold a special election January 29 calling for the sale of $375,000 in bonds; which, if approved, will provide for the improvement of the city water system and storm sewers. The storm sewer will provide drainage for the busines snad residential districts and vegetable packing sheds, through a 5-ft. reinforced concrete conduit. Plans and specifications prepared by Engineers Lippincott & Rowe, 714 W. Olympic Blvd., Los Angeles. 32

January 9, 1946

PREPARING PLANS
SAN DIEGO, Calif.—The City of San Diego, Neal D. Smith, city engineer, Civic Center, San Diego, is preparing plans and will issue a call for bids about February 10 for the construction of a trunk sewer line along Mission Valley Rd., San Diego. Work involves excavating and the laying of approximately 11 miles of 15- and 27-inch vitrified clay pipe; estimated cost, $400,000. 32

33—WATERWORKS

January 9, 1046

BIDS WANTED
EVERETT, Wash.—Until January 27, bids will be received by A. Murray, manager, Snohomish County PUD No. 1, for construction of water system (estimated cost $250,000), in Lake Stevens area.

The work involves:
(1) lump sum 250,000-gal. concrete reservoir with pump and valves and appurtenances, reservoir overflow and fence;
(2) 2 pumphouses;
(3) 975 ft. 8-in. cement asbestos water main installed;
(4) 21,750 ft. cast iron distribution main installed;
(5) 20,450 ft. 4-in. cast iron distribution main installed;
(6) 3750 ft. 3-in galvanized steel pipe furnished and installed;
(7) 14,750 ft. 2½-in. galvanized steel pipe furnished and installed;
(8) 2650 ft. 2-in. galvanized steel pipe furnished and installed;
(9) 750 ft. 1½-in. galvanized steel pipe furnished and installed;
(10) 9 6-in. gate valves installed with standard cast iron valve box and cover;
(11) 10 4-in. gate valves installed with standard cast iron valve box and cover;
(12) 5 3-in. gate valves furnished and installed with standard cast iron box and cover;
(13) 6 2½-in. gate valves furnished and installed with standard cast iron box and cover;
(14) 2 automatic air reflector valves;
(15) lump sum, bridge crossing and 6-in. cast iron blowoff connection;
(16) 325 ft. 6-in. cast iron flexible joint pipe crossing at bridge No. 125 on Vernon Rd.;
(17) 100 ft. 4-in. pipe bridge crossing, pipe wrapped and suspended on timber pile bridge;
(18) 400 ft. 2½-in. pipe bridge crossing, pipe wrapped and suspended on timber pile bridge;
(19) 210 ft. standard service connections with ⅝-in. x ¾-in. meter and box;
(20) 90 standard service connections with ⅝-in. x ¾-in. meter and box;
(21) 6 service connections with 1-in. meter and box;
(22) 1 service connection with 1-in. meter and box;
(23) 2 service connection with 1½-in. meter and box;
(24) 2 service connections with 1½-in. meter and box;
(25) 2 service connections with 2-in. meter and box;
(26) 2 service connections with 2-in. meter and box;
(27) 5 6-in. fire hydrants;
(28) 5 4-in. fire hydrants;
(29) 5 plugged tees, 6-in., with connection for future fire hydrants;
(30) 5 plugged tees, 4-in., with connections for future fire hydrants.

Plans and specifications obtainable from Consulting Engineer James W. Carey & Associates, Alaska Trade Bldg., Seattle, Wash. 33

January 9, 1046

BOND ELECTION
TORRANCE, Los Angeles Co., Calif.—The voters of Municipal Water District No. 1, Torrance, will hold an election January 15 calling for the sale of $150,000 in bonds, which, if approved, will provide for the establishment of a new water district and the construction of a water works system. 33

January 9, 1946

BIDS OPENED
SAN FRANCISCO.—F. T. Fairey, 1874 25th Ave., San Francisco, at $2534.96, submitted low bid to the Public Utilities Commission, Room 287 City Hall, under Water Department Contract 412 for 6- and 8-in. water mains on 42nd Ave. between Quintara and Rivera.

The work involves:
(1) 900 l.f. excav. and backfill;
(4a) 760 l.f. install B&S pipe;
(4b) 140 l.f. install B&S pipe;
(5) 1300 lbs. install fittings and valves;
(6a) 120 lbs. make B&S joints;
(8) 44 ¾-in. screw taps install;
(9) 900 l.f. ¾-in. service pipe install;
(10) lump sum, field inspection nine calendar days at $14.08 per day;
(A) materials furnished and services rendered by the San Francisco Water Department, $1412.30.

Complete bids follow:
F. T. Fairey, (1) $0.45, (4a) $0.13, (4b) $0.16, (5) $0.04, (6a) $0.70, (8) $1, (9) $0.29, (10) 12 days; total, $2534.96.
San Francisco Water Department, (1) $0.60, (4a) $0.10, (4b) $0.12, (5) $0.04, (6a) $0.70, (8) $1, (9) $0.27, (10) 15 days; total, $2703.60. 33

Machinery & Material

SAN FRANCISCO CITY

SAN FRANCISCO.—Until January 25, 3 P. M., bids will be received by M. H. Gerry, Purchaser of Supplies, 270 City Hall, San Francisco, under Inv. No. 3454 for furnishing and delivering to Riverbank, Calif., one 44-ft. and four 50-ft. steel towers for Hetch-Hetchy system.

Specifications obtainable from the above office.

SAN FRANCISCO.—Until January 21, 3 P. M., bids will be received by M. H. Gerry, Purchaser of Supplies, 270 City Hall, San Francisco, under Inv. No. 3456 for repairs to three motor coaches for the Municipal Railway.

Specifications obtainable from the above office.

SAN FRANCISCO.—Until January 18, 3 P. M., bids will be received by M. H. Gerry, Purchaser of Supplies, 270 City Hall, San Francisco, under Inv. No. 3445 for furnishing and delivering refrigeration supplies for the School Department.

Specifications obtainable from the above office.

Pacific Northwest

(Continued from Page One)

Post Falls Unit, Rathdrum Prairie Project.
In northern Idaho, construction will be continued on the Post Falls Unit of Rathdrum Prairie Project. Facilities will be completed there during the winter to serve the entire 3,500 acres in the unit next spring. No supplemental appropriation was requested, as adequate funds were available for this work.

WASHINGTON

Roza Division, Yakima Project.
With the 47,000-acre gravity unit of the Riza Division of the Yakima Project in south central Washington scheduled for completion by early summer, the Bureau this spring will initiate construction of pumping facilities to service an additional 25,000 acres in this highly productive area. The supplemental appropriation of $1,650,000, plus what remains of a regular appropriation of $325,000 and an unexpended balance on June 30, 1945, of $251,299, will be used to begin construction of 19 pumping plants. Ten of these are to be completed to serve the best 10,000 acres of land in the vicinity of Yakima, Sunnyside and Prosser this year.

Also scheduled is the completion of an 11-mile long wasteway for the protection of lower lands and existing farms when irrigation is started on other land, construction of pumping laterals and waste water diversion channels concurrently with the development of the lateral system, construction of 85 miles of tranmission lines and substations ofr serving lands to be developed for irrigation pumping, and other work.

Columbia Basin Project.
For the current fiscal year, $18,749,000 was made available for the Columbia Basin. This total includes a regular appropriation of $6,000,000 and a supplemental allotment of $10,275,000. The remainder was unexpended balance. Under the program outlined with the money on hand, the Bureau will begin initial construction of a giant pumping plant and other facilities required to bring water from the Columbia River to the million acres of fertile land to be irrigated.

Approximately $2,000,000 was made available for the purchase of land in the irrigable area from owners who, under the project act, must dispose of excess holdings. Later the land purchased will be divided into family-size units and made available to settlers. Considerable work at Grand Coulee Dam, including the transfer of two 75,000-kilowatt generators to Shasta Dam, from where they were borrowed as a war expediency, repair of the spillway bucket, and construction of industrial facilities, is also scheduled.

WESTERN MONTANA

Hungry Horse Project.
With the $1,500,000 made available by Congress in the supplemental appropriation for Hungry Horse Project, near Kalispell, Montana, and the unexpended balance of the regular appropriation of $200,000, the Bureau of Reclamation will seek to complete all surveys and plans, initiate construction of a paved highway to the dam site, initiate clearing of heavy timber and brush growth from the dam site, lay out a government town site, initiate clearing of the reservoir near the dam site, complete surveys for the relocation of roads and Forest Service facilities, and purchase some right-of-way. Every effort will be made to bring plans to the stage where early construction can be undertaken.

PLANS and Speculations

Take it as it comes. . Postwar construction of highways and roads throughout SOLANO COUNTY will be the principal topic of discussion at a meeting of the Board of Supervisors to be held in Fairfield January 24. . . . One of SISKIYOU COUNTY'S major road construction projects, the proposed $685,000 road from Tulelake to Dorris, involving 19 miles across the lower Klamath Lake, started rolling when the Board of Supervisors approved plans prepared and submitted bv County Engineer Albert F. Parrott. Bid call is planned for early spring.

oOo

Supervisors of PLACER COUNTY have purchased an 18 - acre tract of land in Forest Hill. The land will be the site of a veterans' memorial hall. . BUTTE COUNTY Board of Supervisors, in a surprise action, reversed their decision of two months ago and discarded the proposed Chico-Paradise cutoff. They voted instead to improve Neal Road, which now connects Chico and Paradise, and to extend it to Stirling City.

oOo

Col. Geo. Mayo, United States District Engineer, has informed authorities in NAPA and SONOMA Counties that United States Army Engineers have been authorized to make a survey of the Napa River relative to flood control. A hearing has been slated in the Napa County courthouse on Wednesday, January 23. The survey will supplement one already made by Army engineers for navigation on the stream and which resulted in approval of a $900,000 project for straightening and deepening the channel from Mare Island to the head of navigation at Napa. The project, approved by the Rivers and Harbors Committee in Washington, D. C., probably will be included in the next Rivers and Harbors bill.

oOo

The State of California has completed plans for highway construction estimated to cost $114,451,000 and has an additional $22,327,000 worth of projects on drawing boards, the Public Roads Administration has announced. To assist in construction of highways, farm to market roads and streets in cities of more than 5000 population, the Federal Government has made $22,303,236 immediately available to California.

oOo

NEW DEVICE WILL MEASURE HEAT RADIATION

A new calculating device for measuring radiation for steam and hot water heating systems has been announced ready for public distribution after several years of research and use by heating authorities.

It is claimed this new calculating device Heat-O-meter (physically a round disc with three concentric celluloid printed discs) eliminates the tedious figuring, usually necessary to determine the correct amount of radiation, and con successfully and easily be used by anyone without previous technical training as its operation is rapid, not involving subtractions, divi-ions, complicated multiplication, nor the use of a formula. Just the simple turning of a dial and the correct answer is received.

It is also stated that this dial contains sizes of mains, returns, risers, radiator sizes and capacities, round and sectional boiler net ratings, chimney flue sizes and capacities with minimum and maximum heights, hot water tank sizes and capacities, fuel oil tank sizes and capacities, hot water generator capacities and other valuable heating information enabling plumbers, steamfitters, architects, builders, oil burner and heating salesmen and all individuals who come in contact with heating problems to have the correct answers at their finger tips.

Additional information may be obtained by writing Heat-O-meter, 424 West 42nd St., New York 18, New York.

—V—

A $2,000,000 expansion of the laboratories and plant of the California Research Corporation is included in the $10,000,000 expansion and replacement program being undertaken for the coming year at the RICHMOND plant of the Standard Oil Company.

Record Production Anticipated For Rubber Industry

The rubber industry is expected to produce goods in 1946 with a value of $1,500,000,000, an increase of 66 per cent over the corresponding figure of $900,000,000 in 1939, the last wholly peacetime production year.

Major part of this record production will be accounted for by tires. Operating at capacity, the industry is expected to produce more than 80,000,000 units, of which 66,000,000 will be passenger car tires. Previous largest passenger car tire output was 50,000,000, in 1941. Achievement of the 66,000,000 goal of 1946, which is at the rate of more than two tires a second, will ease the tire shortage, but not noticeably until the latter half of the year.

Other goods, such as footwear, golf balls, "Lastex", and drug sundries, will also be scarce in the early part of the year, but with the industry geared for capacity output, supplies will greatly increase as the year progresses.

Total consumption of rubber by the United States in 1946 is estimated at 900,000 tons, which compares with the previous high of 780,000 tons in 1941, and an average of 540,000 tons in pre-war years. Of the 900,000 tons, approximately one-third may be natural rubber and the remainder various kinds of synthetic rubbers.

World consumption of all types of rubber for 1946 is placed at 1,400,000 tons. The year's potential world production of all such rubbers is estimated at 1,900,000 tons, of which 1,200,000 is synthetic capacity in the United States.

—V—

NEW SAFETY FLUE IS ANNOUNCED

New Castle Refractories have announced the new Pittsburgh Safety Flue, the use of which is said to eliminate the weakest point in chimney construction. It is described as a single refractory casting, furnishing in one operation a complete unit to receive the furnace installation. Provided in the construction are a flue entrance, a flue liner, a baffle plate to increase draft and prevent soot fires, and a clean-out opening with closure. This single refractory casting is tested to withstand 2400 deg. F. for safety and to assure that flue drafts will not be impaired by openings due to grouting shrinkage. It is approved by Fire Underwriters.

The Pittsburgh Safety Flue eliminates the multiple joints, cracks and patches necessitated by old fashioned chimney construction. It prevents sparks, flames or fumes from escaping at the joint where the furnace flue enters the chimney. By having the clean-out opening project from the wall, convenience is claimed, since this feature permits placing a receptacle under the opening for complete capture of loose soot. A plug type closure, also made of refractory, eliminates hinges, prevents rusting and sticking. Made in standard size 9 x 13-inches outside flue dimensions, the Pittsburgh Safety Flue is designed to receive flue pipe of 7-, 8-, 9- and 10-inch diameter. For complete information write New Castle Refractories, Department No. 9, New Castle, Pa.

First New Multiple-Purpose Steel Since War Is Revealed by Carnegie-Illinois

The first new multiple-purpose steel since the war ended has been announced by J. L. Perry, president of Carnegie-Illinois Steel Corporation, a United States Steel subsidiary. Known as "Stainless 'W'" because it is a member of that glamorous family of alloy steels, the new composition belongs rather to the class of working steels and will find broad use in the industrial machines of postwar America.

Brought to perfection and patented by research technicians of historic Wood Works of Carnegie-Illinois at McKeesport, Pa., this newest member of the stainless family is said by Perry to combine for the first time the high strength and corrosion resistance of standard 18-8 stainless steels with hardenability obtained through heat treatment. As a result of these three vital industrial properties, Stainless W is expected to find wide application in wrought and cast forms in the machinery field and is also available in strip, sheet, wire and tube form.

Experience with this new steel during the war, because of which it has been wrapped in secrecy until now, demonstrated that it can be treated successfully in standard equipment, and no difficulty is encountered through warping or dimensional changes in the course of hardening operations. It is readily fabricated, and high joint efficiencies may be achieved by spot welding, as well as with metallic arc, atomic hydrogen and heli-arc welding equipment. Machinability, as proved by shop tests, is slightly better than with austenitic 18-8 stainless steel.

Preliminary commercial applications of Stainless W indicate its usefulness where strength, hardness and corrosion resistance, all or in part, are essential, as in cams and rollers in food handling and bottling equipment. It also shows promise for application in bearings, pump valves and seats, plug valves and other parts subjected to service in food handling and bottling equipment, as well as in the oil and chemical industries. Its strength and corrosion resistance promise further advantages for structural members.

Of the chemical elements that are ingredients of the new composition, titanium is said by Carnegie-Illinois metallurgists to give it its prime distinction, the optimum proportion of this element being found in the range of 0.40 to 1%. In addition to titanium, for which columbium may be substituted at will to produce precipitation hardening, and iron, Stainless W contains carbon, nitrogen, manganese, silicon, nickel, chormium, and aluminum.

"Unlike the standard 18-8 austenitic types of stainles steel, Stainless W is magnetic," said R. E. Zimmerman, vice president of United States Steel Corporation of Delaware in charge of research and technology, when asked to comment on the new Carnegie-Illinois product. "This may mean much in future usefulnes that is not immediately apparent. We also know that it can be subjected to drawing operations and given intermediate anneal as often as desired in the course of forming and then given a thermal age-hardening treatment to develop high physical properties on the entire piece. This characteristic makes the steel a promising material for parts requiring forming and ultimate high strength in the finished piece."

Stainless W can be rolled into billets, bars, sheets or shapes, drawn into wire or pierced for tubing—or it may be wrought as desired to any shape or size. The finished product is unique in that it is amenable to heat treatment to develop uniformly high hardness throughout large cross sections. In addition, it possesses high resistance to most corrosive media. Results of 100 - hour immersion tests in coiling copper sulphate-

Did You Know That . . .

Joseph Musto Sons-Keenan Company, pioneer marble importers, have announced that within a few weeks they will be back in full scale operation. The firm was established in 1866 and this announcement heralds the conclusion of their third interruption in operations during their business life. The first shut-down came with the fire and earthquake of 1906, and world wars accounted for the other two. Their San Francisco office and mills are located at 501-575 North Point Street. The Los Angeles branch is located at 1801 South Soto Street.

-O-

Fred Wear and **Phil Schwartz** have opened offices as Western States representatives of the Fuse Indicator Corp. of Rockville, Maryland. Newest item handled by the firm is the "Blowglow" electric light switch. The plate of this switch is equipped with a small neon lamp within a housing and is so automatically arranged that when your lights are out "Blowglow" is on, and vice versa. The firm will also handle a dead front fuse holder which works on a similar principle in that when a fuse blows a small neon lamp, located at top of the fuse holder, is lighted facilitating a safe rapid change. This product will soon be released to civilian use, the U. S. Navy having taken factory output during the war. Wear and Schwartz are at present located at 420 Market Street. Telephone SUtter 8854.

-O-

Ernest Werthheim, landscape architect, announces reopening of offices. San Francisco: 222 El Camino Del Mar, telephone SKyline 3457; Los Angeles: 6637 Cahuenga Terrace, telephone Hillside 8732. The firm is prepared for landscape consultation, planning, supervision of construction, or complete construction as desired, and specializes in exterior decoration of hotels and resorts.

-O-

Newsom and Bechtel, general contractors, formerly located at 2287 Telegraph Avenue, Berkeley, announce the moving of their offices to their newly constructed quarters at 5760 Shellmound Street, Emeryville 8, telephone OLympic 5572.

-O-

S. J. Amoroso Construction Company is removed from its former location at 2136 Alemany Blvd., and is now established in new quarters at 2100 Oakdale Avenue, San Francisco. Telephone MIssion 1490-1491.

GROOVER AND I

TAX-FREE PROFITS

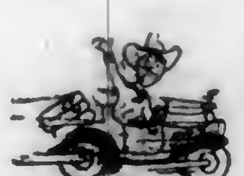
For me this has been a good holiday season. It has been made so by the readers who have had the thoughtfulness, and taken the time to send in a word of appreciation of this daily offering.

* * *

Of course, the Publishers pay the manufacturing or production cost of this column, but my profit and real compensation is the knowing that the effort is appreciated. This "profit", which cannot be measured in dollars and cents, is very real and gratifying. It is tax-free and not subject to deductions.

* * *

You each know to whom I speak this "Thank You". I have been given great treasure at the cost of a moment of your time and a 3c stamp.



—V—

MOTORISTS CAUTIONED

Bureau of Reclamation officials at Coulee Dam caution motorists that a temporary fill has been placed across the secondary State highway near the west abutment to Grand Coulee Dam and they should slow down when approaching the area. They also warned that tracks of the Government-owned railroad cross the fill at two points.

Although passable in all weather, the fill will remain rough for many months to come because it is used constantly by heavy trucks carrying rock being removed from an area opposite the pumping plant. The highway is the only approach to the dam from the south. The northern route to the dam, through Okanogan, Omak and Nespelem, is not affected.

CPA Issues New Housing Priority Regulation No. 33

The Civilian Production Administration, in an effort to relieve the critical housing situation and to assist builders in obtaining materials, has issued Priority Regulation No. 33, which provides for the issuance of preference ratings on houses costing $10,000 or less and renting for $80 or less, in connection with preference in purchase or occupancy granted to veterans.

Dated December 21, 1945, and effective January 15, 1946, the regulation was directed to all Directors of State and district offices of the Federal Housing Administration, which has been designated to act as processing agents in this program, under the terms of which an HH rating has been established on the following critical housing materials: Common and face brick; clay sewer pipe; structural tile; gypsum board and lath; cast iron soil pipe and fittings; cast iron radiation; bath tubs and cast iron fixtures; and lumber and mill work. Additions or deletions from this schedule may be made from time to time by CPA.

The regulation provides that applicants must give in general specifications and plans of what is proposed to be built under the Reconstruction Housing Program and must specify the sales price or rental at which the residence will be made available to veterans. The FHA will judge whether all conditions are reasonable in relation to the utilities offered.

Applicants must show that they are ready and able to start construction within 60 days after receiving a preference rating; that they have effective control of the land; that financing is assured; and that local building permits, utility services, etc., have been provided for. The application must be renewed if the work is not started in the designated time. Furthermore, the applicant must agree to make the residence available only to veterans during the period of construction and for 30 days thereafter, at the conclusion of

30—RESERVOIRS & DAMS

January 9, 1946

BIDS WANTED

CANTON, Blaine Co., Okla.—As previously reported, until February 7 (tentative date), bids will be received by the U. S. District Engineer Office, P. O. Box 61, Tulsa, Okla., for the construction of spillway and completion of embankment, Canton Dam, on the North Canadian River, in Blaine County, about two miles north of Canton, Okla.

The completed project will consist essentially of a rolled earth fill embankment, four rolled earth fill dikes, concrete spillway and control works and service buildings. The four dikes, a portion of the embankment and part of the excavation for the spillway have been completed by a previous contract. Plans and specifications available at the above office upon deposit of $35 and will be accessible for inspection at the U. S. Engineer Office, 751 S. Figueroa St., Los Angeles.

The work involves:

(1) 2,000,000 cu. yds. excavation;
(2) 1,700,000 cu. yds. fill;
(3) 10,000 cu. yds. sand in drainage trench;
(4) 180,000 cu. yds. (regular bid) and 300,000 cu. yds. (alternate bid) protection stone and including crushed rock, riprap and derrick stone;
(5) 120,000 bbls. cement;
(6) 1,000,000 lbs. reinforcement steel;
(7) 110,700 cu. yds. concrete;
(8) 3600 lbs. copper water stops;
(9) 140 lin. ft. 4-in. concrete pipe;
(10) 125 lin. ft. 15-in. corrugated metal pipe;
(11) 500 lin. ft. 6-in. vitrified clay pipe;
(12) 3600 lin. ft. 6-in. perforated vitrified clay pipe;
(13) 33,800 lbs. miscellaneous wrought iron pipe;
(14) 40,000 lbs. miscellaneous cast iron pipe;
(15) 95,000 lbs. miscellaneous metal work;
(16) 62,800 lbs. miscellaneous iron and steel castings;
(17) 5000 lbs. miscellaneous non-ferrous metals;
(18) 47,000 lbs. lead;
(19) 240,000 lbs. tainter gate embedded metal;
(20) 12,000 lbs. tainer gate steel forgings;
(21) 6700 lbs. rubber seals, molded;
(22) 20,000 lbs. tainer gate corrosion-resisting steel;
(23) 900,000 lbs. tainer gate movable parts;
(24) lump sum, tainer gate operating machinery;
(25) lump sum, 3 tractor-type sluice gates and 1 emergency gate, with frames, guides, hoists and conduit liners;
(26) lump sum, standby electric generator unit;
(27) lump sum, masonry service building including water treatment plant therein;
(28) lump sum, elevated water storage tank;
(29) 20,000 lbs. metal conduit;
(30) 5500 lin. ft. 2-in. fiber duct;
(31) lump sum, electric wiring, fixtures and equipment;
(32) 1000 sq. yds. sodding, Bermuda;
(33) 12,000 sq. yds. sodding, buffalo grass. 30

R. Flatland, (1) $13.25; (2) $14.50; (3) $12.50; (4) $12.50; (5) $175; (6) $70; total, $11,296.

M. & K. Corp., (1) $17.50; (2) $20; (3) $5; (4) $5; (6) $250; (6) $80; total $14,675.

Martin Murphy, (1) $17; (2) $25; (3) $25; (4) $15; (5) $200; (6) $150; total, $14,706. • • 32

January 10, 1946

BIDS WANTED

FORT MacARTHUR, Los Angeles Co., Calif.—Until January 17, 1 P. M, bids will be received by the U. S. District Engineer Office, 751 S. Figueroa St., Los Angeles, for the construction of additional sewage facilities for personnel center at Fort MacArthur; Serial 144.

The work involves:

(1) 80 lin. ft. remove and replace concrete pavement;
(2) 410 lin. ft. remove and replace asphalt pavement;
(3) 25 lin. ft. 12-in. vitrified clay pipe sewer;
(4) 1060 lin. ft. 8-in. vitrified clay pipe sewer, unencased;
(5) 16 lin. ft. 8-in vitrified clay pipe sewer, encased;
(6) 350 lin. ft. 6-in. vitrified clay pipe sewer;
(7) lump sum, pump discharge line;
(8) 4 each manhole bases;
(9) 16 lin. ft. manhole shaft;
(10) 4 each manhole frame and cover set "A";
(11) lump sum, sewage control gates and valves;
(12) lump sum, revisions at existing manholes;
(13) lump sum, sewage pump station and junction box;
(14) lump sum, extensions of electric distribution system;
(15) lump sum, installation of pumping equipment. 32

January 10, 1946

LOW BIDDERS

LOS ANGELES, Calif. — Guy F. Atkinson Co., Orange and Railroad Aves., South San Francisco, at $3,517,410, submitted low bid to Los Angeles Board of Public Works, Room 153 City Hall, Los Angeles, for the construction of Ocean outfall sewer from Hyperion activated sludge plant. The site of work is located at Hyperion Beach on Santa Monica Bay, commencing at a point 144 ft. east of the center line of the Pacific Electric Railway right-of-way, being approximately 600 ft. south of the existing Hyperion pier, and extending in a westerly direction approximately 5424 ft. The work involves:

(A) Construct the reinforced concrete ocean outfall sewer line and appurtenances;

(B) Excavate and backfill to the prescribed lines and elevations;

(C) Construct the steel H-pile foundations;

(D) Construct the concrete footings and concrete encasement for the ocean outfall sewer;

(E) Fabricate and install the reinforced concrete pipes;

(F) Demolish and remove the existing portion of the Hyperion piers;

(G) Furnish labor and material, except that furnished by the city or others to complete the work in 450 calendar days.

Plans were prepared by Lloyd C. Aldrich, Los Angeles city engineer.

Second and third low bids follow:

Pacific Bridge Co., San Francisco, $3,699,267.

Pacific Marine Constructors, joint venture, composed of Grafe-Callahan Construction Co., Gunther & Shirley, Peter Kiewit, Condon - Cunningham, J. D. Proctor and B. W. Kune, $3,886,594.

All figures are unofficial and subject to change. • 32

RECLAMATION BUREAU

CENTRAL VALLEY PROJECT, Calif.—Until January 18, 2 P M., bids will be received by the U. S. Bureau of Reclamation, Custom House, Denver 2, Colo., under Inv. D-33,250-A for steel reinforced bare aluminum stranded conductor, compression connectors, etc., f.o.b. shipping point and/or Marysville, and/or intermediate points between Sacramento and Oroville, Oroville-Sacramento 230 kv. transmission line, Central Valley Project.

Specifications obtainable from the above office. •

Priority Regulation

(Continued from Page 1)

which time it may be made available to non-veterans, but on the same terms. Likewise a veteran purchaser must pledge the same terms in reference to resale and at the same price or rental, or in the event of conversion to increase housing facilities.

The principal objective of the order is to give assistance to builders in obtaining critical materials, 50% of which the CPA is endeavoring to earmark or channel into the Reconstruction Housing Program.

New Steel Revealed

(Continued from Page One)

sulphuric acid solution, evaluated by bend tests and microscopic examination, showed this steel is not susceptible to intergranular corrosion, and three and one-half years of exposure in marine, industrial and semi-rural atmospheres demonstrated it is equivalent in corrosion resistance to the more common 18-8 types.

Technological details concerning this new steel will be presented in a technical paper, "A Precipitation Hardening Stainless Steel of the 18% Chromium-8% Nickel Type," by R. Smith, E. H. Wyche and W. W. Gorr before the February meeting of the American Institute of Mining and Metallurgical Engineers in Chicago. The authors of this paper are metals technicians who played a major role in the development of Stainless W.

The "W" was added to the new steel's name in honor of Wood Works, where this steel was born in wartime, its birth being kept secret due to military necessities. Wood Works is one of the oldest plants of Carnegie-Illinois. It was erected in McKeesport in 1851 for the production of hammered iron sheets to compete with imported Russian iron. The founder of the plant went abroad in the fifties to study Russian production methods, then returned to McKeesport and operated his plant with such success that the foreign product was soon driven from the American market. The plant now specializes in the rolling of stainless steels for special purposes.

Fifty-sixth Year—Vol. 56—No. 8 SAN FRANCISCO, FRIDAY, JANUARY 11, 1946 PRICE 15 CENTS PER COPY

PLANS and Speculations

Construction projects totaling $5-111,380 for San Jose State College and $2,619,100 for Agnews State Hospital are listed among $154,000,000 worth of recommended State Agency building jobs submitted by State Director of Finance James S. Dean, to Governor Earl Warren.

oOo

The SUTTER COUNTY Board of Supervisors promised speedy action to install a new heating system in the county jail. The sheriff has suggested that the new system might incorporate an air cooling plant for use during the summer. . . all the comforts of home?

oOo

T. L. Quigley, chairman of the BUTTE COUNTY Farm Bureau's drainage committee, states that Congress has authorized the Army Engineers to make further study of Butte Creek drainage with a view of clearing out the channel from a point west of Nelson south to connect with the north end of Sutter Bypass near West Butte. Congress, according to Quigley, also has authorized the Army Engineers to proceed with repair and rebuilding of a tailings dam on Cherokee Canal north of the Oroville-Chico Road.

oOo

Construction of the proposed $26,000,000 Table Mountain Dam on the Sacramento River might destroy salmon valued at $520,000 annually, government fishery experts predicted.

oOo

A large U. S. Marine Corps base comparable to the huge establishment in San Diego, will be constructed soon on acreage owned by the Navy at TANFORAN in SAN BRUNO. High ranking Marine officers have been at the San Bruno base making a survey of buildings on 46 acres owned by the Navy.

oOo

Walter D. Skinner, Jr., president of the YOLO County Chamber of Commerce, recently announced the next meeting of his group will be devoted to formation of a strong organization to oppose the suggested high-level dam on Putah Creek. The Yoloans announce they are in favor of building a low, flood control dam on Putah Creek, as advocated by Army engineers, but they are opposed to the U. S. Reclamation Bureau's plan to build a high dam at Monticello and divert waters of Putah to Solano County cities for commercial and domestic purposes.

Another Immense Building Program Planned for Columbia Basin Project

COULEE DAM, WASH., Thursday, Jan. 10, 1946.—Work on 12 major structures in the Columbia Basin Project of south - central Washington probably will be authorized by the Bureau of Reclamation during the first six months of 1946, Supervising Engineer Frank A. Banks announced today. He said they will result in employment of "several thousand men" and ultimately will cost more than $100,000.000.

In revealing the schedule tentatively adopted for launching the biggest construction job ever contemplated in the Pacific Northwest, Banks explained that the building of the irrigation system for serving 17,000 new farms in an arid and semi-arid region will extend over a period of several years. He added that 1946 "will only be the beginning."

The proposed program for the coming six months, made possible by a recent $10,500,000 supplemental appropriation by Congress, calls for the start of three dams, three principal canals, three siphons, one tunnel, and two pumping plants.

Of the total supplemental money available in the first half of this year, about $8,000,000 will be for the irrigation features and $2,000,000 for inaugurating a land-purchase program. Excess land will be acquired by the Government, divided into family-size farm units, and resold (prior to the time water becomes available) to the first of the many thousands of settlers who will establish homes in the Basin.

In describing the immensity of the building program, Banks said that by midsummer construction probably will be under way "at several points from Grand Coulee southward to Pasco, 150 miles away."

Because no project approaching the Columbia Basin development has been undertaken in the Pacific Northwest, Banks explained that the amount of earth and rock to be handled—125,000,000 tons—will weigh six times more than Grand Coulee Dam, largest man-made concrete structure in the world and kingpin for the irrigation system. During the construction period, he asserted, the project will provide 240,000,000 man-hours of on-site and off-site employment. Of this total, more than 125,000,000 man-hours will be in direct employment in the Basin and 115,000,000 man-hours will be spread throughout the United States as industries manufacture the tremendous quantities of steel, cement, machinery, explosives, and other materials necessary for completing the irrigation structures.

"Two Grand Coulee Dams could be built with the man-hours of on-site work to be provided by the construction program," Banks commented. "Beneficial effects of the construction job will be felt in every State of the Union."

The supervising engineer has reported to Reclamation Commissioner Michael W. Straus that the 1946 construction timetable will be influenced by several factors, chiefly the availability of machinery, materials, and workers. Banks said the Bureau hopes to have portions of the permanent irrigation system ready to serve acreage in all three districts of the Basin by 1950 or 1951. Prior to that, however, the Bureau estimates it will begin providing water for about 6,000 acres in the Pasco region in 1947 by pumping from the Columbia River. The pumping plant will be about 14 miles northwest of Pasco.

As outlined by Banks, the Bureau's tentative schedule during the coming six months calls for initial work on the following structures:

Grand Coulee Dam Pumping Plant: Considerable work is contemplated in prepairing the rock wall at the pumping plant site immediately above Grand Coulee Dam, near the west aboutment. Placing of some concrete also is planned. The pumping plant, to be built by Government forces, will house the world's largest pumps to serve the irrigation network. Installation of the first pump is planned to start in November, 1948, with others to follow at 60-day intervals. These pumps will force water from Lake Roosevelt (formerly the Columbia River Reservoir) into the Grand Coulee, where two earth-and-rock dams, 27 miles apart, will impound the water.

Feeder Canal: This immense, concrete - lined channel will lead from the pumping plant outlet to the North Dam in the Grand Coulee and will be capable of handling 120,000 gallons of water (1,000,000 pounds) each second. Because much of the work will be seasonal, the job will be completed by Government forces.

South Dam: This dam, an earth-and-rock structure, will extend across the Grand Coulee in the vicinity of Coulee City and will impound water in the Grand Coulee Equalizing Reservoir for the irrigation system. It will be about 10,000 feet long, have a maximum height of 60 feet, and is to contain approximately 1,400,000 cubic yards of material.

Long Lake Dam: This dam, located about 12 miles south of Coulee City, will save several miles of costly canal construction by permitting use of an abandoned channel of the Columbia River. It will be about 1,650 feet long, have a maximum height of 100 feet, and require about 1,000,000 cubic yards of earth and rock.

Main Canal: Far larger than most rivers, this canal will be approximately 25 miles long. It will begin at the South Dam, near Coulee City, and carry water to a point about two miles north of Adrian, Grant County, where it will separate into the West Canal and the East Low Canal. Parts of this canal will be capable of carrying 13,200 cubic feet of water per second, greater than the combined average flows of the Methow, Chelan, Entiat, Wenatchee and Yakima Rivers of Eastern Washington.

Potholes Dam: Nearly 3 miles long, this dam will be near the central portion of the project and is intended to capture seepage and return flow from irrigated lands tributary to it. The Potholes Dam will require about 11,000,000 cubic yards of earth and rock and will have a maximum height of 110 ft.

West Canal: Branching from the main canal near Adrian, the West Canal will be 88 miles long and carry water sufficient for 280,000 acres in the westerly portion of the project. It could handle the combined average flows of the Entiat and Yakima Rivers of Washington.

East Low Canal: Longest in the irrigation system, this canal will weave its way through the eastern portion of the project for 130 miles and will be capable of serving 252,000 acres.

Pasco Pumping Plant: This pumping plant will be the first to be completed. It will lift water about 177 feet from the Columbia and will be capable of serving about 6,000 acres northwest of Pasco.

Pasco Laterals: A complete system of laterals will be built to serve the 6,000 acres supplied by the Pasco Pumping Plant. About 100 farms will receive water thru this system of small canals.

PLASTERERS' ASSN. ELECTS OFFICERS

The Master Plasterers Association elected the following new officers for 1946: Frank D. Smith, President; A. W. Cordes, Vice-President, and Otis Lee, Secretary-Treasurer.

G. H. Martinelli, retiring president, who held the office since 1939, was presented with a lifetime, solid gold pen and pencil set by the new president.

GROOVER AND I

GENERALS

There was some confusion caused **by a recent** column critical of the enthusiasm shown in demobilization by the General commanding the Air Transport Command.

★ ★ ★

The reference was to Lieutenant General Harold L. George who announced the bright news of rapidly demobilizing this still urgently needed arm of the services.

★ ★ ★

General "Jimmy" Doolittle (a Pacific Coast boy who made good) commanding the A.A.F., offered to return our foreign - stationed armies by air. He was given a quick frown by "high brass".

★ ★ ★

This isn't the first time our top military command has been looking at a thermometer instead of a clock or reading a calendar of the wrong year.

★ ★ ★

There was a boy born in Nice, France, who got a job as a Private in our Army during the Spanish-American War—and did fairly well for himself.

★ ★ ★

During the first American Legion encampment, better known as World War I, **William Lendrum Mitchell** was Chief of the Air Services in the Argonne.

★ ★ ★

Mitchell had wooden - and - cloth kites held together by wire and powered by OX-5 engines. These planes would easily make 100 miles per hour—if there was a good tail wind.

★ ★ ★

Our European allies thought well of Mitchell. He was awarded six major foreign decorations, including the Croix de Guerre with five palms, and Commander Legion of Honor by France.

★ ★ ★

In 1926 "Billy" Mitchell was court-martialed and suspended because he talked back to the brass-shirts and stuffed-hats of the War Department. **He insisted the airplane was here to stay!** He also suggested that planes could be launched from, and land on, the deck of battleships.

★ ★ ★

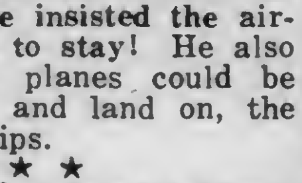
When suspended, he said tohellwithit and resigned Feb. 1, 1926. Army broke his rank, but not his spirit. He died Feb. 19, 1936.

★ ★ ★

Recently, Washington salved its conscience by posthumously awarding Mitchell a decoration and promoting him to the rank of Major General.

★ ★ ★

What does Billy Mitchell now care about General's stars? He is up walking around among real stars!



—V—

A new plastic claimed to remove almost any surface mars, greases, stains, etc., from the wall should prove to be a real boon to the housewife whose children have received a box of crayons for Christmas.

G. E. McGAVRAN
Managing Editor

The appointment of G. E. McGavran as Managing Editor of the Daily Pacific Builder has been announced by Carl Bennett, Regional Vice-President of F. W. Dodge Corporation, owners of the "Builder".

Mr. McGavran, formerly a local construction man, has just returned to civilian life after 28 months of service with the United States Navy, during which time he spent 16 months in the Pacific theatre of operations.

"This appointment," stated Bennett, "is for the specific purpose of having a staff man who is familiar with the construction industry and one who speaks the language of the contractor. It is another step forward in our postwar program, involving a vast expansion in the field of construction news coverage."

The F. W. Dodge Corporation is one of the larger publishing houses in the country and publish, in addition to the "Builder", the Denver Daily Journal, Architectural Record, Real Estate Record and Builders' Guide, Sweet's Files, Home Owners' Catalog, Dodge Reports, Dodge Statistical Research Service, and a number of other industrial service reports throughout the United States.

—V—

PAINTING A RADIATOR?

Be sure that the last coat of paint that you apply is the non-metallic kind, says the Plumbing and Heating Industries Bureau, in calling attention to the fact that a radiator finished with metallic paint will emit less heat than a similar one finished with non-metallic paint. It's only the last coat of paint, however, that makes any difference. The first coat may be metallic so long as the final coat is non-metallic.

COL. J. H. VEAL APPOINTED TO U.S.E.D. POST

Colonel George Mayo, CE, San Francisco District Engineer, USED announces the appointment of Col. Jesse H. Veal, CE, to the post of Chief, Engineering Division of the San Francisco District Office, replacing H. S. Pond who is retiring after more than 30 years with the Engineers in San Francisco.

During the early stages of defense construction in 1939, Colonel Veal was Constructing Quartermaster at Fort Mason, and in December 1941, when all military construction was transferred to the jurisdiction of the Corps of Engineers, the Colonel was assigned to the San Francisco Engineer District and placed in charge of local construction. After leaving this installation in December 1942, Colonel Veal assumed the duties of District Engineer at Cincinnati, Ohio, and subsequently at Louisville, Kentucky. Just prior to his return assignment in San Francisco he held the post of Executive Officer of the North Atlantic Division Office.

Stainproof Wall Covering Will Be Introduced

A revolutionary stain proof wall covering, to be known as Varlon, will be introduced some time in July, 1946. The new product will be marketed by Varlon, Inc., a division of United Wallpaper, Inc., world's largest wallpaper manufacturers and originators of Unitized wallpaper and Trimz Ready-Pasted wallpaper, it was announced by William H. Yates, United president.

The result of nine years laboratory research and development, the new stainproof wall covering will permit the removal of almost any type of dirt, grease or stain by the simple application of soap and water. The product has been undergoing field tests for the last ten months where it has withstood severe wear and tear in numerous public places, such as government office buildings, restaurants, theatres, hotels, etc.

Field tests have proved that heretofore indelible stains, such as lipstick, hot grease, crayon, ink, etc., require only soap and water for removal.

BIDS OPENED

CENTRAL VALLEY PROJECT.—Judson Pacific Murphy Corp., 1200 17th St., San Francisco, at $48,059; $24 per day for engineers services; fob San Francisco, submitted low bid to the office of the Bureau of Reclamation, Denver, for furnishing and delivering fob cars at the shippoing point or fob cars at Redding, at the option of the bidder, a gantry crane, equipped with a trolley having a capacity of 40 tons and with a boom derrick having a capacity of 3½tons, for installation at the Keswick Dam, Kennett Division, Central Valley Project; Spec. 1112.

Derrick & Hoist Co., New York City at $84,750; $50 per day engineers services fob dest., submitted only other bid. • • 25

8.4 MILES GRADING, ETC., MONTEREY COUNTY

MONTEREY COUNTY, Calif.—A. Teichert & Son, Inc., Box 1113, Sacramento, at $795,692, submitted low bid to the State Division of Highways, G. T. McCoy, state highway engineer, Public Works Bldg., Sacramento, for about eight and four-tenths miles in length to be graded, crusher run base and plant mix surfacing to be placed and seal coat to be applied, between Santa Rita and eight-tenths mile north of Crazy Horse Summit in Monterey County.

The work involves:

(1) 150 cu. yds. removing concrete;
(2) 441 sta. clearing and grubbing;
(3) 430,000 cu. yds. roadway excavation;
(4) 83,000 cu. yds. fill treatment excavation;
(5) 10,500 cu. yds. structural excavation;
(6) 3000 cu. yds. ditch and channel excavation;
(7) 58,000 sq. yds. compact original ground;
(8) 625,000 mile yds. overhaul;
(9) 2000 cu. yds. mill material;
(10) 64,000 sq. yds. prepare slopes, slope erosion protection;
(11) 25 tons straw slope erosion protection;
(12) 6500 cu. yds. hauling and placing top soil;
(13) 167,000 each mesembryanthemum edule cuttings;
(14) develop water supply and furnish water equipment;
(15) 18,000 M gallons apply water;
(16) 441 sta. finish roadway;
(17) 90,000 tons crusher run base;
(18) 149 tons asphaltic emulsion seal coat;
(19) 1100 tons screenings seal coat;
(20) 410 tons liquid asphalt SC-2 prime coat;
(21) 38,500 tons minimum aggregate plant mix surfacing;
(22) 1750 tons liquid asphalt SC-5 or SC-6 plant mix surfacing;
(23) 45 tons liquid asphalt SC-3 plant mix surfacing stockpiles;
(24) 12,000 sq. ft. place plant mix surfacing ditches and slope drains;
(25) 300 lin. ft. raised bars;
(26) 3 each redwood covers;
(27) 1255 cu. yds. class A portland ceemnt concrete structures;
(28) 160,000 lbs. bar reinforcing steel;
(29) 47 each cast steel frames and covers for drop inlets;
(30) 30 cu. yds. portland cement concrete curbs;
(31) 90 each monuments;
(32) 5040 lin. ft. laminated guardrail;
(33) 4500 lin. ft. move and reconstruct guardrail;
(34) 400 lin. ft. timber barrier railing;
(35) 140 each culvert markers, project markers and guide posts;
(36) 30 each move and reset culvert markers, project markers and guide posts;
(37) 7.8 miles remove and reconstruct fences;
(38) 18 each ruby reflectors;
(39) 140 lin. ft. 8-in. plain concrete pipe;
(40) 180 lin. ft. 36-in. reinforced concrete pipe, standard strength;
(41) 230 lin. ft. 8-in. CMP, 16-gage;
(42) 1850 lin. ft. 18-in. CMP, 16-ageg;
(43) 770 lin. ft. 24-in. CMP, 14-gage;
(44) 360 lin. ft. 30-in. CMP, 14-gage;
(45) 160 lin. ft. 36-in. CMP 12-gage;
(46) 400 cu. yds. filter material underdrains;
(47) 1500 lin. ft. 8-in. perforated MP underdrains, 16-gage;
(48) 10 each spillway assemblies;
(49) 7 each pipe anchors;
(50) 22 each salvage spillway assemblies;
(51) 22 each install salvage spillway assemblies;
(52) 52 70 lin. ft. salvage existing cnocrete pipe culverts;
(53) 70 lin. ft. relay salvaged concrete pipe culverts;
(54) 270 lin. ft. salvage existing CMP culverts;
(55) 220 lin. ft. relay salvaged CMP culverts;
(56) 280 lin. ft. salvage existing spillway assembly downdrains;
(57) 280 lin. ft. relay salvaged spillway assembly downdrains;
(58) 124 lin. ft. salvage field assembled plate culvert;
(59) remove two existing timber bridges.

Total bids follow:

(A) A. Teichert & Son, Inc., $795,692.
(B) Fredricksen & Watson Construction Co., Oakland, $875,313.52.
(C) Harms Bros., Sacramento, $879,796.50.
(D) Charles L. Harney and Piombo Bros., $886,782.50.
(E) Macco Construction Co., Clearwater, $926,822.50.
(F) Guerin Bros., South San Francisco, $947,636.25.
(G) Guy F. Atkinson Co., San Francisco, $977,048.10.

32— SEWERS & SEWAGE DISPOSAL PLANTS

CONTRACT AWARDED

SAN PABLO, Contra Costa Co., Calif.—Fred J. Early Jr. Co., Inc., 369 Pine St., San Francisco, at $136,577.50, was awarded contract by the East Bay Municipal Utility District, Daniel Read, secretary, 512 16th St., Oakland, under LS 343 for construction of San Pablo filter plant extension.

The work to be covered by the proposals includes constructing three additional bifurcated rapid sand filter units of the gravity type, extending the existing filter building, installing large steel and cast iron pipe, constructing a concrete tank, grading, paving and making various alterations to existing structures. 33

33—WATERWORKS

January 11, 1946

BIDS OPENED

SAN MATEO COUNTY, Calif.—Edwin J. Tobin, 1000 Carleton St., Berkeley, at $3331, submitted low bid to the County of San Mateo, Frederick Peterson, county purchasing agent, Courthouse, Redwood City, for construction of a 4-in. class 150 cement-lined cast iron bell and spigot pipe water main with gate valves, etc., on Sevier Ave. between Newbridge Ave. and Hamilton Ave., in Newbridge Park.

The work involves:

(1) 2000 lin. ft. 4-in. cast iron pipe, including bends, tees and crosses;
(2) 2 each 6-in. gate valves (hub type) with connections;
(3) 6 each 4-in. do;
(4) 2 each place only, fire hydrants furnished by county;
(5) 8 each, valve boxes;
(6) 3 each connections with existing 4-in. steel pipelines.

Complete bids follow:

Edwin J. Tobin, (1) $1.38, (2) $45, (3) $32.50, (4) $25, (5) $7, (6) $60; total, $3331.

E. T. Haas Co., San Mateo, (1) $1.46, $1.34 transite pipe, (2) $72, (3) $50, (4) $70, (5) $12, (6) $25; total, $3675.

McGuire & Hester, Oakland, (1) $1.68, (2) $45, (3) $35, (4) $70, (5) $9, (6) $65; total, $4067.

Underground Construction Co., Oakland, (1) $1.93, $1.83 transite pipe, (2) $52.50, (3) $33.50, (4) $31, (5) $14.25, (6) $46; total, $4480.

Associated Engineers, Palo Alto, (1) $1.95, $1.80 transite pipe, (2) $62, (3) $38, (4) $83, (5) $9, (6) $100; total, $4788.

Harvey E. Conner, Redwood City, (1) $2.05, (2) $50, (3) $40, (4) $50, (5) $10, (6) $75; total, $4845. • 33

11.9 MILES GRADING, ETC., SONOMA AND MARIN COUNTIES

SONOMA and MARIN COS., Cal.—A. G. Raisch Co. and Harms Bros., 2048 Market St., San Francisco, at $1,555,096 submitted low bid to State Div. of Highways, G. T. McCoy, State Highway Engineer, Public Works Bldg., Sacramento, for about 11.9 mi. in length to be graded and paved with portland cement concrete and asphalt concrete on crusher run base and bridges to be constructed across San Antonio and Novato Creeks, between one mile south of Petaluma and Ignacio Wye in Sonoma and Marin Counties.

The work involves:

(1) 3,000 c.y. remove concrete;
(2) 626 sta. clear and grubb;
(3) 680,000 c.y. rdwy. excav.;
(4) 12,600 c.y. ditch and channel excavation;
(5) 16,300 c.y. struct. excav.;
(6) 15,000,000 sta. yds. overhaul;
(7) 25,000 sq. yds. compact original ground;
(8) 216,000 tons imported borrow;
(9) 75,000 s.y. spread top soil, slope erosion protection;
(10) 3,400 lbs. Western Rye grass seed, slope erosion protection;
(11) 178,000 s.y. prepare subgrade;
(12) develop water supply and furnish water equipment;
(13) 20,000 M. gals. apply water;
(14) 626 sta. finish rdwy.;
(15) 34,250 tons crusher run base;
(16) 275 tons liq. asph. SC-1 prime coat and penetration treat.;
(17) 85 tons liq. asph. SC-2, pene. treat.;
(18) 600 tons and, pene. treat.;
(19) 245 tons liq. asph. SC-6 armor coat;
(20) 4,300 tons of screenings, armor coat;
(21) 21 tons asph. emulsion paint binder and seal coat;
(22) 4,800 tons asph. concrete leveling course;
(23) 3,500 tons asph. concrete type B surface course;
(24) 360 l.f. raised bars;
(25) 40,900 c.y. Class B portland cement concrete pave.;
(26) 2,630 c.y. Class A portland cement concrete structs.;
(27) 535 c.y. Class A portland cement concrete footing blocks;
(28) 236 l.f. concrete railing;
(29) 2,600 lbs. misc. iron and steel;
(30) 1,196 l.f. furnish precast conc. piles including test piles;
(31) 26 each drive do;
(32) 2,550 l.f. furnish treated Douglas fir piles;
(33) 83 each drive do;
(34) 175 c.y. broken conc. riprap;
(35) 610 c.y. Class B portland cement conc. curbs and gutters;
(36) 112 each right of way monuments;
(37) 65 each center line monuments;
(38) 5,470 l.f. metal plate guard railing;
(39) 304 l.f. timber bridge railing;
(40) 150 l.f. moving and reconstructing guard railing;
(41) 220 each culvert markers;
(42) 400 each guide posts;
(43) 14 miles new property fences;
(44) 14 each 14-ft. drive gates;
(45) 6 each 16-ft. drive gates;
(46) 9 each 18-ft. drive gates;
(47) 18 each move and reset drive gates;
(48) 650 l.f. chain link fence;
(49) 0.5 mile remove and reconstruct property fences;
(50) 4,100 l.f. 12-in. reinf. conc. pipe, standard strength;
(51) 2,300 l.f. 18-inch do;
(52) 270 l.f. 24-inch do;

Official Proposals

Comfort Station, 37th District Agricultural Assn., Santa Maria, Cal.

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF ARCHITECTURE

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the Division of Architecture, Public Works Bldg., 12th and "N" Streets, Sacramento, California, up to 3:30 P. M., Tuesday, January 15, 1946, said bids thereafter on said day to be publicly opened and read for Comfort Station, 37th District Agricultural Association, Santa Maria, California, in accordance with plans and specifications therefor.

The work includes construction of a concrete and frame building of approximately 1200 sq. ft., together with a sewer line.

Prevailing Wage Scale: In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

	Hourly Rate
Carpenter	$1.50
Cement Finisher	1.625
Concrete Mixer Operator (paving type and mobile mixer)	1.65
Concrete Mixer Operator (Skip type)	1.425
Electrician	1.70
Iron Worker, Reinforcing Steel	1.625
Laborer	1.00
Lather, Metal	1.66-⅔
Painter	1.50
Plasterer	1.75
Plasterer's Tender	1.25
Plumber	1.50
Roofer	.43
Sheet Metal Worker	1.44
Trenching Machine Operator	1.625
Truck Driver, less than four cubic yards water level	1.075

Overtime: one and one-half times the above rates.

The rates of wages, including overtime, holiday or Sunday rates, above specified are subject to the effect, if applicable hereto, of executive orders of the President of the United States and to any modification thereof and to any and all lawful orders of the President or any other authorized Federal Officer or agency, insofar as th same may be applicable to this contract. In case of any inconsistency, the rates fixed by any such applicable Federal order, whether higher or lower, shall control.

Apprentices may be employed provided they are properly indentured to the Contractor in full compliance with the provisions of Section 1777.5 of the Labor Code.

Plans and specifications for examination are on file in the Office of the Division of Architecture, Public Works Buildings, Sacramento, and Room 803 State Office Building, Los Angeles, and at the principal California Cities Builders' Exchange Offices.

Contractors who are desirous of securing plans, specifications and proposal forms for the purposes of preparing and submitting a proposal for this work may do so by requesting same in writing from the Division of Architecture, Public Works Building, Sacramento.

No bid will be accepted from a contractor who has not been licensed in accordance with the provisions of the Contractor's License Act or to whom a proposal has not been issued by the Department of Public Works.

No bid will be considered unless it is presented on a proposal form furnished by the Division of Architecture and accompanied by a bidder's bond, cash, a cashier's or certified check made payable to the Director of Public Works in the sum of at least ten per centum (10%) of the amount of the bid.

The Department of Public Works reserves the right to reject any or all bids and to waive any informality in any bid received.

No bidder may withdraw his bid for a period of thirty (30) days after the time set for opening thereof.

Highways Improvements—Solano County

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p.m. on January 23, 1946, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing city street in accordance with the specifications therefor, to which special reference is made, as follows:

Solano County in the city of Vallejo, Waterfront Road, between Virginia Street and Santa Clara Street (X - Sol - Waterfront Road), about three-tenths (0.3) mile in length, to be graded and paved with asphalt concrete on crusher run base.

Bids are required on the entire work described herein.

This is a National Defense Contract Under the Defense Highway Act of 1941

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per Hour
Skilled Labor	
Asphalt plant mixer operator	$1.45
Asphalt spreading machine operator	1.75
Carpenter	1.50
Cement finisher	1.50
Concrete mixer operator (one cubic yard capacity or less)	1.45
Concrete mixer operator (over one cubic yard capacity)	1.70
Mechanical tamper and finisher operator (concrete or asphalt)	1.70
Motor grader operator	1.85
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.00
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Reinforcing steel worker	1.50
Roller operator	1.65
Tractor driver	1.70
Truck driver (8 cubic yards water level capacity or more)	1.50
Truck driver (6 cubic yards and less than 8 cubic yards water level capacity)	1.25
Truck driver (4 cubic yards and less than 6 cubic yards water level capacity)	1.10
Intermediate Grade Labor	
Asphalt plant dryerman or fireman	1.40
Concrete vibrator operator	1.25
Jackhammer operator	1.25
Oil distributor bootman	1.00
Oiler, power shovels or cranes	1.40
Truck driver (less than 4 cubic yards water level capacity)	1.00
Unskilled Labor	
Flagman	1.00
Laborer	1.00

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor, for which rates are not shown above, shall be not less than $1.10 per hour.

The minimum wage paid to all intermediate labor, for which rates are not shown above, shall be not less than $1.00 per hour.

The minimum wage paid to all unskilled labor, for which rates are not shown above, shall be not less than $1.00 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays (except watchmen, guards and flagmen)—one and one-half (1½) times the above rates.

The rates of wages, including overtime, holiday or Sunday rates, above specified are subject to the effect, if applicable hereto, of executive orders of the President of the United States and to any modification thereof and to any and all lawful orders of the President or any other authorized Federal officer or agency, insofar as the same may be applicable to this contract. In case of any inconsistency, the rates fixed by any such applicable Federal order, whether higher or lower, shall control.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the District in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposl Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law (See said Proposal Requirements and Conditions).

The Department of Public Works reserves the right to reject any or all bids.

Any classification omitted herein not less than	1.06¼

Overtime—One and one-half times the above rates.

The rates of wages, including overtime, holiday or Sunday rates, above specified are subject to the effect, if applicable hereto, of executive orders of the President of the United States and to any modification thereof and to any and all lawful orders of the President or any other authorized Federal Officer or agency, in so far as the same may be applicable to this contract. In case of any inconsistency, the rates fixed by any such applicable Federal Order, whether higher or lower, shall control.

Apprentices may be employed provided they are properly indentured to the Contractor in full compliance with the provisions of Section 1777 5 of the Labor Code.

Plans and specifications for examination are on file in the Office of the Division of Architecture, Public Works Building, Sacramento, and Room 803 State Office Building, Los Angeles, and at the principal California Cities Builders' Exchange Offices.

Contractors who are desirous of securing plans, specifications and proposal forms for the purposes of preparing and submitting a proposal for this work may do so subject to certain conditions as hereinafter stated by requesting same in writing from the Division of Architecture, Public Works Building, Sacramento. Such request shall be accompanied by a deposit of Twenty Five ($25.00) dollars. Check shall be made payable to the Division of Architecture. Such deposit is required to guarantee the safe return in good condition of the plans and specifications to the Division of Architecture within 30 days after the date set for opening bids. Failure to so return the plans will cause forfeiture of the Deposit to the State.

Prequalification: Plans, specifications and proposal forms will only be issued to those contractors who are prequalified with the Department of Public Works by having filed a statement of experience and financial condition on a standard questionnaire form in accordance with the provisions of the State Contract Act. Such statement must have been filed and approved not more than one (1) year and not less than five (5) days previous to the date set for receiving and opening bids. Contractors may obtain standard questionnaire forms from the Division of Architecture.

No bid will be accepted from a contractor who has not been licensed in accordance with the provisions of the Contractor's License Act or to whom a proposal has not been issued by the Department of Public Works.

No bid will be considered unless it is presented on a proposal form furnished by the Division of Architecture and accompanied by a bidder's bond, cash, a cashier's or certified check made payable to the Director of Public Works in the sum of at least ten per centum (10%) of the amount of the bid.

The Department of Public Works reserves the right to reject any or all bids and to waive any informality in any bid received.

No bidder may withdraw his bid for a period of thirty (30) days after the time set for opening thereof.

PLANS and Speculations

Here are additional items of construction planned for the first six months of the year as announced by Supervising Engineer Frank A. Banks of Columbia Basin Project:

Headquarters Bldg. at Ephrata: A permanent office building will be built at Ephrata, county seat of Grant County, to accommodate an enlarged staff of Bureau of Reclamation employees who will plan and help supervise construction of the irrigation system.

Highway Relocation: Use of the Grand Coulee as a storage reservoir will necessitate abandonment of the secondary State highway now running along the Coulee floor. About 28 miles of new highway will be built at a higher elevation near the east wall of the Coulee and will follow a route complying with State Highway Department standards. The State will let contracts on the work and the Federal Government will pay a large portion of the construction costs representing the replacement of present facilities in kind. State officials have indicated that contracts will be let separately for different sections. A 1½-mile portion of the new route will involve exceedingly heavy rock work, the Bureau reports.

Banks said that some of the 1946 supplemental funds will be used for work at Grand Coulee Dam, including road relocation and the building of additional storage facilities and related structures.

oOo

Announcement that nine of ten PITTSBURG contractors have rejected a resource-pooling program, which would have produced 1500 houses in the Pittsburg area of critical housing shortage, came from Russell P. Catalina, builder and spokesman for the group, who said he alone remains willing to participate in the plan.

oOo

The SAN FRANCISCO Supervisor's Finance Committee, of which Chester MacPhee is Chairman, has adopted a resolution recommending that the city appropriate $37,500 toward survey costs to determine the need and possible location of a second Bay Bridge. Bridge authorities have agreed that the San Francisco - Oakland span has just about reached the traffic saturation point.

oOo

Indications that voters of NAPA will be presented with a bond issue to finance the sewage disposal plant and system by mid-summer were seen following an informal session of the Napa Sanitary District board of directors, at which Harry N. Jenks, consulting engineer, outlined progress on preparation of plans.

oOo

Complete Kitchen Installations to Be Handled by Most Appliance Dealers

Complete kitchen installations will be handled by 89 per cent of electric appliance dealers, according to figures released today. To secure information on postwar plans, 12,000 dealers were queried by Edison General Electric (Hotpoint) Appliance Company.

The survey was divided into four groups of questions concerned with: (1) the way dealers will display refrigerators, (2) attitute on trade-ins, (3) questions concerning home freezers, and (4) questions on "the type of store."

Figures tabulated up to December 15, representing more than 20 per cent of those receiving the survey, indicate that, while almost 90 percent of those answering "will install complete kitchens" for consumers, approximately one - half will "display complete operating kitchens" in their showrooms. According to Floyd M. Slasor, manager, refrigerator sales division, that change in merchandising technique is the greatest single new development in postwar refrigeration selling. Previously, realers sold refrigerators mainly from straight model selection displays, he said.

Almost 30 per cent of the dealers think that trade-ins will figure in less than 10 per cent of refrigeration transactions in immediate postwar; although, another question of prewar experience brought the response that 30 per cent of prewar sales includes trade-ins.

A surprising 45 per cent of those answering said that they would handle only one line of refrigerators, while at the other extreme, 13 dealers hopefully said that they would display nine different makes of refrigerators.

Saying that dealers are familiar with consumer thinking because of wartime close associations on service matters, Slasor asserted that he sought their opinions on the possible pattern of development of the market for home freezers. That question, bringing out that most dealers feel that home freezers have a limited appeal for city- and town-dwellers, headed a group of questions on that appliance.

Slasor pointed out that considerable new information developed by the survey was included in an approximate 1,000 "written - in" comments.

The 12,000 dealer list was selected from the 20,000 dealer mailing list receiving the company's home study course, "Planned Electrical Merchandising", before it was temporarily suspended with the August issue. Slasor said that the service would be resumed soon to Hotpoint franchised dealers.

The tabulated ballots indicate that more than 20 per cent of those receiving the questionnaire are opening new stores. A majority of those dealers will use "operating kitchen display."

The No. 1 question: "Which way will you sell", brought the response that 58 per cent will use the old-established "model selection" display method, in conjunction with a complete kitchen or "work-center" display, while only 25 per cent will depend entirely upon straight "model selection" displays. That duplication of figures indicates that some dealers will have "complete kitchens" on display, but will continue the use of a line of models to make their sales, Slasor said.

"We are going to give the closest study to the many constructive comments brought in by this survey; they mean that dealers are thinking for themselves, and that means a healthy condition in our industry," the Hotpoint official said adding, "we are pleased with the keen interest shown in complete kitchens. That means that the advice supplied by manufacturers and editors for the past several years has not been mis-directed. Most dealers are proceeding on good faith, but they are gaining an advantage, because competitive conditions will quickly bring out the greater profit opportunity of this type of display."

On the question concerning trade-ins, 1284 (53%) dealers said that they will be set up to "recondition" old models, while 625 said that they would not offer that service, and 413 did not answer to that question. Slasor said that the large number of "no answer" is a result of a "waiting attitude."

"Most dealers appear to feel that a straight, no trade-in policy is the best merchandising bet for immediate postwar selling. Many commented that present boxes were worn beyond the point of good "reconditioning for resale."

Noting that dealers are less optimistic than some others in the industry concerning the market for home freezers, Slasor said that they would perhaps see more opportunity in that appliance when food purveying concerns once established home delivery routes for frozen products. Noting that a small group of 22 dealers had marked the questionnaire that 75 per cent of all homes would buy the new devices, he said that his estimate was closer to 25 per cent.

ASH&VE TO HEAR TALK ON VESSEL DEHUMIDIFICATION

Lt. John Everetts, Jr., USNR, Bureau of Ships, Air Conditioning Section, Washington, D. C., will address the American Society of Heating and Ventilating Engineers at a meeting to be held Wednesday, January 16, 12:15 p. m., at the El Jardin, 22 California Street.

The subject of his talk will be "Dehumidification of Naval Vessels in the Reserve Fleet." Lt. Everetts, who is Chairman of the Sorbents Committee and a member of the Weather Design Committee of the ASH&VE, will tell how our reserve fleet is protected from internal corrosion, so the ships may be ready for service at all times.

Factory-Fitted Building Panel Will Be Displayed

Another new product of interest to the entire building industry, to be introduced at the National Association of Home Builders exhibit in Chicago, is the new Fenestra "4-in-1" factory-fitted building panel. These panels are box beams of sheet steel, joined securely to form a smooth floor surface above and a neat, smooth ceiling beneath, with duct space between for service facilities such as pipes and wires. Design of units provides flat panels of sheet metal complete with channel type ribs, assembled at the factory. There is a variety of types and considerable range of sizes.

Fenestra "4-in-1" building panels, used for flors of residences, will take the place of sub-flooring, ceiling, joist and bridging. These panels may be used for walls, partitions, and roofs (as well as floors) of virtually all types of buildings.

Installation is said to be quick and easy effecting considerable saving in construction time, and no special skill is required. The sections are uniform. They come to the job cut to specified lengths, ready to install. Fenestra building panels can be laid in single spans in small homes — and in larger houses extend from center beam to foundation or wall. They interlock in a tight fit—and have a smooth steel surface, ready for application of hardwood flooring, or plywood and carpet or linoleum. They provide a trim and attractive basement ceiling without need for plastering, and provision can be made for recessed lighting when required. The panels provide the extra strength and fire protection of steel between floors, where it is most important.

Some types of building panels will be filled with insulating material at the factory, and will provide soundproofed walls, partitions, floors or roofs. They may be used under either wood or concrete floors; will provide long span roof deck in 20 or 25 ft. lengths; and insulated wall and partition panels can be load bearing in some types of structures.

The floor of the Fenestra display at the NAHB exhibit will consist of Fenestra floor panels, with a section exposed for the inspection of contractors.

The display will also feature the new factor-fitted, three-way Fenestra residential window "package", that includes steel casement, storm sash and screen (with glass, wood casing, outside trim and hardware all provided as part of the package).

The display will be in charge of D. J. Carroll, Fenestra show manager.

WALTER KASSEBOHM WILL ADDRESS ASME MONTHLY LUNCHEON

The American Society of Mechanical Engineers will hear Walter Kassebohm, General Manager, Production Engineering Company, address their group on the subject of "Negative Rake Angle Metal Cutting" at a luncheon meeting scheduled for January 16, 12:10 p. m., El Jardin Restaurant, 22 California Street.

Mr. Kassebohm will give an analysis of the latest developments in negative rake angle metal cutting with particular emphasis on negative rake angle milling.

Reservations should be telephoned to Paul Konstan, EXbrook 5400, by 3 p. m. Tuesday.

Aluminum Locks In Production At Schlage Co.

Among the first postwar adaptations of aluminum to builders' hardware, the new line of Luster Sealed Aluminum locks is now in production at Schlage Lock Company, San Francisco. It has been announced that these locks will be available in limited quantities thru dealers, in January.

In the opinion of Schlage officials, this new development in aluminum finishing will open new fields for architectural application of aluminum. Luster Sealed locks can be installed anywhere with complete confidence in their ability to resist staining, tarnishing, and the corrosive effects of weathering. They retain indefinitely a distinctive Satin Silver appearance. They will be in harmony with the aluminum trim and accessories that are becoming popular in modern buildings.

The Schlage Luster Sealed process is an adaptation of the Alumilite process, developed by the Aluminum Company of America for producing extremely hard, corrosive resistant surfaces on aluminum. To achieve this corundum-hard finish, aluminum for lock trim is treated anodically in a suitable electrolyte so as to secure a dense, adherent coating of aluminum oxide.

Aluminum Lock

The process differs from electroplating in that the articles to be treated are attached electrically as anode rather than cathode in the electrolyte. In electroplating, metal is deposited on the article being coated, while in anodic treatment, oxygen is deposited instead of metal, combining with the aluminum to form aluminum oxide, integral with the surface of the metal.

In overcoming production obstacles to produce a lock that will not tarnish under any normal usage, the Schlage Lock Company has contributed a new lock finish to enhance the homes and buildings now to be built with materials improved or developed during the war years.

GROOVER AND I

JUNGLE DRUMS And SMOKE SIGNALS

As this is written there is considerable uncertainty regarding maintenance of wire communications during the next few days.

★ ★ ★

So, if this copy should fail to appear it means the teletype between Rancho Mesquite and the Builder office has gone haywire.

★ ★ ★

The old carrier - pigeon gag is worn out—besides, if I had a pigeon I would eat it.

★ ★ ★

Perhaps this is a good time to give the country back to the Indians - - let them use drums and smoke signals.

CONSTR. EQUIPMENT DISTRIBUTORS TO MEET JANUARY 14

The Construction Equipment Distributors Assn. will hold its regular monthly meeting Monday, January 14, 6:30 p. m., at St. Julian Cafe, 140 Battery St.

William E. White, Vice-President of the Anglo California National Bank, together with I. F. Barnett, Assistant Vice-President, will address the meeting on financial matters. Through the courtesy of the Shell Oil Co., a very interesting sound moving picture entitled "selling America", will be presented.

Reservations should be immediately telephoned to A. E. Mason, Secretary, at HEmlock 1610.

With all the mechanical household devices now in evidence, the woman who formerly studied home economics, will soon need an engineering degree to run her household.

National Oil Heat Exposition Slated for April

Early reservation of space for the National Oil Heat Exposition to be held in Philadelphia April 23 to 27, 1946, under the sponsorship of Oil-Heat Institute of America, New York, is advised by C. F. Curtin, exposition manager. In announcing the general opening of space, he said that already over 60 per cent of the booth space has been taken.

"OHI has reserved the largest exhibition floor in its history in the Commercial Museum; it will be the biggest show ever," Curtin said on behalf of the exposition committee. The committee comprises W. A. Matheson, president of OHI and vice president of Eureka Vacuum Cleaner Co. and manager of the William Oil-O-Matic Div., Bloomington, Ill.; William A. Kemp, manager, pump division, Sundstrand Machine Tool Co., Rockford, Ill.; Carl R. Jonswold, executive vice president, Arrow Petroleum Co., Chicago; and Fred C. Haab, director, distribution division, Oil-Heat Institute of America, Philadelphia, with John A. Morrison, managing director, the Electrical Association of Philadelphia, and A. E. Hess, managing director, OHI, ex-officio member.

First Exposition Since War

"This coming exposition — the first held since the war—will signalize the reconversion of the industry from the manufacture of war supplies which conspicuously aided the victory of the United Nations, to an enterprise which in furnishing automatic oil heating equipment is a vital contributor to the American way of life," Curtin said.

"The industry is entering an era of great expansion—a new day. Esptimated installations during the next five years of home oil heating equipment alone will double the two and one-half million units now in use and will represent a volume of 900 million dollars for equipment and fuel oil sales. Thus the exposition—and the concurrent Oil - Heat Institute Convention — comes at a very strategic time.

"Oil heat—the universal automatic heat which symbolizes modernization—must go forward hand in hand with these developments.

RECLAMATION BUREAU

CENTRAL VALLEY PROJECT, California. — As previously reported, until January 18, 2 P. M., bids will be received by the U. S. Bureau of Reclamation, Custom House, Denver 2, Colo., under Inv. D-33,250-A for steel reinforced bare aluminium stranded conductor, compression connectors, etc.; f.o.b. shipping point and/ or Marysville, and/or intermediate points between Sacramento and Oroville, Oroville - Sacramento 230 kv. transmisison line, Central Valley Project.

The work involves:

Schedule No. 1

(1) 1,135,200 lin. ft. (215 miles) steel-reinforced bare aluminum stranded conductor having a nominal cross-sectional area of 795,000 circular mils and an effective copper equivalent cross-sectional area of 500,000 circular mils;
(2) 300 compression connectors suitable for the conductor furnished under Item 1;
(3) 200 compression dead-end connector assemblies, complete with jumper connectors suitable for the conductor furnished under Item 1;
(4) 100 compression repair sleeves suitable for the conductor furnished under Item 1;
(5) 1250 tapered armor-rod assemblies for use with the conductor furnished under Item 1;
(6) 100 parallel grove clamps suitable for the conductor furnished under Item 1;
(7) 200 vibration dampers suitable for the conductor furnished under Item 1;
(8) 1 set equipment for installing the connectors, dead-ends, and repair sleeves, furnished under Items2, 3 and 4 on the conductor furnished under Item 1;
(9) 1 set (2 wrenches) wrenches for installing armor-rod assemblies furnished under Item 5;
(10) 2 only hollow screw wrench for armor rod clamps;

Schedule No. 2

(11) 1,135,200 lin. ft. (2145 miles) hollow, hard-drawn bare copper conductor having a nominal effective copper cross - sectional area of 500,000 circular mils and in accordance with the attached specifications;
(12) 300 compression, or rolled-type, connectors suitable for the conductor furnished under Item 11;
(13) 200 dead-end, compression or rolled type connector assemblies, complete with dead-end connectors and jumper connectors suitable for the conductor furnished under Item 11 with clevis-plates suitable for attaching to dead-end insulator assemblies;
(14) 1 set equipment for installing the connectors furnished under Items 12 and 13 on the conductor furnished under Item 11. •

SAN FRANCISCO CITY

SAN FRANCISCO.—The following submitted bids to M H. Gerry, Purchaser of Supplies, 270 City Hall, under Bid No. 3449 for furnishing and delivering 5000 ¼-in. x 7-in. x 9-in black steel shims for the Municipal Railway:

Western Pipe & Steel Co., $.18; net 30.

M. Circosta, $.22; 30 days net.

Soule Steel Co., $.225; ½ of 1% 10th prox; 14 day delivery after strike.

Taylor & Spotswood, $.276; ½ of 1% 10 days; net 30 days; 28 day delivery.

A. F. Castle & Co., $.2765 each; ½ of 1% 30 days. • •

OCEAN OUTFALL SEWER, LOS ANGELES

LOS ANGELES, Calif.—As previously reported, Guy F. Atkinson Co., Orange and Railroad Aves., South San Francisco, at $3,517,410 (using precast and reinforced concrete pipe), submitted low bid to Los Angeles Board of Public Works, Room 153 City Hall, Los Angeles, for the construction of Ocean outfall sewer from Hyperion activated sludge plant. The site of work is located at Hyperion Beach on Santa Monica Bay, commencing at a point 144 ft. east of the center line of the Pacific Electric Railway right-of-way, being approximately 600 ft. south of the existing Hyperion pier, and extending in a westerly direction approximately 5424 ft. The work involves:

(A) Construct the reinforced concrete ocean outfall sewer line and appurtenances;

(B) Excavate and backfill to the prescribed lines and elevations;

(C) Construct the steel H - pile foundations;

(D) Construct the concrete footings and concrete encasement for the ocean outfall sewer;

(E) Fabricate and install the reinforced concrete pipes;

(F) Demolish and remove the existing portion of the Hyperion piers;

(G) Furnish labor and material, except that furnished by the city or others to complete the work in 450 calendar days.

Plans were prepared by Lloyd C. Aldrich, Los Angeles city engineer.

The bids were taken as follows:

Regular Work

Bids may be submitted on any one or all of Items 1, 2, 8, 9, 10, 11, 12 and 13, but must include Items 4, 5, 6 and 7. Item 3 must be bid if bidder elects to bid on Item 1 and/or Item 2.

The bid Items 1, 2 and 3 listed below are for the 12-ft. I. D. outfall sewer. For alternate bids to either of these items.

(1) A price per lin. ft. for the construction of the 12-ft. I. D. reinforced concrete pipe outfall sewer complete in place.
(2) (Alternate to Item 1.)

A price per lin. ft. for the construction of the 12-ft. I. D. precast and reinforced concrete pipe outfall sewer complete in place.

(3) A unit price per footing for the construction of the concrete footings for the 100-ft. pipes of the uncovered portion of the outfall sewer, complete in place, but not including the steel H-piling.
(4) A unit price per 40-ft. long pile for the steel H-piles for the outfall sewer, complete in place, but not including the gunite sheath.
(5) A unit price per 30-ft. long pile for the steel H-piles for the outfall sewer, complete in place.
(6) A unit price per pile for the gunite sheaths for the steel H-piles for the outfall sewer, complete in place.
(7) A lump sum for the removal of the existing Hyperion piers, complete.

Alternates I, I-A, I-B, I-C, II, II-A, II-B and II-C

(Alternates to the 12-ft. I. D. outfall sewer.)

Bidders are cautioned that the prices bid per lin. ft. of ocean outfall sewer for the various alternates (Items 8 to 15, inclusive), are for a triple line submarine outfall and that in computing the total for each bid this price per foot will be multiplied by 5.352, which is the distance in feet, exclusive of diffusers, between the beginning and end stations of the ocean outfall.

(8) (Alternate I.)

A price per lin. ft. for the construction of the ocean outfall sewer, consisting of three lines of 7-ft. I. D. cast iron pipes (classes A and B), with concrete platforms, complete in place.

(9) (Alternate I-A.)

A price per lin. ft. for the construction of the ocean outfall sewer, consisting of three lines of 7-ft. I. D. cast iron pipes (classes A, B and C), complete in place.

(10) (Alternate I-B.)

A price per lin. ft. for the construction of the ocean outfall sewer, consisting of three lines of 7-ft. I. D. cast iron pipes (classes A and B), with rock bedding, including sheet piling, complete in place.

(11) (Alternate I-C.)

A price per lin. ft. for the construction of the ocean outfall sewer, consisting of three lines of 7-ft. I. D. cast iron pipes (classes B, C and D), complete in place.

(12) (Alternate II.)

A price per lin. ft. for the construction of the ocean outfall sewer, consisting of three lines of 7-ft. I. D. reinforced concrete pipes (classes AC and BC), with concrete platforms, complete in place.

(13) (Alternate II-A.)

A price per lin .ft. for the construction of the ocean outfall sewer, consisting of three lines of 7-ft. I. D. reinforced concrete pipes (classes AC, BC and CC), complete in place.

(14) (Alternate II-B.)

A price per lin. ft. for the construction of the ocean outfall sewer, consisting of threc lines of 7-ft. I. D. reinforced concrete pipes (classes AC and BC), with rock bedding, including sheet piling, complete in place.

(15) (Alternate II-C.)

A price per lin. ft. for the construction of the ocean outfall sewer, consisting of three lines of 7-ft. I. D. reinforced concrete pipes (classes BC, CC and DC), complete in place.

Additional Work

(16) A price per lin. ft. of steel H-pile for the ocean outfall sewer, complete in place, for lengths of piles in excess of the lengths shown on the plans, including the cost of cutting and welding and any other necessary work. This item shall apply only when piles longer than those shown on the plans are ordered in writing by the engineer before the piles are driven.
(17) A price per lin. ft. of steel H-piles for the outfall sewer (to be deducted from the contract price) for decreases in lengths of piles under the lengths shown on the plans, including the cost of cutting and any other necessary work. This item shall apply only when piles shorter than those shown on the plans are ordered by the engineer in writing before the piles are driven.
(18) A price per cu. yd. for excavation under water for cnocrete work, including backfill, complete.
(19) A price per cu. yd. for excavation on shore for concrete work or pipe, including backfill, complete.
(20) A price per cu. yd. for earth fill, using shore equipment, complete in place, without special compaction.
(21) A price per lb. of reinforcing steel, complete in place.
(22) A price per cu. yd. for class K concrete, including necessary forms and shoring, but not including reinforcing steel, complete in place.
(23) A price per cu. yd. for class L concrete, including necessary forms, but not including reinforcing steel, complete in place under water.
(24) A price per ton for rock required to refill to subgrade, including the cost of the necessary excavation, when excavation below plan subgrade of the pipes is ordered in writing by the engineer, complete in place.
(25) A price per ton for rock for backfill over the pipes in excess of that shown on the plans, when ordered in writing by the engineer, complete in place.
(26) A price per sq. ft. for timber sheet piling, complete in place, ordered in writing by the engineer, to be driven below the depth for sheet piling shown on the plans.
(27) A price per sq. ft. for steel sheet piling, complete in place, ordered in writing by the engineer, to be driven below the depth for sheet piling shown on the plans.
(28) (a) price per lin. ft. of 7-ft. I.D., class A, cast iron pipe with concrete footings, complete in place.
  (b) this item shall apply only when increases or decreases in length of any portion of the outfall sewer are required and involves this class of pipe, and is so ordered by the engineer in writing before any pipe has been placed in said portion of the outfall sewer.
(29) (a) price per ll. ft. of 7-ft. I.D., class A, cast iron pipe, complete in place.
  (b) see subdivision (b) of Item (28).
(30) (a) price per lin. ft. of 7-ft. I.D., class A, cast iron pipe with rock bedding, complete in place.
  (b) see subdivision (b) of Item (28).
(31) (a) price per lin. ft. of 7-ft. I.D., class B, cast iron pipe with concrete footings, complete in place.
  (b) see subdivision (b) of Item (28).
(32) (a) price per lin. ft. of 7-ft. I.D., class B, cast iron pipe, complete in place.
  (b) see subdivision (b) of Item (28).
(33) (a) price per lin. ft. of 7-ft. I.D., class C, cast iron pipe, complete in place.
  (b) see subdivision (b) of Item (28).
(34) (a) price per lin. ft. of 7-ft. I.D., class D, cast iron pipe, complete in place.
  (b) see subdivision (b) of Item (28).
(35) (a) price per lin. ft. of 7-ft. I.D., class AC, reinforced concrete pipe with concrete footings, complete in place.
  (b) see subdivision (b) of Item (28).
(36) (a) price per lin. ft. of 7-ft. I.D., class AC, reinforced concrete pipe, complete in place.
  (b) see subdivision (b) of Item (28).
(37) (a) price per lin. ft. of 7-ft. I.D., class AC, reinforced concrete pipe with rock bedding, complete in place.
  (b) see subdivision (b) of Item (28).
(38) (a) price per lin. ft. of 7-ft. I.D., class BC, reinforced concrete pipe with concrete footings, complete in place.
  (b) see subdivision (b) of Item (28).
(39) (a) price per lin. ft. of 7-ft. I.D., class BC, reinforced concrete pipe, complete in place.
  (b) see subdivision (b) of Item (28).
(40) (a) price per lin. ft. of 7-ft. I.D., class CC, reinforced concrete pipe, complete in place.
  (b) see subdivision (b) of Item (28).
(41) (a) price per lin .ft. of 7-ft. I.D., class BC, reinforced concrete pipe, complete in place.
  (b) see subdivision (b) of Item (28).

The total bids submitted (unofficial and subject to final tabulation) were:

(A) Guy F. Atkinson, $3,517,410.
(B) Pacific Bridge Co., $3,699,267.
(C) Pacific Marine Constructors, a joint venture of Grafe - Callahan Construction Co., Gunther & Shirley Co., Peter Kiewit Sons Co., Condon-Cunningham Co., J. D. Proctor, Inc., and B. W. Kuhn, $3,886,594.
(D) Rhoades Bros. & Shofner, J. N. Gordon, Tavares Construction Co., Inc., C. M. Elliott, Stroud-Seabrook, a joint venture, $4,834,420.
(E) Morrison-Knudsen Co., Inc., and Ben C. Gerwick, Inc. (using cast iron pipe), $5,749,585.

IFORNI

PLANS and Speculations

State postwar funds in amount of $1,346,216 for development of highway projects and three sanitary district projects in SONOMA COUNTY, have been requested by the County Board of Supervisors. The three sanitary district requests were based on preliminary steps already taken for organization of such districts, adjacent to Santa Rosa, in the Russian river section, and in the Valley of the Moon recreation district. The Santa Rosa district request totaled $154,216; that in the Valley of the Moon, $467,000, and for the Russian river, $350,000. The two highway projects call for $300,000 for development of the route from Valley Ford through Bodega Bay to Bridgehaven, and $75,000 for improvement to the county road from Warfield to Eldridge and the Madrona road to join with the state highway.

oOo

The University of California will ask the State Legislature to appropriate $900,000 to build the world's second largest telescope, a 120-inch reflector, at the Lick Observatory atop Mt. Hamilton. . . Replacement of the present wooden street signs with larger black and white metal ones is contemplated for OAKLAND, according to City Manager Chas. R. Schwanenberg. . . The proposition of whether the City of SAN CARLOS shall proceed with a survey and report of the California Water Service Company system serving San Carlos, will be placed on the ballot at the next regular city election, April 9, it was decided by a resolution unanimously adopted by the San Carlos City Council.

oOo

Establishment of another high school in MARIN COUNTY, a branch of Tamalpais Union High School, appeared a certainty following action of the school board in filing condemnation proceedings to acquire 13 acres adjacent to the property in SAN ANSELMO now owned by the school district.

oOo

Probable construction of a new business building at Locust and Bonanza Sts., WALNUT CREEK, was indicated when the owner, R. E. Gould, appeared before the City Council and sought advice. Gould stated that the plans for his building are now "on the board".

oOo

The start of construction of a new $25,000,000 plant for Columbia Steel Company at PITTSBURG was a step nearer as the Contra Costa County Board of Supervisors granted permission to close a portion of East Third Street, which through the plant.

Weldwood Glue Available Again

W. Robert Goepel, Manager of the Industrial Adhesives Division of the United States Plywood Corporation, announces that supplies of Weldwood Glue are again open to unlimited civilian use.

"During the war years, government contracts called for 90% of the Weldwood Glue produced," Goepel said. "Now that most of these contracts have been cancelled we are able to meet civilian demands at last. We are promising immediate shipment from stock."

Goepel described Weldwood Glue as a urea-formaldehyde compound which has tremendous strength, is relatively waterproof, stain-free, bacteria and rot-proof, holds joints shearproof and permanently bound.

Designed for bondng woods, it is easily mixed with cold water and ready for use immediately after mixing, he said.

"Some of the many war uses of this plastic resin which shows its adaptability," Goepel said, "include gluing wood parts of gliders, airplanes, life preservers, boats and ships, instrument and radio cabinets, Army and Navy trucks, and other government woodworking. Increased demand at that time caused production to be doubled and then tripled. Our main cause of worry was to find a suitable contained as a substitute for the metal one which was unavailable. After exhaustive tests, a fibre can was found. The last of these cans are now being used and a new postwar metal can is appearing."

V

COLUMBIA STEEL CO.

Marion H. Freedman has been appointed Division Manager of the Seattle office of Columbia Steel Company, a U. S. Steel Corporation subsidiary, succeeding E. J. Howay, who is retiring after 39 years of service with the corporation.

Freedman started with United States Steel Corporation in 1920 in San Francisco. In 1931 he was transferred to the Seattle office of Columbia Steel Company as a salesman, specializing in tubular products. Subsequently, he was advanced to the positions of Assistant Manager of Sales and Manager of Sales.

Standards Neglect Can Be Costly

The country was cautioned today by a large branch of the building materials industry not to plunge into wholesale erection of temporary housing so that common sense safety rules are ignored.

Tragic and costly disasters may result if local governments neglect to enforce standard building safeguards for firesafe and health-protecting construction, said Henry J. Schweim, executive secretary of the Gypsum Association.

Emergency housing meant to be used only temporarily to help relieve the current shelter shortage, he warned, must protect life and health as well as give shelter and a maximum of comfort.

"It is imperative that temporary housing be built quickly on a wholesale scale, particularly in the big cities," Schweim said, "but let's not sabotage our standards of safety. Temporary houses will, in most instances, be built close together in large groups, perhaps dangerously distant from adequate fire fighting facilities.

"It is horrible to imagine what the consequences might be in the way of fire or epidemic if proper firesafety and health protection rules were not enforced! One house built of flimsy combustible material in a group of such houses might result in the destruction of all with appalling loss of life. Their occupants would be worse off then even than they are now."

The building expert asserted that maximum firesafety can be assured in temporary as well as permanent construction through the use of noncombustible materials, including gypsum. Furthermore, he said use of non-forest products will help relieve part of the stress upon the hard-pressed lumber industry.

In an article prepared for publication by E. H. Dhein of the Engineering Division, Office Chief of Engineers, U. S. Army, Schweim said, gypsum was lauded for its role in wartime construction, much of it of a temporary nature identical with the emergency housing now required.

Schweim stressed that the same gypeum products perfected to meet the emergency requirements of war can be used efficiently and economically in temporary postwar housing. Among them is fireproof laminated gypsum board which, when treated with a transparent penetrating filler, was found by the Corps of Engineers to be a combination sheathing and siding meeting the demands for emergency housing.

PGE ANNOUNCES $6,000,000 EAST BAY PROJECT

A $6,000,000 construction project which will increase the capacity of the electric power facilities in the East Bay area and provide for future growth of demand has been announced by A. Emory Wishon, Vice President and General Manager of Pacific Gas and Electric Company. During the war period the use of electricity in Alameda and Contra Costa was nearly doubled. Transmission and distribution facilities were heavily overloaded to meet the constantly mounting demand for power. The new installations will relieve this situation, permit the delivery of greater amounts of hydro-electric power to East Bay users and reduce to a minimum the generation of electricity in the Company's East Bay steam-operated plants.

First on the construction program is a new substation to be known as Moraga Substation near the town of Moraga in Contra Costa County, at an estimated cost of $3,368,000. The plans call for erection of a main substation building, warehouse and shop building, and two operator's cottages; and the installation of transformers, oil circuit breakers, synchronous condensers and other electrical equipment. The station is designed to receive 220,000 - volt hydroelectric power from the Company's Vaca-Dixon substation in Solano county and transmit it at lesser voltage to the distribution substations in Oakland and other East Bay centers.

To supply the new substation, a new twin-circuit transmission line will be built to carry power at 220,000 volts from the Vaca-Dixon substation to Moraga. The new line with necessary switching facilities and other improvements at Vace-Dixon will cost approximately $2,747,000.

The new transmission facilities will make available to East Bay electrical customers an additional power supply from high - tension transmission lines running from the Company's Pit River generating system in Shasta County to Vaca-Dixon substation. The plans announced are in addition to work already under way involving the expenditure of $1,585,000 for construction of a substation near San Leandro, enlargement of Claremont Substation and improvements in Oakland's electrical distribution system.

Dept. of Commerce Booklet Explains Credit Sources

How small businesses may obtain credit and capital for sound business ventures is explained in a bulletin on "Credit Sources for Small Business" issued today by the U. S. Department of Commerce.

The private commercial bank is still the main source of business credit, the bulletin says, and small businesses have even more reason to turn to their banker for credit help than have large companies which have increasingly relied on internal financing and on the issuing of securities to meet their capital and credit needs.

The bulletin discusses in detail the types of credit extended by such diverse institutions as banks, industrial banking companies, small loan companies, factors, sales finance conmpanies, miscellaneous finance companies, insurance companies, equipment manufacturers, wholesalers and similar suppliers, individual investors, investment bankers, corporations seeking affiliates, branches or outlets, the Reconstruction Finance Corporation, Federal Reserve Banks, Smaller War Plants Corporation, Federal Housing Administration and community industrial development groups.

Many banks are now setting up special small business departments, according to the bulletin which states that in the choice of a bank the small business man should "choose a banker who possesses character and leadership, one who is willing to assume a risk providing there is a reasonable chance of repayment; a progressive banker, one who is alert to current industrial trends, willing to make loans for new products and more efficient processes."

"Such a banker," the bulletin says, "knows that in a world of rapid change, risk is a matter of careful analysis, not merely of traditional soundness."

The community banker, who more often than not is a small business man himself, may be more receptive to the needs of the small business man than the larger city bank, the bulletin says, but sometimes the larger banks quote more lavorable rates and the only answer is to compare.

Once the small business man has chosen a banker he should consult him frequently, visiting him at his office and inviting him to return the visit, the bulletin advises, and adds:

"Show him around. Invite him to look over your books. Freely explain your plans to him, especially if they involve expenditures out of the ordinary. Do not try to conceal difficulties from him. It is part of the banker's code not to betray confidences. Mutual frankness is the first basis of good banking relations."

Business men who can qualify should be able to turn to their bank for one of the following types of loans, according to the bulletin: character loans, term loans, installment loans, loans on accounts receiveable, loans secured by warehouse and field warehouse stocks and equipment loans.

The difficulty small businesses often encounter in securing adequate credit is also discussed, and the bulletin notes that "small concerns have often had to resort to the unsound practice of using renewable short - term commercial loans for working capital, for long-term seasonal capital, or even to take the place of fixed long-term capital."

In general, the bulletin says, the business man is justified in seeking a loan when he can use it to cut costs or otherwise increase efficiency by more than the cost of obtaining the additional funds, but he should not forget that "other things being equal the company that gets the credit it needs at the least expense wins."

The booklet is designed for widespread distribution among small business men and may be obtained by banks, or other financial institutions wishing to distribute it, or by individuals themselves, from the Superintendent of Documents, Washington 25, D. C., or from Department of Commerce field officies at 15 cents a copy.

Masons, Builders Association Incorporates

The Masons and Builders Association of California, Inc., as it now is known, was incorporated under California State law Oct. 19, 1945. At the annual meeting Dec. 13, 1945, the following officers were elected: Wm. A. Rainey, Jr., President; Norman M. Johnson, Treasurer; George W. Reed, Secretary; Oscar F. Person, Director; and Dan Lynch, Director.

The aim and purpose of the Association is to act as the negotiating body to settle labor disputes of the bricklayers and hodcarriers unions in California, from Fresno to the Oregon line, to assist in training apprentice bricklayers, to promote the use of masonry products and to improve the standard of workmanship in the masonry trade.

The next regular meeting will be held January 25, 6:30 P. M., at the El Jardin Restaurant, 22 California Street.

Electronic Street Lighting Control Is Announced

Early large scale production of a new Electronic "Sun Switch", designed to control street lighting, is announced by The Ripley Company.

The new units is an answer to the Utility Companies' desire to render street lighting service which insures the required illumination regardless of fluctuations in weather conditions and the twilight hour.

The new unit will be priced low enough to permit installations on each light pole, thus eliminating heavy investment in series circuits and heavy operating costs due to storm hazards.

A maximum safety factor is incorporated in all components, principal of which are standard amplifier tubes, a photo-electric cell and relay. These factors coupled with special tungsten alloy contacts on the relay (the only moving parts), insure the unfailing dependability and efficiency demanded of equipment used in the public service.

Under ideal conditions of daylight the control provides a minimum "lights on" period from 25 minutes after sunset to 25 minutes before sunrise and adjustment is provided to meet customers' specific requirements.

Operating units is compactly built on a chassis to which the housing is attached by three schews. This housing with chassis is fastened to a permanently wired base with a single 30 degree rotary turn which provides a perfect "plug in" connection and a weatherproof joint. A similar turn of 30 degrees in the other direction easily removes the entire unit.

The housing is constructed of non-rusting aluminum with high resistance to bright sunlight and other extreme weather conditions.

The swivel bracket and the round shape of the housing permits direction of the photo-cell of each unit to North Light without interfering with symmetry in installation.

PREPARED BY LeROY SERVICE

..."and here's where we've planned telephone outlets"

Your clients will be pleased with built-in telephone facilities. Multiple outlets are conveniences that add real value to the homes you build today.

Even if only one telephone is needed now, it is wise economy to include additional outlets.

Conduit is inexpensive if installed during construction...and it provides for future telephones without tearing up floors or bringing wire in along baseboards.

So plan built-in telephone facilities with an eye to future needs. Our Architects' and Builders' Service will help you in every possible way at no charge.

18—WHARVES & DOCKS

January 15, 1946

PREPARING PLANS

ASTORIA, Ore.—The Bureau of Yards and Docks, Navy Department, Washington, D. C., is preparing plans for a mooring basin for about 500 ships and about 15 piers at Tongue Point, Astoria, Ore. A call for bids will probably be issued about the end of February by Capt. G. A. Duncan, 13th Naval District public works officer, Exchange Bldg., Seattle.

The work involves:
(1) construction of a solid fill and sheet piling breakwater which will cross the John Day entrance at a point about 6000 ft. downstream from the mouth of the John Day River. The breakwater will being at high water shoreline approximately 500 ft. north of the entrance to Mill Creek and will extend channelward about 3300 ft., from which point it will continue northwest for about 2400 ft., roughly paralleling the shoreline;
(2) about 15 piers will be constructed in the area within the breakwater and dredging will be done to 15 and 20 ft. below low water;
(3) dredging of new John Day channel in the existing channel some 2000 ft. south of proposed breakwater and extending northeasterly about 5000 ft. into Cathlamet Bay.
(4) all material dredged to be disposed in the area between the proposed channel and breakwater.

Estimated cost is between $6,000,000 and $7,000,000. 18

19—MISC. CONSTRUCTION

January 15, 1946

CONTRACT AWARDED
MAUSOLEUM ADDITION
Contract Price, $197,100
HAYWARD, Alameda County, Calif. 26320 Niles Rd., Holy Sepulchre Cemetery.
Construction of addition to mausoleum building.
Owner—Roman Catholic Archbishop of San Francisco, 1100 Franklin St., San Francisco.
Architects—Henry A. Minton & Wilton Smith, 1045 Sansome St., San Francisco.
Contractor — Moore & Roberts, 693 Mission St., San Francisco. * 19

January 15, 1946

PLANNED
SUBSTATION
Approximate Total Cost, $3,368,000
MORAGA, Contra Costa Co., Calif.
Construction of main substation, warehouse and shop building and two operators' cottages, in addition to electrical equipment.
Owner—Pacific Gas & Electric Co., 245 Market St., San Francisco.
Plans by engineering department of owner.

The proposed station will receive 220,000 volts of hydroelectric power from the owner's Vaca-Dixon substation in Solano County over a $2,747,000 twin-circuit transmission line and is expected to be in operation late this year. * 19

January 15, 1946

PLANNED
SUBSTATION BUILDING $965,000
ALAMEDA COUNTY, Calif. Claremont District.
Construction of substation building.
Owenr—Pacific Gas & Electric Co., 245 Market St., San Francisco.
Plans prepared by engineering department of owner.

The new substation will provide new power supply for Emeryville industries. * 19

GOVERNMENT OWNED SURPLUS
CONSTRUCTION MATERIALS and EQUIPMENT
FOR SALE by RFC
for immediate delivery at substantial savings!
CONTRACTORS
BUILDERS
MINE OPERATORS

In addition to the classes of materials listed below, RFC has or will have a wider choice of surplus items from which you can make selections to meet your needs . . . If you are not already on RFC mailing lists . . . describe your needs in a letter addressed to the Surplus Property Division of your nearest agency. Future offering lists will then be mailed direct to you.

Check Your Needs

☐ STEEL LANDING MATS
Suitable for flat reinforcing . . . Metals Unit.
☐ SPAR VARNISHES
Clear in 1 and 5 gallon cans . . . Chemical Unit.
☐ WELDING MACHINES
300 and 400 amp. electric driven . . . Tool Unit.
☐ STANDARD WIRE ROPE
Varying lengths and sizes available, ⅜" to 2" . . . Metals Unit.
☐ ELECTRIC GENERATOR UNITS
Small and large for floodlighting, etc . . . Electrical Unit.
☐ ROPE
Variety of sizes, fibers, from ¼" to 3⅝" diameter . . . Miscellaneous Unit.
☐ LUMBER
Used—Reclaimed—Unused . . . Miscellaneous Unit.
☐ PILING
Treated and untreated . . . Miscellaneous Unit.
☐ COPPER WIRE
Single, double strand suitable for rural use . . . Electrical Unit.
☐ PIPE, FITTINGS AND VALVES
Various sizes, types and quality . . . Metals Unit.
☐ MACHINE TOOLS
Light and heavy duty and precision machine tools . . . Tool Unit.
☐ EXTERIOR PAINT
Lead base white . . . Chemical Unit.
☐ WOOD PRESERVATIVE
For open tank treatment . . . Chemical Unit.
☐ LAMINATED PHENOLIC SHEETS
Suitable for electric control panels . . . Chemical Unit.
☐ STEEL
Structurals, sheets, plates, bars . . . Metals Unit.
☐ BUILDING PAPER
Wire reinforced . . . Miscellaneous Unit.
☐ LACQUER DOPES
In a variety of colors . . . Chemical Unit.

ARE YOU GOING TO BUY AN AUTOMATIC CLOTHES WASHER?

Make sure your home has an ample-size water heater—at least 30 gallon capacity.

The next time you buy an automatic water heater for your home or for the new home you are planning, provide an adequate water supply for a new automatic washing machine or electric dishwasher. Hot water and plenty of it, activates soap into billions of energetic cleansing bubbles. Then steamy torrents of sterilizing rinse-water restore clothes to bright newness and dinner dishes to shining cleanliness. It costs very little more at the start to buy an ample family-size water heater to take care of washday, bathroom and kitchen hot water needs. And operating cost too, is very little more. Remember your family uses lots of hot water. Tests show that the average family of four uses more than 50 gallons a day. A small size water heater wears out from overwork in many a home. Buy wisely... buy a bigger water heater next time.

Engineering Section

30—RESERVOIRS & DAMS

January 15, 1946

BIDS WANTED
BOISE, Idaho.—Until January 25, 10 A. M., bids will be received by the Bureau of Reclamation, Earl Harmon, engineer, Cascade, Idaho, for clearing reservoir site of the Cascade dam project. The work involves clearing timber and brush from 16 tracts varying in size from 40 to 480 acres, located one to eight miles west of Cascade. The Cascade project involves the construction of an earth fill dam, 90 ft. high and 860 ft. long at the outlet of Long Valley drainage and will provide a storage reservoir for approximately 700,000 acre feet of water. 30

32—SEWERS & SEWAGE DISPOSAL PLANTS

January 15, 1946

PLANNED
ROSEVILLE, Placer Co., Calif.—Civil Engineer Frank E. Packard, Box 1341, Sacramento, recommends construction of sewer system to cost $27,600 for the City of Roseville, City Hall, Roseville. 32

January 15, 1946

PLANS COMPLETED
JAMESTOWN, Tuolumne Co., Cal.—Engineer Robert Thom, 502 Bank of America Bldg., Sonora, has completed plans for construction of a sewer system estimated to cost $60,000 for the Jamestown Sanitary District, Jamestown. 32

January 15, 1946

PREPARING PLANS
DINUBA, Tulare Co., Calif.—Engineers Leeds, Hill, Barnard & Jewett, 1000 Edison Bldg., Los Angeles, are preparing plans for the City of Dinuba for alterations to a sewage disposal plant; estimated cost, $13,500. 32

Machinery & Material

RECLAMATION BUREAU

CENTRAL VALLEY PROJECT.—Until Feb. 18, 2 P. M., bids will be received by the office of the Bureau of Reclamation, Walker R. Young, Chief Engineer, Denver, under Spec. No. 1147 for furnishing and delivering fob cars at the shipping point or fob cars at Coram, Calif., at the option of the bidder, structural steel anchorages and gate seats for three durm gates at Shasta Dam, Kennett Division, Central Valley Project.

Specifications obtainable from the above office at no charge to prospective bidders; to others, $1.00, not returnable. 30

PLANS and Speculations

In his annual report to the San Francisco Board of Supervisors **Mayor Lapham states that steps** are now being taken to transfer Laguna Honda Home property to the Juvenile Court and plans being drawn for a new juvenile court and home. The location consists of 12.6 acres, sufficiently large to provide for construction on a separate unit basis and to provide the space necessary for recreation and future growth. Mayor Lapham further stated that "if nine million dollars of state or federal matching funds can be obtained, the entire 25-million-dollar sewer and sewage treatment plant program will be carried out without requiring additional city funds."

oOo

SACRAMENTO School Department needs will be aired by Superintendent Overturf at the Board of Education's next meeting Jan. 21. Outstanding need is a dormitory building for Sacramento College, where prospective students are being turned away because they cannot find a place to live. In addition to the college dormitory, Overturf's report may contain recommendations for the following additions: Swimming pools for the college, Sacramento and McClatchy high schools; a boys' gymnasium and new cafeteria for Lincoln Elementary; an auditorium and four classrooms for the Riverside school; an auditorium and eight classrooms for Tahoe School; two classrooms for Theodore Judah School.

oOo

The CERES City Council, meeting in a special session, heard the explanation of a proposed sewer expansion program, total cost of which is estimated at $29,000. The city attorney has been requested to draw up the resolution of intention for the proposed work. . . Approval was given a 31-acre site north of the County Fairgrounds for the proposed establishment of an airfield by the TURLOCK City Planning Commission. Promoters of the project are Fred C. Richardson of Oakland, and Glenn Wentz of San Anselmo. . Co-operation of the OAKDALE City Council was promised Al Corrigan and Sidney Haidlen for their proposed airfield for that city.

oOo

The Third Avenue and Bayshore Blvd. interesection in SAN MATEO soon will be better lighted and have improved traffic signals, City Manager W. D. Soule of San Mateo, has announced. Soule said he was informed by District IV, Division of Highways, that plans for a $7500 improvement at the intersection had been approved.

Consumer Goods Manufacturers Warned By OPA

Manufacturers of consumer durable goods must file copies of all price announcements with OPA District offices within ten days after they have been issued to the trade, A. B. Mueller, Price Executive of the Northern California District OPA office announced.

Failure to file price announcements has seriously interfered with OPA efforts to fix fair and equitable prices on reconversion items, Mueller said.

Under the provisions of Maximum Price Regulation No. 188, as amended, manufacturers are required to file three copies of catalogs and price lists containing March 1942 prices that were issued to the trade. In addition, he is required to file three copies of every letter, flyer, announcement or other written notice that he may issue to the trade after July 15, 1945, concerning new prices, changes in terms, discounts or allowances and changes in model designation of any items that he manufacturers.

UC EXTENSION CONTINUES NEW 'TECH' COURSES

Classes in engineering and business administration will open next week in the San Francisco center of University of California Extension, 540 Powell Street.

On Monday, business administration courses in "Advanced Accounting", "Organization Planning and Management Research", and "Introduction to Radio Advertising" meet at 7 p. m.

Engineering courses meeting on on Tuesday are "Mechanics and Strength of Materials", 7:30 p. m., and "D C Machinery and Control Equipment," 7:15 p. m.

Other courses meeting during the week are: "Earthquake Resistant Design", Wednesday, 7:30 p. m.; "Real Estate Law", Thursday, 7 p. m., and "Cost Estimating for Construction", Friday at 7:30 p. m.

LEE W. DELHI AFFILIATES WITH HUNT, MIRK CO.

Lee W. Delri, nationally - known welding engineer and shipbuilder, has resigned as Vice President in charge of operations at Western Pipe & Steel Company to become a member of the pioneer engineering and contracting firm of Hunt, Mirk and Company, with headquarters at 141 Second Street, San Francisco.

Announcement of Delhi's affiliation with Hunt, Mirk and Co. was made by Thos. J. Benney, senior member of the firm, who said Delhi's entry into the company will strengthen its financial position as well as expedite its postwar expansion program.

Hunt, Mirk and Company was founded in 1903, and has been active continuously in the engineering and construction of steam power plants, marine engineering, and all phases of steam distribution systems, electrical construction and hydro-electric installations.

During the war, Hunt Mirk's activities were confined largely to the development of engine room design work for the U. S. Maritime Commission and other governmental agencies. The company is now preparing to resume its prewar activities on a more comprehensive basis. This will include design and construction of steam and power plants for lumber, food, cement, chemical and oil industries.

Hunt, Mirk and Company will expand its activities to cover general contracting as well as specialized welding in order to offer a complete and integrated engineering contract service.

Delhi is President of the California Metal Trades Association which represents more than 350 central and northern California metal trades firms employing 26,000 men. He is also National Director of the American Welding Society and previously served two terms as Pacific Coast Regional vice president of the organization.

With the purchase of Western Pipe & Steel by Consolidated Steel Corporation of Los Angeles, Delhi concluded 22 years service with the company. Under his direction the company designed and built more than 48 special all-welded C3-type vessels for the U. S. Maritime Commission, practically all of which were converted into specialized vessels for Army and Navy use.

Delhi also had charge of the fabrication of many thousands of tons of steel for other firms, as well as a comprehensive program of ship repair work for the Navy and War Shipping Administration. Delhi has been an outstanding advocate of automatic arc welding not only in the construction of ships but also in boiler drums, pen stocks, oil refinery equipment, and other quality plate work.

WINDOW DEFROSTER

If you are one of those fortunate folks with a big picture window, take a tip from the automobile accessory makers and use your fan for a defroster. Just set your electric fan so that it will carry warm air from your room onto the glass window surfaces and watch the cloudy frost pattern vanish.

Broker Can Help The Builder, Says Realtor

Arthur R. Storm, president of the Eastern Bergen County Board of Realtors and the Teaneck Chamber of Commerce, today admonished fellow realtors that proper handling of real estate development business requires full and complete service.

"Salesmen must be trained so that houses can be sold at a saving in expense and time as far as the builder is concerned.

"The broker should get from the developer complete plans showing the number of polts and sizes, setbacks, and restrictions. The sales representative must know on which plots certain models are to be built. Plans and specifications for each model must be in the broker's hands at all times in all of his offices.

"Mortgage commitments issued for each model are important facts for selling agents because in knowing that th salesmen are informed as to the cash required to buy any particular model.

"Monthly taxes and fire insurance added to amortization with interest payments will acquaint the purchaser with the amount of his monthly carrying charge."

From the sales viewpoint the selling representative has seven distinct duties to do a thorough job for the developer. "He should prepare an agreement of sale which must set forth the sales price, amount of payments to be made by the purchaser, the dates of payments, cost of obtaining mortgage and an outline containing those items which are included in mortgage costs, such as mortgagee's search, mortgagee's title policy, survey, and recording fees.

"All extras in addition to the regular model should be stipulated for protection of the purchaser and the builder. The broker should have prepared the formal contracts and arrange for signing by purchasers and collect the payment for the builder as specified in the contract.

"The broker should obtain a financial statement of the purchaser and ascertain that the prospective purchaser has no judgments against him and so save a lot of trouble for all concerned. Many buyers do not know that this would preclude them from qualifying for a mortgage.

"After having a contract signed by the builder the contract and financial statement should be submitted to a mortgagee of the builder's selection for processing. It is the broker's obligation to follow through on the search to see that the closing time is set.

"It is the broker's obligation to see that the builder furnishes him with or takes to a closing a properly prepared deed and affidavit of title, any insurance policies in effect, and tax data.

"The broker should have at all closings a representative qualified to prepare or examine the closing statement.

"The experienced realtor offers a definite service which no builder can afford to pass up."

Denver Engineers Announce Opening Of New Firm

Paul W. Dexheimer and Frank V. Wedlick have announced their association as consulting engineers and the opening of offices at 322 C. A. Johnson Building, Denver, in the same suite with Richard O. Parry, architect.

Both Dexheimer and Wedlick are mechanical engineers and are well known in Denver and throughout the midwest, having been engaged in many large engineering projects in this area during the past twenty years. Parry is well known as the architect of many of Denver's larger buildings of all types, and has designed a large number of industrial and commercial plants and buildings in this vicinity. During the war all three men were engaged with some of the country's larger firms or architects and engineers in the supervision of design and construction of a number of war production plants. These included the Denver Ordnance Plant and Arsenal, Lowry Field, Sunflower Ordnance Plant, and similar plants in other western states.

Their practice will be devoted to the field of industrial and mechanical engineering, especially operational and management problems of production plants in connection with plant and equipment design and installation, and production methods. They have had wide experience in the design of heating and boiler work, power plants, air conditioning, refrigeration, special machinery, and materials handling equipment.

National Wage Stabilization Board Announces Members for Tenth Region

Members of the Tenth Region of the National Wage Stabilization Board, the tripartite agency set up by Presidential order to carry out until June 30, 1946, the provisions of the Wage Stabilization Act formerly administered by the National War Labor Board, were announced today by Chairman Thos. Fair Neblett.

The new Board, which consists of six regular members with two each representing the public, industry and labor, will concern itself with voluntary applications for approval of wage increases affecting price ceilings and wage decreases and with enforcement of the Wage Stabilization Act of October 2, 1942.

The Tenth Region comprises the States of California, Arizona and Nevada.

Besides Neblett, other public members of the Board are Dr. Clark Kerr, associate professor of industrial relations at the University of California in Berkeley; Arthur P. Allen of San Pedro, who was vice-chairman of the Tenth Regional War Labor Board and formerly chairman of the Board's West Coast Aircraft Committee, and Dr. Willard E. Hotchkiss of South Pasadena, former director of the Division of Humanistic and Social Studies at Carnegie Institute of Technology. They will serve part time.

Regular industry members are George Gahrs, president of the San Francisco Employers Council, and Paul Shoup, president of the Merchants and Manufacturers Association of Los Angeles, Pembroke Gochnauer, general counsel for the San Francisco Employers Council, and C. R. Leslie, general counsel for the Los Angeles M. & M., will serve as alternates.

Regular labor members are Wendell Phillips of San Francisco, secretary of the Bakery Wagon Drivers & Salesmen, Local 484 (AFL) and Herbert H. Wilson of Los Angeles, international representative of the United Rubber Workers (C I O). Alternates are Harry Lea of Los Angeles, International Brotherhood of Blacksmiths (AFL) and Ed Hall of Los Angeles, United Auto Workers (CIO).

All members of the Stabilization Board, except Leslie, were members of the Tenth Region of the National War Labor Board, which was terminated by Presidential order on Dec. 31, 1945.

All applications under the new wage and price regulations are to be filed with the new Board through the Wage and Hour and Public Contracts Division of the U. S. Department of Labor as was done under procedure of the War Labor Board.

Approximately 1,400 enforcement cases have been transferred from the Tenth Regional WLB to the new agency. Chairman Neblett stressed that all controls over wage adjustments in the building and construction industry are still in effect and that a vigorous program of enforcement is being carried out in this industry by an enlarged staff of Board attorneys and inspectors of the Wage and Hour Division. He pointed out that under existing executive orders all proposed wage or salary reductions require approval of the Stabilization Board.

Neblett announced that William Babcock, who was regional attorney of the Twelfth Regional WLB in Seattle, will be regional attorney of the new Board in San Francisco. Other division heads are Paul Kleinsorge, director of wage stabilization; Rose Morry, director of information, and Herbert Prodger, director of administrative management. Kleinsorge was assistant director of the Tenth Regional WLB's Wage Stabilization Division, Miss Morry was information director of the Twelfth Regional WLB, and Prodger was administrative management director of the Tenth Regional WLB.

19—MISC. CONSTRUCTION

January 16, 1946

BID RECEIVED

COQUILLE, Ore.—The Montgomery Electric Co., Portland, Ore., submitted the only bid (which was not opened) to the Coos Electric Cooperative, Inc., Coquille, Ore., January 8, for the construction of a 306-mile, 7200-12,450-volt transmission and distribution line to serve 1000 members in Coos and Curry counties, Oregon; a rural electrification project; estimated cost, $475,000. The cooperative is proceeding with the construction on force account. Plans were prepared by the Lowe Co., engineers, 315 Architects' Bldg., Los Angeles. 19

January 16, 1946

BIDS WANTED

OROVILLE TO SACRAMENTO, Calif.—Until February 11, 10 A. M., bids will be received by the Bureau of Reclamation, Denver, Colo., under Spec. No. 1152, for the construction of a 230-kilovolt transmission line from Oroville to Sacramento, Calif.

The transmission line, approximately 56 miles in length, will be a 230,000-volt, 3-phase, 60-cycle, 3-wire, single-circuit of steel-tower construction. The towers will be from 60 feet to 110 feet in height. The conductors for the line will be either 795,000-circular mil aluminum, steel reinforced, or 500,000 - circular mil expanded type copper. Two transpositions will be constructed in the line. The tower footings will be of the reinforced concrete type. The principal items of work and the approximate quantities involved are as follows:

(a) For aluminum conductors (266 towers):
  3200 cu. yds. excavation for tower foundations;
  1600 cu. yds. concrete for tower foundations;
  furnishing and placing 22,000 lbs. of reinforcement bars for tower foundations;
  placing 67,000 lbs. of steel stubs for tower footings;
  erecting 4,000,000 lbs. of structural steel for towers.
(b) for copper conductors (298 towers):
  3600 cu. yds. excavation for tower foundations;
  1800 cu. yds. concrete for tower foundations;
  furnishing and placing 24,000 lbs. of reinforcement bars for tower foundations;
  Placing 75,000 lbs. of steel stubs for tower footings;
  erecting 4,500,000 lbs. of structural steel for towers.

In addition to the above items; the installation of insulators and the stringing of conductors will also be required.

This invitation for bids does not cover the purchase of materials which are to be furnished by the government. Materials to be furnished by the contractor and those furnished by the government are described in the specifications which will be a part of the contract.

The work shall be commenced within 15 calendar days after date of receipt of notice to proceed and shall be completed within 180 calendar days from the date of receipt of such notice.

No charge to prospective bidders for copies of the specifications and drawings; to others, $1.25 per copy, not returnable.

Copies of the standard forms and of the specifications may be obtained from the following offices of the Bureau of Reclamation: R. L. Boke, regional director, Old Post Office Bldg., 7t hand K Sts., Sacramento 14, Calif.; I. C. Harris, acting construction engineer, Redding, Calif.; Walker R. Young, chief engineer, U. S. Custom House, Denver 2, Colo., and Michael W. Straus, commissioner, Bureau of Reclamation, Washington 25, D. C. Prospective bidders desiring to visit the site of the work should communicate with the acting construction engineer. • 19

PLANS and Speculations

The Board of State Harbor Commissioners has announced ambitious plans for SAN FRANCISCO. Future construction plans include:

New $1,000,000 pier for the fishing industry to provide berthing facilities and refrigerating and packing plants, to be constructed at the foot of Hyde Street on the former Golden Gate auto ferry pier; modernization and enlargement of grain terminals at Piers 90 and 92 to cost $1,000,000. The grain operators to share construction costs jointly with the Harbor Board; rebuild Piers 25 and 27 at a cost of $3,500,000 for the purpose of handling cargo.

Work is already underway for the $5,000,000 Mission Rock pier, which will provide 7,000 feet of additional dock space and a repair program is proceeding for Piers 7, 9 and 21.

oOo

Col. Andres Soriano, a former aide to General MacArthur, has announced the formation of a new company to rebuild Philippine industries. Joining the enterprise are two American firms, Morrison-Knudsen of Boise, Idaho, dam builders, and S. D. Bechtel and Associates, west coast shipbuilders. During the war, Morrison-Knudsen took over the maintenance of S. P. tracks over the "Sierras".

oOo

The city planning commission of SACRAMENTO has authorized its secretary, Milton Faig, to send letters nationwide in an attempt to find the best available planning engineer to fill the vacancy caused by the death last October of Ed Welch.

oOo

The YUBA COUNTY board of supervisors has approved the road plan, as prepared by state engineers, covering improvement on the Brown's Valley to Clipper Mills road via Brownsville, Challenge and Woodleaf. The plan consists of the preliminary estimate and data necessary before it can be presented to state and federal authorities for final approval.

oOo

Plans for building an addition to Lo-Inyo Elementary School in LONE PINE have been announced by the school's board of trustees. . . Possibilities are that several counties will join in the construction of an adequate detention home in Sutter County. . It has been announced that the high school board of REDDING is seriously considering the construction of a swimming pool at the high school during the fiscal year starting in July.

oOo

Brick Ceiling Increased In Western States

An increase of $2 per thousand in manufacturers' f.o.b. plant ceiling prices for clay and shale building brick, both common and face, and an increase of 80 cents per ton for hollow and clay drain tile have been announced by the Office of Price Administration. These increases apply to these products produced in the ten Western states.

These increases, OPA said, will take the place of varying increases already given producers of brick and tile on an individual and local area basis, and this action will involve further increases primarily only for those plants which have not had any previous adjustments, including closed plants, the agency said.

Resellers are authorized to pass on the dollar-and-cent amount of the increases, OPA said.

This adjustment has been made, OPA said, to eliminate price impediments in the production of brick and tile, materials acutely needed in the home building industry.

Brick and tile production problems in the Western states apply equally to those East of the Rocky Mountains, which were given a similar increase in September 1945.

The ten states affected by this action are: California, Idaho, Nevada, Wyoming, Utah, New Mexico, Washington, Arizona, Oregon and Montana.

DATA READY

The new streamlined Rex 6S Mixer, the Rex 3½S end discharge tilter, and the Rex Skipper are pictured and described in Bulletin No. 480 just published by Chain Belt Company of Milwaukee. Many new machine innovations are emphasized by means of small sketches, and there are large illustrations which show the main mechanical features. Two pages are devoted to a composite set of specifications on the three mixers. You may obtain a copy by writing Chain Belt Company, 1600 West Bruce St., Milwaukee 4, Wis.

Direct-Mill Mark-Up For Lumber Again Denied

The Office of Price Administration has reaffirmed its recent denial of the establishment of a mark-up for direct-mill lumber shipments by wholesalers or commission men. The action was taken following an extended review of the lumber distribution problem and after careful consideration of the evidence and testimony presented by both lumber wholesalers and retailers in hearings before the Senate Small Business Committee and in meetings with OPA officials, the agency said.

The lumber wholesalers, who normally purchase from producing mills at a discount and resell at mill prices, recently requested the establishment of a mark-up for their services, on the ground that many producing mills no longer are extending pre-war discounts. Following OPA's denial of their request, the wholesalers asked for a reconsideration.

In affirming the denial, OPA said: "As the result of the present serious lumber shortage, all distributors and users of lumber are experiencing difficulty in obtaining adequate supplies. This has naturally put a strain upon all lumber distributors, including the office wholesalers. OPA price regulations now recognize fully, however, their historic and established ways of doing business, and a change at this time would inevitably result in added pressure on retail ceiling prices. Many retailers, who would be required to absorb such a mark-up, have vigorously opposed the proposed mark-up through their OPA advisory committee and through their national trade association.

"To permit retailers to increase retail prices by the amount of such a mark-up, however, would increase construction costs further at a time when stabilization of these costs is of vital importance for the housing program.

"The establishment of priorities on scarce building materials, including lumber—recently announced by the Civilian Production Administration—will contribute to the better distribution of available supplies, particularly through small retail yards, who have recently been unable to obtain needed stocks. Moreover, the settlement of the recent strike in the Northwest lumber producing areas will undoubtedly help the supply situation within the next few months.

"The same considlerations apply to the alternative proposal of wholesalers and commission men to permit their customers to pay them 'finder's fees' for locating lumber. Therefore, this request was also denied."

This decision has no bearing on pending formal protest proceedings, OPA said.

STEEL LEADERS NOT KNOWN, SAYS GALLUP

Of all the persons polled in a survey conducted for Iron Age by associated of the Gallup Poll organization, 62 per cent could not name a single prominent individual in the steel industry.

Of those who could think of any one in the industry, 13 per cent mentioned Andrew Carnegie and 5 per cent recalled Charles Schwab. A newcomer to the industry, Henry Kaiser, was named by 4 per cent.

Honeywell Expands Branch Offices In Five Cities

In a series of branch organization changes, Minneapolis-Honeywell Regulator Company has announced the opening of new offices in Denver and Salt Lake City and expansion of existing offices in Washington, D. C., Los Angeles, and Spokane, C. B. Sweatt, executive vice president stated.

The present Washington office will henceforth assume responsibility of sales of all company products in the District of Columbia, Sweatt said. Wm. E. Kingswell, formerly a distributor for Honeywell products, will continue to handle company sales as a wholesaler.

F. M. Thuney, who has been Executive Engineer in the company's engineering department for the past four years will become branch manager at Washington, Sweatt said. Before coming to Minneapolis in 1941, Thuney spent 7 years with the Kingswell organganization in Washington and 3 years in the Engineering Department of the Potomic Electric Power Company which he joined after leaving the United States Military Academy at West Point. P. C. Sharp, who has been acting as both branch manager and export manager in Washington since 1941 will henceforth devote all of his time to export activities and will transfer his office to Minneapolis.

A new branch has been opened in the Wilda Building in Denver under the direction of George D. Maves, Sweatt continued. Maves has been located in Denver for the past three years as a company representative for the territories formerly handled by distributors. Prior to his Denver assignment, he spent seven years in Honeywell's Houston branch. The Denver Fire Clay Company will continue to handle the sales of Honeywell's subsidiary, the Brown Instrument Company, in the Denver territory while the Wm. A. Flatt Company, which has represented Honeywell in the territory for the past 12 years will continue to handle company products as a wholesaler.

Eldon I. Richardson has been appointed District Representative in Salt Lake City and will operate under the supervision of the Denver branch, Sweatt said. During the war years, Richardson served as a field engineer on the West Coast for the Company's Aeronautical Division. Sales of Brown Instrument Company equipment in Salt Lake City will continue under the supervision of the Denver Fire Clay Company, while Williams and Richardson will handle company products as a wholesaler. The latter firm has been a Honeywell distributor in Salt Lake City for the past 18 years.

The present Los Angeles office has been expanded to handle the complete line of all company equipment and Gavin Younkin has been made branch manager, the Honeywell official said. The office will be under the supervision of C. I. Peterson in San Francisco who is regional manager for California. The firm of English and Bauer, who has handled the sales of Honeywell products in Los Angeles for the past 15 years, will continue as a wholesaler.

H. S. Jennings, as District Representative in Spokane, will handle an expanded territory in the states of Washington, Idaho and Montana, while the Sullivan Valve and Engineering Company, which has represented Honeywell in Montana for the past 10 years, will henceforth purchase Honeywell products as a manufacturer.

BUREAU PLANS OREGON WATER PROJECT SURVEY

Plans for an investigation to determine the possibility of supplying irrigation wate for about 5,000 acres of orchard land in the immediate vicinity of The Dalles, Oregon, are being pushed by the Northwest Regional Office of the Bureau of Reclamation, Regional Director R. J. Newell reported today.

With recent approval by Congress of a supplemental appropriation of $300,000 for project investigations in the Northwest, part of which will be used for The Dalles Project, the Regional Office plans to send investigation parties into this area as soon as conditions permit, probably before the end of February. The survey parties will take the topography of the irigable land, determine the location of the distribution system, and select possible sites for pumping from the Columbia River, Other investigation parties will make land classification and economic studies.

These studies and surveys are necessary to establish the engineering and economic feasibility of supplying irrigation water to the area. Reclamation laws, under which the Bureau operates, require that before construction of a project is undertaken it be determined to be feasible from an engineering standpoint, and that water users be able to repay, over a period of years, that part of the cost allocated to irrigation.

The survey is being undertaken at the request of farmers and orchard owners of The Dalles who have petitioned the Bureau for early action to save fruit trees in the area. Most of the acreage, chiefly in cherries, peaches, and apricots, is dry-farmed, but the farmers have reported that the natural supply of moisture, subnormal for a number of years, has proved insufficient to support mature trees. Approximately 500 acres are irrigated from wells, but the ground water supply is entirely inadequate for the larger acreages.

In the petition requesting the Bureau to investigate the project, the orchard owners reported:

"The majority of the orchardists and gardeners that would be supplied with water from The Dalles Project are looking forward to the Bureau of Reclamation to investigate the feasibility of the irrigation of at least the present five thousand acres of producing orchards and also the development of adjacent acreage suitable for orchards to the extent of from two to three thousand acres more.

"The present well irrigation projects have demonstrated that it is possible to increase production in the orchards, especially cherries, to the extent of 100 per cent and in the apricot and peach orchards from 200 to 500 per cent."

If the survey shows the project to be feasible, both from an engineering and an economic standpoint, a report will be submitted to the President and Congress and authorization sought for the construction.

CARPENTERS GET RAISE

According to word received from Charles L. Harney, President of Northern California Chapter of the Associated General Contractors, the case between Bay Area District Council of Carpenters and local contractors has been settled in Washington, D. C., by Wage Adjustment Board.

Carpenters in Alameda, Marin, San Francisco and San Mateo counties were awarded $1.75 per hour on all new work.

The order becomes effective Monday, January 21.

ASRE Will Discuss Condensers At January Meet

Friday, January 18, is the date scheduled for the meeting of the San Francisco Section of American Society of Refrigerating Engineers.

The meeting will be held at the Engineers' Club, 206 Sansome St., at 6:00 p. m.

The January meeting will consider the subject of "Evaporative Condensers" and will be divided into three parts: namely, Part 1, "The Theory of Evanorative Condensers", by E. G. Thomsen, Assistant Professor, Division of Mechanical Engineering, University of California; Part II, "Industrial Applications of Evaporative Condensers", by R. Holland, of General Equipment Co.; Part III, Discussion led by William Holladay, Chairman of the Technical Committee.

Alfred Chadburn, National Assistant Secretary of the Society, will visit us from Cincinnati and will take part in the January meeting.

Reservations can be made by calling the Secretary's Office—EXbrook 4404.

GOVT. SURPLUS, HOUSING ON CC MEET AGENDA

Newest means of expediting disposal of surplus government property; industrial legislation at the special session of the legislature; the San Francisco Bay area's housing problem; relaxation of federal controls—these are among the subjects to be discussed at a meeting Tuesday, January 22, of the industrial committee of the California State Chamber of Commerce's Central Coast Council. The meeting, to start at noon in the Hotel Leamington, Oakland, will be attended by committee members from Contra Costa, Alameda, San Francisco, San Mateo, Santa Clara, Santa Cruz, San Benito, Monterey and San Luis Obispo counties.

Weller Noble, Berkeley, chairman of the industrial committee, has arranged a program including the following:

Disposal of surplus property—release of tools and equipment, O. A. Hall, sales supervisor, RFC; release of government owned consumer goods, Pierce Davis, regional advertising manager, RFC.

Housing—special session outlook, David Livingstone, State Chamber of Commerce; What can be done to solve the BayArea's housing problem, Milton Morris, executive secretary, Associated Home Builders of San Francisco.

30—RESERVOIRS & DAMS

January 17, 1946
BIDS WANTED
FORT PECK, Mont.—Until Feb. 5, 10 A. M., bids will be received by the U. S. District Engineer Office, Fort Peck, Mont., for the installation of the structures, machinery and equipment which will provide the facilities required for placing in operation at the power house a second generating unit (capacity 16,667 kva.) and the construction work required to complete the existing power house superstructure to elevation 2128.0 to permit the future installation of the surge tanks for the Fort Peck power development; Serial 14. The site of the work is on the Missouri River at the Fort Peck damsite, approximately 19 miles southeast of Glasgow, Mont. ,in T. 26 N., R. 41 E., McCone County.
The work consists of the removal, salvage, disposal or replacement of certain specified existing temporary covers or bulkheads; the reconstruction of and placing in satisfactory operation an existing government-owned concrete mixing plant of approximately 80 cu. yds. per hour capacity; placing all specified reinforced concrete work; grouting and pressure grouting in the Fort Peck power house penstock area and main control shafts Nos. 1 and 2; installation of two butterfly valves in Nos. 1 and 2 penstocks, respectively; furnishing and installing the specified portion of the structural steel and reinforced concrete deck over the penstock area; installation of a 20,000 h.p. waterwheel turbine and its associated hydraulic governor; installation of reinforced concrete foundations for a 16,667 kva. (15,000 kw.) AC generator and furnishing only the services of an overhead type crane operator during the erection of the generator by the generator manufacturer; installation of two 13.8 kv. switchgear cubicle units and installing miscellaneous steel structures, tanks, valves and piping, and construction of certain specified equipment and structures. All work to be completed by January 1, 1947. Bid bond for 20% to accompany bid. • 30

Shirley Olympus, former business manager of the Merced Sun-Star, has resigned his newspaper post to take over public relations activities of the Halton Tractor Company of MERCED. . . Wm. H. Decker and Nunzio Volanti of Fresno have entered partnership agreement for the formation of their Contractors' Equipment and Supply Company in FRESNO.

oOo

Western headquarters for the La Plante - Choate Manufacturing Co., Inc., national road building equipment concern, will be established by February 1, at 344 Davis St., SAN LEANDRO, where the company has leased 20,000 feet of industrial property from the Par Soap Company. . . Stanley Capuder and Erwin Peterson of Grass Valley have opened the Nevada County Brick and Tile Company, at 532 Butler St., GRASS VALLEY.

oOo

Purchase of the six-story and basement building on Battery St., SAN FRANCISCO, adjoining the Dollar Building, was announced by the Robert Dollar Company. The building will be returned to service as a public garage as soon as the Marine Corps releases it. . . The old Jim Rolph homestead on Guerrero Street, SAN FRANCISCO, is being leveled to make way for six residential flats. The land is now owned by Robt. Scharetg.

oOo

OAKLAND City Manager Chas. R. Schwanenberg is seeking to enlist the services of the "best available engineering firm possible" to make a survey and outline a long-range program of highways, freeways and traffic flow. One of the proposed developments which the engineering firm would report on is the suggested freeway from College Avenue and Broadway to connect with the extension of the Eastshore Freeway at Webster and Sixth Street.

oOo

The SAN JOSE Water Works has announced intentions of spending $463,000 for repair and construction of mains. $338,500 will go for work in San Jose, and $124,500 for work in Los Gatos. . The proposal of Peters and Peters, law firm, to construct a professional office building on the southwest corner of Second and Normal Sts. in CHICO, within a residential district, will be submitted at a public hearing February 5.

Agency Report Claims Lumber Export Less Than 1.4 Per Cent of U. S. Production

John W. Snyder, Director of War Mobilization and Reconversion, has made public an inter-agency report which showed that exports of lumber in 1945 amounted to less than 1.4 percent of total United States lumber production.

Lumber production for the first nine months of 1945 was 22.0 billion feet. Lumber exports by the United States are subject to export licenses, and were 268.6 million board feet, representing 1.22 per cent of total U. S. lumber production for the first nine months of 1945.

For the entire year 1945, lumber production is expected to reach 27.5 billion board feet and actual export shipments will not exceed 375 million board feet or 1.36 per cent of the total U. S. lumber production for 1945.

It is apparent from the above figures that the amount of lumber shipped abroad is an exceedingly small percentage of total production.

Of the approximately 375 million board feet shipped in 1945, about 30 per cent or approximately 113 million board feet is hardwood. This type of lumber goes into railroad transportation, shipbuilding, furniture, tool handles and other manufacturing. Little goes into home construction.

An additional 35 per cent of the lumber shipped in 1945 (approximately 131 million board feet) is in timber size which normally does not go into home building but rather into heavy construction such as docks, railroads, shipbuilding, factory construction, inland waterways—barges and canal locks—mining, petroleum and repair of war damage. Some of this lumber if retained in the United States might funnel into home construction but the cost of cutting it into required sizes is extremely high.

Some of the U. S. lumber mills, especially in the Douglas fir region, are only equipped to produce lumber sizes usually demanded for export. Should such exports be frozen, these mills might be forced to curtail or even cease operations entirely since they could not easily produce the domestic grades of lumber.

The remaining 35 per cent of the lumber shipped in 1945 (approximately 131 million bd. ft.) is lumber which can be used in home construction... Overseas it is used for housing, factory construction, commercial building and millwork.

The exportation of this lumber is not only in the interest of our national policy to aid in the restoration of war-devastated countries but much of the lumber exported has been for purposes which redound directly to the benefit of our own economy.

Sugar and tin are scarce commodities very urgently required by the United States. Some of our lumber exports are used for sugar production in Cuba and tin mines in Bolivia.

Lumber shipped to the liberated areas of Europe is used for the rehabilitation of docks and wharves railroads, bridges, canals and inland waterways. The rehabilitation of the transportation system of these countries is essential to their economy and permits them to reestablish their exports so as to restore their trade with this country. It contributes to faciliating the redeployment of our troops and supplies from Europe.

A portion of the lumber exported to the Netherlands went into the construction of bins which the Dutch used for growing early spring vegetables. A large portion of these vegetables goes to our men in the Army of Occupation in Europe. Another portion of the lumber shipjped to Holland was for the repairs of dikes to permit early deflooding of agricultural land so that food could once more be grown in those areas.

Lumber for the repair of war-damaged buildings in Europe largely came from the forest sources within the country or from Sweden. However, these supplies were inadequate to meet the most immediate needs and some small quantities of construction lumber were shipped for emergency housing, particularly to the United Kingdom.

If we assume that approximately 8,000 to 10,000 board feet of lumber are used per dwelling unit, the construction lumber shipped overseas would be sufficient for approximately 13,000 to 16,500 homes.

It is interesting to note that since the war began lumber imports to the United States have been consistently twice as large as our exports. For the first nine months of 1945 our imports amounted to 742 million board feet as against an export figure of 269 million board feet. Considerably more than half of these imports were of types of lumber normally used for home construction.

For 1946, U. S. lumber production is expected to be approximately 30 billion board feet. Of this amount, construction lumber may represent as much as 19 billion board feet.

If 500,000 housing units are constructed in 1946, this will require 5 billion board feet of construction lumber (assuming 10,000 bd. ft. per unit) leaving about 14 billion board feet of domestic construction lumber for all other purposes.

The total amount of all lumber requested by foreign countries for export during 1946 is over 4 billion board feet.

YOUR TAX TIMETABLE DATES EMPLOYERS SHOULD REMEMBER

January — 1946

31—OLD-AGE BENEFIT TAX: Return for last quarter of 1945 due and tax payable.

31—UNEMPLAYMENT TAX: Return for 1945 due and tax payable, but employer may elect to pay in quarterly installments. First installment payable if election is exercised.

31—WITHHOLDING TAX: Return of tax withheld from wages during last quarter of 1945 due and tax payable; reconciliation return for 1945 due. Last day to give employee receipt for 1945 tax.

31—EXCISE TAXES: Return for Dec, 1945 due and tax payable.

31—INFORMATION RETURNS Returns of tax withheld at source from interest on corporate bonds during last quarter of 1945 due. Tax payable June 15.

February — 1946

11—WITHHOLDING TAX: Tax withheld from wages during Jan. 1946, if more than 100, payable to an authorized depositary.

15—CORPORATE INCOME and EXCESS PROFITS TAX: Return due and one-fourth of tax payable for fiscal year ended Nov. 30, 1945. One-fourth of tax payable for fiscal year ended Feb. 28, May 31 and August 31, 1945.

15—INDIVIDUAL INCOME TAX: Return due and tax payable for fiscal year ended November 30, 1945.

GROOVER AND I

CONTRACTORS COMPLIMENTED

Richard Wilson of the State Division of Highways office at Sacramento, this week announced that since November 9, 1945, the State had let contracts for over $20,000,000 worth of work. Wilson complimented the contractors, estimators, etc., on the excellent manner in which their bids had been prepared, that they had been clean cut, easy to read, and with very few mistakes.

V

KRAFTILE CO. REPORTS CALL FOR QUONSETS

Evidence of an eager demand in the industrial and agricultural fields for "packaged" steel buildings was reported this week by C. W. Kraft, president of Kraftile Company, who stated that his organization had sold Stran - Steel "Quonset" type structures totalling more than 91,000 sq. ft. of floor space during the first five weeks since announcing distributorship for that line. Customers are located in widespread parts of Northern California. Their preferences are predominatly for the "Quonset 40", 40 ft. wide by 100 ft. long, while orders have also been fiilled for "Quonset 20's, 24's, and 60's".

According to the Kraftile executive, the first "Quonset" building to be erected and put to use was that of the Liqua Zone Co., Ltd., in San Jose. Another San Jose firm purchased four "Quonset 40's".

The "packaged" steel buildings are adaptable to numerous uses and are easily erected due to the "nailing groove" feature which permits nailing inside or outside building materials directly to the steel frame.

It was made known by President Kraft that his company, for many years a manufacturer of clay products, bricks, ceramics, and allied products, had added the distributorship in line with its postwar plan to become identified more widely with the building materials field. The company also distributes other line of specialty building materials from its headquarters at Niles, Calif.

Summary of Industrial Development Shows 364 Expansions, 480 New Plants

Peacetime records for industrial development were made in northern California during 1945 when projects representing investments of $137,499,368 were launched, according to tabulations released by the San Francisco Chamber of Commerce Industrial Department.

Projects were as follows: 480 new factories; 364 plant expansions.

With outlays aggregating $118,580,268, industrial developments in the San Francisco Bay Region (12 counties) summarize like this: 379 new plants; 321 expansions.

The 1945 record for San Francisco proper shows: 119 new plants, 133 expansions; $17,381,650 in outlays; and 5,000 additional jobs.

Adding the $137,499,368 for industrial development announced by the San Francisco Chamber for northern California to $83,647,000 reported for Los Angeles County by the Los Angeles Chamber gives a state total of $221,146,000 — a husky indication of new job opportunities in the Golden State.

December reports for northern California accounted for 50 expansions of existing firms and 82 new industries with a total of $11,042,448 in investments. The Bay Area accounted for $10,752,448 of this figure with 63 new plants spending $7,575,948 and 47 expansions costing $2,996,500.

Corresponding figures for San Francisco were 15 new factories for $634,000 and 18 expansions costing $644,500 or total outlays of $1,278,000 for the month.

Record month for the Bay Area was August which topped $34,000,000 in new plants and expansions.

Summarized industrial development data follow:

Northern California: 364 expansions, $69,418,120; and 480 new plants, $69,081,345.

San Francisco Bay Region: 321 expansions, $66,687,620; and 379 new plants, $51,892,648.

San Francisco: 133 expansions, $5,463,350; and 119 new plants, $11,918,300.

With the exception of San Francisco, average cost of new factories in northern California is less than the average cost of expanding existing plants which indicates a trend toward the smaller decentralized type of industry.

Some of the outstanding announcements of national concerns for the Bay Area for 1945 were:

Campbell Soup Co. of Camden, N. J., $4,000,000 plant on 125-acre site near Sacramento.

Chyrsler Motors Corp. purchased 40-acre site in San Leandro.

United States Envelope Co., with headquarters in Springfield, Mass., purchased 105,000 sq. ft. for a half-million dollar plant in Emeryville.

H. J. Heinz Co. of Pittsburgh, Pa., built large plant on 75-acre site near Tracy.

Columbia Steel Co., subsidiary of U. S. Steel, announced 25-million dollar expansion at Pittsburg, Contra Costa County.

International Minerals & Chemicals Corp. of Chicago announced a million dollar plant on a 26-acre site in San Jose.

Beech-Nut Packing Company of Canajoharie, N. Y., purchased 23-acre site in San Jose for $800,000 plant.

Gar Wood Industries, Detroit, Mich., will locate manufacturing plant on the San Francisco peninsula to employ 500.

Pacific Can Company of San Francisco announced new 150,000 sq. ft. plant in the Bay Area.

The Paraffine Companies, Inc., announced $4,000,000 expansion of East Bay plant.

Standard Oil of California with headquarters in San Francisco is executing multi-million dollar expansion of Bay Area facilities.

Bethlehem Pacific Coast Steel Corp., newly organized subsidiary of Bethlehem Steel, announced extensive expansion of San Francisco and South San Francisco plants.

Among the important developments reported in the Bay Area for December are:

Victor Equipment Co. will add 10,000 sq. ft. to San Francisco plant.

American Can Co. leased 137,000 sq. ft. plant with spur track at 255 12th St., San Francisco.

Listo Pencil Corp. will erect 2-story addition to plant in Alameda.

Kushings of California, Inc., San Francisco, purchased shoe factories in Santa Rosa and will install equipment to manufacture outdoor shoes.

Langendorf Bakeries will erect 1-story addition to Oakland plant.

Butler Packing Co. of Seattle purchased 10 acres on San Leandro Blvd., Oakland, for a new $1,000,000 plant.

E. Lorenz & Sons will build new $50,000 plant in San Jose to manufacture wine and water storage tanks.

True-Sheen Company purchased property in Richmond and will construct plant to manufacture cleaning solvents to employ about 30.

V

Renewed efforts to have a west portion of NILES included in the sanitary district either of Niles or Decoto will be made by committees meeting with the respective sanitary commissions. The Decoto meet is scheduled for early in February.

FOR BETTER BUILDING
NEWS OF MATERIALS, EQUIPMENT AND METHODS

PREFAB HOUSE

National distribution through lumber dealers is planned for a two-story prefabricated house called **HomeOla**, built of plywood with a steel "chassis." All wall and floor panels are of plywood stressed-skin construction with the panels glued to both side of light wood framing members. Floor sections are in 4-foot squares and have special wearing surfaces of vertical grain fir. Wall panels are 4 by 8 ft. Blanket insulation in both wall and floor units is placed during fabrication.

Built-up plywood roof rafters, completely fabricated at the factory, have been developed, over which longitudinally braced plywood roof decking is placed; finished roofing is conventionally applied. Roof insulation, in blanket form, is attached to the back of second-story wall and ceiling panels.

The house, exclusive of lot, is intended to sell complete for less than $3,000. Shipment of the house parts will be to building material dealers who will provide the crews for erection. Willisway System, 9 S. Clinton St., Chicago 6, Ill.

#

TEMPERATURE REGULATOR

A self-contained, spring loaded, internal pilot, piston operated **Temperature Regulator** for steam service features Duo-Matic Control—both accurate temperature regulation and pressure control obtained simultaneously with a single regulator. The unit has a thermostatic element with 100 deg. F. adjustable temperature range, equipped with metal diaphragms. All wearing parts are renewable. Leslie Co., 57 Delafield Ave., Lyndhurst, N. J.

#

HEAT PANELS

Immediate production of the **Base-Ray Heat Panel** has been announced by Burnham Boiler Corporation, Irvington, N. Y. Developed by research engineers at the University of Illinois, the panel is a hollow, cast iron baseboard unit (see AR, June, 1945, p. 124).

#

UNIT LOCK

A new lock, the **Corbin Unit Lock**, is said to offer home owners complete freedom from the annoyance of sticking and binding knobs and latches because it is assembled at the factory in one complete unit. Installation is simple, with no mortising necessary—the unit slips into a slot in the edge of the door and is made fast by two bolts without touching or adjusting the working parts in any way. P. & F. Corbin, New Britain, Connecticut.

#

DOORSTOP

An easily installed **Door Stop-Nut** slips over the top knuckle of a door hinge and is held secure by the hinge pin. Eliminating the need for baseboard or floor type door stops, the unit prevents the banging of doors against walls or furniture. Door Stop-Nut, Inc., 810 W. 76th St., Chicago 20, Ill.

#

DRAFTING AIDS
SLIDE RULE

The **Deci.Point**, a slide rule which places the decimal point in involved expressions with results up to 19 places, is now being manufactured of lightweight Dowmetal (magnesium metal alloy), surfaced with a flat white plastic said to be impervious to water or chemicals and virtually immune to abrasion from regular use. The rule first was introduced in a wartime "Demonstrator" model. Pickett & Eckel, 53 W. Jackson Blvd., Chicago, Ill.

ALL-PURPOSE DEVICE

An all-purpose drawing and measuring device, the **parva-graph** is accurately designed and mathematically calibrated to serve as a square, dividers, protractor, triangle, ruler, compass, French curve and miter.

The Parva-graph consists of a combination square and a removable miter arm which can be mounted on the square through either of two mounting holes. A wing nut locks the arm at any desired position. Made of tought, transparent plastic. Parva Products Co., West Haven, Conn.

#

METAL WINDOWS
STORM SASH STORAGE

Manufacture of the **Rusco All-Metal Combination Window** has been resumed, it has been announced, with an important change in design incorporated. Storage of the lower storm sash is now provided within the window unit itself.

The compact unit provides screen storm sash and weatherstripping, plus a patented spring-steel clip arrangement that permits the lower storm sash to be raised and held in storage space behind the upper sash. The F. C. Russell Co., Cleveland, Ohio.

ALUMINUM UNIT

Expected soon to be in production is a new aluminum extruded window unit, the **Winco**, which has no pulleys, weights, cords or springs, and requires no regular weatherstripping. Can be left open in rain or snow, as lower sash swings in. Also made for glass block installations. Watco Engineering, Inc., 2200 Scranton Road, Cleveland 13, Ohio.

#

LIGHTING NEWS
COLD-CATHODE LAMP

Addition of a cold-cathode K lamp to a regular line of fluorescent products has been announced. The new lamps will be instant-starting, will have a rated lif eof 10,000 hours. They will be made in both 72- and 96-in. lengths, 1-in. in diameter, will operate on a standard 120 milliampere multiple ballast. Sylvania Electric Products, Inc., Danvers, Mass.

SERVICE STATION

Commissioned by Allegheny Ludlum Steel Corp. to design an automotive service station looking toward expected competitive development in that field, George Cooper Rudolphs, New York industrial designer, has come up with the **Moto-Serv. Features**: eligibility for mass prefabrication; ease of installation; high flexibility and ready expansion; easy upkeep.

The basic design of the Moto-Serv consists of an office and storeroom cubicle and a single island-and-canopy unit with two stainless steel tubular supports footed in stainless castings.

#

FIBERGLAS SOUNDPROOFING HELPS POLICE RADIO

Improved radio transmission from the radio operations room at the Newark, Ohio, police headquarters has resulted from the installation of inch-thick Fiberglas acoustical board on the walls and ceiling of the room and in other parts of the building. The room is used to maintain two-way radio communication between headquarters and the radio-equipped patrol cars.

#

AIR CONDITIONED PRINTING PLANT

Air conditioning which controls temperatures to within one degree and humidity to within one per cent of desired levels is being installed in a new **$1,900,000** printing plant now under construction for the Newman-Rudolph Lithographing Company in Chicago. It is expected to result in faster and less costly printing on paper that is more thoroughly seasoned and thus of better quality.

The building, designed by R. N. Friedman, of Alschular and Friedman, Architects, will have a brick exterior with granite and Indiana limestone trim. Construction will be steel and concrete, with a floor load of 250 lbs. per sq. ft. Four stories in height, the plant will cover 53,500 sq. ft., will be ready for occupancy about the first of next May.

#

HOUSE "CORE"

A new home-building unit engineered for assembly-line production is an enclosed central core containing household heating, hot water, plumbing, electricity and meters. Attached to three sides are a complete kitchen, laundry and bathroom, with floor areas, walls, windows and doors placed according to individual house plans. The unit is said to be adaptable to both conventionally-built and prefabricated houses ranging in price from $3,000 to $10,000.

The enclosed core has service access through panels, is equipped with forced warm air furnace—gas or oil; hot water heater—gas or electric; all plumbing, vents and stacks; chimney connections; electrical connections. Kitchen equipment includes refrigerator, cabinets, gas or electric range and sink; an electric washer is provided in the laundry. Ingersoll Division, Borg-Warner Corporation, Kalamazoo, Mich.

#

NAILABLE STEEL

Nailable steel for framing in residential and light industrial construction is now available, it has been announced. Consisting of grooved framing sections, this is the framing which is a basic part of Quonset huts. The groove permits the driving of nails into the metal framework. Stran-Steel Division, Great Lakes Steel Corp., Penobscot Bldg., Detroit 26, Mich.

#

THEATER CONSTRUCTION EQUIPMENT

Anticipating a widespread development in drive-in theater construction following the lifting of wartime restrictions on building materials, equipment and gasoline, the Theater Equipment Section of RCA Victor has announced plans to supply a complete line of sound and projection equipment designed to meet the special requirements of this type of theater.

The line will include new types of in-car speakers, combined terminal-box and speaker-receptacle units, and self-adjusting amplifier systems. The in-car speakers are said to be 100 per cent weatherproof, so that they can be permanently located at parking spaces on the ramps, within reach of patrons from their car windows. They are specially designed to be acoustically correct for in-car operation; a volume control on the front of the speaker permits the patron to adjust the sound level to his own satisfaction. Radio Corp. of Amferica, RCA Victor Division, Camden, N. J.

#

REFLECTIVE INSULATION

A low-cost insulation material just announced, **Sisalation**, is composed of specially-treated asphalt, fiber reinforcement, and aluminum-coated Kraft paper. It is said to reflect heat and cold very much as a mirror reflects light, keeping the heat in and the cold out in winter, and reversing the process in summer. It also prevents moisture-vapor within the home passing into the sidewalls and condensing, it is claimed, and prevents infiltration of dust and dirt through walls, around windows and doors. The Sisalkraft Co., 205 W. Wacker Drive, Chicago.

#

PORTABLE WASHER

Especially designed for apartment use, the **1900 Whirlpool Portable Washer** will hold 2 lbs. of clothing, has a 2½ gal. water capacity, rinses as well as washes. Its small size—13-in. in diameter and 20-in. in height—permits easy storage when not in use. Nineteen Hundred Corp., St. Joseph Michigan.

#

BATHROOM SPOT HEATER

A new infrared lamp producing radiant heat is built of special ruby red glass which is highly resistant to temperature extremes. It has withstood a temperature shock test of more than 500 deg. F., the manufacturer reports, and has continued to burn even after being dipped in ice cold water.

Its ability to withstand temperature shocks, it is suggested, will make it particularly suitable as a spot comfort heater for the bathroom, where it is apt to come in contact with water drops. Westinghouse Electric & Mfg. Co., 306 Fourth Ave., P. O. Box 1017, Pittsburg 30, Pa.

DOWNLIGHTING

To provide downlighting which is particularly useful in store illumination, two new silvered bowl lamps have a circular inside frosted "window" at each bulb's end. The lamps are rated 300 and 500 watts. In the former, the downlight filters through a 2¾-inch diameter inside frosted window; the latter has a circular window with a diameter of 3-in. General Electric Lamp Dept., Nela Park, Cleveland, Ohio.

LUMINOUS SHIELD

Now available is a patented luminous plastic switch plate shield which will fit over any standard toggle or push button plate and, when exposed to any normal light during the day, will glow all night. Originators, Inc., National Outlet Co., 612 N. Michigan, Chicago 11.

CONVENIENCE OUTLET

To make it easier to find and plug into convenience outlets, the new **LumiNite Duplex Convenience Outlet Plate** features a small shielded electric bulb which burns continuously. The plate is molded in a single piece of ivory plastic, will fit any standard duplex convenience outlet. Associated Projects Co., 80 E. Long St., Columbus 15, Ohio.

STARTER

A new split-second starter for fluorescent lamps, the **Jack Rabbit**, is designed to fit in conventional starter sockets for use with instant-starting lamps. The split-second starting action, it is claimed, is accomplished with unusually high operating efficiency. With it, manufacturers can provide split-second starting in fixtures equipped with conventional low-cost ballasts. It is said to provide approximately 13 per cent greater operating efficiency than high-voltage instant-starting ballast systems. General Electric Co., 1285 Boston Ave., Bridgeport 2, Conn.

BALLASTS

Two new special ballasts have been announced by one company. One is a single-lamp type, designed for the operation of a new line of 13-watt lamps used primarily in show cases and similar installations; the other is for the instant-starting operation of "Slimline" lamps designed for decorative and special lighting purposes. General Electric Co., Schenectady, New York.

#

HOME FREEZERS

Expected to be available to the general public shortly after the first of January, a 4 cu. ft. cabinet or horizontal model home freezer is 36-in. high, 34½-in. long, and 24-in. wide, weighs 250 lbs. Finish is white baked enamel. Slightly less than 1½ kw of electricity are necessary to run the freezer in a normal room temperature, the manufacturers report, or a period of 24 hours. Frigidaire Division, General Motors Corp., Dayton, O.

#

Labor Shortage Hampers Output Of Plumbing Matl.

Manufacturers of plumbing and heating equipment are hopeful that the labor shortage, which is now hampering production, will be alleviated in 1946 so that they may attain normal output and meet the huge demand for plumbing fixtures, brass goods, boilers, radiators, pipe, valves, fittings, water heaters, shower cabinets, and other plumbing and heating materials.

Manufacturers have ample productive capacity to produce large quantities of plumbing and heating materials. The chief limitation on production says the Plumbing and Heating Industries Bureau, is the inability of the manufacturers to get an adequate number of experienced workmen. The shortage of help is particularly acute in the foundry departments and the brass polishing departments.

In view of the present heavy demand, manufacturers of plumbing and heating equipment are endeavoring to devise methods of speeding up production methods. They are also trying to find ways to lower cost. At the same time, manufacturers are concerned with the necessity of maintaining the quality of their products.

The plumbing and heating industries frankly recognize the fact that at the present time there is a demand for goods far in excess of the present ability of the industry, with its handicap of inadequate manpower, to supply. They believe that this demand will continue for from 5 to 10 years.

—V—

STATE TAXES

State Taxes! $300,979.53! Even a State Agency is a large taxpayer. According to Paul Scharrenberg, Chairman of the Board of iDrectors, the State Compensation Insurance Fund has sent a check to the State Treasurer for $300,979.53 in payment of its taxes on 1944 business. Since 1917, the State Compensation Insurance Fund has paid taxes amounting to $3,838,824.66 which has been credited to the General Fund of the State.

TIPS OFFERED ON BATHROOM PLANNING

Suggestions for planning economical and efficient bathrooms and powder rooms for new homes are offered by the Plumbing and Heating Industries Bureau.

While there are many plans for bathrooms and powder rooms, the most economical are those which back up fixtures in two rooms or compartments, thus permitting the same piping to serve both sets of fixtures, the Bureau points out.

Also economical, because they require less piping and therefore less labzor, are bathrooms or powder rooms arranged one above the other. It is also practical in many cases to have the piping for all fixtures on the same wall. It is desirable from the standpoint of operating efficiency to have the water closet located as near the soil stack as possible.

Piping should not be run in outside walls unless the piping or the house is well insulated. Similarly the bath should not be placed under a window because of the disadvantage of drafts and possible marring of the fixture when work is being done on the window or drapes.

A growing trend toward recessing of fixtures or placing them in separate compartments is noted by the Bureau. Also significant is the trend toward providing plenty of storage space in bathrooms and powder rooms.

—V—

AIR FRESHENER

• Perhaps, you are one of those people who dislike the musty, fusty atmosphere of storage spaces and closets. Try placing an electric fan for an hour or two each week so that it gives vigorous circulation to the air in the spaces where you have stored summer clothing and draperies, or wraps, or clothing in use. It will freshen things up and discourage moths.

—V—

HEATING AID

Try placing an electric fan so that it keeps the heated air around your radiator in motion. You will find that the warm air in circulation will heat up the "cold corners" and will liven and freshen the air in the whole room. You may have to experiment a little to find the right position for the fan, but the result will be worth while.

—V—

Can You Explain It?

A Chinese visitor to the U. S. A. once remarked:

"Funny people, you Americans. You take a glass . . . you put sugar into it to make it sweet and lemon to make it sour; you put in gin to warm you up and ice to keep you cool . . . . you say, 'here's to you' and then you drink it yourself."

Official Proposals

FIRST PUBLISHED TODAY

Warehouse—California National Guard, Sacramento, Calif.

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF ARCHITECTURE

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the Division of Architecture, Public Works Building, 1120 "N" Street, Sacramento, California, up to 2:00 P. M., **Tuesday, February 5, 1946**, said bids thereafter on said day to be publicly opened and read for Warehouse, **California** National Guard, Sacramento, California, in accordance with plans and specifications therefor.

The work includes the construction of a 1-story brick and reinforced concrete Warehouse. The floor area will be 4400 square feet, approximately.

Prevailing Wage Scale: In accordance wtih the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

	Hourly Rate
Bricklayers	$1.87½
Bricklayers' Hod Carriers	1.15
Carpenters	1.50
Cement Finishers	1.50
Electric Workers	1.70
Engineers, Portable Hoist or Otherwise	1.50
Glass Workers	1.26
Iron Workers, Architectural	1.60
Iron Workers, Reinforcing Steel	1.50
Laborers, Building	1.06¼
Painters	1.43
Roofers	1.50
Sheet Metal Workers	1.50
Any classification omitted herein not less than	1.06¼
Overtime—One and one-half times the above rates.	

The rates of wages, including overtime, holiday or Sunday rates, above specified are subject to the effect, if applicable hereto, of executive orders of the President of the United States and to any modification thereof and to any and all lawful orders of the President or any other authorized Federal Officer or agency, in so far as the same may be applicabel to this contract. In case of any inconsistency, the rates fixed by any such applicable Federal Order, whether higher or lower, shall control.

Apprentices may be employed provided they are properly indentured to the Contractor in full compliance with the provisions of Section 1777.5 of the Labor Code.

Plans and specifications for examination are on file in the Office of the Division of Architecture, Public Works Building, Sacramento, and Room 803 State Office Building, Los Angeles, and at the principal California Cities Builders' Exchange Offices.

Contractors who are prequalified and who are desirous of securing plans, specifications and proposal forms for the purposes of preparing and submitting a proposal for this work may do so by requesting same in writing from the Division of Architecture, Public Works Building, Sacramento.

Prequalification: Plans, specifications and proposal forms will only be issued to those contractors who are prequalified with the Department of Public Works by having filed a statement of experience and financial condition on a standard questionnaire form in accordance with the provisions of the State Contract Act. Such statement must have been filed and approved not more than one (1) year and not less than five (5) days previous to the date set for receiving and opening bids. Contractors may obtain standard questionnaire forms from the Division of Architecture.

No bid will be accepted from a contractor who has not been licensed in accordance with the provisions of the Contractor's License Act or to whom a proposal has not been issued by the Department of Public Works.

No bid will be considered unless it is presented on a proposal form furnished by the Division of Architecture and accompanied by a bidder's bond, cash, a cashier's or certified check made payable to the Director of Public Works in the sum of at least ten per centum (10%) of the amount of the bid.

The Department of Public Works reserves the right to reject any or all bids and to waive any informality in any bid received.

No bidder may withdraw his bid for a period of thirty (30) days after the time set for opening thereof.

DEPARTMENT of PUBLIC WORKS
DIVISION OF ARCHITECTURE
ANSON BOYD,
State Architect.

LS-345—Gate Valves, Sluice Gates and Rate Controllers

NOTICE TO CONTRACTORS

Sealed proposals will be received at Room 205 of the office of the East Bay Municipal Utility District, 512 Sixteenth Street, Oakland, California, until 5:30 P. M., Wednesday, January 23, 1946, and will at that hour be opened, for furnishing, f.o.b. Corporation Yard, 22nd and Adeline Streets, Oakland, California, sixty hydraulically operated gate valves in sizes 8-, 16-, and 20-inch; twenty-four hydraulically operated sluice gates 24-in. x 24-in. size; and twelve filter rate controllers, for the Orinda Filter Plant.

Specifications (No. LS 345) may be obtained upon application at Room 406 of the office of the District.

DANIEL READ,
Secretary.

Oakland, California.
January 10, 1946.

FIRST PUBLISHED TODAY

Highway Improvements—El Dorado County

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p.m. on **February 13, 1946**, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing State Highway in accordance with the specifications therefor, to which special reference is made, of a portion of State Highway as follows:

El Dorado County, between Shingle Springs and 1¼ miles west of El Dorado (III-E.D-11-B) about three and four-tenths (3.4) miles in length, to be graded and surfaced with plant-mixed surfacing on crusher run base.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per Hour
Skilled Labor	
Asphalt plant dryerman or fireman	$1.40
Asphalt plant mixer operator	1.45
Asphalt spreading machine operator	1.75
Carpenter	1.375
Cement finisher	1.50
Concrete mixer operator (one cubic yard capacity or less)	1.45
Concrete mixer operator (over one cubic yard capacity)	1.70
Motor grader operator	1.85
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	1.85
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.00
Renforcing steel worker	1.50
Roller operator	1.65
Tractor driver	1.70
Truck driver (18 cubic yards water level capacity or more)	1.4375
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.3125
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.25
Intermediate Grade Labor	
Concrete vibrator operator	1.25
Jackhammer operator	1.25
Oil dstributor bootman	1.00
Oiler, power shovels or cranes	1.25
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.0625
Truck driver (less than 4 cubic yards water level capacity)	0.90
Unskilled Labor	
Flagman	1.00
Laborer	1.00

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor, for which rates are not shown above, shall be not less than $1.25 per hour.

The minimum wage paid to all intermediate labor, for which rates are not shown above, shall be not less than $1.00 per hour.

The minimum wage paid to all unskilled labor, for which rates are not shown above, shall be not less than $1.00 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays (except watchmen, guards and flagmen)—one and one-half (1½) times the above rates.

The rates of wages, including overtime, holiday or Sunday rates, above specified are subject to the effect, if applicable hereto, of executive orders of the President of the United States and to any modification thereof and to any and all lawful orders of the President or any other authorized Federal officer or ageney, insofar as the same may be applicable to this contract. In case of any inconsistency, the rates fixed by any such applicable Federal order, whether higher or lower, shall control.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, nad forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the District in which the wor kis situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law (see said Proposal Requirements and Conditions).

The Department of Public Works reserves the right to reject any or all bids.

(Continued on Page Seven)

W. C. Dillon and Co., Inc. - Remarkable Instance of Dad and Lads in Same Force

How many concerns in the United States, large or small, are executively managed by the father and six sons?

W. C. Dillon & Co., Inc., of 5440 W. Harrison St., Chicago, are an outstanding instance. The company, manufacturing precision instruments for weighing, measuring and testing for a world market, combines about 180 years of engineering and business experience in this one family in the same line.

The father and founder and president is W. C. Dillon, Sr. He is the original and chief inventor. Although 67 years of age, he is busy every workday, and often much overtime, supervising all the activities of the plant ,and working on new ideas with unflagging interest. He considers it a poor week when he does not lay before "the boys" some improvement or entirely new device. Not all these are accepted by the sons, in council. They have inherited and developed vigorous resourcefulness of their own. Paternal authority does not influence their professional and critical judgment. In the main, however, important achievements are directly traceable to the head.

W. C. Dillon, Sr., is an old-time telephone man. He helped string the first telephone wires in and across the famous Cherokee Strip in 1895.

He is the inventor of the Dillon Dynamometer in general use in industry, and in the government's services. This invention has won for him the sobriquet "The Dynamometer King".

Thousands of these dynamometers were acquired by the United States Navy for use on mine-sweepers. In this work a paravane (a torpedo - shaped waterplane with projecting fins) trails from a cable out into the ocean. Hooked into series with the cable is the dynamometer. When a mine is caught, the sudden pull registers on the dial of the dynamometer and indicates the danger. The mine is then cut loose, and exploded by gunfire.

Several of these dynamometers were used by E. I. DePont de Nemours & Company at their Hanford engineering works, Pasco, Wash.. where much of the atomic bomb research was carried on. Many hundreds have gone to the aircraft manufacturers for static load testing.

Other products are the Dillon Universal Tensile Tester and Stewart Cable Tester and Locator.

Each of the Dillon sons has his own special part in the company's operations; but they work closely together in considering the product from all angles. The Dillon Team cooperates with all the enthusiasm of good teamwork in any field.

Roy Dillon, the oldest son, is an electrical engineer. George Dillon, next in age, handles the company's mechanical and electrical research. William C. Dillon, Jr., the next, supervises construction of the Dillon metal thermometer. Edwin Dillon, vice - president, handles the company's financial and patent business. Robert E. Dillon is sales and advertising manager. Ralph Dillon, the youngest, is chief engineer—a position for which he is fitted by a broad knowledge of mechanics and allied sciences.

The company is primarily a ressearch and development center for new ideas and patents. Interviews with inventors from all parts of the country are part of almost every day's routine. Important devices and improvements have been brought to the light of a market in this way. Others have been found impracticable—but interesting and sometimes dramatic in their ideas. A record of all the propositions presented would make an interesting study of inventive psychology.

REQUIRED READING

TOMORROW'S HOUSE

By Geo. Nelson and Henry Wright. New York (1230 Sixth Avenue), Simon and Schuster, 1945. 8 by 11 in. 214 pp. illus. $3.00.

Of all the many books on home planning which have mushroomed into existence within the past few months, this is certainly one of the most stimulating. Not because it offers vast amounts of useful information; not because it abounds with clever hints and adroit planning tips. It doesn't. There is almost none of the usual "Do-and-Don't" type of textbook information within its 200 pages. There is not a single floorplan. Messrs. Nelson and Wright did not set out to write a manual; they set out to pry the prospective homeowner loose from his traditional complacency. They set out to make him THINK.

The trouble is that those prospective readers with the strongest traditional leanings will probably not be actual readers. It would take the merest riffling of pages to provoke a reaction like this: "It's all about modern houses. That's not what I want." Those already converted probably will buy it enthusiastically, and read it the same way.

Such an enthusiastic reader might, if he also read thoughtfully, arrive at a vague feeling of disappointment. Disappointment not with the clean philosophy of the authors, but with the prospect for getting the house that would grow in his mind. The authors write frankly and honestly about "tomorrow's house", and they do not make any effort to make it sound easy to achieve or acquire. Some of the chapters deal almost wholly with future possibilities, with trends instead of present-day facts. They speak frankly about the bugs yet to be taken out of some of the newer ideas. The reader is left with the feeling that relatively few architects could handle the house proposed, and is told pretty definitely that it would cost like sin.

And yet — Messrs. Nelson and Wright have spoken well for the "modern" house. Once you have forgiven them for their very crude satire in the second chapter (a choice bit entitled "Home is Where You Hang Your Architect", which would have the architect a hidebound clod), you are pretty sure that the lay reader would start looking around his present abode with a slightly jaundiced eye. With superb accuracy this book puts its finger on any number of sore spots in the traditional house: the bad lighting, the generally poor acoustics, the kitchen that has been efficientized down to a glorified closet, the eternal struggle with temperature and fresh air. No soothing ointment is proffered for these sore spots, but a nice, sharp sterile knife has been laid out ready for use. Here, the authors say in effect, you don't have to put up with these things, you know. You can have your home light conditioned, sound conditioned, air conditioned, planned just the way you like it.

The sum total is a book which will make its every reader, architect and client alike, probe more deeply into the underlying reasons for a house before he starts to plan.

STANDARDS FOR SCHOOLHOUSE CONSTRUCTION

West Virginia Council on Schoolhouse Construction. Charleston, W. Va., Division of Schoolhouse Planning, State Dept. of Education, 1945. 6 by 9 in. 84 pp. $1.00.

Here is a small book crammed full of practical information for both the school board and its architect. As the introduction says, it offers them "the accumulated, recent, screened experience of their myriad brethren."

Starting with a chapter on "Planning a School Building Program", which discusses such school board problems as determining building needs, planning the building and choosing the architect, it continues with matters of more direct concern to the architect—site selection, building characteristics and construction details, and service systems.

As its title makes clear, this is a book of standards. As such it presents only the minimum requirements, and allows for the maximum flexibility in actual planning. It is exceptionally thorough, giving even such details as the proper distance from floor to top of chalk trough for chalkboards for the various grades.

FIRE PROTECTION

Through Modern Building Codes. By B. L. Wood. New York 1 (350 Fifth Ave.), American Iron & Steel Institute, 1945. 6 by 9 in. 246 pp.

Mr. Wood has divided this book quite sensibly into two sections, the first dealing with recent developments in fire protection, fire hazards, classification of buildings by occupancy, fire safety objectives and criteria, etc. The second section consists of regulations which were prepared as a part of the program of the Committee on Building Codes of the American Iron & Steel Institute to illustrate a practical application of the principles of fire protection. The regulations reflect careful study of the provisions and recommendations of the National Bureau of Standards and other regulatory bodies, and represent the Committee's recommendtions relative to fire protection regulation through building ordinances.

PERIODICAL LITERATURE

GARDEN CITIES

Garden Cities and the Metropolis. By Lloyd Rodwin. The Journal of Land and Public Utility Economics (Sterling Hall, Univ. of Wisconsin, Madison 6, Wis.), August, 1945, pp. 268-281.

Largely a critique on Ebenezer Howard's turn-of-the-century book, Garden Cities of Tomorrow (1902) this article makes a number of highly pertinent points. "Well integrated cities, planned land use and controlled size and growth are recognized desiderata. . Though bigness is not a curse, amorphous sprawl certainly is," Mr. Rodwin says. He explodes the argument that decentralization is necessary as a safeguard against bombings, maintaining that even with the atomic bomb a city is by its very nature a strong point in a nation's defense. "The weak points of the Garden City idea stem from its failure to comprehend many of the essential chores of the city," he declares. "Goals must always prove impracticable unless related to vital needs and interests. . He who would help build the city of tomorrow must reckon with the lives and living habits of human beings: with jobs and security, homes and population trends, aesthetics and economics, politics and social drift."

UBIQUITOS PREFABS?

The Truth About Prefabricated Houses. By Gordon H. Cole. Science Digest (200 E. Ontario St., Chicago 11, Ill.), Nov., 1945, pp. 7-01. Condensed from PM.

The prefabricated house is not going to take its place as an integral part of our landscape for many years to come, Mr. Cole predicts. Factory-built houses, he says "still are in their horseless carriage tage, still are looking for a Henry Ford, still are fighting for permission to be built inside city limits."

SPECIALIZED LIGHTING

Art Gallery Lighting. Report of the Committee on Art Gallery Lighting of the Illuminating Engineering Society. New York. Journal, Royal Architectural Institute of Canada (57 Queen St. W., Toronto 1, Can.), Oct., 1945, pp. 197-207, illus.

An excellent report offering general guidance in the difficult problem of art gallery lighting. Especially helpful are the tables of display specifications and the numerous diagrams.

CONTRACT AWARDED

PORTLAND, Ore. — Marine Contractors, Inc., 8444 NW St. Helens, Portland, Ore., at $269,209.70, awarded contract by the Oregon Highway Commission, Salem, Ore., for construction of the Arthur St. grade separation on SW. Front St., Portland, a concrete viaduct. 21

22— DREDGING, HARBOR WORKS, EXCAVATION

January 18, 1946

FUNDS APPROPRIATED

WASHINGTON, D. C.—Funds have been appropriated for the following War Department, U. S. Engineer Office, river and harbor development projects:

(1) Flood control work, Big Dry Creek reservoir and diversion, California, $435,000; U. S. Engineer Office, Sacramento.
(2) River and harbor improvements, San Joaquin, California, $150,000; U. S. District Engineer Office, Sacramento.
(3) River and harbor improvements, Sacramento River, California, $390,000; U. S. District Engineer, Sacramento.
(4) River and harbor improvements, Suisun Channel, California, $160,000; U. S. District Engineer, Sacramento.
(5) Flood control work, Whittier Narrows reservoir, California, $2,000,000; U. S. District Engineer, Los Angeles.
(6) Flood control work, Santa Fe reservoir, California, $900,500; U. S. District Engineer, Los Angeles.
(7) Flood control work, Los Angeles River, California, $2,000,000; U. S. Engineer, Los Angeles.
(8) River and harbor improvements, Los Angeles and Long Beach harbors, California, $7,100,000; U. S. District Engineer, Los Angeles.
(9) Flood control work, Hot Springs, S. D., $154,000; U. S. District Engineer, Fort Peck, Mont.
(10) Flood control work, Cottonwood Springs reservoir, S. D., $510,000; U. S. District Engineer, Fort Peck, Mont
(11) River and harbor improvements, Columbia River and tributaries, Celilo Falls and Snake River, $100,000; U. S. District Engineer, Portland, Ore.
(12) Flood control work, McKenzie River, Oregon, $62,000; U. S. District Engineer, Portland, Ore.
(13) Flood control work, Cottage Grove reservoir, Oregon, $11,500; U. S. District Engineer, Portland, Ore.
(14) Flood control work, Detroit reservoir, Oregon, $2,000,000; U. S. District Engineer, Portland, Ore.
(15) Flood control work, Dorena reservoir, Oregon, $1,000,000; U. S. District Engineer, Portland, Ore.
(16) Flood control work, Mill Creek, Washington, $125,500; U. S. District Engineer, Portland, Ore.
(17) Flood control work, Mud Mountain reservoir, Washington, $257,000; U. S. District Engineer, Seattle, Wash.
(18) Flood control work, Tacoma, Wash., $700,000; U. S. District Engineer, Seattle, Wash.
(19) Flood control work, Yakima, Wash., $134,000; U. S. District Engineer, Seattle, Wash.

25—MACHINERY AND EQUIPMENT

January 18, 1946

BIDS OPENED

CENTRAL VALLEY PROJECT.—Cyclops Iron Works, 837 Folsom St., San Francisco, at $100,318 and $25.00 per day for engineer services, fob destination, terms net, submitted the low bid January 17 to the U. S. Bureau of Reclamation, Denver, under Spec. 1143 for furnishing and delivering f.o.b. cars at the shipping point or f.o.b. bars at Keswick, Calif., one 230-ton, double-trolley, motor-operated overhead traveling crane and one lifting beam for the Keswick power plant, Kennett Division, Central Valley Project, Calif. The apparatus will be installed by the government.

Other bidders were:

Morgan Engrg. Co., Alliance, Ohio, $111,575 and $25 per day for engineers services, fob Alliance, Ohio; terms net.

Lakeside Bridge & Steel Co., Milwaukee, Wis., at $144,000 fob dest., terms net. * * 25

January 18, 1946

BIDS WANTED

WASHINGTON, D. C.—Until Feb. 11, 12 M., bids will be received by the U. S. Maritime Commission, Room 4821, Dept. of Commerce Building, Washington, D. C., for construction of four 560-ft., single screw, turbine-driven cargo vessels for the Ore Steamship Corp., 25 Broadway, New York City. The vessels will have a deadweight tonnage of 240,000 and are powered with an 11,000-h.p. steam turbine.

Specifications available from Room 4852, Department of Commerce Bldg., Washington, D. C. 25

29— STREETS AND HIGHWAYS

January 18, 1946

COMPLETE BIDS

SAN DIEGO, Calif.—As previously reported, Mittry Bros. Construction Co., 4801 San Fernando Rd., West Los Angeles, at $1,338,002.20, submitted low bid to the State Division of Highways, G. T. McCoy, state highway engineer, State Bldg., Los Angeles, for about 2.9 miles of grading and surfacing with portland cement concrete pavement between "A" St. and 0.4 mile south of Mission Valley Rd. in the City of San Diego.

Work involves:

(1) 2,100 c.y. remove concrete;
(2) remove portions of exist. trestle
(3) clear and grubb;
(4) 660 c.y. rdwy. excav.;
(5) 44,000 c.y. struc. excav.;
(6) 20,500 c.y. ditch and channel excavation;
(7) 59,000 c.y. imported borrow;
(8) 5,530,000 sta. yds. overhaul;
(9) 13,000 sq. yds. compact original ground;
(10) 79,000 sq. yds. prepare slopes, slope erosion protection;
(11) 100 tons straw, slope erosion protection;
(12) 5,200 lbs. seed, slope erosion protection;
(13) 11 tons fertilizer, slope erosion protection;
(14) develop water supply and furnish water equipment;
(15) 18,800 M. gals. apply water;
(16) finish roadway;
(17) 15,600 c.y. min. agg. cement treated base;
(18) 6,300 bbls. portland cement, cement treated base;
(19) 180 tons asph. emulsion, paint binder, curing seal and seal coat
(20) 290 tons screenings seal coat;
(21) 6,500 tons bit. surf.;
(22) 74 tons liq. asph. SC-1 or -2, prime coat;
(23) 3,700 tons plant mix surf.;
(24) 2,800 tons asph. concrete base and leveling course;
(25) 1,000 tons asph. conc., type A surf. course;
(26) 30 l.f. raised bars;
(27) 23,200 c.y. portland cement conc. pavement;
(28) 16,500 tie bolt assemblies;
(29) 6 M FBM Douglas fir timber;
(30) 920 c.y. class A Portland cement conc. structs.;
(31) 155 c.y. Class A portland cement conc. ditch lining;
(32) 87,600 lbs. bar reinf. steel;
(33) 1,300 sq. yds. mesh reinf.;
(34) 1,850 c.y. portland cement conc. curbs, gutters and sidewalks;
(35) 170 each monuments;
(36) 600 l.f. laminated guard railing;
(37) 100 each guide posts;
(38) 125 each culvert markers and project markers;
(39) 32,500 l.f. wire mesh fence;
(40) 6 each drive gates;
(41) 68 l.f. 18-in. reinf. concrete pipe, standard strength;
(42) 9,936 l.f. 24-inch do;
(43) 400 l.f. 30-inch do;
(44) 3,340 l.f. 36-inch do;
(45) 2,408 l.f. 39-inch do;
(46) 492 l.f. 42-inch do;
(47) 372 l.f. 48-inch do;
(48) 2,476 l.f. 54-inch do;
(49) 550 l.f. 60-inch do;
(50) 72 l.f. 24-in. do, extra strength;
(51) 352 l.f. 30-inch do;
(52) 296 l.f. 39-inch do;
(53) 360 l.f. 30-in. reinf. concrete pipe 4000-D;
(54) 208 l.f. 36-inch do;
(55) 336 l.f. 39-inch do;
(56) 30 l.f. 18-in. CMP, 16 gage;
(57) 586 l.f. 8-in. perf. metal pipe underdrains, 16 gage;
(58) 230 c.y. filter mtl., underdrains;
(59) 17 each spillway assemblies;
(60) 540 l.f. 8-in. CMP down drains, 16 gage;
(61) 80 each red reflectors;
(62) 340 l.f. salvage existing pipe culverts;
(63) 35 each remove and stockpile existing frames and grates;
(64) construct debris rack;
(65) 37,000 each ice plant cuttings;
(66) 20 each remove and replant oak tree;
(67) engineers office;
(68) 9,800 l.f. metal plate guard railing;

Cribbing

(69) 290 each 8x5-in. x 6-ft. headers concrete cribbing;
(70) 590 each 10x5-in. x 6-ft. do;
(71) 50 each 10x5-in. x 8-ft. do;
(72) 1,040 each 6x6-in. x 6-ft. stretchers, concrete cribbing;
(73) 480 each 8x6-in. x 6-ft. do;
(74) 255 each 10x6-ft. x 6-ft. do;
(75) 60 each filler blocks, conc. cribbing;
(76) 65 each metal header caps, metal cribbing;
(77) construct metal cribbing;

Sanitary Sewers

(78) 1,200 l.f. 6-in. cast iron pipe;
(79) 690 l.f. 8-in. CI pipe;
(80) 1,040 l.f. 10-inch CI pipe;
(81) 1,220 l.f 4-in. vit. clay pipe;
(82) 710 l.f. 6-inch do;
(83) 460 l.f. 8-inch do;
(84) 100 l.f. 10-inch do;
(85) 600 l.f. 12-inch do;
(86) 18 each new sewer manholes;
(87) 200 l.f. 24-in. reinf. conc. manhole rings:
(88) 10 ea adjust manholes to grade;

Sprinkler System

(89) 2,000 l.f. 1½-in. galv. steel pipe;
(90) 6,600 l.f. 2-inch do;
(91) 1,750 l.f. 2½-inch do;
(92) 3,750 l.f. 3-inch do;
(93) 1,200 l.f. 3½-inch do;
(94) 4,350 l.f. 4-inch do;
(95) 4,500 l.f. 5-inch do;
(96) 270 each sprinkler connections;
(97) 3 each bronze 5-in. swing check valves;
(98) 24 each sprinklers;
(99) 3,700 l.f. 6-in. CMP conduit;

Signal System

(100) traffic signal system.

The State will furnish railroad rails for the debris rack and all necessary metal parts for the metal cribbing except header caps.

The total bids submitted were:

(A) Mittry Bros. Construction Co., $1,338,002.20.
(B) E. W. Elliott Construction Co., $1,471,484.05.
(C) H. Earl Parker and N. M. Ball Sons, $1,471,672.50.
(D) V. R. Dennis Construction Co., $1,485,651.75.
(E) Basich Bros. Construction Co. and Basich Bros., $1,485,859.40.
(F) Griffith Co., $1,488,864.75.
(G) Daley Corp., $1,552,130.50.
(H) Bressi & Bevanda Constructors, Inc., $1,586,328.90.
(I) R. E. Hazard, $1,759,391.

Unit prices will be published shortly. * 29

3.8 MILES GRADING, PAVING, SAN JOAQUIN COUNTY

SAN JOAQUIN COUNTY, Calif.—M. J. B. Construction Co., 322 Elks' Bldg., Stockton, at $372,835.75, submitted low bid Jan. 16 to State Division of Highways, G. T. McCoy, state highway engineer, Public Works Bldg., Sacramento, for about three and eight-tenths miles in length to be graded and paved with portland cement concrete, between Grant Line Rd. and Mossdale, in San Joaquin County.

The work involves:

(1) 30 cu. yds. remove concrete;
(2) 203 sta. clearing and grubbing;
(3) 14,500 cu. yds. roadway excavation;
(4) 1000 cu. yds. ditch and channel excavation;
(5) 1100 cu. yds. structural excavation;
(6) 54,700 cu. yds. imported borrow, type A;
(7) 278,300 cu. yds. imported borrow, type B;
(8) 10,000 sq. yds. compact original ground;
(9) develop water supply and furnish water equipment;
(10) 16,200 M gallons apply water;
(11) 203 sta. finish roadway;
(12) 30,500 tons untreated rock base;
(13) 65 tons liquid asphalt SC-2 prime coat and penetration treatment;
(14) 10 cu. yds. sand prime coat;
(15) 55 tons asphaltic emulsion armor coat, paint binder and seal coat;
(16) 750 tons screenings armor coat and seal coat;
(17) 2300 tons minimum aggregate plant mix surfacing;
(18) 115 tons paving asphalt plant mix surfacing;
(19) 560 lin. ft. raised bars;
(20) 9675 cu. yds. portland cement concrete pavement;
(21) 7000 each tie bolt assemblies;
(22) 35 cu. yds. class A portland cement concrete structures;
(23) 21 cu. yds. portland cement concrete curbs;
(24) 9 cu. yds. portland cement concrete sidewalks;
(25) 30 each monuments;
(26) 200 lin. ft. guard railing;
(27) 160 lin. ft. move and reconstruct existing guard railing;
(28) 110 each culvert markers and guide posts;
(29) 0.6 mile new property fence, type A;
(30) 0.7 mile new property fence, type B;
(31) 2 each drive gates;
(32) 0.6 mile remove and reconstruct existing property fences;
(33) 130 lin. ft. 8-in. CMP, 16-gage;
(34) 398 lin. ft. 12-in. CMP downdrains, 16-gage;
(35) 900 lin. ft. 18-in. CMP, 16-gage;
(36) 24 lin. ft. 24-in. CMP, 14-gage;
(37) 176 lin. ft. 48-in. CMP, 12-gage;
(38) 142 lin. ft. 24-in. CMP siphon, 14-gage;
(39) 6 each field joints for siphons;
(40) 6 each spillway assemblies;
(41) 1 each drainage gate;
(42) 1 each slide headgate;
(43) 90 lin. ft. salvage existing pipe culverts;
(44) 90 lin. ft. relay salvage CMP;
(45) 6300 lbs. bar reinforcing steel;
(46) 12 each ruby reflectors;
(47) engineer's office and appurtenances.

Total bids were:

(A) M. J. B. Construction Co., Stockton, $372,813.25.
(B) Fredrickson & Watson Construction Co., Oakland, $410,297.79.
(C) Louis Biasotti & Son, Stockton, $416,225.80.
(D) A. Teichert & Son, Sacramento, $421,050.
(E) Marshall & Hanrahan, Redwood City, $433,202.40.
(F) Charles L. Harney, San Francisco, $447,067.75.
(G) Gunnar Corporation, Pasadena, $480,386.80.

3.3 MILES GRADING, SURFACING, ETC., COLUSA CO.

COLUSA COUNTY, Calif.—Harms Bros., Route 4, Box 2220, Sacramento, at $219,031 submitted low bid January 16 to the State Division of Highways, G. T. McCoy, State Highway Engineer, Public Works Bldg., Sacramento, for about 3.3 miles in length to be graded and surfaced with plant mix surfacing on cement treated base and a reinf. concrete bridge to be constructed across Cortina Creek, between 3 miles north of Arbuckle and 4 miles south of Williams, in Colusa County.

The work involves:

(1) 76 c.y. remove conc. structs.;
(2) 1360 c.y. remove conc. pave.;
(3) 176 sta. clear and grubb;
(4) 20,000 c.y. roadway excav.;
(5) 2750 c.y. struct. excav.;
(6) 750 c.y. ditch and channel excav.;
(7) 76,000 c.y. imported borrow, type A;
(8) 27,500 c.y. do, type B;
(9) develop water supply and furnish water equipment;
(10) 2975 M gals. apply water;
(11) 176 sta. finish roadway;
(12) 1900 tons gravel base;
(13) 15,000 tons min. agg., CEE;
(14) 15,000 tons min. agg. cement-treated base;
(15) 46 tons asphaltic emulsion curing seal;
(16) 335 tons screenings, seal coat;
(17) 40 tons asph. emulsion seal coat;
(18) 8200 tons min. agg. plant mix surfacing;
(19) 375 tons paving asphalt plant mix surfacing;
(20) 57 tons sand prime coat and penetration treatment;
(21) 23 tons liquid asphalt SC-1 or 2 prime coat and pene. treatment;
(22) 895 c.y. class A portland cement concrete structures;
(23) 127,000 lbs. bar reinf. steel;
(24) 670 l.f. timber bridge railing;
(25) 1650 l.f. furnish concrete piles;
(26) 30 each drive do;
(27) 26 each monuments;
(28) 60 l.f. lam. guard rail;
(29) 26 each culvert markers;
(30) 55 each guide posts;
(31) 216 l.f. 12-in. CMP, 16 gage;
(32) 48 l.f. 18-inch do;
(33) 951 l.f. 24-in. CMP, 14 gage;
(34) 98 l.f. 30-inch do;
(35) 150 l.f. salvage exist. pipe culverts;
(36) 120 l.f. relay salvaged do:
(37) remove existing bridge.

Total bids were:

(A) Harms Bros., Sacramento, $219,031.
(B) E. B. Bishop, Orland, $236,681.50.
(C) A. R. McEwen and C. M. Syar, Sacramento, $248,657.50.
(D) J. R. Reeves, Sacramento, $281,546.75.
(E) Parish Bros., Benicia, $311,069.
(F) Guerin Bros., South San Francisco, $370,261.

OVERCROSSING, PENINSULAR AVE., SAN MATEO

SAN MATEO COUNTY, Calif.—Macco Construction Co., Freight and Ferry Sts., Oakland, at $281,956, submitted low bid January 16 to the State Division of Highways, G. T. McCoy, state highway engineer, Public Works Bldg., Sacramento, for a structural steel overcrossing to be constructed over Bay Shore Freeway at Peninsular Ave. in the City of San Mateo.

Work involves:

(1) 800 c.y. struc. excav.;
(2) 1,600 c.y. Class A portland cement concrete;
(3) 1,632,000 lbs. furnish struc. steel;
(4) 1,632,000 lbs. erect do;
(5) 11,500 lbs. cast steel;
(6) 20,000 lbs. cast iron stairway treads;
(7) 12,864 l.f. furnish conc. piles;
(8) 268 each drive concrete piles;
(9) 280,000 lbs. furnish bar reinf. steel
(10) 280,000 lbs. place do;
(11) 352 l.f. pipe handrail;
(12) 1,920 l.f. steel railing;
(13) lighting equipment;
(14) misc. items of work.

Total bids were:

(A) Macco Construction Co., Clearwater, $281,956.
(B) Clinton Construction Co., San Francisco, $283,177.
(C) A. Soda & Son, Oakland, $286,530.84.
(D) Peter Kiewit & Sons, San Francisco, $286,718.
(E) Guy F. Atkinson Co., San Francisco, $289,513.80.
(F) Carl N. Swenson Co., San Jose, $296,434.20.
(G) Robert McCarthy Co., San Francisco, $297,554.96.
(H) M. & K. Corp., San Francisco, $397,776.20.
(I) Chas. L. Harney, San Francisco, $297,965.
(J) George Pollock Co., Sacramento, $304,975.
(K) S. J. Amoroso & Son Construction, San Francisco, $306,875.
(L) Fredricksen & Watson Construction Co., $31,440.60.
(M) J. H. Pomeroy, Inc., San Francisco, $320,450.
(N) Harry J. Oser and Joe Gerrick, San Francisco, $322,350.
(O) Earl W. Heple, San Jose, $323,766.20.
(P) E. W. Elliott Construction Co., San Francisco, $332,973.76.
(Q) Pittsburg-Des Moines Steel Co., Mountain View, $334,436.20.

FIVE SLAB BRIDGES, ETC., TEHAMA COUNTY

TEHAMA COUNTY, Calif. — As previously reported, J. D. Proctor, Monadnock Bldg., San Francisco, and Dragline Rentals, P. O. Box 247, Point Richmond Station, at $378,765.17, submitted low bid January 16 to the State Division of Highways, G. T. McCoy, state highway engineer, Public Works Bldg., Sacramento, for construction of five reinforced concrete slab bridges and widening of two existing concrete bridges at various locations between Los Molinos and Red Bluff in Tehama County.

Work involves:

(1) remove bridge No. 8-17 and concrete abutment;
(2) 220 c.y. remove concrete;
(3) 230 c.y. rdwy. excav.;
(4) 1,050 c.y. struct. excav.;
(5) 500 c.y. imported borrow;
(6) 4,115 tons liq. asph. MC-2 pene. treatment;
(7) 856 l.f. timber bridge rail;
(8) 4,965 c.y. Class A portland cement concrete;
(9) 41,459 l.f. furnish steel piling;
(10) 685 each drive steel piles;
(11) 60 c.y. light riprap;
(12) 40 l.f. 24-in. CMP, 14 gauge;
(13) 963,000 lbs. furnish bar reinf. steel;
(14) 963,000 lbs. place do,
(15) 20 c.y. broken conc. masonry;
(16) 105,500 lbs. misc. iron and steel;
(17) 4,744 l.f. steel railing;
(18) 254 l.f. temp. timber guard rail;
(19) 24 each portable timber barricades;
(20) misc. items of work.

Total bids were:

(A) J. D. Proctor and B. W. Kuhn, San Francisco, $378,409.17.
(B) Fred J. Maurer & Son, Eureka, $379,775.50.
(C) Guy F. Atkinson Co., San Francisco, $406,926.50.
(D) J. P. Brennan and E. B. Bishop, Orland, $412,012.50.
(E) R. A. Westbrook, Sacramento, $418,333.30.
(F) Fredricksen & Watson Construction Co., Oakland, $432,578.

1.5 MILES GRADING AND SURFACING, KINGS COUNTY

KINGS COUNTY, Calif. — W. C. Railing, 27 Lowell St., Redwood City, at $70,408.25, submitted low bid Jan. 16 to the State Division of Highways, G. T. McCoy, state highway engineer, Public Works Bldg., Sacramento, for about one and five-tenths miles in length to be graded and surfaced with road mix surfacing between fifth standard parallel south and 1.5 miles north in Kings County.

The work involves:

(1) clearing and grubbing;
(2) 10,100 cu. yds. roadway excavation;
(3) 8000 sq. yds. compact original ground;
(4) 700 cu. yds. structural excavation;
(5) 40 cu. yds. ditch excavation;
(6) 31,000 cu. yds. imported borrow;
(7) 5100 cu. yds. imported subgrade material;
(8) develop water supply and furnish water equipment;
(9) 1200 M gallons apply water;
(10) 78 sta. finish roadway;
(11) 3650 tons minimum aggregate road mix surfacing;
(12) 26,500 sq. yds. mix and compact road mix surfacing;
(13) 205 tons liquid asphalt SC-3 road mix surfacing;
(14) 25 tons liquid asphalt SC-2 prime coat;
(15) 18 cu. yds. class A portland cement concrete structures;
(16) 650 lbs. bar reinforcing steel;
(17) 15 each monuments;
(18) 16 each culvert markers;
(19) 411 lin. ft. 24-in. reinforced concrete pipe, standard strength;
(20) 134 lin. ft. salvage existing pipe culverts.

Total bids were:

(A) W. C. Railing, Redwood City, $70,408.25.
(B) George E. French, Visalia, $75,989.50.
(C) Phoenix Construction Co., Bakersfield, $77,090.50.
(D) Milo A. Brown, Palo Alto, $82,128.

ADVANCE CONSTRUCTION REPORTS

BUILDING SECTION

7—FEDERAL BUILDINGS

January 18, 1946
BIDS REJECTED
SAN FRANCISCO.—All bids received December 19 by the office of the district engineer, Federal Works Agency, Public Buildings Administration, 838 U. S. Appraiser's Bldg., San Francisco, for elevator repairs at 100 McAllister St. building, San Francisco, have been rejected, at which time Westinghouse Electric Corp., Elevator Division, at $2665, submitted the low bid. 7

January 18, 1946
CONTRACT AWARDED
SALINAS, Monterey Co., Calif.—R. E. Newman, McMinnville, Ore., at $4454, awarded contract by the Federal Works Agency, Public Buildings Administration, 838 U. S. Appraiser's Bldg., San Francisco, for interior and exterior painting at U. S. Post Office, Salinas. 7

8— CLUB BUILDINGS

January 18, 1946
PREPARING PLANS
LONG BEACH, Los Angeles Co., Calif.—Architect Warren A. Dedrick, 807 Heartwell Bldg., Long Beach, has prepared a sketch for the construction of a four-story veterans' memorial club building to be located in the City of Long Beach, for the Arthur L. Peterson Post No. 27, American Legion. The building will be constructed of reinforced concrete, metal sash, plate glass doors, brass trim, heating and air conditioning. A citizens' committe is being formed to launch a drive for funds in the sum of $560,000 to finance the project. 8

January 18, 1946
CONTEMPLATED
INGLEWOOD, Los Angeles Co., Calif.—The Young Men's Christian Association, Homer W. Lewis, president, Inglewood, has purchased property at the northwest corner of Spruce Ave. and Kelso St., Inglewood, as the site for a new headquarters building for the YMCA. The contemplated structure would have athletic, social, religious and dormitory facilities for both men and women. A local architect will be selected to prepare the plans. A community-wide campaign to raise funds in the amount of $325,000 will commence February 11. 8

Construction of theater to seat 900.
Owner—Golden State Theater Circuit, Inc., David J. Bolton, Div. Mgr., 1842 Park Blvd., Oakland.
Architect—Not Announced. 17

19—MISC. CONSTRUCTION

January 18, 1946
PROJECT APPROVED
LOS ANGELES, Calif.—The Federal Communications Commission, Washington, D. C., has approved the construction of the Los Angeles-Dallas line in the new coast-to-coast cable being built by the Bell System for multiple telephone calls and television. The approval includes the application of the Southern California Telephone Co., 740 S. Olive St., Los Angeles, for permission to construct a coaxial cable system from Los Angeles to the Colorado River to connect with a second section of the transcontinental cable being built by the American Telephone & Telegrph Co., which includes a total length of 1500 miles and calls for an expenditure of $24,500,000 The section of the line between Los Angeles and the Colorado River will cost approximately $5,000,000. The unit now approved will run from Atlanta to Los Angeles via Tucson, and will reach Los Angeles in the spring of 1947. The present plans call for acable network of eight coaxial pipes, any two of which can handle 480 messages simultaneously, and in addition is capable of transmitting the broad bands of frequencies for television. The pipe system will be entirely underground, thus avoiding large temperature changes affecting this type of high frequency transmission. Repeater stations with standby units will be required every 7.75 miles along the route. 19

January 18, 1946
BIDS WANTED
LEWIS AND THURSTON COUNTIES, Wash.—Until January 28, 1:30 P. M., bids will be received by the Department of Interior, Bonneville Power Administration, L. C. Stewart, procurement officer, 1300 NE. Union Ave., Portland 8, Ore., for furnishing materials and performing all work for clearing right-of-way for Chehalis-Olympia 230-kv. transmission line, approximately 30 miles in length, in Lewis and Thurston Counties, Washington.
Specifications obtainable from the above offce upon depost of $5. 19

January 18, 1946
BIDS WANTED
FORT PECK, Mont.—Until February 5, 10 A. M., bids will be received by the district engineer, U. S. Engineer Office, Fort Peck, Mont., under Ser. No. 24-015-46-14 for installation of machinery, equipment concrete work in powerhouse, concrete work in main control shafts.
Specifications obtainable from the above office. 19

January 18, 1946
BIDS WANTED
CAMPO, San Diego Co., Calif.—Until January 24, 10 A. M., bids will be received by the Mountain Empire Electric Cooperative, Campo, for construction of transmisison line, Campo.
Plans obtainable from Lowe Co., engineers, 315 Architects' Bldg., Los Angeles.
The following contractors have taken out plans:

25—MACHINERY AND EQUIPMENT

January 18, 1946
BIDS WANTED
PHOENIX, Ariz. — Until February 5, 10 A. M., bids will be received by Roy J. Heyne, city manager, City of Phoenix, Ariz., for furnishing one motor propelled, triple combination pumping engine, water tank and hose car. All bids must be accompanied by a certified check or bid bond in the amount of 5% of proposal. Specifications available at above office. 25

26— RAILROADS

January 18, 1946
AWARD RECOMMENDED
INYOKERN, Kern Co., Calif.—H. B. Nicholson, 1151 S. Broadway, Los Angeles, Room 572, at $213,658, recommended for award of contract by the officer in charge of construction, Naval Ordnance Test Station, Inyokern, December 29, for the construction of spur trackage, China Lake to K-2 Plate Range at the Naval Ordnance Test Station, Inyokern, Calif.; Specifications No. 17372, NOy 13203. The project involves the construction of an extension to existing railroad, including approximately 40,680 lin. ft. of trackage, switches, turnouts and appurtenant facilities. 26

29— STREETS AND HIGHWAYS

January 18, 1946
CONTRACT AWARDED
SAN FRANCISCO.—Chas. Harney, 625 Market St., at $7817.80, awarded contract by the Department of Public Works, Room 282 City Hall, for improvement of Rivera St., between 42nd and 43rd Aves., including crossing of Rivera St. and 42nd Ave. 29

30—RESERVOIRS & DAMS

January 18, 1946
PLANNED
OROVILLE, Butte Co., Calif.—The Bidwell Bar dam, reservoir and power plant, a multiple-purpose project to be constructed on the middle fork of the Feather River, eight miles east of Oroville, Butte County, are recommended for immediate construction as part of a 15-year building program by the United States Bureau of Reclamation in its Central Valley Basin report, recently completed and sent to Washington for official approval by the Secretary of the Interior and the Commissioner of Reclamation. Prior to submission of this report to Congress, it has been sent to Governor Warren and the Secretary of War for comment.

Bidwill Bar dam would be one of the highest dams in the Reclamation Bureau system. The maximum height of the dam would be 679 feet above the streambed. It would have a length of 2100 feet, providing capacity in the reservoir for 1,200,000 acre-feet of water, covering an area of 5800 acres. The lake would back up the middle fork of the Feather River about 11 miles and the south fork about eight miles. The estimated cost of the Bidwell Bar dam reservoir and two power plants would be about $70,000,000. 30

Machinery & Material

LOS ANGELES

WEST LOS ANGELES, Calif.—Until January 28, 1:30 P. M., bids will be received by the Veterans' Administration, V. A. Center, Los Angeles 25, for furnishing (1) 6500 lin. ft. round deformed reinforcing bars, ⅝-inch diameter, in approximately 20-ft. lengths; (2) 60 cu. yds. ready-mixed concrete delivered to Soldiers' Home, West Los Angeles; Inv. 46-445.

WEST LOS ANGELES, Calif.—Until January 30, 1:30 P. M., bids will be received by the Veterans' Administration, V. A. Center, Los Angeles 25, for furnishing (1) 6300 lin. ft. round deformed reinforcing bars, ⅝-inch diameter, in approximately 20-ft. lengths; (2) 60 cu. yds. ready-mixed concrete, delivered to Soldiers' Home, West Los Angeles; Inv. 46-447.

Official Proposal

Erection of Ward Buildings for Infirm and Disturbed Females, Stockton State Hospital, Stockton, Calif.

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF ARCHITECTURE

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the Division of Architecture, Public Works Building, 12th and "N" Street, Sacramento, California, up to 2:00 P. M., Tuesday, January 29, 1946, said bids thereafter on said day to be publicly opened and read for the erection and completion of the Ward Buildings for Infirm Females and for Disturbed Females, Stockton State Hospital, Stockton, California, in accordance with plans and specifications therefor.

The Ward Buildings for Infirm Females and Disturbed Females consist of a one-story and two-story reinforced concrete buildings having a combined floor area of approximately 160,000 square feet with hollow tile partitions, steel sash, and clay shingle tile roof covering.

Separate bids only will be entertained for the following segregated parts of the work.

1. General Work.
2. Heating and Ventilating Work.
3. Plumbing Work.
4. Electrical Work.

Alternate bids will be required for the omission of certain work.

Prevailing Wage Scale: In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

	Hourly Rate
Asbestos Workers	$1.50
Bricklayers	1.75
Carpenters	1.50
Cement Finishers	1.50
Electric Workers	1.70
Glass Workers	1.25
Iron Workers, Architectural	1.60
Iron Workers, Reinforcing Steel	1.50
Laborers, Building	1.06¼
Lathers	1.75
Masons' Tenders	1.40
Painters (brush)	1.37½
Plasterers	1.75
Plasterers' Tenders	1.50
Plumbers	1.50
Roofers	1.37½
Sheet Metal Workers	1.50
Steam Fitters	1.50
Tile Setter	1.37½
Operator of Power Shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	1.85
Operator of Power Shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.00
Tractor Driver	1.70
Truck Driver (8 cu. yds. water level capacity and less than 14 cubic yards)	1.25
Truck Driver (4 cu. yds. and less than 8 cu. yds. water level capacity)	1.06¼
Truck Driver (less than 4 cu. yds. water level capacity)	.90
Any classification omitted herein not less than	1.06¼

Overtime—One and one-half times the above rates.

The rates of wages, including overtime, holiday or Sunday rates, above specified are subject to the effect, if applicable hereto, of executive orders of the President of the United States and to any modification thereof and to any and all lawful orders of the President or any other authorized Federal Officer or agency, in so far as the same may be applicable to this contract. In case of any inconsistency, the rates fixed by any such applicable Federal Order, whether higher or lower, shall control.

Apprentices may be employed provided they are properly indentured to the Contractor in full compliance with the provisions of Section 1777 5 of the Labor Code.

Plans and specifications for examination are on file in the Office of the Division of Architecture, Public Works Building, Sacramento, and Room 803 State Office Building, Los Angeles, and at the principal California Cities Builders' Exchange Offices.

Contractors who are desirous of securing plans, specifications and proposal forms for the purposes of preparing and submitting a proposal for this work may do so subject to certain conditions as hereinafter stated by requesting same in writing from the Division of Architecture, Public Works Building, Sacramento. Such request shall be accompanied by a deposit of Twenty Five ($25.00) dollars. Check shall be made payable to the Division of Architecture. Such deposit is required to guarantee the safe return in good condition of the plans and specifications to the Division of Architecture within 30 days after the date set for opening bids. Failure to so return the plans will cause forfeiture of the Deposit to the State.

Prequalification: Plans, specifications and proposal forms will only be issued to those contractors who are prequalified with the Department of Public Works by having filed a statement of experience and financial condition on a standard questionnaire form in accordance with the provisions of the State Contract Act. Such statement must have been filed and approved not more than one (1) year and not less than five (5) days previous to the date set for receiving and opening bids. Contractors may obtain standard questionnaire forms from the Division of Architecture.

No bid will be accepted from a contractor who has not been licensed in accordance with the provisions of the Contractor's License Act or to whom a proposal has not been issued by the Department of Public Works.

No bid will be considered unless it is presented on a proposal form furnished by the Division of Architecture and accompanied by a bidder's bond, cash, a cashier's or certified check made payable to the Director of Public Works in the sum of at least ten per centum (10%) of the amount of the bid.

The Department of Public Works reserves the right to reject any or all bids and to waive any informality in any bid received.

No bidder may withdraw his bid for a period of thirty (30) days after the time set for opening thereof.

FIRST PUBLISHED TODAY

Highway Improvements, Yolo County at the State Highway Nursery, About Three Miles East of Davis

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received by the Department of Public Works, Division of Highways, at the office of the District Engineer, 703 B Street, Marysville, California, until 2 o'clock P. M. on January 31, 1946, at which time and place they will be publicly opened and read, for performing work as follows:

Yolo County, at the State Highway Nursery, about three miles east of Davis (III-Yol-6-A) water well to be drilled and cased.

Plans and specifications, and forms of proposal, bonds, and contract may be obtained at the above address.

No bid will be considered unless it is made on a proposal form furnished by the District Engineer, and is made in accordance with the provisions set forth under Section 2, "Proposal Requirements and Conditions" of the Standard Specifications. Each bid must be accompanied by a proposal guaranty in accordance with the requirements of article (f) of the said Section 2 of the Standard Specifications.

The Department of Public Works reserves the right to reject any or all bids.

The quantities listed in the State Highway Engineer's Estimate hereinafter stated, are approximate only, being given as a basis for the comparison of bids, and the Department of Public Works does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work, or to omit portions of the work, as may be deemed by the Engineer to be necessary or advisable.

Bids are required on the entire work described herein.

The rates of wages, including overtime, holiday or Sunday rates, herein specified are subject to the effect, if applicable hereto, of executive orders of the President of the United States and to any modification thereof and to any and all lawful orders of the President or any other authorized Federal officer or agency, insofar as the same may be applicable to this contract. In case of any inconsistency, the rates fixed by any such applicable Federal order, whether higher or lower, shall control.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Laborer	$1.0625
Well driller	1.70
Any classification omitted herein not less than	1.0625

Overtime — one and one-half (1½) times the above rates.

Sundays and holidays (except watchmen, guards and flagmen)—one and one-half (1½) times the above rates.

STATE HIGHWAY ENGINEER'S ESTIMATE

Item 1. 200 lineal feet drilling and casing well.
Item 2. 30 hours pumping well.

CONTRACT AWARDED

NEW MEXICO STATE.—Frank M. Kenney, 1635 Clay St., Denver, at $189,619 awarded contract by F. G. Healy, State Highway Engineer, Capitol Bldg., Santa Fe, N. M., for construction of Federal Aid Project No. FAGM 208-D (1) (off), located in Colfax County on N. M. Highway Route 72 at Raton, approx. 0.185 mile in length. The work consists of construction of railroad and highway underpasses, concrete pavement and sidewalks and misc. construction. The bids were received Nov. 27. 29

January 18, 1946

CONTRACT AWARDED

MONTEREY COUNTY, Calif. — A. Teichert & Son, Inc., Box 1113, Sacramento, at $795,692 awarded contract by the State Division of Highways, G. T. McCoy, State Highway Engineer, Public Works Bldg., Sacramento, for about 8.4 miles in length to be graded, crusher run base and plant mix surfacing to be placed and seal coat to be applied, between Santa Rita and .8 mile north of Crazy Horse Summit in Monterey County. 29

30—RESERVOIRS & DAMS

January 18, 1946

BIDS WANTED

MISSOURI BASIN PROJECT, Wyoming.—Until March 12, 2 P. M., bids will be received by the Bureau of Reclamation, Casper, Wyo., for the construction of Kortes dam and power plant, Kortes Unit, Missouri Basin Project, Wyoming; Specification No. 1151. The work is situated on the North Platte River, about 62 miles by road southwest of Casper, Wyo.

The principal items of work and the estimated quantities involved are as follows:

(1) diversion and care of river during construction and unwatering foundation;
(2) 3000 cu. yds. excavation, all classes, stripping canyon walls of loose rock;
(3) 65,000 cu. yds. excavation, stripping and coarse aggregate deposits;
(4) 22,000 cu. yds. excavation, common, for dam, power plant and spillway crest and inlet;
(5) 104,000 cu. yds. excavation, rock, for dam, power plant and spillway crest and inlet;
(6) 19,000 cu. yds. excavation, all classes, in spillway tunnel;
(7) 3500 cu. yds. excavation, all classes, for cut and cover section of outlet portal structure;
(8) 600 cu. yds. excavation, all classes, in foundation tunnels;
(9) 9000 cu. yds. excavation, common, for tailrace;
(10) 21,000 cu. yds. excavation, rock, for tailrace;
(11) 76,000 cu yds. excavation, common, for channel improvement;
(12) 19,000 cu. yds. excavation, rock, for channel improvement;
(13) 14,000 cu. yds. excavation, common, for roadway;
(14) 40,000 cu. yds. excavation, rock, for roadway;
(15) 240 cu. yds. excavation, common, for roadway structures;
(16) 250 cu. yds. excavation, rock, for roadway structures;
(17) 430 cu. yds. excavation, all classes, for water supply tank and pipeline;
(18) 6500 lin. ft. drilling line holes for rock excavation;
(19) 3200 cu. yds. backfill;
(20) 1200 cu. yds. compacted backfill;
(21) 3,170,000 sta. cu. yds. overhaul;
(22) 560 cu. yds. riprap;
(23) 870 cu. yds. rubble masonry;
(24) 580 cu. yds. gravel surfacing;
(25) 80 sq. yds. grouted paving;
(26) 229 lin. ft. laying 24-in. corrugated metal pipe culverts;
(27) 150 lin. ft. core drilling 5½-in. holes not more than 50 ft. deep;
(28) 3000 lin. ft. drilling grout holes not more than 30 ft. deep, excluding holes for spillway and diversion tunnels;
(29) 1000 lin. ft. drilling grout holes more than 30 ft. deep and not more than 50 ft. deep;
(30) 9000 lin. ft. drilling rout holes more than 50 ft. deep and not more than 100 ft. deep;
(31) 15,000 lin. ft. drilling grout holes more than 100 ft. deep and not more than 150 ft. deep;
(32) 2000 lin. ft. drilling grout holes more than 150 ft. deep and not more than 200 ft. deep;
(33) 4700 lin. ft. drilling grout holes not more than 30 ft. deep from spillway and diversion tunnels;
(34) 200 lin. ft. drilling drainage holes not more than 25 ft. deep;
(35) 2000 lin. ft. drilling drainage holes more than 25 ft. deep and not more than 50 ft. deep;
(36) 4000 lin. ft. drilling drainage holes more than 50 ft. deep and not more than 75 ft. deep;
(37) 200 lin. ft. drilling drainage holes more than 75 ft. deep and not more than 100 ft. deep;
(38) 400 lin. ft. drilling weep holes;
(39) 2600 lin. ft. drilling holes for anchor bars and grouting bars in place;
(40) 33,000 cu. ft. pressure grouting foundation without packers;
(41) 22,000 cu. ft. pressure grouting foundation with packers;
(42) 1200 cu. ft. pressure grouting contraction joints and cooling system;
(43) 3600 lin. ft. forming holes for 5-in. open drains;
(44) 300 lin. ft. constructing 4-in. sewer pipe drains with uncemented joints, embedded in gravel;
(45) 500 lin. ft. constructing 6-in. sewer pipe drains with uncemented joints, embedded in gravel;
(46) 150 lin. ft. constructing 12-in. sewer pipe drains with uncemented joints, embedded in gravel;
(47) 240 lin. ft. constructing 6-in. sewer pipe drains with cemented joints;
(48) 30 lin. ft. constructing 18-in. sewer pipe drains with cemented joints;
(49) 30 lin. ft. constructing 24-in. sewer pipe air vents with cemented joints;
(50) 260 lin. ft. constructing 6-in. split sewer pipe drains with uncemented joints, embedded in gravel;
(51) 130,000 cu. yds. concrete in dam;
(52) 250 cu. yds. concrete in sidewalks, curbs and parapets;
(53) 590 cu. yds. concrete in trashrack structures;
(54) 4200 cu. yds. concrete in power plant substructure;
(55) 3000 cu. yds. concrete in power plant superstructure;

(57) 20 cu. yds. concrete in blockouts;
(58) 1900 cu. yds. concrete in tailrace retaining walls;
(59) 4100 cu. yds. concrete in spillway tunnel lining;
(60) 1900 cu. yds. concrete in inlet portal structure and open transition of spillway;
(61) 1100 cu. yds. concrete in cut and cover section of outlet portal structure;
(62) 250 cu. yds. concrete in foundation tunnel lining;
(63) 90 cu. yds. concrete in water supply tank;
(64) 80 cu. yds. concrete backfill in water supply line trench;
(65) 82,000 cu. yds. cooling concrete;
(66) 900 sq. yds. special finishing of concrete lining of spillway tunnel;
(67) 3300 sq. ft. special finishing of concrete surfaces, except tunnel lining;
(68) 70 finishing lighting recesses;
(69) 160 sq. yds. shipping and roughening concrete surfaces;
(70) 3,000,000 lbs. placing reinforcing bars and fabric;
(71) 1500 insulating intersection of reinforcing bars and electric conduit;
(72) 6400 lin. ft. installing metal sealing strips;
(73) 1300 lin. ft. installing cover plates on vent grooves;
(74) 2000 sq. ft. installing expansion joint filler;
(75) 200 lin. ft. installing asphalt seals;
(76) 9000 sq. ft. installing coal tar saturated felt roofing;
(77) 1100 sq. yds. bonded concrete floor finish;
(78) 4600 sq. ft. placing membrane waterproofing;
(79) 140 lin. ft. installing control joints in power plant;
(80) 1300 sq. yds. dampproofing exterior walls;
(81) 77,000 lbs. installing bulkhead gate frames and guides;
(82) 24,000 lbs. installing bulkhead gates;
(83) 345,000 lbs. installing butterfly valves;
(84) 4700 lbs. installing pumps and eductors;
(85) 400,000 lbs. installing penstock pipes;
(86) 156,000 lbs. erecting structural steel framework;
(87) 148,000 lbs. installing traveling and gantry cranes, transformer transfer car and hoist and frame;
(88) 55,000 lbs. installing track rails;
(89) 39,000 lbs. installing trashracks;
(90) 96,000 lbs. installing metal tubing and brass, steel, wrought iron and cast iron pipe, fittings and valves less than 6-in. nominal diameter;
(91) 152,000 lbs. installing metal tubing and brass, steel, wrought iron and cast iron pipe, fittings and valves 6-in. and gerater nominal diameter;
(92) 10,600 lbs. installing exterior water supply line;
(93) 66,000 lbs. installing metal tubing and fittings for concrete cooling system;
(94) 12,000 lbs. installing contraction joint grout tubing and fittings;
(95) 4000 lbs. installing metal pipe handrails;
(96) 53,000 lbs. installing metal stairways;
(97) 8000 lbs. installing embedded metal work for floor openings;
(98) 48,000 lbs. installing gratings, platforms and covers for floor openings;
(99) 13,000 lbs. installing oil storage tanks;
(100) 980 sq. ft. installing metal accordian doors;
(101) 760 sq. ft. installing metal swinging doors;
(102) 40 sq. ft. installing metal fire doors;
(103) 460 sq. ft. installing metal sash windows;
(104) 1200 lbs. installing metal louvers;
(105) 170 sq. ft. installing metal partitions;
(106) 18,500 lbs. installing miscellaneous metal work;
(107) 1500 lbs installing plumbing fixtures and appurtenant hardware;
(108) 1800 sq. ft. installing glass block panels;
(109) 240 sq. ft. installing glass partitions;
(110) 4800 lin. ft. installing embedded electric metal conduit 1¼-in. or less in diameter;
(111) 1800 lin. ft. installing embedded electric metal conduit larger than 1¼-in. and not larger than 3-in in diameter;
(112) 1600 lin. ft. installing electric nonmetallic conduit;
(113) 4400 lbs. installing ground wiring material;
(114) 3000 lin. ft. installing electric cable for temperature, strain and stress measuring instruments, embedded in concrete;
(115) 5300 tons transporting freight of all kinds for the government or its agents, other than the contractor, between the railhead and the damsite.

One thousand calendar days for completion. No charge to prospective bidders for copies and specifications and drawings; to others, $4.25 per copy, not returnable. Guarantee of 10% to accompany bids.

Copies of the standard forms and of the specifications may be obtained from the following offices of the Bureau of Reclamation: E. B. Debler, regional director, 501 Continental Oil Bldg., Denver, Colo.; I. J. Mathews, construction engineer, Casper, Wyo.; Walker R. Young, chief engineer, U. S. Custom House, Denver 2, Colo., and Michael W. Straus, commissioner, Bureau of Reclamation, Washington 25, D. C. Prospective bidders desiring to visit the site of the work should communicate with the construction engineer. A limited supply of advance copies of the specifications is immediately available for bidders only. Printed copies will probably be available about January 30, 1946. • 30

32— SEWERS & SEWAGE DISPOSAL PLANTS

January 18, 1946

BIDS WANTED

MILL VALLEY, Marin Co., Calif. —Until March 20, 8 P. M., bids will be received by the City of Mill Valley, City Clerk's Office, City Hall, for the construction of sanitary sewers of the following materials and sizes: vitrified clay pipe sewers of 8-, 10-, 15-, 18-, 21- and 30-in. sizes, and cast iron pipe sewers of 8- and 12-inch sizes, together with manholes, lampholes and wye branches and reinforced concrete trestles on wood piles for the supporting of the 30-inch pipe in unstable ground.

Plans and specifications prepared by Engineer John S. Bates, 3134 Eton Ave., Berkeley, will be available to contractors on February 28 upon deposit of $25.00, returnable with a bid.

Machinery & Material

SAN FRANCISCO CITY

SAN FRANCISCO.—Until January 25, 3 P. M., bids will be received by the Purchase rof Supplies, Room 270 City Hall, for furnishing and delivering 20 sets of armature coils for street car motors for the Municipal Railway.

Specifications and proposal blanks available from the above office. •

SAN FRANCISCO.—Until January 28, 3 P. M., bids will be received by the Purchaser of Supplies of the City and County of San Francisco, 270 City Hall, for furnishing and delivering 100 rolls Mastipave floor paper for the Municipal Railway.

Specifications and proposal blanks available from the above office. •

U. S. FOREST SERVICE

SAN FRANCISCO.—Until January 25, 2 P. M., bids will be received by the U. S. Department of Agriculture, Forest Service, 447 Sansome St., San Francisco, under Bid No. 347 for 706 steel fence posts and gates, f.o.b. Corning, Calif.

Specifications obtainable from the above office. •

SAN FRANCISCO.—Until January 29, 2 P. M., bids will be received by the U. S. Department of Agriculture, Forest Service, 447 Sansome St., San Francisco, under Bid No. 348 for 66 telephone crossarms, electric light type, f.o.b. Sonora, Calif.

Specifications obtainable from the above office. •

SAN FRANCISCO.—Until January 29, 2 P. M., bids will be received by the U. S. Department of Agriculture, Forest Service, under Bid No. 349 for three gasoline engines for power grinders, f.o.b. Santa Barbara and Nevada City, Calif.

Specifications obtainable from the above office. •

SAN FRANCISCO.—Until January 30, 2 P. M., bids will be received by the U. S. Department of Agriculture, Forest Service, 447 Sansome St., San Francisco, under Bid No. 350 for 16 pulleys, f.o.b. Salinas, Calif.

Specifications obtainable from the above office. •

U. S. TREASURY

SAN FRANCISCO.—Until February 11, 2 P. M., bids will be received by the U. S. Treasury Department, 30 Van Ness Ave., San Francisco, under Inv. No. SF-2752-46 for 300 shovel handles (long handle, round point, No. 0), ash, grade X, f.o.b. 650 5th St., San Francisco.

Specifications obtainable from the above office. •

SAN FRANCISCO.—Until January 31, 2 P. M., bids will be received by the U. S. Treasury Department, 30 Van Ness Ave., San Francisco, under Inv. SF-2738-46 for 180 paper fastening, wire staple preformed, machines, f.o.b. 1240 Palmetto St., Los Angeles.

Specifications obtainable from the above office. •

Prospective Bidders

PLANS and Speculations

Construction of two additional wings of three classrooms each, a teachers' rest room and covered corridors between buildings will be starte dimmediately at the new Edgemont School, in SAN BRUNO, by Peter Sartorio, San Francisco building contractor. Sartorio was awarded contract for the reinforced concrete structure on his bid of $81,568. . . Enlargement of PITTSBURG'S filter plan is expected to start in two weeks. Contract was awarded Price & Abernathy representing Pipeline Construction Company, of El Cerrito.

oOo

To aid in the promotion of STOCKTON Field as a municipal airport after it is turned over to the city, and development of other airports in the county, the Stockton Engineers Club has appointed an Airport Committee, whose services have been offered to city and county officials. The committee is composed of E. F. Brieger as chairman; J. B. Manthey, county surveyor; Bert Reber, State Highway civil engineer; E. D. Thoits, San Joaquin County Local Health District sanitary engineer; H. A. Walker, electrical engineer, and C. H. Widdows, consulting civil engineer.

oOo

Construction of a new million-dollar food packing plant for the Pacific Coast will begin at once in OAKLAND, according to a release from the Butler Packing Company of Seattle. The company packs Dennison's prepared foods and the new plant will pack tomato products in bottles and tins. . . Contractor William Soivock will build a $35,000 venetian blind plant for Mel Lauriton and Roy Hamilton, at 10131 Edes Ave., OAKLAND. . . Expansion of the Davis Millwork Company plant at 930 Ashby Avenue, BERKELEY, has been started.

oOo

Plans for a new plant for the Atlas-Pacific Engineering Co., fabricators of food processing and other types of industrial machinery, indicated its forthcoming move to a new site on Hollis St. between 66th and 67th Sts., EMERYVILLE. The firm plans expenditure of $125,000 on site, building and the equipment, with the new plant expected to be ready for occupancy in May.

oOo

A gift of $25,000 has been presented to the city of San Juan Bautista by Mr. and Mrs. Arthur S. Nyland, to be used in the construction of a new civic center. Architect Charles Butner of Salinas, is drawing the plans, and contractor Axel Carlsen, also of Salinas, will handle the construction. The job is slated to start in May or June.

Builders Urged To Include 'Phone Wiring In Plans

K. P. Wood, General News Service Manager of the Illinois Bell Telephone Company, in conference with Paul S. Van Auken, Director of the National Association of Home Builders Convention and Exposition to be held at the Stevens Hotel, Chicago, February 25-28, said, "Orders for telephones held up because of shortages are diminishing month by month and it is expected that this year telephone service will be available to everyone. Prospective home builders, therefore, might well consider the problem of concealed telephone wiring in their plans.

"No contractor or builder would make plans for any type of postwar home without including provisions for inconspicuous plumbing and electrical work. It is just as important and logical to provide for concealed telephone wires."

Wood went on to say, "The telephone installer cannot, in most cases, feed telephone wires thru finished walls and floors in order to conceal them. Thus the beauty of an otherwise well planned home is often marred because of exposed telephone wiring on walls, moldings and baseboards. A simple piece of conduit put in place while the home is being built provides for neat telephone outlets wherever desired by the home owner. These telephone outlts, similar in design to the electrical outlets, make possible installation of telephones without morring finished walls and woodwork.

"Telephone conduit, which is built in, costs very little when included in home building plans. The telephone company provides all wires, does the wiring work and assists in determining location of telephone outlets. A contractor or builder has merely to see that the proper conduit is in place. To avoid later annoyances to clients, contractors and builders should specify built-in conduit in the original building plans."

The telephone company's exhibit at the National Association of Home Builder's Convention and Exposition will give visual proof of the advantages to home owners, builders and contractors alike. The convention will take place in the Exhibit Hall of the Stevens Hotel, Chicago, February 25 - 28.

Study Made for Columbia River Navigation Impts.

Suggested navigation improvements in the Columbia River will save Columbia Basin Project settlers and industrial establishments more than $700,000 yearly in transportation charges, the Bureau of Reclamation has been informed in a report prepared by U. S. Army Engineers.

Already destined to provide water and power for the extensive irrigation development in south-central Washington, the Columbia also can be used to handle many thousands of tons of freight for the more than 250,000 persons who ultimately will live in the Basin, the report explains.

In advocating further navigation improvements for the Nation's second largest river, the Army engineers predict that annual savings of more than $400,000 would accrue from Columbia River transportation of petroleum products to the Basin; $216,000 from imports of general merchandise; and $108,000 from exports of farm products.

"These savings are computed on present rates for rail haul, and a probable future water rate, which it is estimated will prevail upon completion of the projects proposed for the Columbia River," the report comments. "Although the spread between rail and water rates may be les in the future, it is believed that rail rate reductions will result mainly from increased use of the river as an artery of transportation."

Besides the estimated yearly imports of 175,000 tons in petroleum products, such materials as sugar. salt, canned gods, building materials, and heavy hardware also would be shipped to the Basin by river, from manufacturing centers on the Lower Columbia, according to the engineers.

River imports of general merchandise to the Basin eventually will reach 100,000 tons annually, the report states. These would consist of salt and sugar, 15,000 tons; groceries, including canned goods, 20,000 tons; and heavy hardware, glassware, and building materials, 65,000 tons.

On the export side, the river would carry about 50,000 tons of farms goods annually from the Basin, chiefly animal products and processed fruits and vegetables.

"In consideration of the favorable rates for ocean shipments of canned goods from Northwest ports to San Francisco and Los Angeles, it is probable that some of the surplus tonnage of processed vegetables and fruit will be routed via the Columbia River waterway to tidewater, thence to California markets by ocean carrier," the report points out.

Another possible source of outgoing tonnage would be products from electro-chemical, electro-metallurgical, and other industries which might take advantage of the great quantities of low-cost power produced by Grand Coulee Dam.

Included in the report, known as "River Transportation—Columbia Basin Joint Investigations", are charts and drawings showing the growth of the Columbia River as a commercial waterway, a map of channel dimensions, and tables of commodity movements for the period 1938 to 1943, inclusive.

"River Transportation" is Number 21 in a series of 28 studies sponsored by the Bureau of Reclamation to foster orderly development of the Columbia Basin Project. The 26-page report can be purchased for 10 cents per copy from the Superintendent of Documents, Washington 25, D. C.

New Time-Switch Clock Will Be Out In April

An ingenious time-switch clock that will control a radio and many other electrical appliances has been announced by the General Electric Company.

Called the Select-O-Switch, the new electric clock turns appliances on or off for pre-selected intervals over any 12-hour period.

According to Robt. O. Fickes, G. E.'s clock division manager, the new time control is one of the major steps in achieving complete automatic operation of the home.

"Refrigerators, heating plants, dishwashers and almost all the other major electrical equipment of the average American home have been mechanized during the past several decades," he said. "Now the Select-O-Switch makes possible automatic control of the radio, coffee maker, portable heater, roaster — any electrical appliance or combination of electrical appliances that is rated at 1650 watts or less."

The new clock, which is enclosed in a mottled chestnut plastic case measuring approximately 6½ inches wide, 5 inches high and 3 inches deep, permits the user automatically to turn the radio on to his favorite program, to turn it off at the end of the program, to turn in on again to another program, and so on.

Similarly, it permits the user to turn on a portable bathroom heater 15 minutes before he gets up in the morning and to turn it off again 15, 30, 45 minutes or up to 12 hours later.

Secret of the clock's automatic operation is the 48 "selection" keys ringing the ivory dial.

To operate the time-control device, the user first plugs the clock into a convenience outlet, then plugs the appliance to be controlled into the outlet in the back of the clock. The appliance is turned on, although it does not actually operate until the clock permits. (Manual control of the appliance is possible, however.)

When one of the 48 keys on the front of the clock is pulled out, the timer automatically turns on the connected appliance for the indicated 15 minutes. At the end of the operating period, the power is automatically turned off unless the next key, in a clockwise direction, is also pulled out.

Thus, if the timer is to operate from 8:00 to 8:30, the key opposite 8:00 together with the one to the left should be pulled out. After they have done their job, they are automatically reset to their "off" position so that the appliance operation will not be repeated at the end of 12 hours unless the keys are pulled out again.

Radio programs and other appliance operation can in this way be set up as much as 10 hours in advance.

Fickes said that the new clock is self-starting, requires no winding, has a sealed-in-oil mechanism, operates on 60-cycles, 110-125-volt A.C.

The clock will sell for $9.95 when it becomes available in April.

Policy for Acquisition, Development of California Beaches Adopted by State C. C.

A far reaching policy for acquisition, protection and development of California's beaches for recreation was adopted by the board of directors of the California State Chamber of Commerce, meeting in San Francisco. Dr. Robert Gordon Sproul, president of the University of California, presented the report of the special committee, which the directors approved and will actively seek adoption of necessary legislation to put it into effect.

The policies follow a two-year study of the problems growing out of lack of overall authority by any one state or federal agency to protect and safeguard this great natural resource.

"The War Department, authorizing any structure built seaward of the high water line considers only objections based on interference with navigation. The State owns tide and submarged lands and its Division of State Lands must also authorize each structure —but where tidelands have been transferred to a municipality or county, the state cannot prevent one city from building an ocean structure that may so influence waves and current as to seriously damage other communities' shorelines," Dr. Sproul declared.

"The State Division of Parks and Beaches has title over state-owned parks, landward from high water lines—but only above the high water mark, and not beyond the park itself. The State Division of Highways also does considerable seacoast work to protect its highways. The State Board of Health must approve ocean outfall pipe lines for sewage as they affect public health—and often this has been done without other state agencies studying the engineering and other features.

"Between all these state and federal agencies there is a degree of cooperation—which, however, is entirely voluntary, and depends on the desires of each agency. A law requiring joint action is needed. And this report proposes creation of a State Seacoast Engineering Board—composed of existing state officials and creating no new jobs—to carry on a continuing study of ocean forces at work along the coastline."

The two-year study, resulting in the new beach policy report, was made by a special committee authorized by Dr. Sproul, then chairman of the State Chamber's natural resources committee. Colonel Charles T. Leeds, formerly Southern California district engineer, U. S. Army Engineers, and now consulting seacoast engineer for the State Division of Lands, is chairman. Other members were: Supervisor Raymond T. Darby, Los Angeles county; State Highway Commissioner Wm. T. Hart, Carlsbad; Senator H. Raymond Judah, Santa Cruz; Col. John G. Macomb, retired Army Engineer, Guerneville; Prof. M. P. O'Brien, dean of engineering, University of California; Supervisor Willis H. Warner, Orange county, Horace S. Wilson, president Southern California Bldg. & Loan Assn., and P. G. Winnott, chairman Greater Los Angeles Committee. Advisory members included: Paul Bailey, Orange, former state engineer; L. Deming Tilton, planning director of San Francisco; George Hjelte, recreational director of Los Angeles; James K. Read, ex-Los Angeles county recreational director.

"In earlier days, there was little occasion for concern about our coatsline—there was room and opportunity for all," Sproul continued. "Now, however, with ever increasing population, the value of our seacoast for scenic beauty and recreation is increasingly appreciated. Visit one of our beaches on a good day and you will realize beach patronage is fact approaching Coney Island congestion.

"As with other natural resources, we must have wide conservation if our beaches are to be preserved. We have found already from bitter experience that we cannot allow erection of unplanned shoreline structures which seriously affect the beaches and hurt other communities.

"The 1945 legislature appropriated $10,000,000 to be matched by equal local contributions to purchase beach park areas and acquire beach frontage wherever the distance between the state highway and shore is under 300 feet. There is no overall administrative agency with adequate authority to examine and pass on proposed shore line and seaward improvements."

—V—

SQUEAKS MEAN WEAR

Squeaks and rattles are the first signs of wear in an automobile, cautions the California State Automobile Assn. It pays to have the car lubricated regularly and to have nuts and bolts tightened up at periodic intervals.

—V—

The use of reflective insulation back of a recessed radiator will save about 5 per cent of fuel, tests at the University of Illinois have disclosed. In the case of free-standing radiators, the saving is not appreciable, being less than 1 per cent.

Highway Engrs. Will Address State CC Meet

Highway programs now approved, investigations by the interim legislative committee, and proposed highway construction, financing, etc., will be considered January 24 at a meeting of the highway committee of the California State Chamber of Commerce's Central Coast Council, Dr. E. J. Leach, Salinas, chairman of the committee, announced today. The meeting, to be held Thursday morning at State Chamber of Commerce in San Francisco, will be attended by members from the nine Central Coast counties of California. State, county and municipal officials and representatives of major civic organizations will participate.

The $135,000,000 highway construction program for California—including approved current construction and the four-year construction budget—will be outlined by Col. John H. Skeggs and Lester A. Gibson, district engineers, State Division of Highways. The ten-year highway deficiency program recommended by the State Division of Highways to the Collier interim highway committee will be explained by Ridgeway Gillis, construction engineer, State Division of Highways. Central Coast Council recommendations to the Highway Commission also will be considered.

Other program features include the following:

Airline Highway, Assemblyman J. M. Leonard, Hollister; California Major Highway Development Committee program proposals, H. A. Mitchell, president Sacramento Northern Railway; county road programs, and financing, Wallace Boggs, county surveyor, Alameda county; investigations relative to a second Bay crossing, Irving H. Kahn, president Downtown Property Owners Assn., San Francisco, and two discussions by Edwin S. Moore, California State Automobile Assn., concerning urban parking problems and special session legislation concerning Highway Patrol financing.

The California State Chamber's Central Coast Council includes Alameda, San Francisco, Contra Costa, San Mateo, Santa Clara, Santa Cruz, San Benito, Monterey and San Luis Obispo counties.

21— BRIDGES

January 21, 1946

TO ASK BIDS

LONG BEACH, Los Angeles Co., Calif.—The City of Long Beach has had plans prepared, which have been presented to the U. S. District Engineer, 751 S. Figueroa St., Los Angeles, for approval, and a bid call is expected t obe issued within 60 days for the construction of a new bridge, 995 ft. long and 86 ft. wide, over Long Beach Blvd. to cost $1,000,000, and the Willow St. bridge, 617 ft. long and 86 ft. wide, to cost $450,000. The two bridges will have cloverleaf connection to cross highways, reinforced concrete construction, with six lanes for traffic and for a new levee height of 20 ft. above streambed on the Long Beach Blvd. bridge, and the Willow St. bridge will span a new channel width of 530 ft. Plans were prepared by Donald R. Warren, engineer, 500 S. Figueroa St., Los Angeles. 21

January 21, 1946

PREPARING PLANS

ORANGE COUNTY, Calif.—Engineer Donald R. Warren, 500 S. Figueroa St., Los Angeles, has been commissioned by the Board of Supervisors of Orange County to prepare plans and specifications for the construction of 11 bridges in Orange County at a total estimated cost of $200,000. The following bridges are includes:

One reinforced concrete bridge across the Santa Ana River at Adams St.; cost, $40,000.

One semi-suspension type steel span bridge across the Santa Ana River at Struck Ave., north of Chapman Ave., in the Orange district.

One reinforced concrete two-lane bridge across Santiago Creek at Cambridge St., Orange; cost, $15,000.

One reinforced concrete three-lane bridge across Santiago Creek at Santiago Ave.; cost, $25,000.

Five wooden bridges across Silverado Creek in Silverado Canyon.

One wooden bridge across Modjeska Creek in Modjeska Canyon.

One wooden bridge across Ladd Creek. 21

January 21, 1946

PREPARING PLANS

LONG BEACH, Los Angeles Co., Calif.—Donald R. Warren, 500 South Figueroa St., Los Angeles, has been commissioned by the City of Long Beach to prepare plans and specifications for the construction of the new Second Street Bridge over the marine stadium to connect with Highway 101 and the projected Westminster Road.

The bridge will be of reinforced concrete construction and will span 800 feet of the stadium width in a diagonal direction with a clearance of 30 feet above a 7-ft. high tide. It will have a divided traffic lane for three cars each way and will be 76 ft. wide from curb to curb with a 4-foot island between. Electroliers will be provided in the design. Est. cost, $800,000. 21

22— DREDGING, HARBOR WORKS, EXCAVATION

January 21, 1946

CONTRACT AWARDED

SEATTLE, Wash.—Grays Harbor Construction Co., 412 S. Park St., Aberdeen, at $177,320, awarded contract by the U. S. Engineer Office, Seattle, for dredging shoals in Wallapa river and harbor at Raymond and South Bend.

LOW BIDDERS

DAVIS DAM PROJECT, Arizona-Nevada.—Charles J. Dorfman, 124 N. La Brea, Los Angeles, at 214,251.35, submitted low bid January 17 to the U. S. Bureau of Reclamation, Walker R. Young, chief engineer, Kingman, Ariz., under Spec. 1136 for construction of streets and highways, sidewalks, curbs and gutters, and drainage, sewerage and water distribution systems for Davis Government camp, Davis Dam Project, Arizona-Nevada. The work is situated about 30 miles west of Kingman, Ariz.

Second and third low bidders were: W. S. Ford, Kingman, Ariz., $218,275.71.

Vinson Construction Co., $235,791.27.

The principal items of work are as follows:

(1) 70,000 c.y. excav. for streets and highways;
(2) 2,900 c.y. excav. for ditches and culverts;
(3) 1,400 l.f. excav. and backfill of sewer pipe trenches, 4 ft. deep or less;
(4) 1,400 l.f. do, over 4 ft. deep and not more than 6 ft. deep;
(5) 1,650 l.f. do, over 6 ft. deep and not more than 8 ft. deep;
(6) 2,400 l.f. do, over 8 ft. deep and not more than 10 ft. deep;
(7) 2,200 l.f. do, over 10 ft. deep and not more than 12 ft. deep;
(8) 250 l.f. do, over 12 ft. deep and not more than 14 ft. deep;
(9) 150 l.f. do, over 14 ft. deep and not more than 16 ft. deep;
(10) 10 l.f. do, over 16 feet deep;
(11) 11,300 l.f. excav. and backfill of water-pipe trenches;
(12) 1,225 c.y. excav. for structures;
(13) 800 c.y. excav. for leaching field
(14) 1,200 c.y. backfill around struc.;
(15) 400 c.y. tamping backfill around structures;
(16) 40,000 c.y. compacting fills for streets and highways;
(17) 400 c.y. excav. in borrow pits;
(18) 25,000 sta. c.y. overhaul;
(19) 300 s.y. dry-rock paving;
(20) 25 c.y. dumped riprap;
(21) 300 M. gals. of watering base course;
(22) furnish and place 8,200 c.y. of gravel or crushed rock for base course of street and highway surfacing;
(23) furnish and apply 15,000 gals. of asph. material for prime coat;
(24) furnish and place 3,050 c.y. of gravel or crushed rock for surface course;
(25) furnish and apply 58,000 gals. of asph. material for surf. course;
(26) mix, finish and roll 49,000 s.y. of surface course;
(27) furnish and apply 8,500 gals. of asph. material for seal coat;
(28) furnish and apply 170 c.y. of coarse sand for seal coat;
(29) furnish and stockpile 50 c.y. of gravel or crushed rock for surface course;
(30) furnish and stockpile 10 c.y. of coarse sand for seal coat;
(31) furnish and lay 120 l.f. of 15-in. diameter concrete pipe;
(32) furnish and lay 236 l.f. of 18-in. diameter concrete pipe;
(33) furnish and lay 410 l.f. of 21-in. diameter concrete pipe;
(34) furnish and lay 130 l.f. of 24-in. diameter concrete pipe;
(35) furnish and lay 60 l.f. of 30-in. diameter concrete pipe;
(36) furnish and lay 190 l.f. of 36-in. diameter concrete pipe;
(37) constructing 9 structures of inlets or catch basins 6 ft. deep or less;
(38) constructing 7 addl. feet of inlets and catch basins, each additional foot over 6 ft. deep;
(39) furnish and lay 3,000 l.f. of 4-in. diameter clay sewer pipe and fittings for sewer lines;
(40) furnish and lay 1,780 l.f. of 6-in. diameter clay sewer pipe and fittings for sewer lines;
(41) furnish and lay 2,500 l.f. of 8-in. diameter clay sewer pipe and fittings for sewer lines;
(42) furnish and lay 1,600 l.f. 10-in. diameter clay sewer pipe and fittings for sewer lines;
(43) furnish and lay 20 l.f. of 10-in. diameter cast-iron soil pipe for sewer line;
(44) furnish and lay 1,050 l.f. of 4-in. diam. cast-iron A.W.W.A. pipe and fittings for sewer line;
(45) furnish and lay 36 l.f. of 8-inch diam. cast-iron A.W.W.A. pipe and fittings for sewer line;
(46) construct 19 sewer manholes 6 feet deep, or less;
(47) construct 70 addl. feet of sewer manholes, each addl. foot over 6 feet deep;
(48) connecting existing sewer line to manhole No. 5;
(49) furnish and lay 2,650 l.f. of 4-in. diam. clay sewer pipe for leaching field & backfilling trenches;
(50) furnish and lay 400 l.f. of 6-in. diam. clay sewer pipe for leaching field & backfilling trenches;
(51) constructing manhole "A" in leaching field;
(52) constructing septic tank;
(53) construct sewage pump house;
(54) installing 1,500 lbs. of sewage pumps;
(55) furnish and install 80 l.f. 4-in. diameter asbestos-cement water pipe and cast-iron fittings;
(56) furnish and install 4,650 l.f. 6-in. diameter asbestos-cement water pipe and cast-iron fittings;
(57) furnish and install 3,200 l.f. 8-in. diameter asbestos-cement water pipe and cast-iron fittings;
(58) furnish and lay 2,200 l.f. ¾-inch diameter lead or copper service piping;

PLANS and Speculations

The Coco Cola Bottling Company has purchased a three-acre site at East 14th Street and Mattox Road, HAYWARD, for the construction of a huge bottling plant. No construction plans have yet been announced.

oOo

Ground has been broken for the Los Medanos Bowl, a Ninth Street and Los Medanos, PITTSBURG. W. S. Van Winkle of the Bay City Recreation Company said the two-story structure of basalt block and concrete will house 12 bowling lanes, 12 billiard tables, badminton and table tennis courts, a fountain and meeting room, with four retail stores also to be included. The structure is 150 by 135 feet and is slated to be completed by late spring.

oOo

Paving of a nine-acre site at 92nd Avenue near "G" Street in OAKLAND has been started for the Lincoln Lumber Co. Trebling the capacity of the present plant at 22nd Avenue and East 14th St., and increasing employment to more than 100 people, the new project includes offices, display room, warehouse of 80,000 square feet, sash and door shop, and planing mill. L. H. Lincoln, general manager, said completion is scheduled for early May.

oOo

Storage space at the Filice and Perrelli Canning Company plant, 10th and Hall Sts., RICHMOND, will be trebled on completion of the new warehouse of 60,00 sq. ft. Pile driving has strated and construction will be rushed in an effort to have the building ready for this year's pack.

oOo

Start of construction of a $250,000 plant for Dobeckmun Company, manufacturers of cellophane packaging materials, moved a step closer as the State Railroad Commission authorized construction of a Southern Pacific spur to the site on Virginia Street, between 4th and 5th Sts., BERKELEY. Plans are being completed for a factory and office building with 55,000 sq. ft. of floor space. The firm will move from its present location at 1330—62nd St., Emeryville. Permits for construction of a $90,000 Mormon Church for BERKELEY has been granted. The building will be erected on Stuart Street between Telegraph Ave. and Ellsworth Street.

oOo

Appointment of Jack C. Jamison of Martinez to the newly created post of County Building Inspector has been announced by the CONTRA COSTA COUNTY Board of Supervisors. . . The trustees of the Arcade School District of SACRAMENTO have called an election on February 1st on the proposed bond issue of $76,000 to finance expansion of the school. Gordon Stafford of Sacramento is architect for the contemplated project.

oOo

Shell Chem. Corp. Announces Plans For Expansion

Shell Chemical Corporation will spend more than one million dollars this year on an expansion program designed to double the output of ammonia and ammonium sulfate at Shell Point, near Pittsburg, Calif., it was announced today by J. Oostermeyer, president.

In operation since 1931, the Shell Point ammonia plant is by far the largest in the West and has provided a major portion of the nitrogen plant food used in western agriculture, Oostermeyer said.

"With confidence in the continued growth of the West and western agriculture, work has started in the expansion of these facilities to provide a substantial source of ammonia for fertilizer and industrial purposes as well as ammonium sulfate for the fertilizer needs of the Pacific Coast area," he added.

In addition to the ammonia plant expansion, Shell Chemical recently broke ground for a new office building at Shell Point. It will be two stories of reinforced concrete with block-stone finish featuring structural glass trim. The architects, Gordon B. Kaufmann Associates, describe the building as of semi-modernistic design.

The building will accommodate the approximately 10 office workers now employed at Shell Point and provide some additional space for growth. The contract for construction has been let to Howes & Whitaker who will use local labor and material when available.

The architect's plans of the new office building indicate more than 15,00 square feet of area. Modern furnishings and extensive landscaping will brighten the surroundings which have been almost hidden during the war in army camouflage.

Four hundred people are now employed at Shell Point, according to M. Voogd, plant manager.

Manufacturers of Critical Building Products Slated for White House Meet

L. C. Hart, President of the Producers' Council, today announced that officials of companies manufacturing critical building products will meet at the White House with Wilson W. Wyatt, Federal Housing Expediter, on January 21 to discus methods of stimulating increased production of building materials and equipment as a means of permitting maximum construction of new housing this year.

The holding of such a meeting was proposed by the Council, national organization of building product manufacturers, shortly after Wyatt arrived in Washington to assume his new position.

"The meeting will give representative manufacturers an opportunity to explain first hand to Wyatt the bottlenecks which are retarding production of needed building products," Hart said.

"Although the new priority system established to channel materials and equipment to builders of veterans' housing may insure an ample supply of certain essential products such as lumber, gypsum and clay products and electrical supplies, further steps must be taken if there are to be enough of the remaining items to permit construction of the 400,000 to 500,000 new housing units which could be built this year.

"The products to which special attention must be given are millwork, enameled plumbing fixtures, and most types of home heating equipment. The output of these products is being reduced substantially by raw materials shortages or by manpower or pricing difficulties. Since all of these bottlenecks arise as a result of government controls, they cannot be removed except with governmental assistance.

"The Council has provided Wyatt with a detailed report on the probable supply of all major types of materials and equipment as shown by its recent survey conducted among manufacturers and has offered full cooperation in obtaining such additional information as he may require.

"Invitations to the meeting have been extended to Lewis H. Brown, President, Johns - Manville Sales Corp., New York City; Fred K. Weyerhaeuser, President, Weyerhaeuser Co., St. Paul, Minn.; G. L. Curtis, President, Curtis Companies, Clinton, Iowa; P. R. Mork, Vice-President, Crane Co., Chicago; M. H. Baker, President, National Gypsum Co., Buffalo; E. O. Shreve, Vice - President, General Electric Co., New York City; R. A. Shipley, President, National Fireproofing Co., Pittsburgh; and Douglas Whitlock, Chairman of the Council's Advisory Board, Washington, D. C."

H. EARL PARKER ELECTED PRESIDENT OF NO. CALIF. AGC

H. Earl Parker, general contractor of Marysville, has been elected president of the Northern California Chapter, Associated General Contractors of America, by the Board of Directors on which he served with distinction during the past year. Geo. H. Atkinson of the firm of Guy F. Atkinson Co., San Francisco, was elected vice-president.

V

AIA Northern Chapter To Meet Friday, Jan. 25

The annual meeting for the election of officers of the Northern California Chapter of the AIA is to be held Friday night, January 25, at the Engineers' Club, 206 Sansome Street, San Francisco.

In addition to the routine business of the annual meeting, the Chapter has invited all of its past presidents to be guests for that night. The list of past presidents represents an excellent cross-section of the architecture of California for the past 30 years. The past presidents expected to be at the meeting are: Messrs. Mooser, McDougall, Faville, Mathews, Bakewell, Applegarth, Fairweather, Allen, Reid, Meyer, Gutterson, Donovan, Evers, Corlett, Perry, Mitchell, Appleton and Spencer.

With the rapid expansion of the Northern California Chapter over the period of the past year, it is hoped that all of the younger men will be present to hear of the past and to participate in the programming of the future of the Chapter. In view of the limited seating capacity of the Engineers' Club, you are urged to 'phone reservations to the office of the Chapter—DOuglas 4561.

V

SPECIAL MEETING FOR MEMBERS OF BLDRS. EXCHANGE

A special meeting of the members of The Builders' Exchange is called for Wednesday, January 30, at 1 o'clock p. m. at 666 Mission Street, San Francisco, for the purpose of receiving nominations for Directors of The Builders' Exchange for the ensuing year.

WORKINGS OF CPA REG. No. 33 IS EXPLAINED

Priorities under Civilian Production Administration Regulation No. 33 for procurement of critical materials to be used in the construction of private dwellings for sale or rent to veterans of World War II are now being issued by the local Federal Housing Administration, D. C. McGinness, District Director for Northern California, has announced.

The application form which builders or veterans, desiring to build, are required to file is very simple. It sets forth the name of applicant, legal description of land, specifications of the building, as indicated on a check sheet, the price at which the property is to be offered for sale or rent, and the number of dwellings or units to be commenced within the time limit of 90 days after issuance. A floor plan showing room designations and dimensions must also be submitted.

The priority regulation fixes a ceiling sale price of $10,000 for single - family dwellings, $17,000 for duplex dwellings, and a rental of $80 per month per living unit. No sale price limitation applies for properties containing more than two living units.

The specific price at which a property may be sold or rented will be fixed by the FHA and, while in so doing, McGinness stated, a realistic view of present costs will be taken, a conscientious effort will be made to protect the interests of the veteran by not approving a price inconsistent with the utility value of the occommodations offered.

Applicants are cautioned, however, that prices fixed in connection with priorities have no relation with the making of FHA insured loans and will not necessarily be recognized as a basis of value for that purpose.

An eligible veteran, building for his own occupancy, is not limited as to cost, but may not sell or rent for more than the ceiling price as established by the Civilian Production Administration order.

By extending or using a priority or preference rating, a builder agrees that the properties, as set forth in the application, will be offered for sale or rent to veterans only during the period of construction and for 30 days thereafter, at which time, they may be sold or rented to non-veterans, subject to the same maximum price established by the FHA.

A veteran owner desiring to sell or rent a property built under priority assistance must give the same 30 days preference to veterans and at a price not exceeding that originally fixed.

V

"PREFAB" HOUSING

A Chicago prefabricated firm, the WillisWay System, is planning to distribute manufactured house parts throughout the nation to more than 21,000 established retail lumber dealers. Its five-room and bath unit, called the HomeOla will retail for less than $3,000 exclusive of lot, and will be a two-story structure containing heating and plumbing essentials.

Bibliography of Scientific, Industrial Reports Will Be Available January 25

The first issue of the "Bibliography of Scientific and Industrial Reports Distributed by the Office of the Publication Board" will be placed on sale by the Superintendent of Documents, Government Printing Office, on January 25, the Office of the Publication Board said today.

Succeeding issues of th bibliography will be made available on a weekly basis.

Reports listed in the weekly bibliographies will be grouped according to subject matter. The serial number, price, length, and title of each report in the listings will be accompanied by a brief description of the report's contents.

The price of the first issue will be 15 cents. Since prices of later issues will vary in accordance with their size, a definite yearly subscription rate cannot yet be determined. However, the Superintendent of Documents will accept $10.000 as initial payment for the service and will notify subscribers when additional remittance is required. Copies of the bilbiographies also may be purchaser singly.

Orders for the bibliographies should be accompanied by check, money order, or Superintendent of Documents coupons and should be addressed to the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The first issue, comprising 28 pages and covering 323 reports, will contain listings under the following subject headings: apparel and other finished products made from fabrics and similar materials, with 1 title; chemicals and allied products, with 114 titles; electrical machinery, equipment, and supplies, with 46 titles; fabricated metal products (except ordnance, machinery, and transportation equipment), with 19 titles; food and kindred products, with 3 titles; lumber and wood products (except furniture); with 3 titles; machinery (except electrical), with 20 titles; ordnance and accessories, with 25 titles; primary metal industries, with 4 titles; products of petroleum and coal, with 28 titles; professional, scientific and controlling intruments, photographic and optical goods, watches and clocks, with 13 titles; rubber products, with 11 titles; stone, clay, and glass products, with two titles; textile mill products, with 3 titles; and transportation equipment with 31 titles.

The reports described in the listings contain information on scientific and technical developments, processes, products, inventions, and related matters of potential interest to American science and industry. This information previously was subject to security restrictions but has no wbeen released for distribution by OPB.

Most of the information released to date was obtained in Germany and in countries formerly occupied by the Germans. Some reports on U. S. Government sponsored research also have been released, and many more are expected to be made available for distribution in the future.

COST ACCOUNTANTS DISCUSS CURRENT INCOME TAX

Taxes, corporate and individual, will be the timely topic of discussion at tonight's current dinner and technical session of the San Francisco Chapter, National Association of Cost Accountants, at the Engineers' Club. The guest speakers are Stanley W. Smith, who will handle the corporate part, and Andrew F. Sherman, who will review the individual's problems.

Smith, C.P.A. in both California and Texas, is manager of the Tax Department of Peat, Marwick, Mitchell & Co., and is well known among tax experts.

Sherman, a C.P.A. in California, is the senior partner of his own firm of C.P.A.'s.

January 22, 1946
BIDS POSTPONED

SHOSHONE PROJ., Wyo. — Until February 8, 2:00 P. M. (bid opening date postponed form January 23, 2:00 P. M., bids will be received by the Bureau of Reclamation, Denver, Colo., under Spec. No. 1139, for furnishing and delivering fob cars at the shipping point or fob cars at Thermopolis, Wyo., at the option of the bidder, item 1, three 150-kv-a, 66,000 delta- to 7200/12,470 Y-volt, single-phase, 60-cycle, oil-immersed, self-cooled, outdoor type transformers, each with one single-pole, lightning arrester for 13,800-volt, three-phase, grounded - neutral circuit mounted on the case, complete with oil; one 5-kv-a, 7200- to 120/240-volt, single-phase. 60-cycle, oil-immersed, self-cooled, outdoor-type distribution transformer, with standard taps, except with two high-voltage cover bushings and with one distribution-type arrester mounted on the case; one 15,000-volt, 600-ampere, three-pole, single-throw, outdoor type power circuit breaker with automatic reclosing equipment; one 69,000-volt, 600-ampere, three-pole, single-throw, manually gang operated, outdoor-type disconnecting switch;

One 15,000-volt, 400-ampere, three-pole, single-throw, manually gang operated, outdoor type disconnecting switch; six 15,000-volt, 400-ampere, single-pole, single-throw, hook-operated, outdoor - type disconnecting switches; three 69,000-volt, 200-ampere, single-pole, hook-operated, outdoor type, expulsion-fuse disconnecting switches, complete with 5E-ampere fuse units; one 7500/12,500-volt, grounded wye, 50-ampere, single-pole hook-operated, outdoor, enclosed, indicating-type fuse cutout; complete with fuse holder, hanger, and three fuse links, three single-pole, thyrite or autovalve, outdoor, distribution-type lightning arresters, designed for base mounting and suitable for use on 69,000-volt, 3-phase, ungrounded-neutral circuits; three 15,000-volt insulated. 40- to 5-ampere, single-phase 60-cycle, compound - filled, outdoor-type current transformers; three 15,000-volt insulated, 8400- to 120-volt, single-phase, 60-cycle, oil-immersed, self - cooled, outdoor - type potential transformers, complete with oil; and one 3-element, 3-phase, 4-wire, watt-hour indicating demand meter, with 30-minute interval, in weatherproof case, for the Hot Springs County R. E. A. substation, Shoshone Project, Wyoming.

2. The following changes were made in the specifications:

(a) Schedule No. 1, items 1 and 1a, the size of each single-phase transformer is changed from 150 kv.-a to 333 kv.-a.

(b) Schedule No. 3, item 7, the current rating of the expulsion-fuse disconnecting switches is changed from 5E emperes to 10E amperes;

(c) Schedule No. 5, item 10, the current ratio of the current transformers is changed from "40- to 5-amperes" to "50- to 5 emperes."

(d) In paragraph 27, page 7, the first item of the tabulation "normal continuous rating" is changed from 150 kv.-a. to 333 kv.-a.

(e) In paragraph 44, tabulation on page 14, the ratio of bushing type transformers is changed from "600-100/5" to "600-200/5."

(f) In the tabulation in paragraph 51, page 16, under "Current rating (amperes)," item 7 is changed from "200-5E" to "200-10E."

(g) In paragraph 57, page 18, 5th line, "5E-amperes" is changed to "10E-amperes."

(h) In paragraph 61, page 19, 4th line, "40 to 5 amperes" is changed to "50 to 5 amperes."

(i) In paragraph 67, page 21, tests required by subparagraph (c) are eliminated.

(j) In paragraph 68, page 22, 2nd line, ratio of "40 to 5 amperes" is changed to "50 to 5 amperes." Also, the last two sentences in this paragraph are deleted and the following substituted therefor:

"The normal continuous rating of the power transformer bank on the circuit in which the meter will be connected will be 1,000 kv.-a. The potential transformer voltage ratio was selected to provide for possible future use of these transofrmers on a 13,800-volt circuit."

All of the apparatus will be installed by the Government. The vision for liquidated damages for delay. No charge for copies of the specifications to prospective bona fide bidders; to others, $1.25, not returnable. For particulars, address the Bureau of Reclamation, Denver, Colorado. * 20

YOUR HOME HAS MANY ELECTRICAL SERVANTS—GIVE THEM FULL POWER

WIRE AHEAD FOR BETTER LIVING -ELECTRICALLY

When the electric wiring is carefully planned for your home, you can plug-in all your clocks and radios and lamps and appliances to outlets conveniently placed. Circuits and wire size are ample to prevent dipping of lights or voltage drop. An Adequate Wiring job is one of the lowest cost items in any home and should not be neglected.

If you were to assemble all the electric servants you now employ in your home, it would make quite a large crew. You have acquired them from year to year and they have helped you run your home with modern convenience and comfort. Soon now, you will be buying and using many new and needed electrical appliances. Can you connect them up to your present wiring system? Will you have to resort to double and triple plugs or long make-shift cords? And most important, will all these appliances receive full voltage? Plan ahead in 1946 for better living, electrically. Modernize your present home with Adequate Wiring. And for the new home you may be planning to build, check wiring specifications room by room to make certain nothing has been skimped or omitted.

Adequate Wiring means just this.....

1. Plenty of plug-in outlets.
2. Plenty of light switches, properly placed.
3. Plenty of circuits of large enough wire (at least number 12 size) to deliver full electric power now and many years from now.

PLANS and Speculations

A $201,000 business property development was announced recently for SAN LEANDRO by Wayne Valley and William Lincoln of the Vallin Homes, Inc., 1901 Foothill Blvd., San Leandro. Building will get underway just as soon as rezoning can be accomplished and materials obtained. The new shopping center is to be located on the westerly side of MacArthur Blvd., between Estudillo and Joaquin Avenues. The improvement will provide quarters for from 11 to 14 neighborhood business establishments.

oOo

Brick work for the new Carmichael Community Church in SACRAMENTO COUNTY will be started soon. The complete project will cost approx. $55,000. The four-acre plot eventually will have a Greek theatre, swimming pool, and tennis courts. Architect for the building is Nicholas Tomich of Sacramento.

oOo

General city improvements, costing approx. $2,000,000 to be financed half by a city bond issue and half by special assessments are proposed in a plan for five years of city betterment, which Mayor Harry E. Stewart is presenting to the city council. Mayor Stewart added items totaling approximately $110,000 to his previous program. The new items are: ditch fencing, $75,000; road equipment, $9000; ditch improvements, $15,000; police cars and motorcycles, $10,000. In addition to the new items, the mayor has proposed the following city improvements:

Plans for a Reno memorial building	$25,000
Site for memorial building, the block east of the federal building and south of the Truckee river being recommended by the mayor	125,000
Fire Dept. drill ground	50,000
Fire tower	18,000
Fire control building	17,000
Two new fire houses on 1 lot	81,000
Exten. of fire alarm system	140,000
Reconstruction paving in business district	80,000
Storm drain, south side	306,000
Storm drain, north side	200,000
Sewer, south side from electric light bridge to Wells Avenue	95,000
One-half of new sewage disposal plant, south side	300,000
Wall along portions of Truckee river	62,000
Curbs and gutters	130,000
New city jail	110,000
Bridge from end of West 2nd Street to Idlewild Park	75,000
New fire wagon on order	15,000
Four waste disposal trucks on order	32,000

oOo

The State Department of Public Works has announced that the Highway Commission has allocated funds to SOLANO, MONTEREY, and ORANGE Counties for highway improvements. . . In Solano County, $84,106 was provided for grading, paving and structures between Midway and 1.3 miles north of Dixon on U. S. Highway 40. . . . An additional $55,00 was allocated to Monterey County for grading and paving between two miles south of Salinas and Salinas. . . Orange County was apportioned $80,000 to provide additional funds for grading, paving and structures between Dana Point and Doheny Park on U. S. Highway 101.

OPA Establishes Ceiling For Gas, Electirc Stoves

New gas and electric cooking stoves, which now are beginning to reach retail stores, have been placed under dollar-and-cent ceilings at 1942 levels, the Office of Price Administration said today.

Both types of stoves will be available in two sizes—the Standard Range and the Apartment Size Cooker.

The OPA dollar-and-cent prices vary widely, just as stove prices did before the war. However, a typical price for a standard electric range is $189, and for an apartment size electric stove, $157. A typical price for a gas stove is $75 for a small size and $95 for the standard range.

Manufacturers are required to pre-ticket each stove with its OPA retail ceiling price. Since each price includes the installation service charge and the Federal tax, it represents the total cost of the stove to the consumer.

With each electric stove, a one-year guarantee of satisfactory performance must be given. Such guarantees also were given with each electric stove sold before the war, OPA said. About 80 per cent of all gas and electric cooking stoves expected on the market this year have been given prices, OPA said. As soon as the remaining companies make their applications, they will be given dollar-and-cent ceilings.

World Trade Institute Will Begin Tomorrow

Increasing interest of Bav Area businessmen in world commerce has found expression in a concentrated series of lectures and panel discussions on World Trade, meeting in the San Francisco center of University of California Extension, 540 Powell Street, beginning with registration tomorrow at 8:45 a. m. The institute will continue until Saturday noon and is sponsored by the San Francisco Bay Area World Trade Promotion Committee.

The addresses and discussions will be aimed, primarily, at answering the questions of those business establishments and individuals who desire to expand their foreign business contacts or who wish to engage in foreign trade for the first time.

Topics for tomorrow's discussion will include "Direct Exporting", "Indirect Types of Export Outlets", and "Creating Export Sales." Speakers and panel leaders have been chosen on the basis of their wide experience in various phases of world trade.

F. B. PECKHAM APPOINTED TO U. S. PLYWOOD CORP. POST

Appointment of Maj. F. B. Peckham as the United States Plywood Corporation's architectural representative was announced today by S. W. Antoville, Director of Sales.

Major Peckham, just relieved from active duty in the Army Air Force, is also a veteran of World War I. His new duties will be to provide information and advice on plywood and its uses—both technical and general—to architects, builders and designers.

An employee of U. S. Plywood from 1933 to 1942, when he enlisted in the Army, Peckham was the Corporation's distributor for the states of Connecticut, Vermont and western Massachusetts from 1938 to 1942. Prior to his career with U.S.P. he was with the Audiffren Refrigerating Machine Co., 1928-1933, in Washington state.

V

1-WATT FLUORESCENT GLOW LAMP ANNOUNCED BY WESTINGHOUSE

Designed for use in any ordinary lamp socket or base plug, a new 1-watt fluorescent glow lamp with green or white phosphor is announced by the Westinghouse Electric Corporation.

The new walnut-size lamp is equipped with either a medium screw base or a prong type of base. The green lamp, especially effective at night because a dark adapted eye is highly sensitive to these rays, is recommended for hallways or bathrooms, or as a safety light at the head of stairs or in dark closets. The white lamp, which produces les light than the green, was developed primarily for bedroom night light service.

Tests indicate that the lamp will operate for at least a year, burning night and day.

Further information on the one-watt glow lamp may be secured from the Lamp Division, Westinghouse Electric Corp., Bloomfield, New Jersey.

CPA Adds Clay Sewer Pipe To Essential List

The Civilian Production Administration has classed vitrified clay sewer pipe as a product whose full production is essential to the reconversion program, and has so certified it to the Office of Economic Stabilization.

This action means that the Office of Economic Stabilization will study all factors affecting production in the industry, and particularly will consider the effect of ceiling prices and wage rates on employment, with the intent of affording such relief as may be justified and is in line with the stabilization policies.

Although less than two per cent (16,000 short tons) of the estimated 1946 use requirements is for direct installation in housing, a great volume of the contemplated residential construction in new developments may not be possible unless clay sewer pipe is available for public sewer mains. An estimated 53 per cent, or 429,000 tons, of the total 1946 supply requirements is for sewers and storm drainage systems.

Total use requirements of clay sewer pipe for 1946 is estimated at 1,174,000 short tons, based on a calculation of 7.5 billion dollars worth of construction activity in the year, including approximately 500,000 new dwelling units.

Against this demand, production may approximate 1,085,000 tons for the year, a deficite of 89,000 tons.

Capacity of the industry and materaials are available for production sufficient to fill in full the demand involved in a $7,500,000,000 building program. Machinery and equipment of most plants is in good repair, and in the few instances where producers have experienced difficulty in obtaining necessary equipment the Civilian Production Administration has given assistance in expediting procurment of the machinery.

Lack of manpower is the great impediment to full production, manfacturers have informed the Civilian Production Administration. Starting wages for common labor vary between 45 cents and 75 cents an hour. Some price and wage increases have been granted recently, but producers estimate that further wage inrceases, ranging from eight to 20 per cent, depending on the region involved, are required inorder to recruit and hold labor.

Of the 75 plants in the industry, 64 are operating at between 25 and 90 per cent of capacity, because of lack of labor; the other 11 are closed down.

V

DENVER BUILDERS HOLD ANNUAL ELECTION

At the annual meeting of the Denver Association of Home Builders, January 8, the following officers were elected: J. C. Gamble, president; Ray W. Odell, chairman of the board; Herbert A. Writer, vice president, and Marcus C. Bogue, secretary-treasurer. L. V. Martin, Don Vestal, rFank Burns, T. A. Hutchinson and Walter Harris were elected directors. At the same meeting, J. C. Gamble and R. W. Odell were elected to serve as directors of the national association.

BUREAU OPENS NEW OFFICE IN CHICO

Headquarters for the newly-created Sacramento Valley District of Region II of the U. S. Bureau of Reclamation was opened in Chico Monday, January 21, it was stated by James K. Carr, today, whose appointment as District Engineer was announced recently by Richard L. Boke, Regional Director.

The offices are located in the Waterland-Breslauer Building. Chico is the headquarters for the district which embraces all of the Sacramento River drainage basin down to the drainage basins of American River on the east and Cache Creek on the west.

Carr will be administratively responsible to the Regional Director for all Bureau of Reclamation activities in the District which includes Shasta Dam, in operation since 1944, and the Orland Project, in operation since 1909.

The Bureau's plans for full development in the Sacramento District include proposed storage dams and irrigation works now being studied for the Bear, Yuba, and Feather Rivers. Investigations also are under way on the feasibility of the so-called Tributary Plan proposed as an alternative to construction of Table Mountain or Iron Canyon dams on the Sacramento River. The small streams in the alternate plan are tributary to the Sacramento River in Shasta and Tehama Counties.

V

How To Get Your 1946 Auto Tab

How to register your automobile for 1946 and get the license tab for the plate on the rear of your car before the renewal period closes February 4, was outlined today by the California State Automobile Association.

The small yellow metal tab bears the numeral "46" and is to be bolted over the "45" on your present license plate.

The State Department of Motor Vehicles is issuing tabs at offices throughout the state and the California State Automobile Association in renewing registration for its 135,000 members at all its 34 offices.

Total fees to be paid (same as in last three years) are shown in the lower left corner of the 1945 registration card after the words "Total Fees, 1946". This card (the white slip) must be presented as application for registration renewal and the address it bears should be corrected by applicant if there is any change. Car owners whose registration card is lost or illegible must apply for a duplicate, paying a State fee of 50 cents.

The ownership certificate as well as the registration card must be presented, together with a transfer fee of $1, if the legal owner is being released or if there is a transfer of ownership.

Failure to apply for renewal of registration before expiration of the period, at midnight February 4, is penalized by doubling the registration fee, making it $6 instead of $3, and adding 50 per cent to the amount of the vehicle license fee.

Deadline Set for Holders of CPA Certificates Covering Expansion

Holders of Necessity Certificates covering expanded facilities in the war program who wish to file statements of correct descriptions or costs of their emergency facilities must do so before April 15, 1946, the Civilian Production Administration announced today.

The deadline was set in an amendment to regulations governing the issuance of Necessity Certificates under Section 124 (f) of the Internal Revenue Code. In a notice sent to all who received Necessity Certificates covering plants or expansions determined to be essential in the interest of national defense, the Civilian Production Administration said that final cost statements must be received before April 15, 1946.

Those contractors who still wish to apply for Non-Necessity Certificates must do so before Feb. 15, 1946, the Civilian Production Administration also announced. This action was taken by an Executive Order signed January 14, 1946, by President Truman

Necessity Certificates are documents issued by the War Production Board, predecessor of the Civilian Production Administration, and earlier by the War and Navy Departments, declaring a privately-financed plant expansion or new facility essential for national defense. Holders of the certificates are permitted to deduct varying proportions of the cost from their income tax returns.

A five-year amortization period was provided, but contractors could apply for amortization over a shorter period under certain circumstances if the need for the certified facilities in the defense program terminated during the emergency period. A presidential proclamation last September 29, ending the emergency period with respect to Section 124, gave contractors an automatic option of writing off such costs for tax purposes in a shorter time without filing applications for Non-Necessity Certificates.

Although the notices were sent to all contractors to whom Necessity Certificates had been issued there are probably relatively few that need take any further action. They have until April 15 to submit final costs if they can, or their best revised estimates of costs, according to the letter sent by the Tax Amortization Branch of the CPA, which said in part:

"Where emergency facilities were certified on an estimated basis and where, after the completion of an expansion a taxpayer finds that the description or cost of any facility appearing in the Necessity Certificate materially varies from the actual description or cost of the facility, a statement may be filed with this office setting forth the correct description or cost.

"Where a taxpayer does not know the final cost of an emergency facility in time to permit filing prior to the terminal date, we will consider a statement from him of the latest available revised estimate of cost if received in this office prior to the terminal date."

The amendment to CPA (WPB) regulations governing the issuance of Necessity Certificates under Section 124 (f) of the Internal Revenue Code adds at the end of Section 5 (c) of the regulations the following paragraph:

"The certifying authority shall not act upon any statment setting forth the correct description or cost of the emergency facility actually constructed, reconstructed, erected, installed or acquired, unless such statement has been filed with the certifying authority prior to April 15, 1946."

The text of the Executive Order setting the terminal date for filing of applications for Non-Necessity Certificates follows:

"By virtue of the authority vested in me by Section 124 (d) of the Internal Revenue Code, Executive Order No. 9487 of Sept. 30, 1944, entitled 'Regulations Governing the Issuance of Non-Necessity Certificates under Section 124 (d) of the Internal Revenue Code', is amended by adding the following at the end thereof:

"'7. **Terminal Date for Filing Application.** A non-necessity certificate shall be issued only if application therefore is filed in conformity with the provisions of these regulations (as amended by Executive Order No. 9638 of Oct. 4, 1945) prior to Feb. 15, 1946.'"

V

CANCELLATION

The duration examinations for Assistant Harbor Engineer, and Harbor Engineering Aid announced on the bulletins issued Sept. 15, 1945, and Oct. 19, 1945, have been cancelled.

(Continued on Page Four)

DAVIS DAM PROJECT, ARIZONA-NEVADA

DAVIS DAM PROJECT, Arizona-Nevada.—Charles J. Dorfman, 124 N. La Brea, Los Angeles, at $214,251.35, submitted the low bid to the Bureau of Reclamation, Kingman, Ariz., Jan. 17, for th econstruction of streets, highways, sidewalks, curbs, gutters, drainage facilities, sewage and water distribution system for Davis government camp, Davis Dam Project, Arizona-Nevada; Specification 1136. The work is situated about 30 miles west of Kingman, Ariz.

The work, in general, includes the following work:

(a) The streets and parking areas will be surfaced with a 4-inch compacted base course and a 2-inch bituminous surface course. The highways will be surfaced with a 6-inch compacted base course and a 3-inch bituminous surface course. Gravel shoulders will be provided for the streets without concrete gutters and for the highways.

(b) Sidewalks, curbs and gutters will be of concrete, with expansion joints at approximately 15-foot intervals and with grooves at approximately 5-foot intervals.

(c) The drainage system will consist of earth dikes, ditches, concrete-pipe culverts, concrete headwalls for culverts, concrete-pipe drains and concrete inlets and catchbasins. Dry rock paving and riprap will be required as directed by the contracting officer.

(d) The sewerage system will consist of clay sewer pipe mains and laterals, concrete sewer manholes, a reinforced concrete sewage pumphouse, a reinforced concrete septic tank, a cast iron pipe discharge line between pumphouse and septic tank, a sludge drying bed and a leaching field. The work will also include the connection of the existing sewer line to manhole No. 5.

(e) The water distribution system will consist of asbestos cement pipe mains, lead or copper service piping, fire hydrants, street washers and a used 65,000-gallon water tank.

The work involves:

(1) 70,000 c.y. excav. for streets and highways;
(2) 2,900 c.y. excav. for ditches and culverts;
(3) 1,400 l.f. excav. and backfill of sewer pipe trenches, 4 ft. deep or less;
(4) 1,400 l.f. do, over 4 ft. deep and not more than 6 ft. deep;
(5) 1,650 l.f. do, over 6 ft. deep and not more than 8 ft. deep;
(6) 2,400 l.f. do, over 8 ft. deep and not more than 10 ft. deep;
(7) 2,200 l.f. do, over 10 ft. deep and not more than 12 ft. deep;
(8) 250 l.f. do, over 12 ft. deep and not more than 14 ft. deep;
(9) 150 l.f. do, over 14 ft. deep and not more than 16 ft. deep;
(10) 10 l.f. do, over 16 feet deep;
(11) 11,300 l.f. excav. and backfill of water-pipe trenches;
(12) 1,225 c.y. excav. for structures;
(13) 800 c.y. excav. for leaching field
(14) 1,200 c.y. backfill around struc.;
(15) 400 c.y. tamping backfill around structures;
(16) 40,000 c.y. compacting fills for streets and highways;
(17) 400 c.y. excav. in borrow pits;
(18) 25,000 sta. c.y. overhaul;
(19) 300 s.y. dry-rock paving;
(20) 25 c.y. dumped riprap;
(21) 300 M. gals. of watering base course;
(22) furnish and place 8,200 c.y. of gravel or crushed rock for base course of street and highway surfacing;
(23) furnish and apply 15,000 gals. of asph. material for prime coat;
(24) furnish and place 3,050 c.y. of gravel or crushed rock for surface course;
(25) furnish and apply 58,000 gals. of asph. material for surf. course;
(26) mix, finish and roll 49,000 s.y. of surface course;
(27) furnish and apply 8,500 gals. of asph. material for seal coat;
(28) furnish and apply 170 c.y. of coarse sand for seal coat;
(29) furnish and stockpile 50 c.y. of gravel or crushed rock for surface course;
(30) furnish and stockpile 10 c.y. of coarse sand for seal coat;
(31) furnish and lay 120 l.f. of 15-in. diameter concrete pipe;
(32) furnish and lay 230 l.f. of 18-in. diameter concrete pipe;
(33) furnish and lay 410 l.f. of 21-in. diameter concrete pipe;
(34) furnish and lay 130 l.f. of 24-in. diameter concrete pipe;
(35) furnish and lay 60 l.f. of 30-in. diameter concrete pipe;
(36) furnish and lay 190 l.f. of 36-in. diameter concrete pipe;
(37) constructing 9 structures of inlets or catch basins 6 ft. deep or less;
(38) constructing 7 addl. feet of inlets and catch basins. each additional foot over 6 ft. deep;
(39) furnish and lay 3,000 l.f. of 4-in. diameter clay sewer pipe and fittings for sewer lines;
(40) furnish and lay 1,780 l.f. of 6-in. diameter clay sewer pipe and fittings for sewer lines;
(41) furnish and lay 2,500 l.f. of 8-in. diameter clay sewer pipe and fittings for sewer lines;
(42) furnish and lay 1,600 l.f. 10-in. diameter clay sewer pipe and fittings for sewer lines;
(43) furnish and lay 20 l.f. of 10-in. diameter cast-iron soil pipe for sewer line;
(44) furnish and lay 1,050 l.f. of 4-in. diam. cast-iron A.W.W.A. pipe and fittings for sewer line;
(45) furnish and lay 36 l.f. of 8-inch diam. cast-iron A.W.W.A. pipe and fittings for sewer line;
(46) construct 19 sewer manholes 6 feet deep, or less;
(47) construct 70 addl. feet of sewer manholes, each addl. foot over 6 feet deep;
(48) connecting existing sewer line to manhole No. 5;
(49) furnish and lay 2,650 l.f. of 4-in. diam. clay sewer pipe for leaching field & backfilling trenches;
(50) furnish and lay 400 l.f. of 6-in. diam. clay sewer pipe for leaching field & backfilling trenches;
(51) constructing manhole "A" in leaching field:
(52) constructing septic tank;
(53) construct sewage pump house;
(54) installing 1,500 lbs. of sewage pumps;
(55) furnish and install 80 l.f. 4-in. diameter asbestos-cement water pipe and cast-iron fittings;
(56) furnish and install 4,650 l.f. 6-in. diameter asbestos-cement water pipe and cast-iron fittings;
(57) furnish and install 3,200 l.f. 8-in. diameter asbestos-cement water pipe and cast-iron fittings;
(58) furnish and lay 2,200 l.f. ¾-inch diameter lead or copper service piping;
(59) furnish and lay 550 l.f. of 1-inch diameter lead or copper service piping;
(60) furnish and lay 500 l.f. 1½-inch diameter lead or copper service piping;
(61) furnish and lay 150 l.f. of 2-inch diameter lead or copper service piping;
(62) furnish and install 80 ¾-inch lead or copper water - service connections;
(63) furnish and install eight 1-inch lead or copper water - service connections;
(64) furnish and install four 1½-in. lead or copper water - service connections;
(65) furnish and install four 2-inch lead or copper water - service connections;
(66) furnish and install 80 ¾-inch curb-stop and service-box assemblies;
(67) furnish and install eight 1-inch curb-stop and service-box assemblies;
(68) furnish and install four 1½-in. curb-stop and service-box assemblies;
(69) furnish and install four 2-inch curb-stop and service-box assemblies;
(70) furnish and install 18 units of fire hydrants and connections;
(71) furnish and install 14 street washers;
(72) furnish and install one 4-inch gate valve and valve box assembly;
(73) furnish and install 12 6-inch gate valve and valve box assemblies;
(74) furnish and install three 8-inch gate valve and valve box assemblies;
(75) erecting 65,000-gal. water tank;
(76) 1.200 l.f. concrete in combined gutters and curbs;
(77) 63.000 s.f. of concrete in sidewalks, gutters, and combined sidewalks and gutters;
(78) 20 c.y. concrete in culvert head walls;
(79) 75 c.y. concrete in water tank foundation;
(80) furnish and place 45,000 lbs. of reinf. bars.

The total bids submitted were:

(A) Charles J. Dorfman, $214,251.35.
(B) W. S. Ford, Kingman, Ariz., $218,275.71.
(C) Vinson Construction Co., Phoenix, Ariz., $235,791.27.
(D) Green - Mears Construction Co. and R. R. Hensler, $242,711.
(E) Utah Construction Co., San Francisco, $267,279.75.
(F) N. P. Van Valkenburgh, Los Angeles, $305,000.
(G) Fisher Contracting Co., Phoenix, Ariz., $310,713.95.
(H) Haddock Engineers, Ltd., $371,212.85.
